SUBJECT: Implementation recommendations Board of Auditors	

1. Attached is a summarized list of recommendations made by the Board of Auditors in their last "Report on the Accounts of the United Nations Peace-keeping Operations for the biennium ended 31 December 1993".

2. In this regard, the Secretary General is to submit a report to the General Assembly providing a detailed timetable for implementation of the recommendations made by the Board, for consideration by the General Assembly in conjunction with its review of the Board's report.

3. We have been asked by the Financial Management Office to submit a proposed timetable for implementation of these recommendations, with clear indications of the actions that will be taken to implement them. It has been specified that a response indicating "it will implement the recommendation" will not be sufficient. However, implementation of some recommendations may involve long-term action. In these cases, details of the actions expected to be completed by the end of 1994 and by the middle of 1995 should be provided.

REPORT OF THE UNITED NATIONS BOARD OF AUDITORS ON THE ACCOUNTS OF THE UNITED NATIONS PEACE-KEEPING OPERATIONS FOR THE BIENNIUM ENDED 31 DECEMBER 1993

Recommendation and paragraph reference	*Action by:*
*1. **Permitted exceptions to bidding** - To reduce excessive flexibility in the use of the exigency provision in procurement and the awarding of contracts, and to provide adequate guidance in decision making, the following measures should be considered:* *a) exigency should be defined through a listing of situations that may be considered as such;* *b) as in rule 110.19 (h), the nature of the exigency should be documented to provide sufficient evidence to support the decision and to serve as a trail for verification and review.* *Paragraph 9 (a); 112.*	*FFBS* *All Missions*
*2. **Awards not based on valued for money considerations** - Bids should be adequately evaluated in order to take advantage of value for money orffers, even if that means splitting the awards.* *Paragraph 9 (b); 117.*	*LOGISTICS* *All Missions*
*3. **Air carrier contracts** - Competitiveness in the award of air chartering contracts, including extensions of existing contracts should be improved to cater for the growing need for air services in peace-keeping operations.* *Paragraph 9 (c); 91.*	*LOGISTICS*
*4. **Peace-keeping operations financial statements** - Consideration be given to the submission of financial statements for peace-keeping operations which will encompass all relevent activities and ensure adequate transparency and disclosure.* *Paragraph 9 (d); 44.*	*OPPBF*

5. **UNOSOM, Improper cash management procedures** - *Corrective measures suggested for UNOSOM:* — UNOSOM

a) prompt preparation of bank reconciliations and early investigation of discrepancies should be done;

c) disbursements be made by cheque as the situation improves.

Paragraph 9 (e); 154.

6. **UNOSOM, Improper cash management procedures** - *Provide adequate staff complement to the UNOSOM Finance Section to enable it to handle in a more efficient manner the accounting records of the mission. Paragraph 9 (e); 155.

7. **Liability for loss of UN cash and property** - *Sees the need to seek reasonable compensation as a deterrent for misuse of cash and property and recommends that general guidelines should be established to assess the scale of the requirement reimbursement.* — Office for Legal Affairs

All possible steps should be taken by the UN with the view to establishing appropriate procedures for reimbursing the UN for losses of cash and property arising from the fault of military contigents.

Paragraph 9 (f); 103; 108.

8. **Disclosure of non-expendable property** - *Property records maintained at the mission must be regularly updated with new acquisitions and deletions. Physical inventory counts of non-expendable property should be taken at least once a year, and more frequently if necessary, to ensure the safeguarding of assets and accurate reporting of their values to Headquarters and in the financial statements.* — All Missions

Paragraph 9 (g); 51.

Paragraph 9 (i); 101.

11. **Raising purchase orders ex-post facto** - Effective measures should be taken to speed up the processing of field missions requisitions referred for advice of the Headquarters Committee on Contracts. Paragraphs 79, 81.

16. ***Ship chartering contracts*** - *In view of the difference between chartering and freight forwarding, the Board recommended that a new vessel chartering contract would be more advantageous because it would entail better terms and conditions obtained through bidding.* — *LOGISTICS*

Paragraph 83.

17. ***Missing/seized vehicles*** - *Suggests that:* — *LOGISTICS*

a) the cooperation of the Government of Cambodia, including the neighboring countries should be sought for the arrest and possible prosecution of the 38 drivers who have disappeared with UNTAC vehicles.

WE WISH TO PROVIDE SOME FEEDBACK ON THE FORECASTS FOR FIELD SERVICE UNIFORMS.

AFTER CONSOLIDATING THE MISSION FORECASTS FOR FS UNIFORMS AND CHECKING BUDGET FUNDS, OUR COLLECTIVE REQUIREMENTS WERE TOO LOW TO JUSTIFY A SYSTEMS CONTRACT. MOREOVER, THE CONSENSUS OF COMMENTS RECEIVED FROM FIELD MISSIONS INDICATED THAT THE DESIGN COULD BE IMPROVED TO BETTER SUIT THE WORKING ENVIRONMENT OF THE PEACE KEEPING MISSIONS.

FIELD PERSONNEL SECTION IS NOW REVIEWING SEVERAL ISSUES RELATED TO UNIFORMS.

540 SUP

AT PRESENT WE ARE PROCESSING REQUISITIONS RECEIVED FROM FIELD MISSIONS FOR THE ESTABLIHSED UNIFORMS WITH SOME MODIFICATIONS, I.E. CHANGING THE SHIRT MATERIAL TO COTTON, ELIMINATING THE PEAKED CAP, ETC. IF YOU HAVE A CURRENT REQUIREMENT FOR UNIFORM ITEMS, PLEASE CONTINUE TO FORWARD YOUR REQUISITIONS TO FOD.

WE WILL ADVISE WHEN FURTHER INFORMATION IS AVAILABLE.

