JUN 19 1963

ACTION

19 June 1963

To: Mr. S.H. Ahmed, Chief Civilian Operations

From: M.D. Chaturvedi, Chief FAO Mission

Subject: Training and Fellowships

Please refer to your letter of June 13, 1963.

2. The statement attached is at best just an estimate for years 1964 onwards. There is no knowing of the number of students that join a course; nor is it possible to guess the number that will pass out. Sometimes, students return from abroad without completing their course. Thus, 3 students sent to Luxembourg for one year returned after 3 months without finishing the course. Defections from courses counted locally are not uncommon.

3. In this connection it is necessary to point out that the services of students after their training abroad are not fully utilized. Thus, 13 men trained in Holland in Community Projects were allowed to be lost.

4. Training in agriculture is not popular with the Congolese. It will be seen that there was just one University graduate in Agriculture in 1960. And, by 1966, the number of graduates is not likely exceed 6.

5. The list includes also fellowships obtained bilaterally by the FAO.

18 June 1963

To : Dr. M.D.Chaturvedi, Senior Consultant, FAO
From : S. Habib Ahmad, Chief of Civilian Operations
Subject : Exports from the Congo

... 1. Attached is an interesting statement showing comparative figures of exports of main products in the Congo for the years 1958 through 1962 with estimates for 1963.

2. As we are naturally interested in helping the Congolese Government in the restoration of the level of exports at the pre-Independence level as soon as possible, to provide the much needed foreign exchange for the rehabilitation of the economy, I should be grateful if you would kindly examine the figures with respect to the agricultural products and advise me on measures which can be taken through the various services of the Civilian Operations to step up production levels of items in which marked decreases have taken place.

3. I do, of course, realize that some part of production is smuggled out of the country and does not appear in the official export figures. However if, according to your information, there has been a decrease in the production proper you may wish to send your comments to me on this point with proposals as to measures which might be taken to restore the production capacity.

4. You will note that rice is not included in the attached tabulation but you may wish to send me your comments upon this item as well.

14 June 1963

TO: James R. Brooks, Deputy Chief, Civilian Operations
FROM: Alexander Stathis, Statistics and Reports Officer *AS*
SUBJECT: Estimates of Exports 1963

In reply to your note of 1 June, I submit herewith a table showing the evolution of exports of main products during the years 1958-1962, with the estimates of the Monetary Council for 1963.

However, from the activity of the first four months of the current year, these estimates appear to be rather unrealisable for the following two reasons:

- a) The exporters, in view of the expected devaluation, have to some extent suspended their activity;
- b) The emerging difficulties of the internal transport system, which seems to be deficient (OTRACO), play, to a certain extent, a suspending role.

Exports of main products

(In million C.F.)

Products	1958	1959	1960	1961	1962	1963 (Estimates)
Coffee	2.055	1.914		660	674	870
Rubber	850	1.113		1.072	964	730
Cotton	1.027	1.369		429	238	450
Tea	76	123		1	89	84
Palm oil	1.680	1.883		1.516	1.298	1.941
Palmistes	1.100	1.188		621	503	858
Timber	391	418		407	305	340
Oil cakes and palm almonds	229	312		152	134	59
Cocoa	201	144		114	114	38
Diamonds	-	1.725		40	371	1.550
Gold	-	557		62	286	390
Tin bearing ore (cassiterite)	-	741		365	736	770

18 June 1963

To : Dr. M.D.Chaturvedi, Senior Representative, FAD
From : S. Habib Ahmed, Chief of Civilian Operations
Subject : Supply of seeds for the Congo

I have not yet received any reply from the Ministry of Agriculture to my letter in which I asked them to advise me of the Ministry's estimates for seeds required for the sowing of the forthcoming crops in the country. I should be grateful if you would kindly let me know the present position in this respect and whether, in your view, agricultural production was likely to be affected for lack of seeds for the coming season.

