Your Excellency,

Citizen in Deed, the Hellenic Republic's Organization for Volunteerism, is proud to attest your unreserved personal interest in our efforts to support and promote the growth and development of Civil Society within national borders, and to the best of our capacity, even beyond national frontiers. We are proud to abide by the spirit and the stipulations of the United Nations in our initiatives.

We are also proud to inform you that thanks to your eager disposition, we go ahead with the Social Responsibility Chart for Civil Society Organizations, open to public consultation. Under your auspices we are confident to rejuvenate Greek Civil Society's positive sentiment towards the living spirit of the U.N. and your good services as new Secretary General.

Heavy schedule allowing, we look forward to meeting you during our visit to New York.

Along the institutional thanks, please accept my wholehearted personal feelings of gratitude for your hitherto attention.

Sincerely Yours,

Dr. Stelios Sirmoglou
Chairman & C.E.O.

Handwritten notes and stamps at the bottom right of the letter.