Kigali

- Mr Peter Hansen, Under Secretary General for Humanitarian Affairs, met with government officials in Kigali today. An Inter-Agency mission has taken place to Gisenyi today and yesterday, another one is due to Gikongoro tomorrow, composed of members of Mr Hansen's mission.
- UNREO Kigali reported that a health meeting was held on 23 July with Dr Vincent Biruta, Minister of Health. NGOs will be informed this week as to where they will be able to work. Before the war there was one hospital and 6 dispensaries in Kigali. Only one dispensary has been badly damaged. The Government plans to open the King Faisal Hospital for public use (it was private before). Health meetings will be held every Friday at the UNDP office.
- UNREO Kigali reported that a general meeting was held on 25 July. It was held at the request of the Minister for Social Rehabilitation and Reintegration, Mr Bihozagara. The Minister for Home Affairs and the Minister for Health also attended. It was announced that it is no longer necessary to apply for security clearances or be accompanied by a guide when travelling around Rwanda. A special crisis committee to monitor the situation of the refugees in Zaire and displaced in southern Rwanda is being set up. Controls at the border south of Butare will be loosened.
- UNREO Kigali reported that UNAMIR want to strengthen the capacity of Kigali airport in order to receive humanitarian assistance for the displaced in Rwanda and the refugees in Zaire.
- Staff from Sabena Airline are currently in Kigali to assess the airport capacity. The Director of Hotel des Milles Collines, staff from the Meridien and the Belgian Director of "Magasins Generaux du Rwanda" are also expected in the near future.
- Two public messages were broadcast on Radio Rwanda on 25 July. The first condemned looting and informed the population that they are not allowed to move into houses which are already occupied, unless they own the house. The second was an appeal to civil servants to return to work.
- There are still road checks within Kigali, but they are very relaxed. Ownership of vehicles is checked.

Southern Rwanda

- The security situation is affecting food deliveries to Gikongoro.

2/4

- ICRC reported that there are approximately 300,000 people in the Kibuye area who are receiving no assistance. Some are manifesting a desire to return to the RPF controlled areas.

Gisenyi

- ICRC distributed food to 170,000 beneficiaries north of Kibumba.
- UNICEF will send medical supplies, UNIMIX and high energy biscuits to Gisenyi tomorrow.

Zaire

Goma

- The number of deaths continue to be alarming. MSF reported that up to 80,000 refugees could be afflicted with cholera.
- A water tanker service is being provided by MSF, the French military and UNICEF along the refugee routes as they walk northward to Katale and Rutshuru. OXFAM has been designated the lead agency for water for the time being.
- WFP reported that two mobile storage units have been airlifted to Goma. Three are due to arrive this week.
- ICRC reported that a water supply system has been established at 'Solferino' camp. IFRC has donated equipment to set up a surgical unit at Solferino.

Bukavu

- UNHCR estimates that there are approximately 312,000 Rwandan refugees in Bukavu and 100,000 in Uvira (this is in addition to the 90,000 Burundi refugees). These figures have been agreed upon with WFP as planning figures.
- WFP delivered 30 MT food to Bukavu and 60 MT to Kamanyola from WFP Bujumbura on 19 July.

Tanzania

Ngara

- The registration of Rwandan refugees is now complete. The figures are:

Benaco camp	186,407
Lumasi camp	51,719
TOTAL	238,126

- Under 5 mortality rates for the week of 4-10 July was 5.64 per 10,000. This is increasing - only two weeks ago it was 3.75. Diarrhoea is the main cause of mortalities.
- The main concern in Benaco is the potential spread of dysentery. A UNICEF and MSF France supplementary feeding programme should start this week from 25 distribution points.
- WFP reported that refugees continue to arrive in Ngara and Karagwe at the rate of 1,500 and 2,000 per day respectively.

3/4

Karagwe

- UNHCR plans to open a new site, Cyabilsa II, to accommodate an estimated 2,000 - 3,000 refugees who are crossing into Karagwe district per day. The continued influx of refugees is continuing to strain food, health and water systems.

Burundi

- WFP reported that the influx of 60,000 refugees from Rwanda over the past week from eastern Butare into Ngozi brought the total Rwandan refugee population in Burundi to over 200,000. There are an estimated 5,000 refugees arriving per day in the provinces of Ngozi, Muyinga and Kirundo. Refugees are arriving from territories controlled by the RPF, some of which (Kibungo and Bugesera) were taken months ago. There is mounting tension between military, civilians and refugees in the northern provinces of Burundi. More Rwandans are waiting to cross the border. Two new camps in Ngozi (Caprin, capacity 30,000 and Ruvumu, capacity 15,000) which were identified by UNHCR are already nearly full. New camps in Kirundo and Muyinga provinces are also reaching saturation levels.

July 22 - July 25, 1994
SITUATION REPORT # 52

General

The "United Nations Consolidated Inter-Agency Appeal for Persons Affected by the Crisis in Rwanda" was launched by the Secretary General, Boutros Boutros Ghali in New York on 22 July. The appeal seeks US$ 434 for emergency relief items required for the refugees, internally displaced persons and the local population of Rwanda affected by the crisis.

Mr Peter Hansen, Under Secretary General for Humanitarian Affairs, arrived in Nairobi on 23 July. He is travelling to Goma and Bukavu (Zaire) and Kigali. He has been asked by the Secretary General to:
- assess the current situation
- ensure that coordination structures among the relief agencies/ NGOs are in place
- discuss measures with the new Broad Based Transitional Government (BBTG) to ensure that relief is provided to people in need
- discuss with the BBTG the measures needed to create a secure environment for refugees and displaced persons.

Kigali

In Kigali illegal occupation of houses and looting continued. The communication stores at the UNDP warehouse were reported to have been looted. Many people continued to leave Amahoro Stadium for their homes. Many more continued to return to Kigali from other areas. 941 displaced persons were transferred from Rutare to Kigali. The total number of displaced moved by convoy from Byumba to Rutare so far is 4,982.

The Australian Government is going to announce today that three hundred medical experts will be sent to Kigali to work within UNAMIR. They are also donating 6.5 million Australian dollars to the Rwanda operation.

French safe haven zone

ICRC reported that displaced continue to move from Gikongoro to Cyangugu through the forest. ICRC general food distribution for 10,000 in Nyarushishi (near Cyangugu) is still taking place.

