

THE SECRETARY-GENERAL

22 July 2009

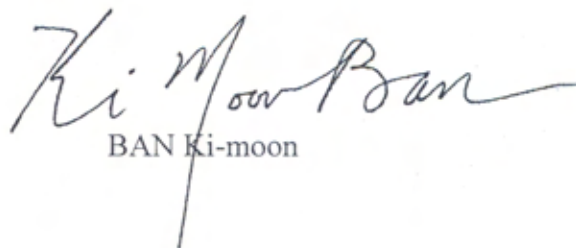

Dear Dean Einhorn,

It is with great pleasure that I received your note following my participation in your commencement ceremony.

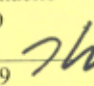

I am pleased to hear that my speech was received well. The students that were there are truly the leaders of tomorrow, and the preparation they can receive at SAIS is certainly one of the best start they get.

I was also pleased to have an opportunity to meet you. I hope you will continue to lead new generations of leaders for many years to come, as you set an example of both academic knowledge and strategic leadership.

Yours sincerely,

BAN Ki-moon
