Date : 27 May 95

HAC WEEKLY SITREP FOR WEEK ENDING 28 MAY 95

1. GENERAL SITUATION The situation in the sector remained stable with no major problems of Humanitarian nature evolving. The returnees continued to cross over to Rwanda from Uganda and Tanzania through the border checkpoints of Gatuna , Kagitumba and Buziba. Unregistered returnees continue to cross over from across Akagera river.

2. OWN HAC ACTIVITIES

- a. Monitoring of HAC activities within communes.
- b. Helped to reunite children from Gitarama orphanage with parents within communes on 20 May 95.
- c. Coordinated the move of 12 returnees from Byumba to Gisyeni on 22 May 95.
- d. Coordinated the transportation of food items from Kigali for the Rutare Sec School on 25 May 95.

3. GENERAL LIVING CONDITIONS

a. Food.

(i) Kiyombe commune is facing a food shortage and has requested for food aid.

(ii) In Mugambazi commune GTZ distributed the following to the locals , between 08 to 11 May 95:-

(aa) 03 Kg of Haricot Seeds per family.

(ab) 10 Kg of Maize per family.

(ac) 1/2 Ltr Cooking Oil per family.

2

b. Water.

(ii) Kivuye commune is facing an acute water shortage. There were three functional water pumps before the war. During the war the motor engines were stolen. They now need motors to operate the pumps.

(iii) There is an acute shortage of water in the Kibali commune, including the town of Byumba. The local rep ow WORLD VISION has requested help from CHAO for replenishment of water in a water storage bladder presently placed near the Byumba church.

c. Health Care.

(i) Muvumba commune lacks adequate medical facilities. The centre needs to be rehabilitated with extensive repairs being affected.

(ii) In Kivuye commune, the two health centres at Kivuye run by AMREF and at Bungwe run by CARITAS face identical problems of lack of resident medical practitioner, maternity facilities, laboratories and minor surgical theatre.

(iii) In Kiyombe and Cyongo communes there is a rise in the cases reported of worm infection. The health centres there requested for suitable medicines for treating these cases.

d. Housing. In Rutare commune 60 plastic roofing sheets are required urgently. These are to provide shelters for the returnees and IDPs.

e. Education. Primary Schools all over the prefecture face a shortage of teaching materials, furniture and trained staff. Some Sec Schools have opened. The school of Paramedics at Ngarama is functioning well with 90 students. They have requested for transportation to ferry food from Kigali.

f. Farming Activities.

(i) The unusually heavy rains have damaged the standing crops of three communes of Kiyombe, Mukarange and Cyongo. The potato crop has rotted away, the bean vines have started to rot and decay. The only crop that can be saved is that of Irish Potatoes, that too if insecticides and pesticides are sprayed urgently.

(iii) In some communes of the prefecture like Buyoga, the seed provided by CARITAS has resulted in 50% germination out of this almost 50% of the crop is affected by pests and insects. If these communes are not provided with adequate insecticides and pesticides they are likely to become dependant on food aid distribution.

g. Animal Husbandry. At Gituza the cattle accompanying the returnees numbering around 20,000 are dying at the rate of almost 100 per day. The B/Master has requested for urgent provision of a Vet doctor and medicines to save the depleting herd.

4. PEOPLE WITH SPECIAL NEEDS

a. Orphanages. No change.

b. Hospital. No change.

c. Handicap. No change.

d. Elderlies. No change.

e. IDPs.

(i) A total of 17 IDPs settled in Rutare commune lack food, seeds and farming implements.

(ii) IDPs settled elsewhere in the Prefecture also face problems of inadequate farming implements and seeds.

(iii) In Murambi Commune a group of 10 IDPs are still being held at the commune centre. The B/Master has stated that they will be allowed to go to their sectors only after being cleared of Genocide charges.

f. Refugees.

(i) Nyagatare Reception Centre has an average population of 450. Normal distribution of food continues.

(ii) Registration of Returnees at the Nyagatare Reception Centre has stopped wef 23 May 95 as the govt has decided that it is mandatory to have a rep from the Min of Rehabilitation present for the same.