WFP has set up a sub-office in Cyangugu. WFP reported that the security situation is affecting food deliveries in Gikongoro.

2/4

Goma, Zaire

Gunshots are being heard at night in Goma. An attempted raid on the building of an International NGO resulted in one local staff member being killed.

Approximately 2,000 refugees returned to Rwanda from Goma during the weekend after the Zairean authorities reopened the border.

In Goma, Zaire, the international community is raising the alarm about the cholera epidemic that has broken out. Over the past week over 10,000 people died of cholera and water borne diseases.

Water is the main problem in the Goma area. Priority is being given to bringing in water tanks and treatment equipment.

At the NGO meeting coordinated by UNREO on 22 June it was noted that prepared health kits are not effective for the treatment of cholera. Specially prepared drugs are needed for the treatment of cholera.

UNICEF is sending 11 staff members with equipment to deal with cholera to Goma tomorrow. Pamphlets to encourage the prevention of cholera are being distributed.

UNICEF has started an immunization drive at the SOS Village (transit camp) at Nsosho (near Goma) where there are 1800 unaccompanied children. 72 Zairean health workers will assist in the vaccination which is being done in collaboration with MDM and MSF.

UNHCR is strengthening its protection capacity to arrange the repatriation of refugees.

ICRC distributed 90 MT of food to refugees in Goma.

WFP is flying an Ilyushin to Goma with 87 MT of CSB, 58 MT of biscuits, 2 land cruisers and water (in tanks). The airlift operation only provides 15-20% of the food needs of the refugees. Widespread starvation is expected if food deliveries are not stepped up.

UNICEF Goma is receiving a US C130 from Copenhagen with 15 MT of supplies (mostly water tanks and purification equipment) worth US$50,000. UNICEF is concentrating on prevention methods and ORS. UNICEF is sending an education officer to Goma.

WFP reported that there are an increasing number of international staff and journalists who need to be medically evacuated from Goma. The WFP flights have no medical capacity to cope with evacuations.

Regional

In Burundi tension is reported to be increasing with bandit activity.

The German Government is making 3 aircraft available to the UN for the Rwanda operation. This will be coordinated by Mr Pleiner at the German Embassy with UNHCR Geneva.

The Canadian High Commission has announced a donation of 10 million Canadian dollars to the Rwanda operation. At least 1 million Canadian

3/4

dollars will be used to provide clean water to the refugees. Sanitation equipment, medical supplies and emergency materials will also be purchased. 2 million Canadian dollars will be spent on food.

The US has made a C160 plane available to UNHCR (this is in addition to the C130 made available to UNICEF). UNHCR has agreed to write a regular donor report on the airlifts within the Rwanda region.

WFP reported that 30 WTOE trucks with a capacity of 30 MT each have arrived in Nairobi. 15 will go to Goma via Uganda with 400 MT of maize and 15 will go to Bujumbura with the same load.

AAA. EYE QUOTE HEREUNDER PARAGRAPHS 59 AND 60 OF AUDITORS' REPORT ON UNOMUR. CAN YOU PLEASE ASSIST IN ANY WAY? PLEASE CONSIDER THE MATTER MOST URGENT. THANKS AND REGARDS.

BBB. QUOTE 59. ON A TEST-CHECK BASIS WE REVIEWED UNOMUR'S UN-OWNED PROPERTY RECORDS OF NON-EXPENDABLE PROPERTY. WE NOTED THAT ALTHOUGH EACH ACTIVITY CENTER WAS MAINTAINING SOME RECORDS OF ITS INVENTORY ITEMS, THERE WAS NO RECORD OF NON EXPENDABLE PROPERTIES CONSOLIDATING ALL INVENTORY ITEMS WITH DETAILS OF THEIR LOCATION. AS A RESULT, THERE IS NO ASSURANCE THAT ALL NON-EXPENDABLE PROPERTIES ARE RECORDED AND PROPERTY ACCOUNTED FOR AT UNOMUR. UNQUOTE

CCC. QUOTE 60. OUR REVIEW INDICATED THAT FAILURE TO CONSOLIDATE INVENTORY RECORDS AT UNOMUR WAS DUE IN PART TO THE LACK OF STAFF.

AAA WHILE UNOMUR'S STAFFING TABLE AS OF APRIL 1994 INDICATED A POST FOR PROPERTY CONTROL AND INVENTORY RECORDS, CLAIMS AND INVESTIGATIONS, IT WAS VACANT. UNOMUR OFFICIALS INDICATED THEY WERE WAITING FOR ADVICE FROM UNAMIR BEFORE FILLING THE POST, BUT DID NOT ASSIGN ANYONE IN THE INTERIM. WE RECOMMEND THAT: (I) FOD ASSURE THAT THE VACANT PROPERTY CONTROL POST AT UNOMUR IS FILLED, AND THE STAFF MEMBER BE DIRECTED TO UPDATE AND MAKE A COMPLETE INVENTORY LISTING AND DECAL ALL NON-EXPENDABLE ITEMS IN ACCORDANCE WITH THE UN FIELD CATALOGUE, AND (II) IF UNAMIR IS REDEPLOYED, THE INVENTORY RECORDS OF UNOMUR BE MERGED WITH THOSE OF UNAMIR. July 21, 1994
SITUATION REPORT # 51

In Kigali, displaced persons continued to leave Amahoro Stadium for their homes. It is reported that the displaced settlements in the Byumba Prefecture (north of Kigali) are emptying, as people return home to the north or Kigali respectively. Some of the settlements are now reduced by 50%.

A delegation from the branch office of the International Civil Aviation Organization (UNDP project) has arrived in Kigali to report on the possibility of opening Kigali airport to international flights.

UNREO Goma reported that cholera has broken out amongst the Rwandan refugee population in the area. 111 people were confirmed to have died of cholera yesterday. Dehydration and dysentery appear to be increasingly common.

