Rwanda picks new leader

Government to be installed today

The Rwandan Patriotic Front (RPF) has named a Hutu, Pasteur Bizimungu, President of a government to be installed today.

Radio Rwanda, monitored by the British Broadcasting Corporation (BBC), said Hutu Moderate Faustin Twagiramungu would be Prime Minister of the "sufficiently broad-based government in national unity."

By giving Hutus the two top jobs, the Tutsi-dominated RPF appeared to be trying to reassure the Hutu majority they had nothing to fear under the new government.

Mr Twagiramungu was named transitional Prime Minister under an agreement reached last August in Arusha, Tanzania, between the rebels and the Hutu-led government.

Mr Bizimungu was the RPF's representative in Brussels. A spokeswoman for the RPF in Brussels said he was in Kigali, where the new government would be installed today.

On Sunday, RPF soldiers began cleaning up the shattered parliamentary building in Kigali ready for the new government to move in.

Radio Rwanda said all parties linked to slain President Juvenal Habyarimana and members of the self-declared government set up in April would be excluded from the new authority.

Posts which had been allocated to Mr Habyrimana's MRND (Republican Movement for National Development) Party and his allies under the Arusha Accord would be taken up by the RPF.

The rebels are allied with four other moderate Hutu parties, including Mr Twagiramungu's Republican Democratic Movement (MDR), but many of the prominent opposition leaders were murdered in the bloodbath which followed Mr Habyarimana's death.

Radio Rwanda said a "truly national" army would be set up but exclude all soldiers who had taken part in the systematic killing of Tutsis and Hutu opponents.

About 500,000 people have been slaughtered since Mr Habyarimana was killed in a rocket attack on his plane on April 6 in which the President of Burundi also died. (Reuter)

Bloodbath in battle for Kigali

GOMA (Zaire), Monday

Stampede and mortar fire from fighting between rebels and the fleeing Rwanda Government Army killed at least 100 refugees yesterday and aid workers said that the international airlift to feed one million people had been suspended.

Reporters who went to one border crossing point between Gisenyi on the Rwandan side and Goma in Zaire saw 100 bodies.

A baby lay sleeping beside the bloodstained, lifeless form of her mother. The woman had been killed with more than 30 others by a mortar bomb that fell into an area packed with refugees just inside Zaire late yesterday.

Wounded lay in the dust, groaning for help but there was not a single doctor or aid worker in sight. A Zairean soldier brought another baby girl he had found by a dead woman and journalists took them and two wounded girls to the French base at Goma Airport.

Accurate numbers were impossible to give but it appeared that about 70 refugees, most of them children, had been killed in two separate stampedes yesterday afternoon as panic broke out.

Among the bodies and debris, desperate Rwandans picked up grains of maize and lentils from the dirt. One man hacked off meat from a dead cow with dead children lying beside him.

"We strongly condemn the shelling. It's a pure criminal act," said Panos Moumtzis, spokesman for the UN High commissioner for Refugees.

Goma Airport was closed and there were no civilian flights, he said. Zairean traffic controllers did not show up for work today and the French Army was operating the airport, he said.

Several mortars landed near the airport late yesterday. Mr Moumtzis said six Zairean civilians had been killed and at least 24 wounded. French doctors with "Operation Turquoise" worked through the night.

"A human catastrophe is now imminent as no aid is coming in," he said. "Hundreds of people will start dying in a few days."

RPF commander Paul Kagame said the rebels had swept away government resistance and won the war for Rwanda.

But another fight was brewing between the rebels and French troops protecting a no-fight zone where Rwandan Government leaders wanted for war crimes have taken refuge.

In Washington, the Clinton Administration on Friday closed the Rwanda Embassy and ordered all "representatives of the so-called interim government" to leave the United States within five working days.

Press Secretary Dee Dee Myers said the White House would begin consultations with other UN Security Council members with a view to having them oust representatives of the interim government from Rwanda's seat on the council.

DUE TO FINANCIAL RESTRICTIONS IMPOSED BY THE CONTROLLER IT IS BECOMING MORE AND MORE DIFFICULT TO ESTABLISH COMMERCIAL DIRECT PROVISIONING FOR VEHICLE SPARE PARTS IN A MISSIONS GIVEN MANDATE/ALLOTMENT PERIOD. THEREFORE TO ENABLE A MISSION TO RECEIVE A FLOW OF VEHICLE SPARE PARTS TO CARRY OUT THE NECESSARY MAINTENANCE/REPAIRS, NO FURTHER REQUISITIONS FOR COMMERCIAL DIRECT PROVISIONING FOR VEHICLE SPARE PARTS SHOULD BE FORWARDED TO FOD NY FOR ACTION. EACH MISSION SHOULD PREPARE INDIVIDUAL REQUISITIONS FOR VEHICLE SPARE PARTS, THE SAME SIZE AS THE REVISIONS THAT WERE PREVIOUSLY DRAWN AGAINST THE DIRECT PROVISIONING SYSTEM AND FORWARDED TO FOD NY FOR ACTION. EACH REQUISITION SHOULD HAVE THE APPROPRIATE DOCUMENTATION ATTACHED, WHICH SHOULD INCLUDE SPARE PART DESCRIPTION, NUMBER, QUANTITY REQUIRED, ESTIMATED COST ETC.

