MEMORANDUM

8095-1 (CO)

25 Sep 95

① Capt Manton D.

**95 CMSG ALL RANKS
"THANKSGIVING" MESS DINNER**

1. On 9 Oct 95, 95 CMSG will be celebrating Thanksgiving by holding a Canadian Contingent Mess Dinner at the All Ranks Mess, Trafipro, Kigali.
2. This event, which will include special guests from the Indian and Nigerian Contingents, plus the members of the Norwegian Medical Unit, is especially planned to provide an opportunity for all Canadians within UNAMIR to celebrate the "Thanksgiving" holiday together.
3. The function will start with cocktails at 1830 hrs, while the dinner, which will be a traditional "Thanksgiving" menu, is presently planned for 1900 hrs. The dress will be Combats, with the blue UN scarf. The cost per person is \$10, which will be used to defray the cost of the Wine and Port.
4. If you wish to attend, a response before 1 Oct 95, would be appreciated and greatly assist with our planning process.

UNAMIR - MINUAR

September 15, 1995

UNAMIR DRIVERS' AWARENESS PROGRAMME.

DRIVING IN DIVERSE CONDITIONS

Local Road Conditions

- (A) The main roads in Rwanda are in good condition, but during the rainy season the surfaces become very slippery, resulting in numerous avoidable accidents by adjusting speed accordingly.
- (B) Kigali city has seen a huge increase in vehicular traffic in recent months and without adequate traffic discipline in place. Extra care and attention is requested at junctions and roundabouts, since most accidents occur in these areas.
- (C) Very few roads in Rwanda are lit by street lights. Additionally, pedestrians commonly cross or walk along roadways with little regard for vehicular traffic. Extra vigilance is required in dimly lit areas and in populated and built-up areas.
- (D) Visibility is greatly reduced while driving at night, so reduce Your speed accordingly to such an extent that You will be able to see clearly with the aid of Your headlight.
- (E) Always dim Your headlights in all built-up areas and when meeting on-coming vehicles or following another vehicle.

Bad Weather Driving

Rain, sand or fog add to Your driving problems.

- (a) Adjust the speed to existing conditions.
- (b) Keep windshield clean at all times.
- (c) Follow other vehicles at a safe distance.
- (d) Apply brakes with light pumping action to avoid skidding.
- (e) Signal Your intention to stop or change direction well in advance.

Driving Through Shallow Water

When You unavoidably have to drive through shallow water or large puddles on the road, reduce speed to avoid splashing of water in the brake drums, engine or ignition system.

Cross-country Driving

Cross-country driving requires extra proficiency in use of gear, anticipation of ground conditions and vehicle maintenance.

- (a) Before entering a patch of loose or soft soil or muddy conditions, change into 4-wheel drive.
- (b) Use suitable gear depending on driving conditions. It is easier to change into a lower gear ratio when the going gets tough than to come to a stop and change into 4-wheel drive.
- (c) Do not allow engine to labour under any circumstances.
- (d) Follow the speed limit regulations, even if the country is flat and open.
- (e) If possible, stay on hard or compacted ground and avoid loose soil or muddy conditions.
- (f) Do not drive through a dust cloud raised by the preceding vehicle. Keep 10 meters clear vision to avoid collision in case the preceding vehicle stops suddenly.

Steering into a Skid

If the vehicle skids, always steer Your vehicle in the direction of the skid to regain control of Your vehicle. Sometimes it helps to speed up slightly. Do not disengage the clutch or apply the brakes.

Driving in a Convoy

When driving in a convoy, look out for drivers who try to move between the vehicles of the convoy. Keep the distance between the vehicles not less than 50 meters.

When STOPPING, keep the distance about 5 meters.

It is recommended, when driving in a convoy, to turn on Your headlights and use low beam.

Resting during a Long Distance Drive

The maximum a driver should drive at any one stretch, is 270 kms. After this, the vehicle and the driver must rest for 10 minutes. If in a convoy, an organized rest must follow after 270 kms. During the period of rest, the engine, oil and water gauge must be checked before commencement of the journey.

SPEED LIMITS IN THE AREA

Stopping Distances

It takes a great deal more braking power and requires a much greater distance to slow or stop a vehicle from 50 to 40 miles per hour (80 to 64 kph) than it does from 30 to 20 miles per hour (48 to 32 kph). A careless driver, failing to recognize or properly understand this fact, may enter curves at too high a rate of speed or fail to maintain a proper interval between vehicles, while travelling at high speeds. Vehicle brakes cannot be applied instantly. Your vehicle will travel a considerable distance from the time You take Your foot off the accelerator and depress the brake pedal until the brakes actually take effect. The illustrations below indicate stopping distances which have been obtained from practical tests:

| <u>SPEED</u> | <u>STOPPING DISTANCE</u> |
|------------------|--------------------------|
| 25 kph or 15 mph | 15 meters or 45 feet |
| 32 kph or 20 mph | 20 meters or 60 feet |
| 48 kph or 30 mph | 30 meters or 90 feet |
| 64 kph or 40 mph | 50 meters or 150 feet |
| 80 kph or 50 mph | 70 meters or 210 feet |

**BEFORE COMMENCING ANY JOURNEY,
FASTEN YOUR SEAT-BELTS!**

Subject: VEHICLE SAFETY

Reference: DCOS SP Memo 4000.1/LOG-41 dated 28 Jul 95

1. On 26 August, a Ghanaian vehicle was involved in a serious traffic accident in which ten soldiers of GHANBATT were injured. Fortunately there was no loss of life, but the medical prognosis for one of the injured is that he will have a permanent physical incapacity. The cause of the accident was speed too fast for conditions.

