Objet: cessation d'activité d'HSF au Rwanda

Monsieur le Directeur de Cabinet

Notre projet concernant l'Hôpital de Nyanza ne pouvant pour le moment être modifié faute d'avoir trouver les fonds nécessaires, Hôpital Sans Frontière n'aura plus de personnel présent au Rwanda à compter du 18 Avril 1995. Cette décision prise sous la contrainte économique ne signifie en aucun cas une volonté de désengagement dans votre pays. Nous continuons à mener des démarches en Europe à fin d'obtenir les fonds nécessaires à une action à plus long terme. IMC qui travaille actuellement à Nyanza a accepté de nous transmettre les courriers qui pourraient nous être adresser et vous transmettra les propositions que nous serons amener à vous faire.

Le matériel chirurgical est actuellement stocké à Nyanza, HSF propriétaire de ce matériel en fera Don à l'Hôpital dans un délais de six mois (15 Octobre 1995), à moins que vous souhaitiez le développer ailleurs. Si HSF a l'utilisation de ce matériel dans un autre établissement de votre Pays, une compensation financière a été prévue pour la location de l'entrepôt.

L'Hôpital de Nyanza étant une structure permanente, une partie du matériel développer à Cyangugu n'y a pas d'utilité, ce matériel a été redistribué à des ONG travaillant au Rwanda. Les consommables ont été dispersés pour éviter des gaspillages dus aux dates de péremption qui touchent ces produits. Ces Dons ont été fait prioritairement dans la région sanitaire : Hôpital de Nyanza (via IMC), Hôpital Universitaire de Butare ...

Il reste actuellement à Nyanza tout le matériel d'équipement pour un service de chirurgie générale et orthopédique. HSF souhaite pouvoir mettre en oeuvre ce matériel, nous avons assuré une prestation médicale de qualité, reconnue par l'ensemble de nos partenaires, durant la période d'urgence. HSF ayant une grande habitude dans des actions de réhabilitation, nous aimerions pouvoir en faire la démonstration dans votre pays dans le cadre d'une action de développement. Les bailleurs de fonds potentiels nous ont fait savoir que dans le cas d'un accord de principe de votre part notre dossier serait examiné prioritairement et aurait de très forte chance d'aboutir.

Veuillez agréer, Monsieur, l'expression de toute ma haute considération

Guillermit Hervé représentant HSF au Rwanda

Kibeho Camp Situation Update

KIGALI, RWANDA — The UNAMIR Force Commander, Maj.-Gen. Guy Tousignant visited the Kibeho Camp and Butare today. He met with Ministers of the Rwandese government, officers of the Rwandese Patriotic Army monitoring the situation and representatives of various UN agencies and Non-Governmental Organizations. After taking a more scientific count of the number of deaths, the figure has been revised to approximately 2,000. The number of wounded and injured is estimated at more than 600.

The Australian Medical team has been in operation throughout the day treating casualties at the camp and has been assisted by Zambian Company soldiers in triage assessments. The Zambian soldiers have also provided humanitarian assistance to those in need and also provided sanctuary to approximately 250 abandoned children at their location inside Kibeho Camp.

UNAMIR military observers have been providing escort to internally displaced persons as they make their way to their home communes. UNAMIR vehicles continue to be available to assist in the transport of these people. Medical centres and relief way stations have been set up along the route to provide assistance as required.

It should be noted that throughout the events of the past few days, and particularly in the incidents of yesterday, that while in extremely difficult situations, Zambian soldiers inside the camp did not fire a single shot.

Presently it is estimated that a few thousand people remain inside a compound within the camp and do not wish to leave.

Note to editors: For more information, please contact Ismael Diallo, UNAMIR Spokesperson in Kigali at (212) 963-3582, ext 11075 or the UNAMIR Military Spokesperson, Lt(N) Kent Page at (212) 963-3582, ext 11124.