ONCE THE FINANCIAL RESTRICTIONS HAVE BEEN RESOLVED YOU WILL BE ADVISED AND WE CAN REVERT BACK TO THE COMMERCIAL DIRECT PROVISIONING SYSTEM.

Subject: VEHICLE MAINTENANCE SCHEDULES FOR UN OWNED VEHICLES	

AFTER EVALUATING THE CURRENT MAINTENANCE SCHEDULES OPERATED BY THE VARIOUS PEACE KEEPING MISSIONS, WHICH RANGES FROM 2,000km TO 6,000km. IT IS OUR CONCLUSION THAT THESE MAINTENANCE SCHEDULES ARE NOT ECONOMICAL FOR THE UNITED NATIONS. THEREFORE ALL MISSIONS SHOULD ADOPT THE MANUFACTURERS MAINTENANCE SCHEDULES WITH IMMEDIATE EFFECT. THE MANUFACTURERS MAINTENANCE SCHEDULES ARE NORMALLY LOCATED IN THE DRIVERS/OPERATORS HANDBOOK.

IT IS OUR OPINION THAT THIS WILL IMPROVE THE VEHICLES OPERATIONAL ABILITY, AND REDUCE THE ANNUAL COST OF SPARE PARTS AND P.O.L.

WE ALSO BELIEVE THAT THIS CHANGE IN MAINTENANCE SCHEDULES WILL RESULT IN EACH MISSION HAVING TO REVIEW IT'S CURRENT TRANSPORT STAFFING. PLEASE REVIEW AND ADVISE.

July 18, 1994
SITUATION REPORT # 48

UNREO Goma reported that around 1 million Rwandans have crossed the border into Goma. There is another wave of people near the border who are ready to cross. The 25 km road from Goma to the border is full of people. UNHCR has called for an immediate ceasefire saying that it is impossible to provide a humanitarian solution for a crisis of these proportions. UNHCR estimates that at least 20 million litres of water per person are needed per day in an area where water resources are scarce. At least 600 metric tonnes of food are needed per day

UNHCR reported that on July 17 three mortars hit the airport. One fell in the middle of a road filled with people, killing 11. A further 60 people were killed by mortars at the border and 10 in the town. The airlift operation has been suspended. The agencies hope it will resume tommorrow. UNHCR estimates that the 15 scheduled flights per day can only provide 10% of the needs of the refugee population in Goma. UNHCR has identified three sites for refugees: Katale, 58 km north of Goma, which can support 300,000 people; Kibumba, 28 km north of Goma which already has between 2-300,000 people; Saka, newly identified by the Zairean authorities, which can support 500,000 people.

The Rwandan army crossed the border into Zaire with their arms and equipment and are now staying in the town stadium. Gisenyi continues to be shelled by the RPF. The Radio Milles Collines is broadcasting statements hostile to the international community from the south-west of Rwanda (this is probably linked in part to the closure of the Rwandan embassy in Washington).

UNHCR Bukavu reported that approximately 100,000 people crossed the border from Cyangugu into Zaire in the last twenty four hours. A further 50,000 people have crossed into Burundi. There is an estimated 600,000 people on the move from Kibuye.

ODA has donated 100 metric tonnes of cargo and 11 vehicles to the operation in Goma. Two people from OFDA Kinshasa have been relocated to Goma. The USAID Administrator is also due to visit Goma, having been drawn away from a visit to Palestine. Two ECHO staff members and one from the Australian International Development Assistance Bureau are also in Goma or travelling there.

UNREO Kigali reported that looting has started up again in the last few days in Kigali. There are an estimated 50,000 people in town. There

are only 2 displaced camps remaining: King Faisal (150 patients + displaced population) and Amohoro Stadium with 2-3,000 people. The RPF has tightened security in Kigali with the planned inauguration of a new government.

UNREO Kabale reported that the RPF plans to set up a liaison office in Kigali for NGOs. A number of NGOs have expressed interest in moving to Kigali.

MSF reported that their operations are continuing in Kigali, Byumba and Bugesera. They are beginning operations in south-western Rwanda in Kaduha camp, Rukondo and Cyanika. MSF is continuing operations in Goma. Contingency planning for 400,000 people took place in Goma in the last few months. UNREO wishes to encourage donors to support the NGOs operating ex-Burundi into the south-west of Rwanda to prevent problems and further displacements in that region.

UNICEF reported that 200 complete emergency health kits, 200 cartons of ORS, 400 packs of retinol, 60 rolls of cotton wool, 40 vaccine cold boxes, 100 vaccine carriers, 1,000 ice-packs, 20 field tents and 72 family size tents arrived on 17 July from Copenhagen in Goma. A second plane of tents, cooking sets and syringes is scheduled for 20 July. 40-60 tonnes of emergency supplies which have been prepositioned in Bujumbura will leave later this week. UNICEF has made an agreement with the RPF to provide assistance to rehabilitate the Kigali urban water system. In Kabale a UNICEF coordinated training for psycho-social treatment of traumatized children took place on 17-18 July. Three UNICEF-USAID teams are currently doing assessment missions from Kabale, Bujumbura and Ngara regarding unaccompanied children. Teams will regroup in Nairobi on 21 July.

