UN RESTRICTED

ilitation of Kibuye's agricultural sector in the hope of restoring self-sufficiency. Beans, sweet potatoes, mixed vegetables and sorghum continue to be the staple crops in Kibuye. Cash crops continue to recover and coffee, banana and tea production is increasing modestly.

9. HEALTH. MSF and UNICEF continue to work diligently to improve and run hospital facilities throughout the prefecture. In general the quality of health care provided is poor and overcrowding, untrained staff, broken equipment, inadequate water and latrine facilities, and lack of transportation for the injured exasperate this bad situation. MSF vaccinated the new returnees this week and will continue to do so as and when they enter the prefecture. There were several people given rides to hospital by Milob patrols operating in the area. Malaria continues to be the main cause of illness on these trips.

10. WATER AND SANITATION. ICRC continues to make progress in repairing broken pipes and improving the availability of water. They are installing new water points monthly however shortfalls in water still occur daily throughout the prefecture.

11. EDUCATION. Many schools continue to require rehabilitation work to the buildings, furniture and equipment. Other concerns remain the need for paper, pencils, exercise books and other educational materials, inadequate pay for teachers, a requirement for nutritional supplements for students and teachers, as well as the need for balls, toys and playground equipment to make learning interesting and fun for students.

12. RETURNEES. UNHCR, Human Rights, and indirectly UNAMIR, continue to assist personnel to return to the prefect. Numbers of returnees are listed on the summary sheet attached. A shortage of available housing still exists. Returnee camps are generally in good order but require more cooking containers, mats, machetes, hoes, blankets, and food. They have some medical problems, mainly malaria. The UNHCR rep is aware of their problems and is attempting to meet their needs.

13. INTERNALLY DISPLACED PERSONS. IDP's may become a problem in future as old caseload personnel are occupying housing belonging to some returnees. At present this is not a major problem.

14. JUSTICE. The proper justice system is still not in place to begin the trials of prisoners accused of genocide. Prosecutors and defence lawyers are still required.

15. ~~PRISONS~~ The one prison here in Kibuye now houses approx 2092 people. This facility was designed to hold 250 people so problems of over crowding, poor hygiene and poor nutrition make the quality of life very difficult for these inmates. A proper security fence around the prison is still required to improve the quality of life for inmates as this will allow them to expand out of their cramped quarters.
