

INCOMING CODE CABLE

TO: BUNCHE
FROM: BULL, JERUSALEM
DATE: 8 NOVEMBER 1969 (SENT 081226Z RECEIVED 081328Z)
NUMBER: UNTSO 2279

1. Re your 1300 --OP lighting. Agree with action taken your end. During evening hours 7/8 November OP's illuminated with no incidents.

2. Re our 2276 -- OP Delta. OP Delta was relieved this morning. Incoming UNMOS had to walk three kilometres and make two trips with assistance of local labor to carry in necessary supplies. Emergency repairs have been made to permit food-traffic and efforts with local labor will continue. However, a portion of this roadway will require repairs involving heavy equipment or possibly bridging before vehicle traffic can resume. COO will visit Ismailia 10 to 12 November and carry out further reconnaissance of roadway.