M

NOTE ON SEED SUPPLY FOR KASAI

1. Sowing Season: November-December.
2. Traditional Food Crops: Maize (119,902 tons)
Paddy (29,055 tons) and
Manioc (1,738,400 tons).
3. The amount of seed asked for in June 1962: (Pachum)
Groundnuts 1,360 tons
Beans 472 tons.
4. Quotation of cost received: US \$588,456
5. Suppliers: (i) Bertrand, B.P. 553, Léopoldville
(ii) CASEIRO, Léopoldville.
6. In January 1963 another request was made for seed (Min. Agriculture)
supply:

Groundnuts 700 tons
Haricot beans 1,400 tons (35,000 Hg.)

Total Cost: US \$561,449.

7. It is not understood why beans and groundnuts should be imported at this juncture and valuable foreign exchange spent, and traditional crops of manioc and maize not relied upon.

Ref: Civops 521/63

16 June 1963

TO: G. Fulcheri, Personnel, Civilian Operations Section
FROM: James R. Brooks, Deputy Chief, Civilian Operations
SUBJECT: Extensions of Agricultural Experts

Mr. Chaturvedi is requesting the extensions of the following officers to 31 December 1964 in order to permit these officers to take their home leave and, at the same time, comply with the rule that they have 6 months for single men and 12 months for married men after their return to active duty:

J.P. Bonett
O. Ornosija
M.E. Dupuy
J.A. Spatrisano
P.J. Visser
E. Wiget

Of these men, Mr. Bonett, Mr. Dupuy and Mr. Wiget were financed by EPTA during 1963.

Now that the freeze has been taken off of the recruitment I recommend that action be taken to extend the contracts of these men as requested.

MEMORANDUM

16 May 1963

TO: Mr S.H. Ahmed, Chief of Civilian Operations
FROM: M.D. Chaturvedi, Chief, FAO Mission *M.D. Chaturvedi*
SUBJECT: Extensions

Attention is invited to my letter dated 11 March 1963 in which I requested the extension of certain officers only up to 31 December 1963 due to the fact that the budget sanction was available only up to that date.

2. Now I find that not one of these officers can avail themselves of the leave due to them because by the time they return from their holidays they will not have six months and twelve months to go for single men and those accompanied by their wives respectively.

3. In view of the fact that the new entrants are being recruited for a period of two years, I will be obliged if you will kindly accord your approval for the extension up to 31 December 1964 of the following officers:

* J.P. BONETT ✓
O. CRNOSIJA
* M.E. DUPUY ✓
J.A. SPATRISANO
P.J. VISSER
* E. WIGET. ✓

15 June 3

To: Mr. M.B. CHATURVEDI, Chief PAC Consultant, Léopoldville
Copy: Mr. S. HABIB AHMED, Chief of Civilian Operations, Léopoldville
From: H.B. PACKHAM, Chief Civilian Affairs Officer, Luluabourg
Subject: Urgent requirements for Government Farm at Lodja (Sankuru province)

Mr. TOUSSAINT, veterinary expert of the Belgian Technical Assistance at present stationed at Lodja, has requested a supply of at least 500 and if possible 1,000 cc of vitamine A in solution for intramuscular injection at the dosage of 200,000 v.i. or more per cc. He has informed me that this drug is essential as the calves are dying at the rate of 20 a month. Also that this particular drug is the only effective one.

2. I realize that the application should be founded through the provincial to the Central Government. However, in view of the emergency nature of this request and in view of the existing political crisis in Lodja (the President of the provincial government and the minister of agriculture have both been arrested), I would be grateful if this drug could be obtained through your office and forwarded to me for delivery as soon as possible to Mr. TOUSSAINT.

Post Descriptions of Experts

under

Project 01-01 - Central Advisory Services

1. Senior Consultant

A senior officer with considerable administrative experience. He will act as an adviser to the Central Ministry of Agriculture on matters pertaining to administration, organization and coordination of agricultural activities in the country. He will arrange for the training of the Congolese personnel in the country with a view to replacing foreign experts in due course. He will be responsible in general for technical assistance in its scope, nature, extent and financial aspect. He will act as an adviser on the national agricultural program and policy, and will coordinate bi-lateral assistance, if any.

2. Agricultural Extension Officer

A general purposes agronomist with considerable experience of agricultural extension, seed selection and multiplication, horticulture, vegetable culture, demonstration of fertilizers etc. He will be in charge of extension projects in the Provinces, more particularly those financed by counterpart funds. He will advise on the management of paysannats.

