1. Attached are copies of the inventory of non-expendable equipment and vehicles on charge to the former Stanleyville Field Office.
 2. As it is apparent that this ONUC property has been captured and/or destroyed, it is the intention of the ONUC Property Survey Board to proceed with its write-off. However, before doing so, confirmation to this effect is required by the Board.
 3. It is appreciated that the arduous nature of your duties in Stanleyville will prevent a thorough investigation. However, a general appraisal of the situation and a recommendation as to whether or not all UN property unaccounted for can be written off, with the proviso that property subsequently recovered will be again taken on charge, would greatly assist the ONUC Liquidation Team in its efforts to close property records.

- 1. Attached is an original letter of 29 October 1964 addressed to Mr. Kyriakou, FX Officer, Stanleyville, by the Consuls in Stanleyville of the following countries:

Belgium	France	Greece	Pays Bas and
Cyprus	Great Britain	Italy	International Red Cross

The Consuls of the United States and Belgium were not able to sign the letter because they were, at the time, in prison.

2. The request is for food to be supplied from the FX to feed the approximately 500 people who were then in captivity. The letter offers to pay the cost of food handed over for this purpose. As a result of this request, Mr. Kyriakou handed over some items from the FX.

3. For the record I should be grateful if you can determine, even in rough terms, what items were handed over in response to this letter.

Cher Monsieur Schlaegel,

J'ai appris de M. Scheller quel excellent travail vous venez d'accomplir à Stanleyville dans des conditions extrêmement difficiles et dangereuses. Je suis sûr d'être l'interprète de tous mes collègues en vous disant tout le prix que nous attachons à ce que vous avez fait pour soulager les souffrances et rétablir un certain ordre dans cette ville.

Le dévouement avec lequel vous avez entrepris toutes sortes de tâches bien éloignées de vos attributions techniques normales est dans la meilleure tradition du service au sein des organisations internationales. Par votre présence à Stanleyville auprès de M. Scheller et de vos collègues, vous avez bien mérité des Nations Unies.

Je vous prie de croire, cher Monsieur Schlaegel à mes sentiments très cordiaux.

Léopoldville, le 26 novembre 1964

A Monsieur J.C. Miranda-Correa,
Chef de la Mission OACI au Congo.

Je soussigné Ely Ferraris, Experts OACI, vous prie de trouver ci-joint l'exposé des motifs pour lesquels je suis resté bloqué à Stanleyville du 4 août au 25 novembre 1964, ainsi que les raisons pour lesquelles je me suis trouvé dans l'impossibilité d'assurer normalement mon service durant cette période.

Ne disposant pas de véhicule personnel, un arrangement avait été fait avec Monsieur Chu, technicien radio OACI, qui passait me prendre et me ramener à mon domicile avec une jeep de l'ONU.

Le matin du 4 août, ne voyant pas arriver Monsieur Chu, j'ai essayé en vain de téléphoner à l'aéroport ainsi qu'à l'ONU mais, ainsi que cela arrivait fréquemment, il m'a été impossible d'obtenir la moindre communication, la ligne étant en dérangement.

Ne pouvant me rendre à mon travail et vu les bruits alarmants qui circulaient, je passais la matinée à préparer mes bagages pour être prêt en cas d'évacuation.

Vers midi, j'entendis une voiture s'arrêter devant la maison; cette dernière ne possédant pas de fenêtres donnant sur la rue, je criai à pleine voix "J'arrive" et me précipitai au portail pour ouvrir, ce dernier étant fermé par un cadenas et une chaîne. J'entendis la voiture démarrer avant d'avoir pu ouvrir et lorsque je parvins dans la rue, celle-ci était vide de tout véhicule.

A deux heures de l'après-midi, une fusillade éclatait soudain en même temps que tout le quartier se trouvait soudain investi par une bande de rebelles et il nous fut dès lors impossible de sortir de la maison. La ville se trouvait dès le soir même aux mains de bandes incontrôlées qui tiraient à vue sur toutes les personnes qu'elles rencontraient.