BECAUSE NOT ALL MEMBER STATES HAVE PAID THEIR ASSESSED CONTRIBUTIONS PROMPTLY AND IN FULL, PEACE-KEEPING AND OTHER FIELD OPERATIONS ARE FACING A POTENTIALLY SERIOUS SHORTAGE OF CASH. EFFECTIVE ACTION TO ADDRESS THIS PROBLEM IS NEEDED IMMEDIATELY.

WE ARE SOLICITING THEREFORE, CONSTRUCTIVE SUGGESTIONS TO REDUCE CASH NEEDS BY 20% IN SUCH A WAY AS TO CAUSE THE LEAST DAMAGE TO THE SUCCESSFUL COMPLETION OF OUR LEGISLATIVE MANDATES.

AS A FIRST STEP, I WOULD ASK YOU TO REVIEW THE LEVEL OF YOUR CURRENT CASH IMPREST ACCOUNTS AND IMMEDIATELY REDUCE THEM TO THE LOWEST PRACTICAL LEVEL. YOU ARE ALSO REQUESTED TO ACHIEVE SUBSTANTIAL POSTPONEMENTS AND REDUCTIONS IN EXPENDITURE WHICH WOULD OTHERWISE HAVE BEEN INCURRED. Rwandan govt troops flee rebel advance

GOMA (Zaire), Sunday

Rwandan government troops retreated with their weapons over the border into Zaire last night, pushed back by victorious rebel forces who said they had reached the northwest frontier town of Gisenyi.

Reporters close to the border saw at least 20 trucks loaded with Rwandan troops and four anti-aircraft guns drive through Goma late at night.

The Tutsi-led Rwanda Patriotic Front (RPF) said in a radio broadcast its forces had reached Gisenyi, the last refuge of the Hutu-dominated government near the Zairean border, and appealed to government troops to surrender.

"We call upon all those soldiers ... and citizens who have fled to Gisenyi or other areas, to give themselves up to the RPF forces and return to their homes, instead of continuing to listen to those who have cheated them and have launched a war which they cannot fight," said the RPF's Radio Rwanda, monitored by the British Broadcasting Corporation.

UN military sources would not comment on the Gisenyi reports, which contradicted RPF military commander Major-General Paul Kagame's assurance that his troops would halt five km outside the lakeside town.

Reports late today said the RPF has not captured Gisenyi but was pounding it with mortar fire.

A ceasefire promised to the United Nations' special representative in the blood-soaked central African state on Friday failed to come into effect.

Meetings were being held late yesterday at the UN's Kigali headquarters after UN force commander Major-General Romeo Dallaire returned from Goma in neighbouring Zaire where he met government forces chief Major-General Augustin Bizimungu.

Zaire fought against the RPF in Rwanda's 1990 civil war and has remained sympathetic to the Hutu-dominated government.

Close to a million Hutu refugees have flooded into Zaire since Thursday ahead of the rebel advance, some of them soldiers and members of the notorious Interahamwe (those who kill together) militia who have waged a genocidal campaign against the Tutsis since April.

Meanwhile, late today, aircraft packed with emergency supplies were due to land in Goma as aid groups pressed ahead with an airlift for floods of Rwandan refugees crammed into the town, UN officials said.

The airlift to the town on the border with Rwanda was due to have got under way yesterday but only one plane, from a church aid group, was able to land at the border town's airport before Sunday, UN officials said.

The planes were coming from Kampala, Nairobi, Djibouti and Beirut, the UN High Commissioner for Refugees (UNHCR) said, refusing to detail the contents of the four military aircraft.

Aid convoys were also expected to arrive from Bukavu, the southern Zairean town which has been one of the bases of France's military intervention in the central African country.

Overstretched relief organisations, struggling with humid weather and shortages of clean water, have warned of an impending catastrophe and appealed urgently for more funds and supplies. (Agencies)

Algerian ra kidnap two

ALGIERS, Sunday

The ambassadors of Yemen and Oman were kidnapped near here in the first such incident since the outbreak of Muslim fundamentalist violence in early 1992, Yemeni officials and Arab diplomats said here yesterday.

Algerian security services said the two diplomats went missing on Friday.

A vehicle in which the pair had been travelling on Friday was found torched yesterday near the spot in the Khemis el-Khchna area where they went missing, the security services said.

Arab diplomatic sources identified the two men as Omani Hilal el Salem Ben Hammoud el Siyabi and Yemeni Askar Ali Hussein. In Sanaa a government

more pressing were the coming World Cup soccer final and developments in Haiti.

Central conservation finally turned to more mundane matters, such as the oppressive heat wave.

In a perversely reassuring sign of returning normality, the two sides resumed the verbal sniping they had briefly abandoned after Kim's death.

Irritation

The North's official news agency denounced the South for its military alert earlier in the week, likening the act to starting a fire in a funeral home. The South expressed irritation over the North's invitation for South Koreans to come and pay respects. The South, which rarely permits travel to the north, considered the offer a propaganda ploy.

For the north, life won't truly move on until after the state funeral on Tuesday. The week leading up to it was given over to what the official media describe as an outpouring of grief unprecedented in human history.

That might be a slight exaggeration, but paying tribute is a public duty from which few in the north are exempt. By the time of

they know swiftly. The investiture of Kim Jong-Il is expected soon, possibly within days.

Then the Koreas, temporarily united by their mutual obsession with Kim Il-Sung's death, can turn their attention back to their separate problems.

The South has labour disputes, allegations of political corruption and student unrest to deal with.