MEDICAL BRANCH HQ UNAMIR

Clinical Situation

1. AUSMED is unable to provide a clear estimate of casualty figures. A UNAMIR figure is 2 000 deaths and wounded as more than 600. AUSMED and ZAMBATT undertook triage. A few thousand (presumably not wounded) remain inside a compound within the camp.
2. Not possible to make clear assessment as CCP teams were not allowed access to all areas, some casualties have hidden, and some moved by RPA. however overall it is still a mass casualty situation. Sporadic firing continued all afternoon.
3. Casualty types remaining were primarily gunshot and machete wounds. Gunshots were often short range. All seen are surgical cases. The survivors have progressed as follows:
 - a. Torso head injuries now assessed as priority one. ✓
 - b. Extremity injuries priority two. ✓
 - c. Few priority three seen - assumed they have walked out. ✓
 4. Few young males and few children wounded have been seen.
5. It appears that some that hid are now coming in for care and a steady state situation exists. Casualties are not flooding the facility.
6. The key shortfall remains surgical capacity.

Plan for Tomorrow

7. Following a fresh assessment of the situation at first light. Med Br will request that UNAMIR will continue with the provision of veh and RW Acft for movement of casualties from KIBEHO. Note that one RW acft aircraft is expected and no FW air from BUTARE.
8. IOC can request UNAMIR veh for movement of cas BUTARE - KIGALI
9. Support in KIGALI will be as discussed.
10. CCP will return tomorrow but as NGO take over UNAMIR commitment will become less significant.

- 1.
2. MALICOY phone extension is 11238. First you must ring the UNAMIR switchboard Rwandatel 84270
3. I understand that you require a list of the structures/clinics that each Bn provides support to. I should be able to provide this from the information I currently hold.
4. I understand that you are planning to visit the Health Ministry in regard to TB and Malaria. Could you also enquire about the plan for long term support to insulin dependant diabetics.
5. I will be discussing the long term support plan for CHK. You should be aware that AUSMED will withdraw from the facility in Mid Aug 95. Our replacements will not use that facility - most likely King Faisal Hosp. As such, AUSMED will be requesting support for the period up to mid Aug - beyond that time the stores will be required for King Faisal. We are working on the plan that the replacements for AUSMED will be military and will maintain a large humanitarian support commitment.
6. To determine what AUSMED can use for humanitarian support for the next four months I would appreciate a list of what advanced items can be requested?

AAA PLEASE REALISE THE ATTACHED SENBATT REQUEST FOR STORES AS A MONTHLY ORDER. PLEASE NOTE MY MINUTE TO THE MEDICAL OFFICER REQUESTING THAT HE JUSTIFY A NUMBER OF THE ITEMS. I WOULD APPRECIATE YOUR PROVISION OF A SMALLER EMERGENCY SUPPLY OF THESE ITEMS.

BBB INSTEAD OF PROVIDING ALL THE STORES REQUESTED, I WOULD ASK THAT YOU SUPPLY APPROPRIATE STORES FOR A WEEK (IE: DIVIDE ORDER BY FOUR) TO BE AVAILABLE FOR COLLECTION PM 21 APR 95.

CCC PLEASE NOTE THAT THE MAJORITY OF PATIENTS ARE SEEN ON AN OUTPATIENT BASIS. WHEN CONSIDERING THE LARGE QUANTITIES OF STORES DEMANDED, IT SHOULD BE REMEMBERED THAT SENBATT IS RESTORING A WORKING STOCK. I HAVE REQUESTED THAT THE BATTALION REPORT ON THE ITEMS MOVED FROM KIBUYE TO BUTARE.