Dans le courant de l'après-midi, la ligne téléphonique redevint normale et je me pus obtenir le numéro de l'ONU, mais personne ne répondit. J'appelai alors l'immeuble Victoria où je savais que logeaient plusieurs membres de l'ONU; le gérant de cet immeuble m'informa alors que tout le personnel de l'ONU avait été évacué par avion.

.../...

Le 10 août, l'armée proprement dite des rebelles avec leur police militaire ayant investi la ville et remplacé les bandes inorganisées qui jusqu'alors avaient mené la révolte, il ne fût possible d'aller en ville.

Je me rendis à pied au Siège de l'ONU mais en approchant de l'immeuble, je m'aperçus que celui-ci était devenu le siège du Quartier Général de l'armée et je renonçai à y pénétrer.

Ce fut par une visite à mon domicile vers le 15 août de Monsieur Lathan, employé à l'ONU comme officier des transports, que j'appris qu'un bureau de l'ONU, qui avait pris alors le nom d'Assistance technique, continuait de fonctionner à l'hôtel Wagonia, sous la direction de Monsieur Habibis.

Ayant repris contact avec l'ONU, je me renseignai auprès de Monsieur Habibis sur la possibilité de reprendre mon service. Celui-ci m'apprit que des barrages avaient été installés sur la route menant à l'aéroport et qu'il était interdit à tout Européen de se rendre à l'aéroport.

Ne pouvant assurer mon service, je me suis donc mis à la disposition de Monsieur Habibis.

*
• •

En ce qui concerne la vie à Stanleyville durant cette période, les Européens ne furent réellement en danger que durant les premiers jours de la révolte et ensuite à partir du 1er novembre lorsque l'ANC a commencé à avancer vers la ville.

Dans les premiers jours, outre les tirs de fusils et d'armes automatiques qui ont duré cinq jours, nous avons été mis plusieurs fois sur le qui-vive par des visites à domicile des rebelles à la recherche des soldats de l'ANC qui auraient pu s'y dissimuler ainsi qu'à des perquisitions pour rechercher des armes. Au cours de ces perquisitions effectuées par les bandes inorganisées, quelques Européens ont été tués soit que, par peur, ils aient refusé d'ouvrir les portes ou qu'ils aient essayé de se cacher.

.../...

Par la suite, lorsque la police militaire fut organisée, et ce durant toute la période où la ville fut aux mains des insurgés, à maintes reprises nous avons été inquiétés la nuit par des civils indigènes ou des militaires qui essayaient de s'introduire de force dans les maisons pour s'y livrer au pillage; il suffisait alors d'appeler la police militaire par téléphone qui venait aussitôt en jeep et lorsqu'ils arrivaient à temps pour surprendre les pillards, ces derniers étaient abattus sur place.

A compter du 15 août, il fut possible aux Européens de sortir dans trop de risques pour essayer de se procurer un peu de ravitaillement; lorsqu'on se trouvait dans la rue, on était alors fréquemment arrêté par des militaires, ou même des enfants d'une quinzaine d'années armés de mitraillettes, qui nous demandaient nos papiers en nous mettant en joue avec leur arme, aussi nous ne sortions que pour des motifs impérieux.

A compter du 15 septembre environ, les stocks qui se trouvaient dans les magasins étant épuisés, il fut de plus en plus difficile de trouver de la nourriture; heureusement, chaque Européen avait réussi à faire un petit stock de produits alimentaires constitués principalement de riz et de boîtes de corned-beef ou de sardines. Quant à la farine, celle-ci étant moisie, le pain devint rapidement insconsumable.

La viande fraîche fit rapidement défaut, l'armée rebelle ayant fait abattre pour sa propre consommation les animaux de boucherie et en conséquence nous avons totalement manqué de viande depuis le 15 septembre.

A partir du 1er novembre, lorsque l'ANC commença à reprendre l'offensive, l'attitude des rebelles envers les Européens se fit immédiatement plus dure. Tous les ressortissants belges, hommes, femmes et enfants, furent arrêtés et conduits dans les camps militaires. Par la suite, ils furent rassemblés à l'Hotel Victoria où ils restèrent enfermés jusqu'au dernier jour.

