Dear Mary,

Since we are working with Richard to record the generic video message on energy, our suggestion is that we could use this for the Vienna energy forum. We think this is preferable to sending a representative, as Kande Yumkella (the invitee) takes the leadership as SRSG designate.

Best,
Poorti

DIRECTOR GENERAL

28 February 2013

Dear Secretary-General,

I have the pleasure to invite you to deliver a statement at the opening ceremony of the third Vienna Energy Forum entitled "One Year after Rio+20 – The Energy Future We Want" to be held at the Hofburg Imperial Palace from 28 to 30 May 2013. For the third time this biennial event is jointly organized by the Government of Austria, the International Institute for Applied Systems Analysis (IIASA) and UNIDO.

As you may recall, the Vienna Energy Forum 2011 was attended by over 1,200 participants from 128 countries consisting of leading energy experts, high-level policymakers and representatives of governments, international organizations, civil society and the private sector. Mr. Schwarzenegger, the former Governor of California, delivered the keynote address alongside 103 high-level speakers that contributed to the dynamic and critical debate. We are expecting the VEF 2013 to be of the same scale and importance.

I would be honoured if you were to accept my invitation to join our discussion on the energy challenges in the framework of the Rio+20 outcome document. For more detailed information, please refer to our forum website www.viennaenergyforum.org.

Yours sincerely.