UNREO Bujumbura reported that a meeting was held in Gikongoro on 19 July:
-AICF will provide food and water to Kibeho camp (100,000 displaced). They will be supported by WFP.
-Kaduha and Musange camps (150,000 displaced) will be maintained by Care, who will distribute WFP supplied food.
-Equilibre is providing logistical support to all agencies working in the area.
-CRS/Caritas is providing 400MT of food per week to 150,000 displaced persons.
-only AICF and Care have identified sites for displaced persons.
-some agencies believe that the number of 900,000 displaced in this area is overestimated. However, the 'pipeline' figure of 560,000 is not sufficient. Storage facilities in Gikongoro are not a problem.
-weekly meetings will take place in Gikongoro.
On the same day UNREO Bujumbura chaired a meeting in Bujumbura:
-agencies were urged to start non-food relief in south-west Rwanda. UNICEF, OXFAM and MSF (B) all plan to do so in the near future.
-15,000 people returned to Rwanda (French Safe Haven Zone) from Burundi.
-there are high mortality rates in some refugee camps in Burundi.
-Portugal is donating a Hercules plane to Operation Turquoise to be used for humanitarian purposes.
UNREO Bujumbura reported that UNHCR has only seen 30,000 refugees in Kamanyola, Zaire. The number of 400,000 is highly exaggerated.

WFP/UNICEF Bujumbura reported that there are no more than 100,000 people in Bukavu in Zaire. Most have come from Cyangugu. Approximately 800 people are returning to Rwanda from Burundi every day.

The Australian Government is making the following donations for the Rwanda Emergency: US$550,000 to UNHCR, US$190,000 to WFP (including communication equipment), US$260,000 to ICRC, US$220,000 to UNICEF, US$74,000 to World Vision and US$220,000 to Care.

PRESS RELEASE - COMMUNIQUE DE PRESSE

Le Rapporteur spécial sur la situation des droits de l'homme au Rwanda, M. René Degni-Segui, a suivi avec attention l'évolution de la situation dans ce pays et souhaite exprimer son soulagement qu'enfin un cessez-le-feu *de facto* ait été proclamé ainsi que son espoir de voir les actes de violence, aussi bien les massacres que les combats militaires, cesser. Il ne peut que déplorer la récente attaque d'artillerie lourde menée contre la ville de Goma, au Zaïre, et condamner les responsables de cette atteinte grave aux droits à la vie de centaines de réfugiés.

La réconciliation devrait être la première priorité des nouvelles autorités installées récemment à Kigali, Le Rapporteur spécial lance un appel solennel et pressant à ces autorités pour que celles-ci respectent et protègent les droits de l'homme de toute la population rwandaise sans exceptions. Il demande en particulier aux autorités et à toutes les parties en cause de tout mettre en oeuvre pour faire cesser immédiatement toute campagne et toute rumeur susceptible d'inciter à la haine ethnique, à la violence et à la panique, et de se prononcer publiquement et sans équivoque, en faveur du plein respect par tous des droits fondamentaux, notamment en garantissant à la population d'origine ethnique Hutu réfugiée ou déplacée à l'intérieur ou en dehors du pays, de pouvoir regagner leur collines sans craintes de représailles. Toute restriction des mouvements de populations doit cesser. Des mesures strictes et efficaces doivent être prises pour éviter que des actes de représailles et des règlements de comptes ne se produisent. Une campagne médiatique allant dans ce sens devrait être mise sur pied aussi bien au Rwanda que dans les camps des réfugiés.

Le Rapporteur spécial condamne une fois de plus le génocide perpétré au Rwanda et rappelle que les auteurs des horreurs commises, une fois clairement identifiés, auront à répondre devant la justice de leurs actes, à quelqu'endroit de la planète qu'ils se trouvent. Dans cet esprit, le Rapporteur spécial demande aux Etats qui ont accordés l'asile ou tout autre refuge à ces criminels de prendre les mesures appropriées pour que ces derniers n'échappent pas à la justice.

-/ 2/2

Les mesures à prendre incluent la nécessité de rendre justice aux victimes de toutes les atrocités qui ont été commises. Dans cette perspective, le Rapporteur spécial qui est aidé par une équipe de spécialistes des droit de l'homme mise sur place par le Haut Commissaire aux droits de l'homme a déjà commencé à mener des enquêtes pour identifier les responsables des violations.

Le Rapporteur spécial a l'intention de se rendre au Rwanda dans un proche avenir afin d'établir un premier contact avec les nouvelles autorités, et d'évoquer les problèmes soulevés par la situation actuelle.

Le Rapporteur spécial est préoccupé par les rapports qu'il a reçus concernant des exécutions sommaires et des pillages massif a Kigali par certaines forces du FPR. Toutes les normes internationalement reconnues concernant les droits de la personne, surtout le principe de présomption d'innocence et le droit à un procès équitable doivent être respecté. A cet égard les autorités doivent être assistées pour mettre en place au plus vite un dispositif de maintien de l'ordre et pour établir un système judiciaire capable d'appliquer tous les principes des droits de l'homme internationalement reconnus.

Il est indispensable que les nouvelles autorités montrent clairement et sans attendre le bien fondé de leurs déclarations. Si ces bonnes intentions sont mises en pratique rapidement, la communauté internationale, de son côté ne devrait pas tarder à soutenir les efforts des institutions et programmes des Nations Unies et des organisations non gouvernementales, en répondant d'une manière substantielle aux besoins pressants dans l'objectif de reconstruire le pays dans le plein respect des droits de tous les rwandais. Dans ce contexte le Rapporteur spécial soutient l'appel urgent fait par le Haut Commissaire aux Réfugiés aux pays donateurs pour obtenir leur aide.

SITUATION REPORT # 50

GENERAL

The RPF has taken Ruhengeri, Gisenyi and Kibuye and are reported 7 km south-west of Gikongoro. The RPF declared a ceasefire and named a new Broad Based Transitional Government (BBTG) which was inaugurated in Kigali on July 19. Approximately 1 million people have fled to Goma (Zaire) in the last week, following the RPF advance to Gisenyi. The RPF has closed the border from Gisenyi to Goma and no more Rwandans are now crossing at this border point (although some are still crossing through some footpaths). UNREO Goma reported that the Zairean side of Gisenyi has been devastated by the fighting and the large numbers of people passing through the area. According to UNHCR Bukavu a further 100,000 people have fled to Bukavu and Uvira. Approximately 50,000 Rwandans have crossed into Burundi in the last week.

