12. **Sector 5B**

a. **General Living Conditions**

(1) **Agricultural**. The planting of crops continues to accelerate. All the agronomists within the communes have been encouraged to monitor the progress of the crops closely and report any difficulties.

b. **UN Agencies and NGOs**

(1) **COOPI**. In Mutura commune they have supported some 400 families. They have distributed a total of 5250 hoes and 26 tons of beans seeds.

(2) **WFP**. They have finished construction of two tents within the Nkamira transit centre with a total capacity of 800 tons. The Food for Work Programme continues in Kibiliria with a project on house construction. It will involve some 720 families and construct 300 houses. They will be paid with 40 tons of food for a total of six months. Road rehabilitation continues in Kanama, Mutura, Gaseke and Ramba. In Satinskyi a fish pond project has been started, 4000 fingerlings have been delivered to the site. In the near future WFP plans to begin another housing project in collaboration with FFH. It will construct an additional 500 houses in 5 communes. Finally they have begun a reforestation project which includes 10 nurseries per commune with 1 per secteur.

(3) **Food for the Hungry**. Continues with its seed distribution programme in concert with UNHCR within 6 of the 12 communes. They have served a total of 4060 families.

(4) **INTERSOS**. Will distribute 8.5 tons of beans seed to the communes of Kayove and Nyamyumba on behalf of UNHCR.

(5) **BORNEFORNDEN**. A Danish NGO agency is operating in the communes of Giciye and Karago. They are helping some 400 families via support families in Denmark. To date they have distributed 1319 hoes, 50 of 80 insecticide dispensers, 1500kg of dithane, they intend to distribute 2000kg of beans seed and 20 tons of NPK 17.17. They are also assisting by renting fields for families with no land. In the near future they plan to distribute 20 pigs, 200 goats, 300 sheep, 800 rabbits and 800 chickens.

c. **Local Authorities**. It is clear from the meetings attended this week that the Ministry of Rehabilitation and the Ministry of Environment have diverging views. The major difficulty is that land is required very quickly in order to

ensure a smooth transition of returnees to the communes. Those settled in the camps in the Gishwati will probably be moved, destination or timing of move yet to be determined. The intent to stop the destruction of the forest is clear. The Ministry of the Environment representative stopped a planned distribution of seeds to those camps located in the forest.

13. **Sector 5C**

a. **Sector Humanitarian Activities**. MILOBS team have visited numerous schools, hospitals and orphanages during the week. On 18 Oct 95, a MILOBS patrol flew by heli to the returnee camp in Bwiza (3694) and monitored the situation there with members of WFP. MILOBS also requested and delivered approximately 100 blankets to Gisovu (2952) and Rwamatamu (1557) commune offices. They also brought approximately 50 blankets and some rehydration fluids to Karangera hospital.

b. **General Living Conditions**

(1) **Health**. MSF and UNICEF are working diligently to improve and run hospital facilities throughout the prefecture. In general the quality of health care provided is poor and overcrowding, untrained staff, broken equipment, inadequate water and latrine facilities and lack of transportation for the injured exasperate this bad situation.

(2) **Water and Sanitation**. ICRC is slowly making progress in repairing broken pipes and developing new sources of water.

**CONCLUSION**

14. The humanitarian assistance presently being undertaken by UN agencies and NGOs is helping the people to get on their feet and the future may not be as bleak as now. However this assistance and the present aid mechanism may be threatened if the security situation worsens in an uncontrolled flood of returnees.

1. The general humanitarian routine work are going on. The case of the paralysation of the pole of development of Kabuga because of the action of an armed bend trying to kill its director a couple of weeks ago, is a solid argument for those that are deeply concerned about the evolution of the situation. **WEEKLY HUMANITARIAN REPORT FOR THE PERIOD 13 - 19 NOV 95**

**GENERAL SITUATION**

1. The humanitarian situation all over the country is not improving as the population really need.Aid from NGOs, WFP and ICRC are still essential for them still now as a substantive self sufficiency was not achieved. Fear, insecurity and the real danger of being imprisoned or even killed for futile reasons are prevalent among the population. They are afraid of legal forces acting legally or illegally, plus bandits (and insurgents in the East bank of Kivu lake). Reconciliation sounds like a dream more than a possibility and justice is almost paralyzed. Prisons' problems are ameliorated, but without the justice working, it is merely a matter of time to have them overcrowded again.