3. Marketing Expert

An agricultural economist with considerable experience of internal marketing. He will make himself generally useful to the organization set up by AID for the distribution of food imported from the USA under Title II. In addition, he will look into the question of food grains, their production and distribution.

4. Commodities Expert

An expert with considerable experience in the export of agricultural commodities such as cotton, coffee, cocoa, rubber etc. He will assist para-statal organizations set up in the Congo for dealing with these commodities, in particular, their export.

5. Cooperatives and Credit Expert

An expert with considerable experience in agricultural cooperatives. He will assist in the revision of cooperative legislation and the registration of cooperative societies, and generally supervise and coordinate the activities of experts in cooperation provided in the Provinces. He will advise on the running of the existing cooperative societies.

In addition to the above-mentioned duties, he will assist in effecting close coordination with the Central Ministry and act as a deputy to the Senior Consultant.

6. Expert in Agricultural Research (INEAC)

An agronomist with considerable agricultural research experience who will act as an adviser to the Director-General of INEAC. He will assist in coordinating agricultural research at various centres and generally advise on the need for modulating current research to the needs and available resources of the Congo.

7. Animal Husbandry and Production Expert

He will be in charge of the Training Centre established at Mikondo for the training of the Congolese in poultry and swine keeping. In addition, he will be responsible for improvising equipment for the trainees in poultry and swine keeping when they return to their villages.

4

8. Agricultural Engineer

An expert who will be in charge of the Farm Mechanics Training Centre. In addition to his duties at the Centre, he will also coordinate and supervise the work of farm mechanics provided in various Provinces.

9. Veterinary Training Expert

A veterinarian provided for the training of Congolese in animal health and production at the University of Lovanium. He should have at least 5 years of teaching experience.

He will also advise on veterinary science and animal health problems in the Provinces.

le 12 juin 1963

Cher Monsieur

Chafurvedi

J'ai eu plusieurs discussions avec le Bureau de la Coordination économique sur la question des procédures à adopter pour la préparation du programme d'assistance technique pour l'année 1964. Contrairement aux dispositions qui ont été appliquées jusqu'à présent pour le Gouvernement de la République du Congo, il est maintenant proposé que, pour l'année 1964, le programme soit élaboré par le Bureau de la Coordination économique, en accord avec les Ministères intéressés du Gouvernement, et qu'il soit soumis aux Opérations civiles comme la demande officielle du Gouvernement congolais. Le Bureau de la Coordination économique espère, naturellement, que les Chefs des Agences spécialisées et les Conseillers principaux aideront à la préparation des documents nécessaires et que, d'une façon générale, ils agiront en tant que conseillers pour toutes questions touchant aux aspects techniques des projets que le Gouvernement pourra proposer d'inclure dans le programme de 1964.

Sur la base des documents déjà soumis aux Opérations civiles pour le programme de l'année 1964, Messieurs Brooks et Gilpin préparent actuellement les bordereaux de soumission des projets s'y référant, lesquels constitueront les demandes de soumission de projets du Gouvernement congolais. Ces bordereaux de soumission seront envoyés au Bureau de la Coordination économique pour consultation avec les ministères intéressés qui comportent des programmes bilatéraux et les représentants des pays donateurs. Une fois les consultations terminées, un programme définitif sera établi par le Bureau de la Coordination économique et soumis aux Opérations civiles pour examen et action nécessaire.

La date limite de soumission aux Opérations civiles du programme complet pour l'année 1964 par le Bureau de la Coordination économique a été tentativement fixée au 1er juillet 1963. Je vous serais très reconnaissant de l'aide que vous voudrez bien apporter à MM. Brooks et Gilpin pour leur permettre de préparer d'une manière aussi compréhensible que possible les bordereaux de soumission de chaque projet. Tous deux se mettront en rapport avec vous pour l'établissement, avec votre collaboration, de ces projets de soumission.

Veillez agréer, cher Monsieur
meilleurs sentiments.