The Rwandan army crossed the border into Zaire with their arms and equipment and are now staying in the town stadium, having been partially disarming. Radio Milles Collines is broadcasting statements which are hostile to the international community from the south-west of Rwanda (probably linked to perceived disinterest of the international community for the Interim government).

Inside Rwanda the emergency operations will concentrate on the south-western region and the estimated 600,000 displaced, which will have to be accessed from Burundi. A group of NGOs is emerging which plans to focus assistance to the eastern portion of the protected zone, Gikongoro. It is important to incite the displaced to remain that side of the Nyungwe forest, as movement through this natural barrier could reduce the desire for a prompt return to the home areas.

The humanitarian agencies (WFP and MSF in particular) are calling the attention of the international community to the potential disaster facing some 600,000 internally displaced in the Gikongoro region.

The RPF has tightened security in Kigali with the inauguration of the new government.Kigali has remained calm, with an estimated 50,000 people, and the RPF is maintaining its checkpoints. Only one checkpoint now remains on the road from Gatuna to Kigali, however, at the Byumba cross-roads. Lootings of private uninhabited houses in Kigali are still going on. The city market has reopened. UNAMIR reported that 771 displaced persons were transported from Rutare to Kigali on 18 July.

2/1

There are 10,800 persons in Rutare awaiting transportation to Kigali. The number of casualties has reduced dramatically now, as reported by the medical NGOs. There are only 2 displaced camps remaining: King Faisal (150 patients + 2-3,000 displaced persons) and Amohoro Stadium (2-3,000 displaced persons).

Around 7,000 people have returned to Rwanda from Uganda.

RELIEF COMMUNITY ACTIVITIES

The 'Consolidated Inter-Agency Appeal for Persons Affected by the Crisis in Rwanda' was discussed on 19 July at a donor meeting in Nairobi, chaired by the Humanitarian Coordinator Mr Hein. Copies of the last draft of the Appeal were circulated, and agencies made a short presentation and answered donor questions. Mr Shaharyar Khan, Special Representative of the Secretary General, made a special declaration on the political situation, before boarding the plane to Kigali, where the inauguration of the new government took place today. The meeting had a very positive tone, due to the high degree of donor interest and the intimate coordination of the agencies. The Appeal is to be launched on Friday 22 July by Secretary General Boutros Boutros Ghali, and will be followed by a visit of Mr Peter Hansen, Under-Secretary General for Humanitarian Affairs to the region.

During the donor meeting in Nairobi WFP explained that it would be changing the focus of its programmes inside Rwanda from emergency deliveries to food for work and food for seeds programmes. The ICRC explained that it is shifting its priorities from war surgery to protection and family tracing. The agreement on the distribution of responsibilities for food with WFP will be reexamined. ICRC will continue distributions until self-sufficiency is attained.

The following schedule of coordination meetings was agreed on in Kigali:
Mondays: water and sanitation
Tuesdays: general meeting
Wednesdays: food distribution
Thursday: health, nutrition and logistis
Friday: general
The new government authorities have been invited to participate in the meetings. These meetings will be held in the UNDP office meeting room at 17:00.

The UN agencies have moved into the UNDP office prior to establishing new offices, in the case of UNICEF (in the old World Bank office), or its previous ones (WHO and WFP). NGOs have started occupying nearby buildings.

The following donor organisations have also visited Kigali this week: USAID, Austrian Cooperation, and Swiss Disaster Relief.

LOGISTICS AND ACCESS

Kigali

Two UNAMIR flights are scheduled to Kigali per day. UN agencies and NGOs are encouraged to send relief supplies on these flights, which are

3/7

often not used to their full capacity (which could lead UNAMIR to cancel flights).

WFP has received 4 trucks from Kampala, loaded with UNIMIX, maize, spare parts and diesel (50MT).

UNREO Kabale reported that the RPF plans to set up a liaison office in Kigali for NGOs. A growing number of NGOs have expressed interest in moving to Kigali, but many have still not received a blanket clearance from the new government to do so.

South West Rwanda

In the Gikongoro area WFP delivered 65MT of food on 13 July, and a further 140MT on 16 July. CRS plans to send 200MT per week to the area, and ICRC will continue providing 250MT per week. MSF International will be sending a team of 11 expatriates in the area to carry out medical programmes, vaccinations, supplementary feeding and sanitation. Merlin (mobile medical teams), Care (food distribution), and AICF (nutrition and sanitation), are also active. A food coordination meeting took place in Gikongoro on 18 July and sectoral meetings will take place in the next few days.

Zaire

The large numbers of people who have crossed into Zaire in the last week has caused a major humanitarian crisis. Although a certain amount of stockpiling has taken place, it is insufficient for the 1,500,000 Rwandan refugees now in Zaire. UNHCR Goma estimates that at least 20 million litres of water are needed per day in an area where water is scarce. At least 600 metric tonnes of food are needed per day for the 1 million refugees in Goma.

UNHCR estimates that the airlift operation can only provide 10 % of the needs of the refugee population in Goma. There is no ground support equipment for the downloading of planes and everything is downloaded by hand. UNHCR and WFP are currently establishing a food and logistics chain for Goma.

UNHCR Goma has identified three sites for refugees: Katale, 58 km north of Goma, which can support 300,000 people; Kibumba, 28 km north of Goma which already has between 2-300,000 people; Saka, newly identified by the Zairean authorities, which can support 500,000 people.

The US Geological Service has warned that a geological survey of the Lake Kivu area which was done in 1987-88 revealed that there are areas of carbon dioxide concentration (which are a hazard for anyone digging in the area). The possibility of sudden lava flows should also be taken into account.

The agencies have set up close cooperation structures in Goma (ICRC, UNHCR, UNREO, UNICEF, Oxfam, WHO, IOM). Daily coordination meetings have been established. WFP is sending a team of 7 persons to Goma, and IOM has reinforced its 10 person international team.