The North needs to repair its economy and resolve the nuclear dispute. The Koreans remain technical at war – no peace treaty was signed after the bloody conflict of 1950-53.

The fact that Kim Il-Sung started that war is still fresh in the minds of many South Koreans, including veterans who rallied on Friday to denounce him as a war criminal. The younger Kim, 52, was only a child then.

"This is Kim Jong-Il's great advantage," said Lee, the political scientist. "He can move away from the past. This is the way to change."

Meanwhile, a correspondent for the Russian Itar-Tass news agency on Tuesday provided a less-than-heroic description of Kim Jong-Il receiving condolence calls. The younger Kim met foreign diplomats "with an expressionless look," the dispatch noted "and a weak, cold handshake (AP)

South Koreans watched the past a statue honouring those who fought in the Korean war in Seoul on June 25, the anniversary of the outbreak of the war.

Massacre stench hangs over Rwanda's Kibuye stadium

By GUY DINMORE

KIBUYE (Rwanda), Sunday

French troops have scrubbed the walls clean and Rwandan prisoners have re-dug the mass graves, but the stench of death still hangs over Kibuye's football stadium.

Thousands of Tutsis, including women and children, were herded in and slaughtered, a French officer said.

"They used grenades and rocket-propelled grenades. A machinegun was set up over there ... they killed 4,500 people in four hours. The next day they came back with machetes to finish off the living," he said.

Inside the protection zone set up under Operation Turquoise to rescue Rwandans from ethnic slaughter, French soldiers set up camp last week in the stadium in Kibuye on the shores of Lake Kivu.

They had to go no further to discover first-hand the atrocities carried out against local Tutsis by the Hutu majority.

One mass grave was found behind the goalposts at one end of the pitch and another just outside the stadium. Machinegun bullets had drilled a necklace of holes in one stand and shrapnel from grenades had ripped open the corrugated roof of another.

A French military source estimated that 30,000 Tutsis had been killed on April 17 and 18 in Kibuye – in the stadium, the local Church and across the surrounding countryside.

All kinds of Hutus took part, he said – militia, soldiers and civilians.

Aid agencies and international organisations estimate that 500,000 Tutsis and Hutu opponents of the government have been slaughtered, since the assassination of the Presidents of Rwanda and Burundi in a rocket attack on their plane on April 6.

France launched Operation Turquoise to try to stop the bloodshed and in the area around Kibuye, at the northern corner of the protection zone. They are guarding about 1,800 Tutsis.

Soldiers scrubbed blood from the stadium walls and the French officer said Rwandan authorities had sent prisoners to do a better job of covering the graves.

A few stubborn bones, however, still poked through the earth, bleaching in the sun.

On the slopes of the hill by the local church, whole skeletons lie rotting on the hard dry earth – their crushed skulls evidence of final machete blows.

The smell of death among the pews was overpowering. "What has this country done to?" said a Hutu refugee who had fled west to Kibuye, to escape the advance of the Tutsi-dominated Rwanda Patriotic Front (RPF).

The government-run mobile radio station, operating from somewhere near Gisenyi on the border with Zaire, says the massacre reports are part of the RPF's propaganda.

On Wednesday it denounced "foreign corrupt journalists" it said were in the RPF's employ.

The well-disciplined RPF army is within 20km of the French protection zone, outside Kibuye, soldiers said.

The rebels are trying to cut through to Lake Kivu, which forms Rwanda's western border with Zaire, to prevent the rump government, which has retreated to Gisenyi in the north, from seeking refuge in the French haven in the south.

ONLY URGENT CEASE-FIRE CAN AVERT HUMANITARIAN DISASTER

As many as 1 million Rwandese refugees who have fleeted into neighboring Zaire over the past five days face a humanitarian disaster unless there is an immediate halt to hostilities and the huge exodus is reversed, U.N. High Commissioner for Refugees Sadako Ogata warned Sunday.

Humanitarian efforts to provide assistance to the hundreds of thousands of refugees are being completely overwhelmed by what UNHCR staff in Goma described as a "solid human river 25 kilometers long" pouring into the Goma region of Zaire.

UNHCR Goma reported that more than 150,000 people were estimated to have crossed the border into Zaire on Saturday afternoon, and that the huge influx continued throughout the night and into Sunday. By Sunday morning, estimates of the number of refugees in the Goma area ranged from 800,000 to 1 million.

The sheer number of refugees has outstripped efforts to provide assistance despite the presence of several humanitarian organizations and an international airlift that was to deliver 10 planeloads of supplies to Goma on Sunday.

"There is no way humanitarian organizations can cope with an influx of this size and speed unless there is an immediate cease-fire and these people are given assurances they can return home -- or remain at home -- in safety," Mrs. Ogata said. "This is the only way we are going to avert disaster. We need a political solution immediately, because there is no humanitarian solution to a crisis of these proportions. Therefore, I seek the support of the leaders in the region and of the international community to act now."

Mrs. Ogata thanked Zairean authorities for keeping their borders open to the refugees.

UNHCR staff in Goma said the swelling refugee population in the region requires an enormous amount of assistance and appealed for more planes, trucks, food and all other supplies. The refugees require at least 30 million liters of water per day in an area where water resources are scarce. In addition, they require more than 600 metric tons of food per day -- about three times more than UNHCR must provide daily for Sarajevo.