Chafurvedi

l'assurance de mes

S. Habib Ahmed
Chef des Opérations civiles

Cher Monsieur Chaturvedi,

Faisant suite à votre lettre du 16 mai 1963, concernant l'octroi de licences d'importation pour de nouveaux tracteurs ainsi que de pièces de rechanges et de pneus, j'ai le plaisir de vous en faire savoir que le Bureau de Coordination Economique avait suggéré au Ministre de l'Economie Nationale d'octroyer les quotas suivants :

Firmes	Pourcentage (environ)	Montant en \$
CHANIC	58,1	444.742
CEAC	5,2	40.000
MATERNACO	5,2	40.000
H.A.H.V.	5,2	40.000
CEGEAC	5,2	40.000
BIA	5,2	40.000
SEDEC	5,2	40.000
CONGO MOTOR (Eville)	5,2	40.000
CEGEAC (Eville)	5,2	40.000
	99,7	Total: 764.752 \$

M. M.D. Chaturvedi
 Chef,
 Mission FAO.
 Léopoldville

...

Je regrette de vous annoncer que pour le moment aucun quota n'est en vue pour l'importation de nouveaux tracteurs.

Une étude concernant l'importation de matériel lourd pour le secteur des Travaux Publics et probablement forestier est en cours. Je ne manquerai pas de vous aviser des résultats ultérieurement.

En ce qui concerne les quotas pour les insecticides ainsi que les médicaments vétérinaires, il me ferait plaisir de recevoir vos recommandations en la matière.

Veuillez agréer, cher Monsieur, l'assurance de mes sentiments les meilleurs.

SHEET

OF

I. Project Description - General Objectives and Plan of Work

The Republic of Congo, Leopoldville, has requested and AID has agreed to furnish certain technical assistance in planning, establishing, and operating technical agricultural schools, agricultural extension and the application of agricultural research in connection with the overall agricultural development in the Congo. The services of technicians will be obtained through a contract with the Agricultural Technical Assistance Foundation, Inc.

A. Technical Agricultural Schools

1. The basic objectives for the establishment and operation of the technical agricultural schools will be to provide technical education for rural area youth (five to ten year^{academic} level) so that they may be in a position to guide and assist in current and future agricultural development at the village or rural community level. The educational program will be patterned after the American secondary education program in vocational agriculture having terminal education objectives. The Educational program in the schools will be aimed at preparing students through three years of intensive agricultural training in the classroom and practical experience in laboratories and on school farms to engage successfully in production agriculture and serve as practicing farm leaders and demonstrators in their home agriculture oriented environment when graduated.

I. Description du Projet - Objectifs Généraux et plan de travail.

A la demande de la République du Congo Léopoldville, AID a agréé de fournir une certaine assistance technique pour planifier, établir et diriger des Ecoles Techniques d'Agriculture, un développement agricole et la mise en pratique des recherches agricoles, en rapport avec le développement agricole général du Congo. Les services de techniciens seront obtenus par un contrat avec l'Agricultural Technical Assistance Fondation, Inc.

A. Ecole technique d'agriculture.

1. L'objectif essentiel de l'établissement et du fonctionnement des écoles techniques d'agriculture, sera de donner une éducation technique aux jeunes des régions rurales (du niveau scolaire de cinq à dix ans d'études) de manière à les rendre capables de guider et d'assister le développement agricole actuel et futur au niveau du village, ou de la communauté rurale. Le Programme d'éducation sera modelé d'après le programme d'éducation secondaire en agriculture des Ecoles Professionnelles Américaines. Il aura pour but de préparer les étudiants, grâce à trois ans de formation agricole intense, soit en classe, soit par des expériences pratiques en laboratoire et dans des fermes écoles, à s'engager avec succès après avoir obtenu leurs diplômes dans la production agricole, et de servir comme "Leaders" actifs, et comme démonstrateurs, dans leur propre milieu agricole.