Le 24 novembre, lorsque les rebelles constatèrent le parachutage des paracommandos belges, ils se déchaînèrent et dès lors se mirent à tirer à vue sur tous les Européens qu'ils apercevaient.

Le même jour à deux heures de l'après-midi, une colonne de paracommandos venait nous délivrer à domicile pour nous évacuer vers l'aéroport où nous arrivâmes à 4 heures de l'après-midi.

To: Mr. J.C. Miranda-Correa, Chief ICAO TA Mission
From: B. Bresle, Airport Management Adviser, ICAO
Subject: Mission to Stanleyville - 25/26 November 1964

Having been appointed by you to be in charge of an ICAO team to go to Stanleyville in order to survey the availability of equipment as well as the possibility of ensuring the operation of the Control Tower and its communications, I hereby wish to report the following.

I arrived at Stanleyville airport on 25 November 0805 hrs, together with Mr. Halbauer, our Telecoms Expert, and Mr. Nutz, ATCO.

Mr. Scheller, in charge of the UN party, allowed me, at my request, to separate the ICAO team from the UN group and so, with our equipment and adequate food supply, I made my way to the Control Tower.

Sniping activity was active at the airport but there were only a few military casualties (one dead).

The Control Tower and the technical block were occupied by the HQ of the Belgian Air Force (Commander Col. Cailloux) as well as by the HQ of the Belgian paracommandos (Commander Col. Laurent).

The tower was manned by a Belgian captain who informed me that this was a military operation and that the Air Force (Belgian) is solely in charge for controlling traffic.

I got permission from Colonel Cailloux to install myself and our team on the first floor of the building (Bureau de navigation), where I made my Headquarters.

.../...

I found our two IFR Congolese Controllers, Kudinga and Kasinde, in good health outside the technical block. I asked them to join me and stay with us in the Bureau de navigation to give us a hand. They had been cut off from their families in town since the fighting began.

I installed the SSB in the Bureau de navigation and we contacted Leopoldville (ICAO) advising them of the present situation. Mr. Scheller used the same SSB for his UN contacts until his own was installed in town.

The equipment on the airport seemed in good working conditions with a few exceptions (detailed report by Mr. Halbauer).

We offered to help the tower with VHF equipment because the local one was going on and off. This help was well received and the tower went on to operate normally.

General Survey

The airport at Stanleyville is indeed at present a basis of a military operation.

The 25th November was a day of mixed traffic: military and civilian planes evacuating refugees. During the night of 25/26, the situation changed into purely military traffic. Seven C.130s landed during this period bringing military supply. During the 26 of November, more military planes brought Katanga Gendarmes from Kamina to prepare for the offensive of to-day (crossing the river into the "cité").

Military sorties flew out every thirty minutes supporting ground forces.

On 26 November it became clear that the rebel resistance had not been entirely broken and fighting continued in two parts of town as well as at the Tchopé bridge. This bridge changed hands twelve times.

An attack of the rebels took place at the airport at about 10.30 am on 26 November. We could clearly see 15 to 20 of them on the other side of the runway, shooting. More probably were in the bush. The Belgian paratroopers went into action and cleared the airport area forcing the enemy to about 2 kms inside the bush. During this time, there was a lull in traffic so no aircraft were hindered from landing or taking off. This military action was followed

.../...

up by T28 ~~fixing~~ firing rocket.

On the other side of the airport ANC and Belgian forces were engaged in mopping up operation; mortar fire and machine gun was much in evidence.

During the day I met General Mobutu on the tarmac and informed him of the presence of UN in town as well as of the ICAO team which was ready to help. The General seemed pleased and thanked me for the assistance.

At the Sabena guest house, next to the airport, there were about 400 Congolese refugees from the town who required food supplies.

The power station, as well as the transmitters station and the telephone system, were in operation during all this time.

Due to the situation as described and the fact that two Congolese Controllers were immediately available if the Belgian Air Force were to leave, I requested you for clearance to withdraw our ICAO controller who was at present unemployed.

Having received your clearance, I contacted the British military Attaché, Lt-Colonel ~~Mr~~ Kirk, who was at the airport and got permission from him to return the ICAO team in the RAF hospital plane which arrived at Leo at 17.30 hrs.