MDM clinic at Bugarama transit camp continued to operate 24 hrs a day. The NGO Save The Children carries out the programme of reuniting childrens with their families during the period.

12. **Sector 5B**

(1) COOPI has received a water tank from UNHCR having a capacity of 70000 litres to be installed at Nkamira transit camp to meet the additional requirement of the large influx take place. They also carried out vaccination in Mutura commune.

13. **Sector 5C**

a. **Sector Humanitarian Activities**

(1) On 16 Nov 95, MILOBS team delivered quantity 2 bales of 50 blankets each to the Mugenero hospital and Lesperance orphanage in Ngoma.

(2) A Humanitarian team visited the Murunda hospital on 17 Nov 95 and delivered 100 boxes of biscuits, 40 bags of

b. General Living Conditions

(1) Health Care Problems. MSF and UNICEF are working diligently to improve and run hospital facilities throughout the prefecture. In general, the quality of health care provided is poor. Also overcrowding, untrained staff, broken-down equipment, inadequate water and latrine facilities and lack of transportation for the injured exasperate this bad situation.

(2) Water and Sanitation. ICRC is slowly making progress in repairing broken pipes and developing new sources of water. Shortfalls in water still occur daily throughout the prefecture.

c. UN Agencies and NGOs. The main NGOs operating in Kibuye prefecture are ADRA, CARITAS, Enfants du Monde, SDR, ICRC, MSF, Solidarity and various others who played a smaller role here. Two weeks ago, a two-day seminar on the procedures of arrest and detention was organised by the UNHCR and human Rights at the office of the prefecture from 9 - 10 Nov 95. It involved about 60 participants comprising the prefect, Sous-Prefects, Bourgmestres, the military as well as representatives from UN agencies and NGOs within the prefecture.

**CONCLUSION**

14. In all the sectors the Humanitarian Officers are working round the clock to see that all the request are looked into in a way to finding a solution to them despite the constraint in resources in HAC.

(b) Improvement of road to the water pump house in Kibungo has been completed by Force Engineers.

4. **SRSG's Request**

(a) A long discussion followed the reading of the minutes regarding SRSG's request in the previous meeting. SRSG had informed the meeting on 15 Nov 95 that a certain Embassy had funds that could be utilised on Humanitarian projects with UNAMIR and a comprehensive list of projects, items, material etc was to be submitted to him as soon as practicably possible in order for UNAMIR to be able to secure these funds.

(b) Mr Dao (SRSG rep) told the meeting that he had received a note from SRSG, emphasising the importance of submitting the list quickly. **MINUTES OF FC'S CONFERENCE WITH UNIT/SECTOR COMMANDERS HELD AT UNAMIR HQ BRIEFING ROOM ON 23 DEC 95**

In Attendance : SRSG

Present : FC - Chairman
Unit/Sector Commanders
UNAMIR HQ Staff Officers
SO2 Ops - Secretary

## ITEM 1 - SRSG'S POINTS

1. The SRSG announced the appointment of Brig KS Sivakumar as the Acting FC and Col Fletcher as the Chief of Staff. He informed the house that the deployment plan for the new mandate had been approved in principle, although no written confirmation had been received from UNNY. UNAMIR, now on its last lap, had been a noticeably successful mission - a fact accepted even by the Rwandese President. He reiterated that this success story should continue till the end and urged all to maintain a high standard of discipline and dedication to duty. Giving out the salient aspects of the new mandate, the SRSG emphasized that support for the return of refugees was the key issue to be addressed.