5. RELATIONS WITH NGO'S

(i) At Giti Rhine Paratina donated 400,000 Frs to the commune for the schooling of school going orphans.

(ii) ADRA continues to maintain a storehouse at Matimba .

(iii) Kivuye commune received 3.029 pieces of axes , hoes and rakes each.

(iv) AFVP a French NGO has taken up a project to restore water to the commune . They are hampered due to paucity of funds.

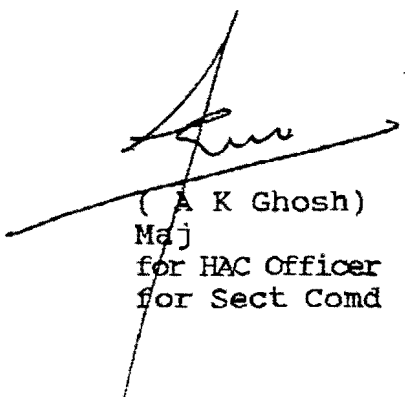

(v) In Mugambazi commune the B/master expressed dissatisfaction with the functioning of the Health Centre at Kajejuba run by Action Nord Sud. He was quite content with the running of Kyanza Health Centre by Refugee Trust Ireland.

6. RELATIONS WITH UN AGENCIES No change .7. RELATIONS WITH LOCAL AUTHORITIES No change.

8. CONCLUSION The gen sit in the commune remained stable. The flow of returnees has reduced to almost 200 returnees per day and 00 heads of cattle. The coordination of efforts with NGOs , UN gencies and the local govt authorities continue.

9. RECOMMENDATIONS The following must be urgently attended to as a prompt Humanitarian response:-

- a. Vet doctor with requisite medicines be despatched to Gituza at the earliest to save the cattle.
- b. Insecticides and Pesticides be provided alongwith spraying machines to the affected communes to save the remaining crops.
- c. Arrangement be made with UNICEF to supply water for replenishment of the water bladder placed at Byumba church.
- d. 60 Plastic Sheets for roofing be provided to Rutare commune.

HAC WEEKLY SITREP FOR WEEK ENDING 28 MAY 95

1. GENERAL SITUATION The situation in the sector remained stable with no major problems of Humanitarian nature evolving. The returnees continued to cross over to Rwanda from Uganda and Tanzania through the border checkpoints of Gatuna , Kagitumba and Buziba. Unregistered returnees continue to cross over from across Akagera river.

2. OWN HAC ACTIVITIES

- a. Monitoring of HAC activities within communes.
- b. Helped to reunite children from Gitarama orphanage with parents within communes on 20 May 95.
- c. Coordinated the move of 12 returnees from Byumba to Gisyeni on 22 May 95.
- d. Coordinated the transportation of food items from Kigali for the Rutare Sec School on 25 May 95.

3. GENERAL LIVING CONDITIONS

a. Food.

(i) Kiyombe commune is facing a food shortage and has requested for food aid.

(ii) In Mugambazi commune GTZ distributed the following to the locals , between 08 to 11 May 95:-

(aa) 03 Kg of Haricot Seeds per family.

(ab) 10 Kg of Maize per family.

(ac) 1/2 Ltr Cooking Oil per family.

2

b. Water.

(ii) Kivuye commune is facing an acute water shortage. There were three functional water pumps before the war. During the war the motor engines were stolen. They now need motors to operate the pumps.

(iii) There is an acute shortage of water in the Kibali commune, including the town of Byumba. The local rep ow WORLD VISION has requested help from CHAO for replenishment of water in a water storage bladder presently placed near the Byumba church.

c. Health Care.

(i) Muvumba commune lacks adequate medical facilities. The centre needs to be rehabilitated with extensive repairs being affected.

(ii) In Kivuye commune, the two health centres at Kivuye run by AMREF and at Bungwe run by CARITAS face identical problems of lack of resident medical practitioner, maternity facilities, laboratories and minor surgical theatre.