ODA has donated 100 metric tonnes of cargo and 11 vehicles to the operation in Goma. Two people from OFDA Kinshasa have been relocated to Goma. The USAID Administrator, Brian Atwood, has visited Goma,

having been drawn away from a visit to Palestine, as well as Ms Borton, director of OFDA. Two ECHO staff members and one from the Australian International Development Assistance Bureau are also in Goma.

WFP is starting a major airlift from Mombasa to Goma to bring in urgently needed food supplies. An aircraft (Ilyushin 76) has been identified to do two rotations per day, provided landing permissions are granted at the congested Goma airport. A total of 6,500 MT of food will be sent. A UNHCR convoy from Bujumbura to Goma (ETA 19 July) is also bringing 18mt of CSB, and 2mt vegetable oil from Burundi food stocks.

ICRC reported that 500MT of food is being sent from Kampala to Goma.

IOM is considering reinforcing its staff in Goma. IOM is transporting people to the camps. They are also trucking fresh water to the camps. A UNHCR Emergency Team is going to Goma today. Concern is sending 7 international staff to Goma who will deal with health, water and logistics.

ASSESSMENTS AND REHABILITATION.

The comprehensive assessment which is due to start from Kigali next week will take a particular look at rehabilitation in the RPF controlled areas, such as the supply of water, which is at present the foremost problem in Kigali. Precise operational objectives will be elaborated as a result of this assessment. There is a possibility that the assessment be delayed due to the reorganisation of the Ministry for Social Affairs ad Development. All information on this can be obtained from UNREO in Nairobi or Kigali.

UNICEF has made an agreement with the RPF to provide assistance to rehabilitate the Kigali urban water system. They are also planning to set up a food security system in which non-food items are exchanged for newly harvested crops. This is to encourage the rapid harvesting of crops.

HEALTH

MSF reported that their operations are continuing in Kigali, Byumba and Bugesera. They are beginning operations in south-western Rwanda in Kaduha camp, Rukondo and Cyanika. MSF is continuing operations in Goma. Contingency planning for 400,000 people took place in Goma in the last few months. UNREO wishes to encourage donors to support the NGOs operating ex-Burundi into the south-west of Rwanda to prevent problems and further displacements in that region.

UNICEF reported that 200 complete emergency health kits, 200 cartons of ORS, 400 packs of retinol, 60 rolls of cotton wool, 40 vaccine cold boxes, 100 vaccine carriers, 1,000 ice-packs, 20 field tents and 72 family size tents arrived on 17 July from Copenhagen in Goma. A second plane of tents, cooking sets and syringes is scheduled for 20 July. 40-60 tonnes of emergency supplies which have been prepositioned in Bujumbura will leave later this week. In Kabale a UNICEF coordinated training for psycho-social treatment of traumatized children took place on 17-18 July. Three UNICEF-USAID teams are currently doing assessment missions from Kabale, Bujumbura and Ngara regarding unaccompanied children. Teams will regroup in Nairobi on 21 July.

5/7

A press conference was held by UNICEF experts on unaccompanied and traumatized children on 19 July. The agency said that there ars over 100,000 unaccompanied children in Rwanda. Assessment missions have already taken place in Ngara, Kigali and northern Rwanda. An assessment in Cyangugu will begin tomorrow. Five pages of guidelines for responding to traumatised children have been produced by UNICEF. The experts stressed that trauma is an integral part of the emergency, and it is important that it is dealt with from the beginning. In cooperation with UNESCO, UNICEF is re-establishing education opportunities for primary-age children in the refugee camps. Education kits have been prepared. The kits include information for dealing with the psychosocial needs of traumatized children, using an approach which emphasizes interactive and cooperative learning.

UNICEF estimates that 20% of the refugee population in Goma are children. Initial estimates are that 130,000 of these are unaccompanied children, many in a very vulnerable state. Most are in a fair-good nutritional condition, with a few suffering from diarrhoea and sores. 120 unaccompanied children were transported by UNICEF to the Ndosho SOS village outside Goma. Donor support to Ndosho, which is intended to be a temporary measure, is a collaborative effort between UNICEF, ICRC and MSF. There are about 1,500 children in Ndosho and more children are arriving every day.

ICRC reported that the NGO INTERSOS is carrying out tracing of parents of unaccompanied children in Benaco and Mugano camp, Burundi.

WATER AND SANITATION

The Austrian Cooperation is proposing to support an ICRC/ MSF two phase programme to rehabilitate the water system in Kigali, and is considering placing an expert in the city.

WFP reported that there are high mortality rates in the Rusumo commune of Benaco Refugee Camp (Tanzania). Mortality is caused by diarrhoea, dysentery and dehydration. Poor sanitary conditions have been reported with an insufficient numbers of latrines, sources of clean water and refuse disposal.

OTHER

The Minister for Development in the Netherlands, Mr Pronk, has offered the UN community a Hercules to be used for the Rwanda Emergency for the next ten days. This Hercules has arrived in Uganda with medical supplies for MSF Holland in Northern Rwanda. The Canadian Air Force is also considering lending a C130 to the operations in Goma in the coming days. The German Air Force has lent a Boeing 707 to UNHCR for the same operation.

On 18 July the USAID Director, Mr Brian Attwood, said that the USA would give a further 31 million dollars to help Rwandan refugees. The European Union will give 180 million dollars over three months to help Rwandan refugees. European foreign ministers, meeting in Brussels, also pledged another 22.7 million Ecu from the community's emergency budget for humanitarian aid.

6/7

UNREO will add a financial tracking section to this situation report twice a month, and all operational partners are encouraged to report their contributions to DHA Geneva (Ms Hazbun, fax: 41 22 788 6389). This will allow an improved monitoring of the overall flow of resources and of the status of the operations.