Stanleyville, november 29, 1964

To: Mr B.F.Osorio Tafall, Resident Representative.
from; F.Scheller. Administrative officer and Team Leader Stanleyville.

Subject: First report on Stanleyville operation.

Arrival in Stan wednesday 25, unloading of planes, first contact with situation.

I met in airport Mr Senn from IRCC and officers of Belgian Paracommandos.

At the time the belgian paracommandos were evacuating foreigners from Stan and I had to remark that people were more or less obliged to leave even the one who preferred to stay. Which explains that 14 foreigners only are still in Stan out of over 2000.

I proceeded soonest to the town to appreciate the situation and discuss with Colonel von der Wale, practical commander of the town. He asked me to make the hospital operating again as soon as possible.

I also arranged accomodation for the team in the Congo Palace, an hotel abandoned by the owners but staffed with mercenaries and which seems the safest place in town, even if mercenaries have obviously no sympathy for UN, but they would make less troubles to us if we are living amongst them than if living in a place by ourselves than they could raid.

We transported all UN properties to the Hotel except C rations which have been in the meantime utilised by belgian paras as well as half of the commissary properties.

I had contact with Mr Habibis of UN office in Stan and proceeded to the office, which was open and more or less in good condition but impossible to use by lack of doors.

Other UN staff Rosso, Latham, Lippens were still in quarter occupied by rebels.

Already in the afternoon the WHO doctors had decided to leave, but stay after consultation with me; They claimed they had nothing to do because the colonel refused to give special guards for the hospital, but I personally feel that a doctor who claims there is no work in a town in war seems to be a joker.

I also visited the PX which was at the time filled with goods.

On thursday I tried to send the doctors to hospital but they objected because the hospital was according to them full of rebels, in fact it was full of corpses, which might have been rebels. I went round town to see refugees groups and estimates their numbers and requirements. In the afternoon I found some nurses who wanted to work and told them to be at the hospital at 8 next morning to resume work. I also tried to convince Colonel van der Wale to give us some soldiers and prisoners to start getting rid of corpses in town but without success. (It is to be said that said Colonel was expelled by ONUC troops from Eville first as Belgian General Consul and next as military counsellor.

On friday, I myself started clearing hospital of corpses and doctors started work, treating some patients, in the same time Mr O'Connor started to evacuate corpses from town. I had also some talks with Mr N'daka of Surete Nationale whom I know and succeeded to get some people (students) out of Stan. On arrival of UN plane, the Doctors decided to leave because the departure of belgian paras was threatening their security.

I also went to the post office with ITU experts.

On saturday I organised with mercenaries a rescue party for Mr Rosso, Lippens, Latham and any whites in the same quarters. Mr Rosso and Lippens in the meantime came to UN garage and Mr Latham was unfortunately found dead. On the same day numerous people started to come back to town and we located some government employees, telecom people, Bank directors, some UN workers. I also had a meeting with the last foreigners who agreed to help me, Dr Balovatch, agreed to go to hospital every second day. They were concerned about return of societies in Stan and asked me to authorize Mr Kyriacou to go to Leo to discuss with Societies directors.

ORGANISATION DES NATIONS UNIES

BOITE POSTALE 7248
LEOPOLDVILLE
REPUBLIQUE DU CONGO
CABLE: ONUC. LEOPOLDVILLE

On Sunday I went to the UN garage to meet Mrs Latham, Mr Rosso and Lippens and found also about 4 repairable vehicles.

I also found the Red Cross team, (4) and organised distribution of food to refugees and night say that the sight of UN experts carrying with joy bags of smoked fish was a pleasure to me. We fed about 3.000 people. We also found more government employees and UN employees.

Military situation. Airport and part of town firmly held by ANC and specials. Mangobo city, Belge city by half, a quarter of Bruxelles city still not cleared. Some muleliests still hiding in town but decreasing every day by lack of food which obliged them to fly. Strong aviation support.

Team morale. Extraordinary good, all experts have been working nicely in all jobs with a great spirit and they regret to leave.

