To Mr. Ban Ki-moon, Secretary-General of the United Nations

№ 03/ 1309, December 16, 2016

EWJ / 01056

Dear Mr. Ban Ki-moon,

Hereby we would like to express our sincere respect to you and **thank you for your best wishes** to us for the planned events mentioned in the letter of Mr. Edmond Mulet, Chef de Cabinet, dated September 28, 2016 regarding our weekly multichannel interactive US-Russian public forums «RU-USA» Common History For Mutual Understanding» - Space Bridges connecting 12 US and Russian cities and leading universities.

There is a substantial part called «World of the UN. Missions of the United States and Russia. A safer and secure world, women and young people, countries in transition, sustainable development, prevention».

In coordination with more than 30 universities in the U.S. and in Russia our Foundation have prepared the following application to the UN General Assembly to discuss and prepare agreements on establishment of 4 universal international UN organizations with headquarters in Moscow on (1) peaceful cooperation in space and protection of the Earth, (2) clean and fair sports, (3) Euro-Asian cooperation, and (4) IT security and cooperation. These areas require a proper care all over the world and intervention of the United Nations.

Please advise if the procedure requires our public approach to the General Assembly of the United Nations for further expertise, communications among the UN member states and international preparation of the proposals.

Our events make all the people more responsible and involved, give people the power to share and participate in Key Priorities of the UN.

✓ **We would like to invite you, the UN Secretary-General and Deputies Secretary General to participate on-line from the UN headquarters** in our weekly multichannel interactive US-Russian public forums «RU-USA» Common History For Mutual Understanding» - Space Bridges connecting 12 US and Russian cities and leading universities. All Americans, Russians and billions of viewers worldwide will be able to talk to you and your representatives about the effectiveness of the United Nations, a safer and more secure world, doing more for women and young people, helping countries in transition, sustainable development, prevention, ecology, standards of living, space cooperation.

Looking forward our joint efforts and with kind regards,

Alex Chupilkin

Vice Chairman of the Foundation