Subject: **TIME-FRAME FOR DETERMINING THRESHOLD FOR SUBMISSION OF "RELATED" PROCUREMENT CASES TO THE COMMITTEE ON CONTRACTS**	

1. THE CHAIRMAN OF THE HCC RECOMMENDED TO THE DIRECTOR OF O.G.S. THAT THE CALENDAR YEAR SHOULD BE APPLIED AS THE BASIS FOR DETERMINING THE THRESHOLD FOR SUBMISSIONS OF PROCUREMENT CASES TO THE COMMITTEE ON CONTRACTS, WHICH INVOLVE COMMITMENTS TO A SINGLE CONTRACTOR IN RESPECT OF A SERIES OF RELATED REQUISITIONS EXCEEDING THE FIELD MISSIONS LOCAL COMMITMENT AUTHORITY.

2. IN THIS REGARD YOU WILL RECALL THAT IT HAS BEEN THE LONG ESTABLISHED PRACTICE TO CONSIDER THE MANDATE PERIOD AS THE TIME FRAME FOR DETERMINING THE THRESHOLD FOR SUBMISSIONS TO THE COMMITTEE ON CONTRACT (THE LOCAL COMMITTEE AS WELL AS THAT AT HEADQUARTERS). WE NOTE THAT IN ALL DELEGATIONS OF PROCUREMENT AUTHORITY ISSUED IN RECENT YEARS A CORRESPONDING PROVISION HAS BEEN INCLUDED .

3. FOD IS OF THE OPINION THAT CHANGING THE CURRENT PRACTICE THROUGH ADOPTION OF THE NEW POLICY RECOMMENDED BY THE CHAIRMAN OF THE HCC WILL RESULT PRIMARILY IN A FURTHER INCREASE OF THE ALREADY HEAVY WORKLOAD OF THE LCCS AND THE HCC. WHILE THERE ARE SOME ARGUMENTS IN SUPPORT OF THE PROPOSAL, FOD FAILS TO SEE A COMPELLING REASON THAT WOULD SUPPORT THE PROPOSED DRAMATIC CHANGE IN THIS LONG ESTABLISHED PRACTICE FOR FIELD MISSIONS.

4. IN ORDER TO ILLUSTRATE THE INCREASE OF WORKLOAD FOR THE LOCAL AND HEADQUARTERS CONTRACT COMMITTEES IN THE EVENT THAT THE PROPOSAL OF THE CHAIRMAN BE FOLLOWED, WE WOULD KINDLY REQUEST YOU PROVIDE US BY MONDAY JULY 25, 1994 WITH STATISTICAL DATA IN THIS REGARD.

New government in Kigali

France pledges to back fresh crop of leaders

Rwanda's new government, named by rebels who now control most of the country, was sworn in yesterday in Kigali, the Rebel Rwandan Patriotic Front (RPF) radio said.

Pasteur Bizimungu was sworn in as President and Faustin Twagiramungu as Prime Minister, according to the radio, which carried a live broadcast of the ceremony at the national parliament building.

Mr Bizimungu is a moderate Hutu named President by consensus at a meeting on Sunday of the Central Committee of the Tutsi-led RPF, which confirmed Mr Twagiramungu, another moderate Hutu, as Prime Minister.

Mr Bizimungu is to serve a five-year term along with 22 ministers in the new national-unity government.

RPF military leader Paul Kigame was present at the investiture, where he exchanged greetings with RPF chairman Alexis Kanyarengwe.

Representatives from Uganda, including Prime Minister George Cosmas Adyebo, were among foreign guests at the ceremony, according to the radio, monitored by BBC.

The RPF secured its military victory against ousted Hutu-led government forces on Saturday when it seized the town of Gisenyi in the northwest, the last bastion of the old interim administration in Rwanda.

On Sunday, the RPF Central Committee named the two Hutu figures to the top posts in a bid to stem the massive flight of Hutu refugees fearing Tutsi revenge killings.

In Paris, France, acknowledging Rwandan rebels had effectively won three-month civil war, said it would negotiate for an end to its humanitarian intervention with the victors forming a new government.

The RPF has called a ceasefire but tens of thousands of Hutu refugees are still fleeing eastwards into Zaire from a French safe area in south-western Rwanda.

"The RPF appears to have effectively won the war and it must now follow up its victory. It must now respect the cease-fire and no longer hunt civilians or Goma, French Foreign Minister Alain Juppe told Europe 1 Radio.

Aid agencies in Goma, the main base for France's Operation Turquoise which is aimed to protect civilians from ethnic violence, have predicted that hundreds will die in days in the north unless massive amounts of aid are distributed.

The RPF is mainly composed of the minority Tutsi tribe, who suffered most in a slaughter of an estimated 500,000 people since April.

European Foreign Ministers, meeting in Brussels, pledged to release another ECU 122.5 million from the community's emergency budget for humanitarian aid.

The extra cash will cover distribution of some 40,000 tonnes of food, already in Mombasa, to the refugee camps around Rwanda.

A German Boeing 707, carrying blankets, plastic sheeting and store houses in kit form, landed in Nairobi on Monday and yesterday for Goma, Zaire, to deliver the supplies. (Agencies).

Rwanda: Tough for throngs on the run

By PAUL ALEXANDER

GOMA (ZAIRE), Tuesday

Every day they trudge toward two lakes, carrying any containers they can find for the main task of the day.

It's one that might bring them illness and death from drinking untreated water. But that is tomorrow, and thirst calls today.

Life for most of Goma's one million Rwandan refugees is a day-to-day struggle to find water, cope with homelessness in an open field, stretch out any food they carried in on their head and shoulders, and hope that gunmen don't come looting.

Exhausted from a journey of up to two weeks by foot, they rest and think of loved ones who died in the civil war or on the path out of the country with the Rwandan Patriotic Front Force hot on their heels.

Now there are fears that an even larger exodus could hit the unprepared Zairean city of Bukavu, 100 kilometres to the south across Lake Kivu.

"Bukavu is the priority now," International Committee of the Red Cross spokeswoman Nina Wingfield said today after speaking with a Red Cross worker there. She was talking about a complete mass exodus of the civilian population and government soldiers.

