To: His Excellency Ban Ki-moon  
Secretary General of the United Nations  
United Nations Headquarters  
First Avenue at 46<sup>th</sup> Street  
New York, NY 10017 USA

Rome, 7<sup>th</sup> July 2015

Prot. AMD5/82

Dear Secretary General,

Congratulations on the successful convening of the special UNGA session on sustainability and the UN Global Compact board to which I was honored to participate for the first time. As you mentioned, the Global Compact is an enduring success story of the UN that has pulled together the private and non-profit sectors to work with governments on promoting sustainability, in no small part thanks to your leadership. I commit Enel to champion this cause in the utility sector and in the energy world at large.

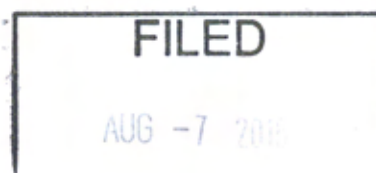

I was particularly grateful for having the chance to meet and discuss with you the current state of affairs in climate negotiations and trends in the energy sector. While momentum is building toward a meaningful agreement to be reached in Paris in December, I agree with you all efforts need to be expended to coalesce the support to ensure that this indeed happens. You can be rest assured of my help in pushing this agenda from my sector.

Enel is fully behind the UN's efforts on ending energy poverty and transitioning to a clean energy future, whether it be through the active participation to the Sustainable Energy for All or through other initiatives. Please feel free to contact me if there are any particular opportunities or needs in which the availability of Enel's expertise, experience, or facilities could be of assistance.

Thank you again for your leadership and hope to meet you again soon.

Best Regards,

  
Francesco Starace