## ITEM 2 - FC'S POINTS

**New Mandate**

2. The FC gave out the highlights of the three previous mandates and emphasized that the strength had been reduced from an all time high of 5500 to 1400. The new mandate had removed all security related tasks except that of UN personnel, property and the International Tribunal. Consequently, the forces will be deployed to ensure continuity and ease of command and control. Although majority of the troops in sectors will be phased out in a graduated manner, some presence will be maintained in terms of logistic bases to assist in the repatriation of the refugees.

3. **Recommendations**. The following salient aspects of the recommendations forwarded to UNNY for their approval, were highlighted by the FC :-

(a) All troops will be concentrated in Kigali except a Coy (NICOY) which will be split between Nyundo and Shagasha.

(b) 1200 formed troops will comprise of NICOY, GHANCOY ( for security of the Tribunal ), elements of INDBATT, Engineers and Signals. In addition there will be 140 MILOBS, 30 HQ Staff and 30 Military Police personnel.

4. **MILOBS**. The focus will be on the repatriation of refugees and monitoring their move from the borders to their home communes. There will be no formed troop sectors as all troops will be located in Kigali. MILOB Sectors will be redrawn as given below :-

(a) Sector 1 - Kigali, Kibungo and Byumba.

(b) Sector 2 - Gitarama and Kibuye.

(c) Sector 3 - Butare and Gikongoro.

(d) Sector 4 - Cyangugu.

(e) Sector 5 - Gisenyi and Ruhengiri.

5. **Downsizing**. The reduction of the strength to the required number of 1400 will be achieved by 31 Jan 95.

(a) MILOBS. MILOBS will be repatriated by 07 Jan 95 as the recommendations to repatriate them as per their DDM has not been agreed to by the UNNY. However, certain key appointments are being retained for continuity and functional needs.

(b) Troops. As per the recommendations forwarded, contingents will be repatriated as under :-

| | | |
|---|---|---|
| (i) MALICOY | - | 07 Jan 95 |
| (ii) MALAWICOY | - | 17 Jan 95 |
| (iii) GHANCOY | - | 27 Jan 95 |
| (iv) Elements of INDBATT | - | 30 Jan 95 |

6. Liquidation. The FC stated that the detailed liquidation instructions have been issued and all concerned must start planning accordingly. All contingent cdrs were asked to start segregating into different lots their contingent owned equipment, UN equipment, equipment to be moved by air and stores to be sent to the port of disembarkation. The FC emphasized that the contingents would move out of their respective AORs only once their equipment had reached Kigali and that all accommodation being vacated will be repaired and necessary clearances obtained from the concerned authorities. He stated that all administrative arrangements have been catered for troops staying on till Apr 95 except NORMED whose facilities will be available only till 29 Mar 95, after which, aero medical evacuation to Nairobi will be catered for in case required.

**Conclusion**

7. The FC reiterated that the last lap is always the most difficult and now was the time to ensure that the highest of standards are maintained. He said that though there has not been a single battle casualty, a number of lives had been lost in vehicle accidents due to rash and negligent driving. The FC asked all unit cdrs to be extra vigilant and cautious in this last phase of the mission. He said that it was important that UNAMIR withdraws with dignity and grace and that everybody's efforts should be towards this end. Cordial relations with the RPA and the locals must be maintained and all pending bills with the Government must be cleared before final repatriation.

## ITEM 3 - G4 LOG

8. The G4 Log gave out the detailed revised liquidation plan and explained the four phases of the liquidation, the sequence and the tentative time schedule.

9. Recommendations. The G4 Log recommended that the liquidation documents be signed at the earliest so the process could be initiated.

## ITEM 4 - SECTORS 1 TO 3

10. The Sector Cdrs gave out details of tasks carried out during the period by their respective units, since the last conf.

## ITEM 5 - SECTOR 4

11. The Sector Cdr gave out details of the sabotage activities which were reported in his Sector. He also recommended that details of the new mandate should also be given to the UNHCR and other UN agencies.

