 **THE WIENER LIBRARY**

The present catalogue is the by-product of work carried out in the Wiener Library, under the sponsorship of the Conference on Jewish Material Claims against Germany, during the last few years - the sorting, arranging and filing of material acquired in disjointed sections from various sources and at different times. Its first two parts record our holdings in a complete list enabling the researcher who wishes to consult a particular piece of material to see at a glance whether he can inspect it here, or order a copy from us. Other institutes may compare it with their own archives, and if they do, we shall be happy to have stimulated an exchange of material which should help to fill the gaps inevitable in any collection of this kind.

We are aware that a list of holdings is only the first essential where research is to operate in an unwieldy mass of material. Its compilation was a lengthy task, but has the advantage that from it further "keys" to the archive can be developed in comparatively short time. The two lists contained in the appendix are examples of such devices, which we find useful in our own research. Others are already in use here in draft form, and we hope to make duplicated copies available shortly. They are (1) a table correlating document numbers and the document books in which they are contained; (2) a list of all documents published in the Trials of War Criminals series ("Green Volumes") with volume and page references; and (3) a list of all Nuremberg Documents dealing directly with the Jewish Question.

The last-named list, again, forms the basis of a task on which we have been engaged for some time past, and which we hope to complete in 1961: classified tables of documents relevant to the Jewish Question, under the main headings of Antisemitic Propaganda, Camps and Ghettos, Deportation, Deprivation of Rights, Expropriation, Final Solution, "Mixed Marriages" and "Non-Aryans", Resistance, and Slave Labour. We are confident that these tables would facilitate the work of other institutes as well as our own.

Lastly, we should like to mention that a subject and name index to about 10,000 documents, our original holdings, is at the disposal of our visitors.

January 1961.