(iii) In Kiyombe and Cyongo communes there is a rise in the cases reported of worm infection. The health centres there requested for suitable medicines for treating these cases.

d. Housing. In Rutare commune 60 plastic roofing sheets are required urgently. These are to provide shelters for the returnees and IDPs.

e. Education. Primary Schools all over the prefecture face a shortage of teaching materials, furniture and trained staff. Some Sec Schools have opened. The school of Paramedics at Ngarama is functioning well with 90 students. They have requested for transportation to ferry food from Kigali.

f. Farming Activities.

(i) The unusually heavy rains have damaged the standing crops of three communes of Kiyombe, Mukarange and Cyongo. The potato crop has rotted away, the bean vines have started to rot and decay. The only crop that can be saved is that of Irish Potatoes, that too if insecticides and pesticides are sprayed urgently.

(iii) In some communes of the prefecture like Buyoga, the seed provided by CARITAS has resulted in 50% germination out of this almost 50% of the crop is affected by pests and insects. If these communes are not provided with adequate insecticides and pesticides they are likely to become dependant on food aid distribution.

g. Animal Husbandry. At Gituza the cattle accompanying the returnees numbering around 20,000 are dying at the rate of almost 100 per day. The B/Master has requested for urgent provision of a Vet doctor and medicines to save the depleting herd.

4. PEOPLE WITH SPECIAL NEEDS

a. Orphanages. No change.

b. Hospital. No change.

c. Handicap. No change.

d. Elderlies. No change.

e. IDPs.

(i) A total of 17 IDPs settled in Rutare commune lack food, seeds and farming implements.

(ii) IDPs settled elsewhere in the Prefecture also face problems of inadequate farming implements and seeds.

(iii) In Murambi Commune a group of 10 IDPs are still being held at the commune centre. The B/Master has stated that they will be allowed to go to their sectors only after being cleared of Genocide charges.

f. Refugees.

(i) Nyagatare Reception Centre has an average population of 450. Normal distribution of food continues.

(ii) Registration of Returnees at the Nyagatare Reception Centre has stopped wef 23 May 95 as the govt has decided that it is mandatory to have a rep from the Min of Rehabilitation present for the same.

5. RELATIONS WITH NGO'S

(i) At Giti Rhine Paratina donated 400,000 Frs to the commune for the schooling of school going orphans.

(ii) ADRA continues to maintain a storehouse at Matimba .

(iii) Kivuye commune received 3.029 pieces of axes , hoes and rakes each.

(iv) AFVP a French NGO has taken up a project to restore water to the commune . They are hampered due to paucity of funds.

(v) In Mugambazi commune the B/master expressed dissatisfaction with the functioning of the Health Centre at Kajevuba run by Action Nord Sud. He was quite content with the running of Kyanza Health Centre by Refugee Trust Ireland.

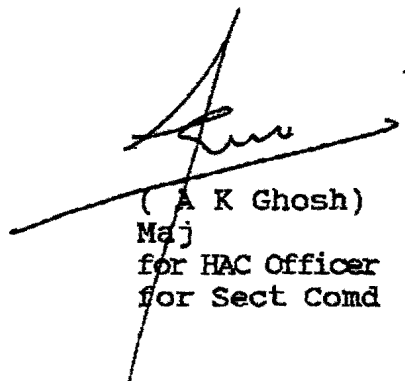

6. RELATIONS WITH UN AGENCIES No change .

7. RELATIONS WITH LOCAL AUTHORITIES No change.

8. CONCLUSION The gen sit in the commune remained stable. The flow of returnees has reduced to almost 200 returnees per day and 100 heads of cattle. The coordination of efforts with NGOs , UN agencies and the local govt authorities continue.

9. RECOMMENDATIONS The following must be urgently attended to as a prompt Humanitarian response:-

- a. Vet doctor with requisite medicines be despatched to Gituza at the earliest to save the cattle.
- b. Insecticides and Pesticides be provided alongwith spraying machines to the affected communes to save the remaining crops.
- c. Arrangement be made with UNICEF to supply water for replenishment of the water bladder placed at Byumba church.
- d. 60 Plastic Sheets for roofing be provided to Rutare commune.