2. Addressees are reminded that the chain of command is ultimately responsible for the fate of all personnel under command. Safety is not an issue which is left solely to the individual. It is a leadership issue. The death of or serious injury to any UNAMIR member as a result of improper driving practices is unacceptable and any such negligent action should be severely disciplined. Of secondary importance, the loss of vehicles through accident damage places an additional burden on the unit administrative system as replacements are not available.

3. Addressees are requested to reinforce their respective vehicle safety programs through personal intervention. Our collective approach should be to make tomorrow an accident free day: one accident free day, every day.

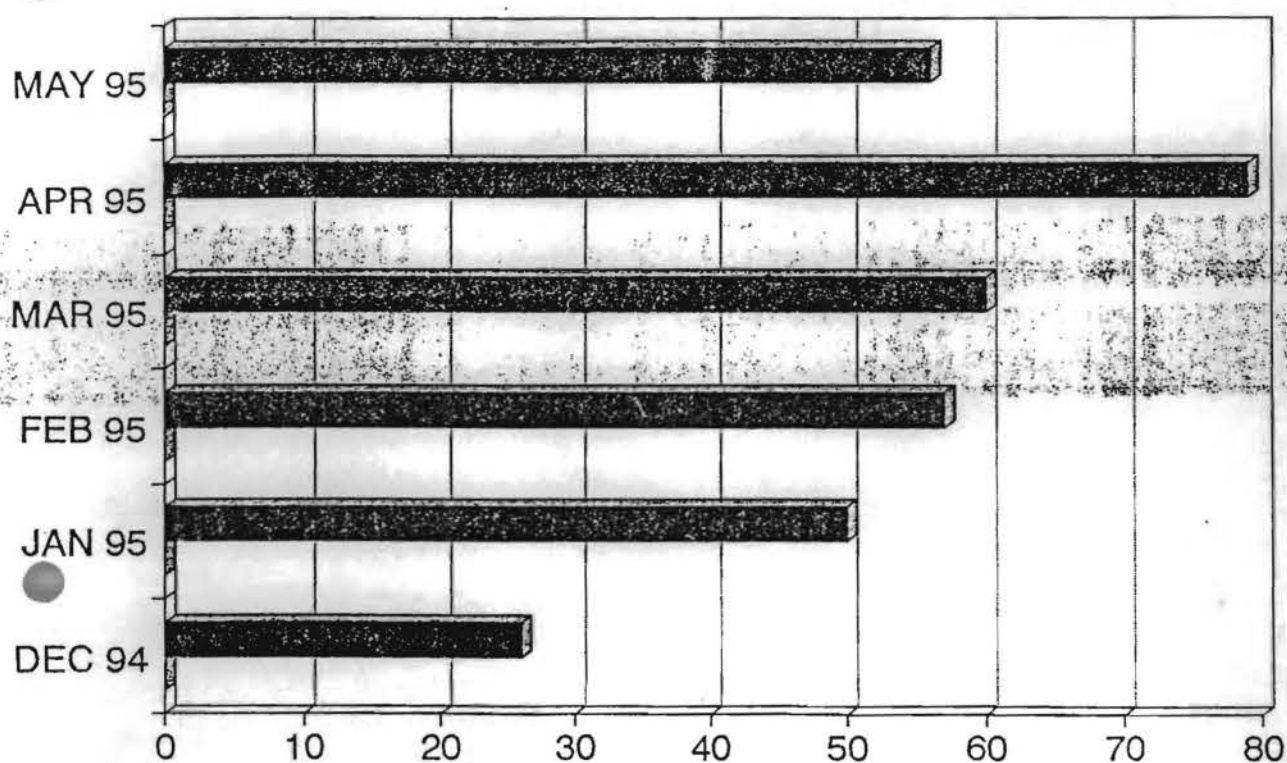

I am deeply concerned at the
standard of driving by our personnel.
What can be done to improve the
situation?

J'ai obtenu ces tarifs auprès d'Air Afrique qui m'a
et savoir que j'aurai les prix réels lorsque j'aurai les dates
finales, c'est à dire les de la réservation.

Dans la lettre tu me demandes le prix du billet pour 7 de 7 et
de 21 j et tu dis que tu vas essayer d'avoir une permission de 10 jours ;
j'aurais savoir si je prend un billet de 10 ou 20 jours.

Maman quant à elle veut venir aux annales du 15 Août
jusqu'au 15 Octobre, donc j'aurais connaître la durée de la permission
pour concorder les dates.

4) Au sujet du nombre des invités (80 pers =). Stéphane et moi
avons été invités à de nombreux mariages et nous devons rendre la pareille.
De mon côté il y aura environ 40 personnes et de même du côté de Stéphane
je ne pense pas que ce soit excessif.

Quant au côté du mariage c'est tout compris, le dîner,
l'animation, les fleurs, les photos, la robe de mariée et accessoires etc...

Concernant le côté du séjour : Jeanne Pauline et Chantal
sont parties à Vaucluse pour les de votre séjour à Paris. Quant au
séjour dans l'Yonne, les prix des hôtels d'annoncer 250F la nuit.

Vala, je pense que j'ai tout dit.

Mais avant d'avoir la salle, le traiteur, le prêtre, le gendre, il
me reste plus qu'à envoyer les faire part et à verser des acomptes.

J'espère que tu as bien reçu mon numéro de compte pour
l'envoi des sous!!

Je t'embrasse très fort et à bientôt.

Je t'aime