Subject: SENBATT REQUEST FOR WEEKLY HUMANITARIAN MEDICAL
SUPPLY FROM PHARMACIENS SANS FRONTIERES

1. G4 Med received the request for PSF Resupply from SENBATT dated 17 Apr 95 yesterday. Two significant problems with the order exist as follows
 - a. The quantities and range of some items requested on the list do not coincide with either the weekly work load or actual type of support provided. I understand that the patient numbers are increasing and that SENBATT is making a large contribution to the health support to Sector 4B. However, the health support resupply orders must be coordinated to adequately supply all users and PSF is not an inexhaustible resource.
 - b. The order appears to be for a period of a month. Please note that PSF orders are to be submitted to HQ UNAMIR Monday of each week for collection at the end of the week and consumption during the following week.
2. For Action SENBATT. Please ensure that normal PSF requests are for the quantity that are anticipated to be used in the next week. If special quantities of items are required for projects or to build up a reserve working stock, a justification is to be given on the Information Sheet in the "Additional Information" section. Please provide justification for the quantities of cotrimoxazole, nystatine, atropine and injectables generally. I note that only 1000 syringes have been ordered. If this indicates that a large quantity of syringes are already held from the Kibuye deployment (especially 2ml and 5ml sizes) could you please advise as these may have to be redistributed to other Battalions.
3. Please also provide justification for the surgical and inpatient medical items requested for example: surgical gloves, supradrapes etc as I understood that little surgical activity was undertaken. Please note that PSF already provide humanitarian resupply to hospitals in Sector 4B. Note also that PSF can react quickly to emergency requests in the Butare area.
4. Please provide to HQ UNAMIR 24 Apr 95 your request for the week Apr 29 to May 5.

5. For Action PSF. Please supply the unit where possible with the range of items requested for 800 outpatients. I accept your interpretation of the quantities that you provide for this week. Thank you for your continuing support to the UNAMIR humanitarian effort.

Subject: PROVISION OF UNICEF SUPPLIES TO SUPPORT UNAMIR
HUMANITARIAN ACTIVITIES

Reference:

A. Telephone Conversation MAJ R P Wiltshire/M. Pensis UNICEF of 13 Apr 95

1. As you are aware, UNAMIR Medical facilities and personnel are very active in the provision of health care in Rwanda. While adequate quantities of certain classes of humanitarian supplies are available to assist in these tasks (primarily Medical Stores provided by PSF), UNAMIR does not have access to some important items that are required for both treatment and preventive health tasks

2. It would be appreciated if UNICEF could assist with provision or coordination of supply of items that are not available via PSF. Particular items required are as follows

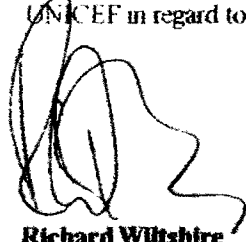

a. Food supplements for children and mothers who are inpatients of the Military Wing of CHK. The following food supplements are required to satisfy the requirements for one to two months

(1) 15 x 500g containers of Infant powdered food supplements, and

(2) 15 x 500g containers of Adult powdered food supplements

b. Vaccination supplies for children cared for by orphanages in Sector 3A in the vicinity of Gitarama. I understand that the Ministry of Health is closely involved in vaccination programmes. It is UNAMIR medical policy to provide care to Rwandans in line with Ministry of Health policy. I would appreciate your informing me of the appropriate point of contact to be used to obtain vaccination supplies

3. It would be greatly appreciated if UNICEF could assist in these issues. Previous assistance provided by UNICEF in regard to arranging supply of Rabies Vaccine for a civilian in Gitarama in Feb 95 was most appreciated.

REQUEST LIAISON WITH UNICEF FOR HUMANITARIAN STORES

Reference:

A. Discussion MAJ Wiltshire/CAPT Kearney 01 Apr 95.

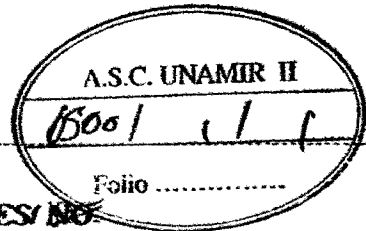

1. As discussed at ref A, products are required for use within the UN Hospital to provide humanitarian aid which should not be purchased via UNAMIR funds.
2. Request that UNICEF be approached and asked if they are able to provide both adult and infant powdered food supplements. Fifteen, 500GM containers of each will last 1-2 months.
3. These products are unlikely to be required for UNAMIR personnel, but will aid the recovery of many Rwandese patients..