Subject: URGENT ACTION ON PEACE-KEEPING CASH SHORTFALL	

****** URGENT ******

BECAUSE NOT ALL MEMBER STATES HAVE PAID THEIR ASSESSED CONTRIBUTIONS PROMPTLY AND IN FULL, PEACE-KEEPING AND OTHER FIELD OPERATIONS ARE FACING A POTENTIALLY SERIOUS SHORTAGE OF CASH. EFFECTIVE ACTION TO ADDRESS THIS PROBLEM IS NEEDED IMMEDIATELY.

WE ARE SOLICITING THEREFORE, CONSTRUCTIVE SUGGESTIONS TO REDUCE CASH NEEDS BY 20% IN SUCH A WAY AS TO CAUSE THE LEAST DAMAGE TO THE SUCCESSFUL COMPLETION OF OUR LEGISLATIVE MANDATES.

AS A FIRST STEP, I WOULD ASK YOU TO REVIEW THE LEVEL OF YOUR CURRENT CASH IMPREST ACCOUNTS AND IMMEDIATELY REDUCE THEM TO THE LOWEST PRACTICAL LEVEL. YOU ARE ALSO REQUESTED TO ACHIEVE SUBSTANTIAL POSTPONEMENTS AND REDUCTIONS IN EXPENDITURE WHICH WOULD OTHERWISE HAVE BEEN INCURRED. IN YOUR REPLY, PLEASE PROVIDE A TABLE COMPARING YOUR CURRENT LEVELS OF IMPREST AND EXPENDITURE (SHOWING DISBURSEMENT AND OBLIGATION AMOUNTS SEPARATELY) WITH PROPOSED REDUCED LEVELS, PROJECTED THROUGH DECEMBER. A SAMPLE REPORT TABLE IS ATTACHED.

A NON-EXCLUSIVE LIST OF SOME CASH CONSERVATION TECHNIQUES IS SHOWN BELOW, THE PRACTICALITY OF WHICH SHOULD BE ASSESSED IN RELATION TO THE CIRCUMSTANCES OF EACH MISSION.

- RE-EVALUATE FIELD CASH NEEDS, BOTH CHEMICAL BANK AND LOCAL, AT LEAST TWICE A MONTH AND PROPOSE REDUCED REMITTANCE REQUESTS.

...1

CMO SAO FIH

- REDUCE ORDINARY STOCK INVENTORIES (REPLACE WITH PHASED DELIVERY SCHEDULES, "REQUIREMENTS" OR "INDEFINITE DELIVERY/INDEFINITE QUANTITY" CONTRACTS).

- DELAY PAYMENTS TO SUPPLIERS (PREFERABLY WITH THEIR AGREEMENT). BEST TO AT LEAST ASK IF PROMPT PAYMENT DISCOUNT CAN BE RETAINED AND TO SET UP A SCHEDULE OF PAYMENT ROTATION AMONG VENDORS.

- INCREASE EFFORTS TO IDENTIFY SURPLUS PROPERTY FOR TRANSFER TO OTHER MISSIONS SALE OF SURPLUS PROPERTY MAY BE INITIATED UPON ADVICE BY UNHQ.

- INCREASE EFFORTS TO OBTAIN FREE OR REDUCED COST FACILITIES FROM HOST AUTHORITIES, IF NECESSARY BY REQUESTING ASSISTANCE FROM HEADQUARTERS.

- RETARD OR DISCONTINUE WORK ON INFRASTRUCTURE REPAIRS, PREMISES OR ANY OTHER PROGRAM NOT ABSOLUTELY ESSENTIAL CURRENTLY.

- REVIEW STAFFING TABLES AND LIMIT RECRUITMENT/ASSIGNMENT REQUESTS TO CRITICAL FUNCTIONS.

AT THIS TIME, IT IS EXPECTED THAT THIS DIFFICULT SITUATION WILL CONTINUE FOR THE NEXT THREE MONTHS. YOU ARE THEREFORE INSTRUCTED TO MANAGE YOUR FINANCES SO AS TO REDUCE, DELAY AND AVOID DEMANDS ON THE ORGANIZATION'S LIMITED CASH DURING THIS PERIOD.

GRATEFUL YOU REPORT BY FAX OR TELEX ACTION PLANNED OR TAKEN BY ZULU 14.00 HRS, WEDNESDAY, 20 JULY 1994.

SITUATION REPORT # 46

The RPF has taken Ruhengeri, triggering a massive outflow of refugees into Goma from the north-west. At noon today there were an estimated 150,000 already in Zaire, and the rate of entry was 10,000 per hour. The implications of a Ngara-like scenario in Goma are very serious: the UNHCR contingency plan had identified a site for 25,000 refugees, and the densely populated area does not provide favourable conditions for a few hundred new arrivals. The political climate is not favourable either to Rwandans. ICRC and UNHCR buffer stocks are still being communicated to us, but will at any rate not suffice. ICRC has announced the possibility of locally procuring 50,000 blankets and some plastic sheeting. Preidentified sites could only accept a capacity of 25,000. Logistics will have to pass through the airport at Goma (some space can be obtained on flights from France on C130) or come from Uganda, giving added significance to the Kabale based operations. It is imperative that all organisations planning to fly to Goma must receive prior clearance from the air traffic control cell of Operation Turquoise due to traffic congestion (fax: 871 111 0524, tel: 871 111 3114). This new caseload falls under the coordinating responsibility of UNHCR, who is mobilising emergency staff in the region. The next coordination meeting will take place at 18:30 local time. An added 500,000 displaced are reported on the move on the road from Ruhengeri to Gisenyi.