Clearances: Educ. Advisor <i>[Signature]</i>	2. A secondary objective of the technical agricultural schools will be to prepare adequately a limited number of students with a superior demonstrated abilities to continue their education by enrollment in a University level occupation-centered curriculum in agriculture or agriculture teacher training in the Cooperating Country or abroad. 3. A supplementary objective of the technical agricultural schools will be to provide ^{up to} three-month duration short-course type of training in various fields of production agriculture for selected rural area agricultural youth and adults. Short-course participants will be resident students at the technical agricultural schools during their period of training. The short-course instruction program will operate concurrently with the three-year program of resident instruction.	2. L'objectif secondaire de ces écoles techniques d'agriculture sera de préparer convenablement un nombre limité d'étudiants, faisant preuve de qualités supérieures, à continuer leurs études en les inscrivant dans une école de niveau universitaire orientée vers l'agriculture, ou en leur donnant une formation de professeur d'agriculture, soit dans la pays coopérateur, soit à l'étranger. 3. Un objectif supplémentaire de ces écoles techniques d'agriculture sera de donner une formation dans les différents domaines de la production agricole, sous forme de cours jusqu'à trois mois, pour les jeunes gens et les adultes d'une région rurale sélectionnées; les étudiants qui suivront cet enseignement de courte durée, seront internes dans les écoles d'agriculture, durant leur période de formation. Ce court programme d'instruction aura lieu en même temps que le programme normal de trois ans.

6. The Contractor ~~through its best efforts~~ will assist in the selection and special training of a Congolese staff to take over the technical agricultural schools within the earliest reasonable time so that complete operational, administrative, and fiscal operating responsibility can be assumed by the Cooperating Country or such public or private agency it designates.

7. The Contractor will assist and advise in the selection of students for study best qualified to meet the needs of the total program objectives.

B. Agricultural Extension

While the Contractor will not assist in the planning, implementation, operation and administration of a country-wide agricultural extension service, the Contractor will advise and assist on a continuing basis graduates of the technical agricultural schools, both three-year program and short course, who are actively engaged in production agriculture to serve more effectively as agricultural community or village leaders; demonstrators of new improved practices; and part-time teachers of agricultural youths and adults. The graduates will be expected to render such service to their country as a public service and civic responsibility and as an obligation to repay through such service the investment made in their education by the Cooperating Country or others in its behalf.

6. L'Organisation contractante aidera à sélectionner et à former un personnel congolais qui sera appelé à diriger les écoles techniques d'agriculture aussitôt que possible, de manière à ce que l'entière responsabilité de direction fonctionnelle, administrative et financière puisse être assumée par le pays coopérateur, ou telle agence publique ou privée qu'il dirigera.

7. L'Organisation Contractante fournira son assistance et ses conseils au sujet du choix des étudiants les mieux qualifiés pour l'accomplissement des objectifs de l'entière du programme.

B. Développement Agricole.

Bien que l'Organisation Contractante n'aidera pas la planification, la réalisation, le fonctionnement et l'administration d'un programme de développement agricole à l'échelle nationale, elle sera tenue de conseiller, et d'aider, sur une base continue, les diplômés des écoles techniques d'agriculture (ceux du programme d'études de trois ans, et ceux du programme de courte durée) qui sont activement engagés dans la production agricole, à servir plus efficacement en tant que "Leaders" de village ou communautés agricoles; démonstrateurs de méthodes nouvelles, et professeurs à mi-temps pour les jeunes et les adultes. On attend des élèves diplômés qu'ils rendent ce service à leur pays, comme étant d'utilité publique et de responsabilité civique; et ce faisant qu'ils remboursent l'investissement fait pour leur éducation par le pays coopérateur ou d'autres à leur place.

C. Application of Agricultural
Research

1. The Contractor's staff, through their close association and contact with the agricultural youth enrolled in the technical agricultural schools, continuing contact with school graduates and village and community level agricultural leaders and in coordination with the appropriate technical divisions of AID, will assist and advise the Cooperating Country in determining the need for specific studies and research needed to solve major problems of the Congolese farmers.

2. The Contractor will assist in taking the available findings and results of the agricultural research laboratories, experiment stations, etc. already established in the Congo and where applicable incorporating it into the instruction program in applied form at the technical agricultural schools and in the agricultural extension program in the rural areas.