Specials. Have thoroughly pilfered the town, Mr Habibis was obliged by them to leave his house and come to the Hotel, they have blown every safe in town and taken all cars. In addition they have emptied the UN PX stores never touched by the rebels. They seem also a little to trigger happy and are murdering unnecessary every body who comes to short range which is not going to create amiable relationship. I slowed them very much in the summary executions.

Conclusion: If Stan is supposed to be kept as a town, we are the only people in town with the 14 foreigners, who have a possibility to try to make Stan to resume living. I suggest that societies send back some people, that government send some sort of civilian administration and make this again a town except if Government wishes are that Stan should go back to the rebels soon.

is possible to give life to this city but it should be started soonest.

I am sure it would be to the honour of our organisation if we can help here.

I also have to add that contrarily to some opinions expressed in Leo I have the greatest sympathy for the skin of my friends of the team and my own and would not recommend to keep the team in Stan if I would think that there is a real danger for us.

The problem would evidently be different if troops here are leaving but I think Stan is very important from a psychological point of view and that military authorities should keep this town in the Congo.

Dear Ralph,

During the rebel occupation of Stanleyville, a bi-weekly was issued by the insurgent authorities under the title "Le Martyr". This newspaper, under the editorship of Gaston Soumialot, was purposed to be "l'organe de combat du CNL, section de l'Est".

According to reliable sources "Le Martyr" printed in the issue corresponding to 15 November an article warning that American intervention in Stanleyville will automatically provoke the liquidation of all Belgians and Americans in rebel occupied territory.

....

The attached clip refers to that article.

We are trying to secure a copy of the original issue of "Le Martyr".

Re: Air Transportation Stanleyville

I refer to conversations with Mr. J. Kunitzberger, our Field Liaison Officer, who approached you with a request for urgent transportation for vehicles, fuel and medical supplies for Stanleyville.

The requirements of our WHO doctors and UN team in Stanleyville are extremely urgent, and we would highly appreciate it if you could arrange for shipment at your earliest convenience of the following:

Bedford truck - 3 ton, 4 x 4	
Willys pickup	
total weight:	10,000 lbs.
14 drums vehicle fuel	
General Service items	
Medical supplies	
total weight:	10,000 lbs.
Total weight:	<u>20,000 lbs.</u>

Plus one passenger, Mr. CASTERILLION, WHO expert and Sanitary Engineer.

Thank you very much for your assistance.

Communiqué de presse
No. 526/C.21
26 novembre 1964

L'AIDE A STANLEYVILLE:

- 180 MILLIONS DE FR. POUR LE PROGRAMME
DE SECOURS D'URGENCE
- UNE MISSION D'EXPERTS DES NATIONS UNIES
EST DEJA AU TRAVAIL

Le Premier Ministre, M. Moïse Tshombé, a annoncé l'approbation par le Gouvernement de la République Démocratique du Congo d'un budget de 180 millions de francs destiné à financer le programme de secours d'urgence et de réhabilitation pour Stanleyville et les autres régions du Nord-Est du Congo qui ont été libérées par l'Armée Nationale Congolaise. Sur ces fonds, 25 millions de francs sont destinés, dans l'immédiat, au nettoyage, réparation et reconstruction des rues de la ville, des routes, des bâtiments publics et autres, des services publics ainsi qu'à d'autres projets urgents pour Stanleyville. 20 autres millions de francs sont destinés au drainage et au renouvellement de la place du marché et des routes d'accès à Stanleyville. Une grande partie de ces fonds, enfin, sera disponible pour l'achat, l'expédition et la distribution de médicaments d'urgence, ainsi que pour les fournitures de matériel dans le cadre des opérations de secours urgent à Stanleyville. Selon les besoins, la balance de ces fonds sera répartie entre différents projets concernant les autres régions du Nord-Est du Congo.

Ces projets seront financés avec les fonds de contrepartie venant de l'aide financière des Etats-Unis, sous le Programme I. Ces fonds seront administrés par une Commission de Contrepartie composée de représentants du Gouvernement Central, des Nations-Unies et des Etats-Unis.