The comprehensive assessment which is to start from Kigali on 19 July will take a particular look at rehabilitation in the RPF controlled areas, such as the supply of water, which is at present the foremost problem in Kigali. Precise operational objectives will be elaborated as a result of this assessment.

The Rwanda emergency operations will concentrate on the south-western region and the estimated 600,000 displaced, which will have to be accessed from Burundi. A group of NGOs is emerging which plans to focus assistance to the eastern portion of the protected zone, Gikongoro. It is important to incite the displaced to remain that side of the Nyungwe forest, as movement through this natural barrier could reduce the desire for a prompt return to the home areas.

SUBJECT: CLEARING OF HELICOPTERS - UGANDA
INVOICE FROM CARGOLUX

It is Canadian Helicopters' understanding that customs and handling fees associated with the arrival of aircraft to the mission area are to the account of the United Nations.

In fact, up to this point in time, we have not paid for any import fees or customs handling fees on any contract. Normally, the UN is exempt from such fees and the UN, in turn, passes this exemption to the Operator.

Positioning and Depositioning Fees cover the actual cost of mobilising and demobilising the helicopters to and from the mission area, but exclude any import, customs, handling fees, since it is very difficult to ascertain what these costs might be, if any.

There is an outstanding invoice from CARGOLUX in Uganda for handling and clearing four helicopters which arrived Entebbe, Uganda (three for UNOMUR and one for UNAMIR). The invoice totals $17,631.00.

Would you be so kind as to review the situation, since we understood that import, customs and handling would be to the account of the United Nations.

I would appreciate your attention to this matter, with the view that we can resolve the issue to the United Nations and Canadian Helicopters' mutual satisfaction.

Thank you.

Sincerely yours,

Chris Baird

WEDNESDAY 13 JULY
SITUATION REPORT # 45

SECURITY

RPF control of Kigali is being consolidated, although small arms fire can still be heard at times in the vicinity. The agencies operating there (of which UNREO and the UN will soon be reaching a total of 70 international staff) are hoping to be able to return to work from their own premises as soon as possible. Mobility is still reduced, but the gradual reduction of RPF checkpoints heralds a return to normal in the city. There are no lootings.

The RPF thrust towards the west is continuing, impelling a growing number of displaced to move towards the Zairean border. It is reported that Kibuye, the only link between the north-west and south-west Rwandan Armed Forces (RAF) controlled sectors, has become unsafe for the Rwandan Armed Forces. The south-west sector has been declared a safe haven by the French led multinational force, and is being intensively patrolled by the French Forces.

According to information received from UNHCR, bodies have been seen again in the Kagera river (around twenty per hour) floating into Tanzania, implying a renewal of violence in the east. Two thousand refugees are still crossing the border into Tanzania per day, although it is suspected that the majority had remained in hiding in the nearby national park, and are not as such new departures.

POPULATION MOVEMENTS

Three main movements can be distinguished at present in Rwanda. The smallest, and now decreasing, is a movement of population from the areas south of Gitarama into Bugesera. It is estimated to have affected 100,000. The second is estimated to regroup some 600,000 presently positioned near Gikongoro and Cyangugu, who have oiginated from the Butare Prefecture. It was feared that this group would be crossing the border into Burundi, but now seems set to move westwards towards Cyangugu once the safe haven is lifted. The largest movement, estimated to be reaching 500,000 to 800,000, is moving from Ruhengeri towards Goma in Zaire. The first crossing of the border is expected imminently.

The local population has slowly started returning to Kigali, and the pockets of displaced which had taken refuge in public places and

Kigali is estimated to be still only 15% of the total original number, but it is expected to increase as more people find means of transportation.

The population in the RPF controlled areas is stable, and still concentrated in communities. The RPF is however allowing increasing numbers to go to the fields to harvest the present crops, provided that transportation is available.

LOGISTICS AND ACCESS

Access has greatly improved in the western parts of Rwanda. Assessment missions have been carried out in both the south-west and north-west in the last few days. The militia are still manning checkpoints which have to be negotiated individually in those sectors. The deterioration of the situation in the north-west pocket will probably lead to a reduction of movement there.

The RPF on the other hand is still permitting movements in most areas, albeit maintaining overall control. A shortage of personnel has somehow limited the RPF's capacity to escort, thus imposing limits on personnel movements.

The main obstacle to the delivery of assistance to the new groups of displaced in the western parts of the country will be the lack of logistics capacity from neighbouring Zaire or Burundi. This has impeded the establishment of buffer stocks. The airport at Goma is overloaded with the French operation, and new supplies are blocked. This has obliged Oxfam and ICRC to withhold distributing the deliveries which they had planned: the enormous discrepancy between the needs and the supplies available has forced these organisations to limit their intervention to medical programmes.

DISASTER MANAGEMENT TEAM AND RELIEF ACTIVITIES

The UN agencies are focussing on the reestablishment of the main offices in Kigali, and prepositioning supplies to the west of Rwanda, in view of a possible influx of refugees into Zaire. The Consolidated Inter-Agency Appeal is being finalised and will be launched at the beginning of next week. UNICEF and WFP have surveyed the status of the warehouses in Kigali, and estimated that only three still contain supplies: the WFP warehouses in Kicukiro and industrial area (total 1,100 MT of oil, maize, CSB, lentils and salt), and the CRS warehouse in Gikondo (10MT of UNIMIX).