C. Mise en pratique des Recherches
Agricoles.

1. Par son étroite association et ses rapports avec la jeunesse agricole inscrite dans les écoles techniques d'agriculture d'une part, ses contacts permanents avec les diplômés "Leaders" Agricoles de village ou de communautés d'autre part, et en coordination avec les divisions techniques de AID, le personnel de l'organisation contractante pourra aider et conseiller le pays coopérateur à déterminer les études spéciales et les recherches nécessaires pour résoudre les problèmes majeurs des fermiers congolais.

2. L'Organisation Contractante aidera à rassembler les découvertes et les résultats des laboratoires de recherches agricoles, des stations expérimentales, etc., déjà établis au Congo, et lorsque besoin en est, les incorporera au programme d'instruction appliquée des écoles d'agriculture, et au programme d'expansion agricole des régions rurales.

Dr. Robert L. West, USAID Director

ICA-10-5A (7-55) PRO AG ANNEX	PROJECT AGREEMENT BETWEEN ICA AND AID Congo Polytechnic Institute AN AGENCY OF THE GOVERNMENT OF Republic of Congo with concurrence of U.N. Civilian Operations in the Congo	1. PROJECT NO. 660-A-11-AB		3. ORIGINAL <input checked="" type="checkbox"/>
		2. AGREEMENT NO.		REVISION NO.
		ANNEX	SHEET 6	SHEET OF

Under the terms of the documents listed below a total of \$2,084,684 has been provided for project implementation :

PIO/T 660-11-023-3-19004
PIO/T 660-A-11-AB-3-20008 (2)
PIO/T 660-A-11-AB-3-30014

Working in cooperation with the Congo Polytechnic Institute, an agency of the Congolese Government, the Contractor has established and staffed three Agricultural schools as well as started negotiations for establishing a fourth school (subject to USAID approval). A total of 84 students are enrolled in the three-year intensive agricultural training courses at the three schools. Student houses and classrooms are being constructed as required. Equipment, machinery and other commodities purchased under terms of the contract are arriving at the school sites and are being utilized in the training programs. Over 25 farmers have received short-course village-level training in response to various specific local problems in agricultural production, poultry, and cattle raising. Liaison has been established with the INEAC (Institute Nationale pour l'Etude Agronomique du Congo).

III. Nature of AID Contribution

AID is specifically obligated to provide dollars 300,000 for continuation and extension of the contract with ATAF for services as defined in contract ICAC-2146, as amended. These funds will fully fund the contract extension through December 1964.

FOR THE COOPERATING AGENCY

Dr. Albert Badre, Director
Bureau of Economic Coordination

Aux termes de documents suivants, une somme totale de 2.084.684 dollars a été fournie, pour la réalisation du projet :

PIO/660-11-023-3-19004
PIO/T 660-A-11-AB-3-20008
PIO/T 660-A-11-AB-3-30014

L'Organisation Contractante, en coopération avec l'Institut Polytechnique du Congo, Agence du Gouvernement Congolais, a fondé trois écoles d'agriculture, dont elle a fourni le personnel, et a entamé des négociations dans le but d'en établir une 4ième (sujet à l'approbation de AID). Au total, pour les trois écoles, 84 étudiants sont inscrits aux cours de formation agricole intensifiée de 3 ans. Des logements pour les étudiants et des salles de classes sont en construction comme prévu. De l'équipement, des machines et d'autres matériaux achetés suivant les termes du contrat arrivent sur les lieux des écoles et sont utilisés pour le programme de formation. Plus de 25 fermiers ont suivi des cours de trois mois au niveau de formation de village traitant de divers problèmes spécifiques locaux, dans les domaines de la production agricole, l'apiculture, l'élevage du bétail. La liaison a été établie avec l'INEAC (Institut National pour l'Etude Agronomique du Congo).

III. Nature de la Contribution de l'AID.

L'AID, est spécifiquement obligée de fournir 300.000 dollars pour la continuation et l'extension du contrat avec l'ATAF pour services comme définis au contrat ICA.2146 comme modifié.

Ces fonds, couvriront le financement total de l'extension du contrat jusqu'en décembre 1964.

		ANNEX	SHEET 7 OF

IV. Cooperating Country Contribution

A. The C.P.I. as an institution of the G.O.C. agrees to provide local facilities and local costs not provided for by the AID Contract with ATAF.