Le Premier Ministre a annoncé, d'autre part, que les Nations Unies ont envoyé à Stanleyville une équipe d'experts qui travailleront en étroite collaboration avec les représentants et les différents services du Gouvernement Central et du Gouvernement Provincial; cette équipe est composée de 6 docteurs et experts en santé publique, de 2 experts de la Section des Affaires Sociales, spécialisés en développement

communautaire, de 8 experts de l'OACI, de l'OMM et de l'UIT, qui aideront au rétablissement des services d'aviation civile, de météorologie et des télécommunications, et enfin, d'un expert en travaux publics. Ces experts qui seront dirigés, sur le plan administratif, par un représentant du Bureau de l'Assistance technique des Nations Unies à Léopoldville, sont arrivés le 25 novembre à Stanleyville.

SSB CONVERSATION WITH MISTER SCHELLER ON NOVEMBER 24 AT 12.30 LT :

FOR THE CONVERSATION THE TRANSMITTER OF ICAO HAS BEEN USED BY CHANGING ONLY THE
CRYSTAL FOR OUR FREQUENCY.

FIRST REPORT INDICATED THAT AIRCRAFT AND PASSENGERS ARRIVED SAFELY IN STANLEYVILLE 9.30 LT
MISTER SCHELLER WENT WITH AUTHORITIES OF THE ANC INTO TOWN AND REPORTED THAT THE TOWN
IS COMPLETELY DESERTED FROM EUROPEANS AS ALSO FROM CONGOLESE POPULATION. HOUSES STORES
AND OFFICIAL INSTITUTIONS ARE DESERTED AND RANSACKED. ON THE FIRST VIEW IT SEEMS THERE
IS ABSOLUTELY NOTHING LEFT ON FOOD TRANSPORTATION AND FUEL.

MISTER SCHELLER INTENDS TO PUT UP FOR TONIGHT AT THE CONTINENTAL HOTEL AND WILL NEXT
MOVE OVER TO THE CONGO PALACE AND TAKE THERE A SMALL OFFICE. THE WAGENIA HAS BEEN
USED BY THE REBELS AND IS PRESENTLY IN A VERY DESOLATE STATE. HE WILL REPORT ON THIS
SITUATION SEPARATELY.

A SMALL GROUP OF OFFICIALS EUROPEANS AND CONGOLESE ARE WORKING IN CLOSE COOPERATION
TO CLEAR UP THE SITUATION AND REPORT TO LEOPOLDVILLE. MISTER SCHELLER IS TAKING ACTIVE
PART ON THIS ARRANGEMENTS? SPECIALLY QUESTION OF TRANSPORT.

CONCERNING OUR EXPERTS WHO LEFT FOR STANLEYVILLE THIS MORNING? MISTER SCHELLER
REPORTED HAVING SOME DIFFICULTIES AND LEOPOLDVILLE MIGHT EXPECT SOME OF THE EXPERTS
BACK HERE WITH INCOMING TAB FLIGHT.

TAB FLIGHT LEFT STANLEYVILLE AT 8.30 GMT AND WAS ORDERED FOR REFILLING TO KINDU
ESTIMATED TIME OF ARRIVAL IN LEO WILL BE COMMUNICATED BY ICAO NDJILI. ETA 15.24 LT

MISTER SCHELLER WILL BE ON THE AIR AGAIN THIS AFTERNOON AT 17.00 LEO TIME.

Following the evacuation of Stanleyville field office on 4 August 1964 all locally recruited non-Congolese staff members remained there at the exception of the secretary who has been evacuated to Léopoldville where she is actually assigned to the Purchasing and Supply Section.

The Finance Office has since then continued to effect the payment, to these staff members, of the transferrable portion of their emoluments. The Congolese Francs portion was withheld due to the unavailability of means of communications.

I will appreciate it if a decision could be taken by you regarding whether we should suspend or continue these payments.

We have recently discussed the question of accounting in Field Stations who have suffered the actions of forces in opposition to the Central Government. The main difficulty at the moment appears to be Stanleyville, with which we have no communication. The last account received from this Station was for the period 1 - 30 June 1964, and the last cash position was reported in a cable dated 2 August 1964.

At the moment we are not aware as to whether the UN have suffered any loss of cash, which makes it premature to consider any write-off action.