AICF has announced that it is starting up programmes mainly for unaccompanied minors to the north of Gikongoro (estimated target group 160,000). MSF/F in Kigali has announced it would reinforce its programmes in Gikongoro too. Both underlined that their operations would remain independent, and link up through UNREO with other humanitarian operations.

In Goma the following agencies are preparing for a possible influx of refugees: UNHCR, ICRC, UDA, Oxfam, IOM, MSF, Caritas.

SECTORS

i health

Although the medical programmes in the country as a whole remain woefully ill equipped and understaffed, a significant effort is being done by the operational agencies. There has been no outbreak of epidemics in spite of insalubrious conditions. This sector (as shown by the matrix attached) is the best covered over all.

ii food

Food has been available in the country from garden plots and the sorghum crops which are now ready. ICRC and WFP have continued food distributions from Uganda and Burundi. Moderate malnutrition has been reported in the internally displaced camps in the RPF areas, although the surveys must still be carried out in a more systematic fashion to provide significant results.

iii water and sanitation

Concentrations of displaced in Rwanda are remaining small, and often temporary. Most locations are equipped with latrines, and the extension of the RPF controlled area means that the chances for a reestablishment of facilities are improving.

iv shelter and domestic items

Greater numbers of displaced have appeared in the west of the country, and it appears probable that a proportion will continue across the border into Zaire. These groups require large quantities of blankets and shelter items. These supplies are not stockpiled in the nearby logistics routes, and a shortage is to be expected.

v rehabilitation

Rehabilitation has become a pressing issue in the RPF controlled areas, and a large scale assessment mission is being programmed from Kigali on Tuesday 19 July. Agricultural rehabilitation and the basic restoration of infrastructure will be examined.

TUESDAY 12 JULY
SITUATION REPORT # 44

The UN humanitarian agencies in Kigali will move into the UNDP premises. The buildings will serve both as accomodation centre and consolidated humanitarian office and UNDP. Basic facilities should be set up by tomorrow. The building will also host the UNAMIR Humanitarian Cell. If safety permits, the agencies will move into individual offices as soon as possible.

The agencies are preparing a joint UN/NGO assessment in the RPF zone to evaluate the needs of the entire area. The mission is to begin on Tuesday 19 July.

UNREO, UNICEF, CARE, USAID, AICF, CRS and Merlin carried out a fact finding mission to the south-west of the country on 6 to 8 July. The mission entered at the Bugarama border post, and travelled to Gikongoro via Cyangugu, leaving Rwanda west of Runyinya. The French Commander in Gikongoro estimates that close to one million people are present in his sector, which has traditionally hosted a population of three hundred and fifty thousand. Following the fall of Butare some two hundred to four hundred thousand fled initially towards the Burundi border, turning north-west some ten kilometres from the border. This mass of displaced is now moving along small roads towards Gikongoro. In the village of Kibeho some fifty to eighty thousand people are to be found.

A secondary movement of people has also begun from Gikongoro moving towards Cyangugu, up to 10,000. The authorities are trying to direct the flow toward Kirambo. There is concern that these numbers could become refugees in Zaire.

The security situation along the road was significantly better than before the French led intervention. Even though forty road blocks were crossed, passage was relatively easy, although it got more difficult as one moved away from the Cyangugu/Gikongoro axis. Isolated killings are still reported in the French security zone.

The main constraint for humanitarian operations in the area remains logistics. The lack of capacity in Burundi is compounded by the difficulties of a large scale crosslines operation through northern Rwanda.

Another assessment mission was organised by UNREO from Como into the north western RGF areas (UNICEF, UNREO, UNHCR, IOM, plus MINITRASO and a gendarme). The population in Cisenyi has reached 200,000 (180,000 displaced), and the atmosphere is reported very tense. Another 300,000 are estimated to be on the move on the 60km road from Cisenyi to Ruhengeri. Many seem to come from the Kigali Prefecture. The RGF has been carrying out random distributions of food, but little shelter is available.

Dear Sirs,

Sub: '94 Toyota Technical Training Seminar for U.N. Staff

It is with great pleasure that we announce that this year we will hold a '94 Toyota Technical Training Seminar exclusively for U.N. technical officers and parts staff who are working in field workshops.

Our '93 Toyota Technical Training Seminar was held last year in locations like Nairobi (Kenya), Abidjan (Cote d'Ivoire) and Maputo/Beira (Mozambique) respectively. Last year a total of forty-seven (47) staff from six major U.N. organisations participated. The seminars were deemed a great success by the participants. Especially, since the one week training helped significantly in further developing their technical skills.

The '94 program is scheduled to begin sometime in September. The main objective this year is to continue reinforcing the skills developed last year and to further support U.N. operations by improving the local technical skill level to better serve workshop activities.

This year's program contents will focus on basic knowledge and techniques of repair and maintenance of Toyota vehicles. In addition, one day lecture on parts management has been newly added this year.

We would therefore like to have some of your key technicians and parts staff dispatched to the above mentioned training courses. Enclosed please find the seminar guide and schedule explaining more details.