B. Local Construction, Labor and Materials Costs

Under the provisions of this agreement, 11,050,000 C.F. shall be made available to cover local capital costs (Block 9d) for labor and materials for construction of additional permanent housing, classrooms, shops and farm buildings, as may be agreed upon by CPI and USAID for inclusion in the contract. These funds emanate from local currency generation from PL 480 Title I Commodity sales and in accordance with UNOC/GOC agreement are to be transferred to a U.S.A. Trust account to cover stated costs.

V. Contributions from Other Sources

Outside of the services and materials financed by AID through the contract with ATAF, the ATAF will provide additional services and materials as stated in Contract AIDC-2146 as amended.

VI. Refunds

In the event that AID shall determine that any funds provided by AID under this agreement shall not have been utilized in conformity with the purpose and terms herein specified, AID shall so advise the Government

IV. Contribution du Pays Coopérateur.

A. L'Institut Polytechnique Congolais, en tant qu'institution du Gouvernement Congolais accepte de fournir les facilités locales et de support les frais locaux non couverts par le contrat de l'AID avec l'ATAF.

B. Constructions locales, main d'oeuvre et matériaux locaux.

Dans le cadre du présent accord, 11.050.000 F.C. seront disponibles pour couvrir les frais locaux (Block 9d) de main d'oeuvre et de matériaux pour la construction de logements permanents supplémentaires, de salles de cours, comme il peut être convenu CPI et USAID et être inclus dans le contrat. Ces fonds proviendront de constitution en monnaie locale des ventes de marchandises du Titre I de la loi publique 480 et, conformément à l'accord entre le Gouvernement Congolais et les Nations Unies, seront à transférer à un compte au nom des Etats-Unis d'Amérique pour couvrir les frais mentionnés ci-dessus.

V. Construction d'autres Sources.

En dehors des services et matériaux financés par l'AID grâce à son contrat avec l'ATAF, l'ATAF fournira des services et matériaux supplémentaires comme stipulé au contrat AIDC-2146, modifié.

VI. Remboursements.

Si l'AID déterminait que des fonds fournis par l'AID dans le cadre du présent accord n'ont pas été utilisés conformément à l'objet et aux clauses du dit accord, l'AID en informera le Gouvernement Congolais en précisant le montant et le Gouvernement Congolais en remboursera immédiatement l'AID.

01-01

CivOps 362/63

3 June 1963

Dear Mr. Sen,

I have been discussing the Civilian Operations programs with Government authorities here and with the Chief of Civilian Operations, and the representatives of the Specialized Agencies.

As a result of the discussions, and with the concurrence of the Secretary General, I decided to address a letter to the Prime Minister on the future financing of the operations. I enclose for your information a copy of the letter addressed by me to Mr. Adoula. The letter is self-explanatory. Messrs. Corsinville and Ahmed later accompanied me to the Prime Minister's office in order to discuss with him the proposals made in the letter.

The Prime Minister in his talk with us on the proposals, expressed his serious concern over our financial difficulties and offered to collaborate with us in obtaining contributions to the Congo Fund. He stated, however, that we could not lose our place for the implementation of the programs on hopes of receiving additional contributions to the Congo Fund and, being anxious to ensure the continuation of the 'very helpful' work being done by the United Nations and the Specialized Agencies, he has assured us that the Congolese Government will be prepared to establish a Trust Fund for the purpose referred to in my letter.

The details relating to the Trust Fund will soon be discussed between us and the Government but as you will note from my letter to the Prime Minister, the fund will be limited to the financing of the operational services.

It is needless for me to point out that the finances of the Congolese Government are not very buoyant. This being so, the Prime Minister's decision to guarantee the deficit in the Congo Fund is evidence of his confidence in the work being done by the United Nations and the Specialized Agencies. I, therefore, hope that insofar as the programs of your organization is

... 2

Mr. Binoy Ranjan Sen
Director-General
Food and Agriculture Organization

surrounds you would kindly explore all possible means of lessening the financial burden which would otherwise have to be borne by the Congressmen themselves. I look forward to hearing from you in due course on the details of posts included in your current programs which can be financed by your organization in 1963 and 1964.

With much appreciation for your kind cooperation,
