TOOLS REQUIREMENT - SECTOR 4A

A. It is obvious that the Field Service personnel can not always be available for all maintenance/repair jobs although the mission area. Also certain maintenance/repair jobs may require immediate rectification, whilst some of too minor in nature that calling for field service personnel could bring the operations of the entire sector to a halt and considering even one field service personnel down would not worth it respectively.

B. This sector has some skilled MILOBS capable of handling some of these minor maintenance/repairs jobs. It is therefore, being requested that a tools box for out station peoples are provided

to the sector for those jobs whilst other are reserved for the appropriate field service stations and workshops.

C. Your prompt and favourable reaction is anticipated.