To apply for the seminar, you are kindly requested to complete the attached application form and send it back to us by the end of May, 1994.

4

Kindly note the following points before you apply:

(1) We have tentatively reserved the number of participants from each organization. When total number of applicants in each course goes over the limit, you may be asked to reduce the applicants or change the course.

(2) Notification will be made approximately three (3) weeks after the deadline. Therefore, do not purchase the air ticket until you receive the formal notification.

(3) Please furnish us with the contact address so that we can directly send the invitation letter to your attendees.

We thank you in advance for your kind attention and look forward to receiving your prompt reply to this matter.

Sincerely yours,

Kenji Tomikawa

Re: CLEARING & FORWARDING SERVICES

We would like to take this opportunity to introduce ourselves to your goodself and your highly esteemed organisation. We can confidently inform you that we have handled cargo for other UN organisations, which make us appreciate your expected standards of services.

We handle imports at all entry points into the country and exports at all exit points. We are well aware that most of your cargo is airfreighted which is very convenient for us, as we have offices at Entebbe airport, manned with well-trained staff. Subject: Situation Report July 11, 1994

Date: July 11, 1994

UNITED NATIONS COMM CENTRE HEADQUARTERS
94 JUL 11 P 7:06

1. Overview

Main activities conducted by the team members today were related to the installation of the UN Agencies representatives in the UNDP premisses. The arrangements are well underway and we should be able to move in tomorrow.

There is no major events to report as far as the situation in the city goes, people are still coming back to town but at a slow pace. No major security problem to report.

2. Installation in UNDP premisses

Although the load of work to get the edifice ready to accomodate people for both living and working purposes is very important, basic facilities should be available tomorrow.

At the request of General Dallaire, the UNAMIR Humanitarian Cell will have its offices in the main building. RPF humanitarian liaison officer could occupy offices in the annexe and the Ghaneans section (10 to 12 men) will have their living accomodations in the dispensary (in ground floor of the third building).

At this point in time it is difficult to evaluate how long UN staff will have to both live and work in the same place, but it is expected that if the city stay calm as it is now, it could be possible in the near futur for UN Agencies to move back in their own offices. General Dallaire agreed that a reassessment of the need to be concentrate in a same office could be done at the beggining of next week. All the same, it could also be possible -probably in a second phase- for the staff to be living in private accomodations in a matter of weeks. It has been suggested by General Dallaire that the UN Field Security Officer, J.F. Faivre, come to Kigali to assess the possibility of such a move. The team will as soon as tomorrow

UNREO CMO SAO AIROS.

try to be in contact with the RPF liaison officer to assess their feeling on the possibility of a french security officer mission in Kigali.

3. Staff movement

According to the security clearance requests received in the last 72 hours, as many as 19 UN staff from all the Agencies intend to come into Kigali betwen tommorow and the end of the week. Although the team will be more than happy to welcome everybody, it must be clearly stress that the logistic capacity to support such a number of person dont exist at the moment in Kigali. This mean that those person should be coming into Kigali with their own food and water supply; even though UNAMIR accepted up to now to provide us both water and food, it was stressed by General Dallaire this evening that the UN Agencies should be as independant as possible as soon as this week end that restriction on arrival could be impose if this was not the case. He mentioned that the Hercules flights were at the disposal of the Agencies wishing to fly in all the personal supplies that they need.

It should also be mentionned that the UN AHT have currently at its disposal no more than 4 vehicules (2 UNDP 4X4, 1 UNICEF 4X4, 1 UNAMIR 4X4), that UNAMIR transport capacities are also restraint and that all UN Agencies vehicles have "misteriously disaperd" (there is still 2 UNDP vehicles in Hotel des Milles Copines parking lot that we will try to recuperate tomorrow if they are still there). The Agencies wishing to send staff in Kigali should thus also send vehicles (we repeat that UNREO should send 2 of their Landcruiser in Kigali). The Hercules can also be use for this purpose.

Regarding accomodation, there is plenty of room in the UNDP office (although people will have to share rooms and the 4 bathrooms with no shower) but very few matelas or camp beds (about 6 or 7 in total), no sleeping bag or linen available and very limited cooking equipment.

It should be also stressed that with the rapid extension of the team, communication needs are going to increase drastically as well. Provision should be made by all agencies to procure communication equipment such as HF and VHF radios, SITOR and Immersat-A or M (with good fax capacities). It is expected that the UNREO representants will travel in Kigali with all the available VHF equipment. We still havant been able to use the UNDP Saturn satphone, it is hoped that UNAMIR technicians will arrive tomorrow and take a look at it in the same day.

Although the team was very satisfy with the fact that UNREO will send in the very near future more badly needed staff in Kigali, UNREO should also consider the possibility of sending an Administration/personnel officer at least for a short period of time. Finally, in order to secure different UN locations that were broken into, including UN compound houses UNREO should procure and send as soon as possible a dozen of padlocks and 0.5 meters chains.

3. Varia

There is now 7 representants of operation turquoise at UNAMIR.

RPF continue their arrassement on Ruhengeri and seems to have the will to circled the town.

We would like to receive more info on the purpose of the UNHCR delegation visit and to be confirmed that UNHCR intend to take care of "internally displed persons". If so, or even if not, UNAMIR will like to receive their support / guidance before supporting the movement of people inside the country.