However, it is not possible to estimate how long the abnormal situation will obtain and in the circumstances it would perhaps be desirable to inform the Controller of the situation.

I should appreciate your views on this matter.

MEMORANDUM.

To : The Chief Administrative Officer ONUC Léopoldville
From : M.Habibis Finance Officer Stanleyville
Subject : PUBLIC WORKS PROJECTS.

Yesterday at 9 o'clock Mr.KINGHIS, the Minister of Health & Public Works came to the Wagenia accompanied with his Chef de Cabinet Mr.BARUDI Victor and 4 civilians. He asked me to open the Office of the Public Works which I did. He examined all documents, correspondence, files etc., He asked me to produce the keys for the locked desk drawers and steel cupboards. I told him that the keys were with the Engineers. Upon that he asked his people to smash and open drawers and cupboards. After this was done he inspected the contents. A new typewriter which was locked in one of the steel cupboards was put aside and was afterwards taken away. He also wanted to force open and inspect the luggage of WHO FAO and Customs personnel which was stored in this Office. After a long argument I managed to dissuade him from this and he finally agreed to allow me to remove it and store it in the Unesco Office. A list of this luggage is attached. He then locked the Office and took both the keys of the door with him.

Before leaving he came into my Office and enquired me about PW Projects. He asked the reason why the PW Engineers had run away. I told him that this was done because of the propaganda against the UN. He burst out laughing and told me that he is not against the UN but against their mode of action. "Take for instance the PW Projects. He said I hadn't seen anything done in this respect in the whole of the Province Orientale in spite of the millions spent, but now that I am the Minister of PW, I will see what can be done in this direction."

I also took advantage of this meeting to tell him that no protection of any kind is given to us. Out of 71 vehicles in our garage only 6 are now in circulation with the WHO, 29 were out of order and the rest has been taken by the Army and that he himself as a Minister of Health must realize that no transport will be available for doctors in case of their return. He said that in such a case the remaining 29 vehicles must be repaired. I told him that this cannot be done because all sorts of spare parts, wheels, tyres, batteries, etc., have been removed by the soldiers to be used on other cars.

(continued page 2)

I also raised the subject of the garage personnel employed by us such as drivers and mechanics 31 people doing nothing, coming to work when they please and not omitting to call for their pay and that in spite of my numerous interviews with the Inspector of Work to whom I reported these facts, I have not been allowed up to this moment to suspend them although there is no more funds to keep them, instead I have been threatened not only by the Inspector of Work but also by the Minister of Finance (Finance) Mr.SLAMBI Dominique who was present in one of my interviews with confiscation of the ONUC account if I do not carry on. -In this meeting Mr.SLAMBI asked me and I gave him the ONUC Bank account number.)

I went on to tell him that I will not cease to make all possible efforts in this direction.

Mr.KINGHIS as a matter of fact agreed with me that these people should be suspended and before he took his departure he promised to see the Inspector of Work and use his influence and see what could be done.

Monsieur le Vice-Consul,

Je me réfère à votre lettre du 17 août adressée au Chef du Personnel concernant quatre missionnaires norvégiens se trouvant à Stanleyville.

Je vous serais obligé de bien vouloir me donner de plus amples renseignements à leur sujet, en particulier leurs noms et l'adresse où éventuellement ils pourraient être contactés.

Veuillez agréer, Monsieur le Vice-Consul, l'expression de mes sentiments distingués.

REF.: 35.Norge.4.

Monsieur,

Je me réfère à l'entretien téléphonique de ce jour avec Monsieur COUTSINAS de la Division du Personnel "ONUC" concernant quatre missionnaires norvégiens se trouvant à Stanleyville depuis le 31 juillet 1964.

Le télégramme reçu a été expédié de Bangassou en République Centrafricaine par un missionnaire norvégien. Ce dernier signale qu'il est sans nouvelle des missionnaires qui se trouvent à Stanleyville.

Veuillez croire, Monsieur, à l'expression de mes salutations distinguées.

Monsieur le Chef du Personnel ONUC,
Building Royal,
1er étage.
LEOPOLDVILLE.
