Re: The collapse of Lebanese Government by the terror group and its implication. ✓

Your Excellency,

The premeditated resignation of eleven Ministers from the Lebanese Government is nothing short of a prelude to destabilize Lebanon, at the hands of the terror organization Hezbollah.

It is an act of subversion because it deliberately moved to bring down a government which has sought to deliver peace, justice and dignity to the people of Lebanon.

It is an act of subversion because Hezbollah has demonstrated total disregard for Prime Minister Saad Hariri and the elected parliamentary majority who in an act of trust, for the purpose of peace, accommodated the opposition with eleven ministers to form a consensus government to take Lebanon forward on a peaceful journey. Hezbollah Ministers and their affiliates provided nothing but obstacles in the way of progress and brought the work of government to a standstill; but rather, in spite of such a generous accommodation, the forces of evil and terror have not permitted the government to function nor to advance the cause of the Lebanese nation.

Their exclusive objective in government was to stop the independent Special Tribunal (STL) for Lebanon. Perhaps they acknowledge their own criminal behavior and will do anything to stop the STL from exposing them to the world community.

The entire world has witnessed that Prime Minister Saad Hariri has made every endeavor to work with Syria, Iran and Hezbollah but unfortunately to no avail. They simply wanted to terminate the STL. When the Iranian President Mahmoud Ahmadi Nijed visited Lebanon during the last summer, he instructed Hassan Nasrallah to take control of all governmental institutions in Beirut. This objective has been achieved already. This leads us to believe that Ahmadi Nijed has now instructed Nasrallah to withdraw all his ministers from government. This is a direct attempt to stop Lebanon from funding the STL and thus hoping the STL will collapse.

How long will the rest of the world continue to appease this incontrollable axis of evil?

The people of Lebanon want Independence, Democracy and Freedom. As such, we call on the United Nations Security Council (UNSC) to place Lebanon under tight observation and security and again we call for the placement of Lebanon under UNSC chapter 7, until peace and justice are restored to this suffering people.

Sincerely Yours