12. **FC's Comments**. The FC directed the Sector Cdr to gather all relevant information on the sabotage activities of 22 Dec 95 and forward a detailed report.

## ITEM 6 - SECTOR 5

13. The Sector Cdr gave out details of tasks carried out during the period since the last conference. On a query regarding the continuance of his section of troops deployed on Mt Karongi, the FC clarified that his troops would soon be relieved of this task.

## ITEM 7 - FORCE ENGINEER COY

14. The officiating Coy Cdr gave out details of tasks carried out during the period since the last conference.

## ITEM - 8 - CISS

15. The CISS asked all concerned to inform all humanitarian tasks that had been completed so that they could be publicized. He further assured all support to troops during the liquidation. He also emphasized the need to repair and clean all accommodation and take all necessary clearances before final eviction.

## ITEM 9 - SRSG'S CLOSING REMARKS

16. The SRSG reiterated that there was need to increase humanitarian tasks being undertaken and all these must be projected to ensure adequate publicity. He highlighted the differences in the MILOB tasking under the new mandate and emphasized that MILOB reporting was an essential requirement for correct assessment of the situation. There was a need to bridge the gap between the RPA and the various UN agencies so that the void which will be created by the withdrawal of UNAMIR does not hamper the developmental work being undertaken by these NGOs. The SRSG then gave out the political situation in the neighboring countries and recommended that the deployment of the formed troops should be flexible so as to cater for return of refugees from Tanzania and Burundi also.

## ITEM 10 - FC'S CLOSING REMARKS

17. The FC thanked the SRSG for his views and reiterated the fact that we must be seen as doing something within the resources

available. He finally wished everyone a Merry X Mas and a Happy New Year.

SUBJECT : REQUEST FOR BASKETBALL PITCH REPAIR

1. Vehicular traffic following the previous adoption of the premises of Ecole Normale Technique (ENT) by the then Francophone battalion and MILOBS as headquarters sometime late Mar 95 respestively, have caused destruction to the school's basketball pitch - the only sporting facility in the girls' school.

2. The school is located up-hill adjacent to the present sector HQ. It would therefore be highly appreciated if the above request is co-ordinated with that of Ecole Technique Officielle (ETO) which is about receiving attention.

3. The untimely request for co-ordination is very much regretted.

4. Please accept for consideration and best regards.

**SUBJECT:** Request for school supplies in Kibuye

In response to your urgent request, I would like to inform you that UNICEF has initially delivered school supplies in the form of Teacher Emergency Packages to all 11 Prefectures in coordination with the Inspecteurs d'Arrondissement and Inspecteurs des Secteurs. Moreover, a replenishment of school supplies has recently taken place at Prefecture level. I would strongly suggest you that get in touch with the Inspecteur d'Arrondissement of Kibuye and see if this school is within his priorities. In that case he will be able to provide with the necessary supplies.

Yours sincerely,

Objet : Réfection du terrain de basket ball de l'E.T.O KIBUYE

A Monsieur le Chef de Mission de la MINUAR
KIBUYE

Monsieur le Chef de Mission,

Par la présente, je voudrais vous demander de bien vouloir procéder à la réfection du terrain de basket-ball de l'E.T.O Kibuye mis hors d'usage, par les allées et venues des véhicules de la MINUAR sur ce terrain.

En effet, vos véhicules qui passent quotidiennement sur ce terrain, venant récuperer les passagers au sortir des hélicoptéres de la MINUAR qui y atterrissent, bon gré malgré ont sérieusement endommagé le dit terrain.

De ce fait, les élèves sont privés de leur droit de faire du sport, ce qui va contribuer, sans nulle doute, à saper leur morale, surtout dans ces temps d'après Génocide et Massacres.

Dans l'attente d'une suite appropriée, eu égard à l'attention devant être attachée à ce problème, je vous prie d'agréer, Monsieur le Chef de Mission, l'assurance de mes profonds respects.