Just as in Goma last Wednesday, Rwanda's majority Hutus have started crossing over into Bukavu, with 100,000 reported to have passed the border on Sunday and yesterday. About 4,000 an hour were crossing.

And just as in Goma, there are reports of Cyangugu, across the border in Rwanda, descending into anarchy with soldiers looting after their government leaders fled.

"We have 2,000 tons of food in the warehouse in Cyangugu but it has been partly looted, so we don't know how much is left there," said Tony Burgener, a Red Cross spokesman in Geneva.

Fernando Del Mundo of the UN High Commissioner for Refugees in Geneva said the Agency estimated about 1.9 million Hutus were moving from a French-guarded safe zone in South-Western Rwanda toward Cyangugu.

"The refugees are saying they are moving because their leaders told them they can no longer protect them." Mr Del Mundo said. "Despite the assurances from the French, they are responding to what their leaders are saying."

So Bukavu, which doesn't even have an airstrip capable of taking aid agency planes, could be the next staging ground for what one aid worker already has called "The exodus of a Nation."

Neighbours

With a million refugees now in Zaire, another half million in its other neighbours and may be a half-million dead from Ethnic slaughters and the war, the departure of two million more would leave Rwanda with only half of its pre-war population of about 8 million.

The only hope is that a unilateral cease-fire declared yesterday by safe zone, will stem the tide before it turns into a flood.

"We obviously welcome the ceasefire," said Panos Moumtzis, a UNHCR spokesman in Goma. "We hope it will encourage people to stabilise where they are. We hope the right conditions will be created for people to go home."

The new exodus has harried aid agencies expecting the worst after their lack of preparedness in Goma. They are scurrying to get food and workers in place.

The United States announced yesterday it is giving in extra $31 million for the relief effort in Rwanda, on top of 70 million already committed of that, 21 million would go to help Goma's refugees and another 10 million to South Western Rwanda.

The latter contribution will go for food and is designed "to head of the US Agency for International Development, "We can't afford to see that happen."

The aid effort is slowly getting off the ground in Goma. The Red cross already had more than 1,000 tonnes of food on hand to help the refugees if they had stayed in Rwanda.

The agency distributed 60 tonnes of Lactile and rice to 130,000 people in a huge camp 30 kilometres north of the city yesterday and has another delivery scheduled for today.

UNHCR said yesterday that its water engineers had found a site west of Goma that could hold up to 500,000 people, and the first refugees already have moved there.

But the airlift that will be the primary source of aid until road convoys can get organised was suspended for a day because three mortar shells landed near the airstrip on Sunday.

The airlift was to resume today, but the decrepit airstrip and lack of forklifts to unload the supplies means the operation will be far from efficient.

The tiny airport is so overtaxed that the French, who are controlling the landing time slots, have allocated only two for the World Food Programme today. The agency was hoping to be up to flights daily by them.

Despite the chaos in Goma, there always is hope for renewal of life. One woman gave birth yesterday on the lawn of the Hotel du Grand Lac, where most Journalists are staying.

But 99 unaccompanied children were taken yesterday from the main border crossing, the site of a mortar attack and ensuing stampedes the night before that left more than 50 people dead. (AP)

WORLD NEWS BACKGROUND

Healing Kigali's ethnic wounds

By [illegible]
NATION Correspondent
KAMPALA, Tuesday

The Tutsi-led Rwandese Patriotic Front (RPF) rebels may have formed a broad-based government, but to sustain it will demand more than appointing a few Hutus to key positions.

The RPF, who captured Kigali on July 4, installed a new government yesterday with two Hutus to head it — Pasteur Bizimungu, their representative in Brussels, as President, and Faustin Twagiramungu as Prime Minister.

But watchers of Rwandan politics say the key to peace in that restive country lies not just in naming Hutus to key government positions but would involve vigorous efforts to prove to the majority Hutu that the Tutsi, exiled for decades, were not back with a vengeance.

"The real rough journey along peace avenue has only begun. It will take more than top jobs to assure the Hutus that they are at home with people they so brutally drove into exile 35 years ago," said one Ugandan political analyst.

Thousands of Tutsis were butchered and many more driven to exile in the 1959 Hutu uprising which ended centuries of domination by the Tutsis.

"The mistrust (between the Hutus and Tutsis) is so intense it will take them generations to erase," said another political analyst.

As he spoke, an estimated one million Rwandese, most of them Hutus, fled across the border into Zaire as RPF troops advanced on remnants of Rwanda's erstwhile government in Cyangugu near the border with Zaire where they had taken refuge.

Will the Tutsi-led team work?

Designated Prime Minister Twagiramungu underscored this point on arrival in Kigali from Brussels last week. He said his priority was to get a radio station working to counter the propaganda by Hutu extremists.

Radio Rwanda said on Monday the RPF would form an army to include all political groups, but stressed that members of the late President Habyarimana's party would be excluded from the new government.

"They may succeed in running a government of some sort for several months, even years. But for all intents and purposes, it will have to be a kind of benevolent dictatorship," a Ugandan journalist said.

The RPF, acknowledging they cannot rule Rwanda alone, have repeatedly sought not reassure Hutus (who constitute 85 per cent of the population) that they will only keep a stake in government enough to make that they, as the minority (14 per cent), are not oppressed or denied opportunities.

The RPF, which invaded Rwanda from Uganda in October 1990 and includes Tutsis exiles from other countries, says it will not hold anyone responsible for their part in the past clashes, but insist whoever was involved in the recent bloodbath will be prosecuted.

More than half a million people are believed to have died in the killings sparked by the death of Hutu President Habyarimana in a rocket attack on his plane as it came to land in Kigali on April 8.

Hundreds of militias said to have been trained over the years on the commands of President Habyarimana, descended on Tutsis and Hutus known to support a power sharing arrangement with the Tutsis and systematically massacred them.

The militias are reported to have been preaching to their kinsmen that they too would be killed if the RPF took power, forcing them to flee with them as the RPF advanced.

The RPF, who by appointing Mr Twagiramungu to head the new government were sticking to the peace agreement they signed with President Habyarimana in Arusha last August, have been eager to stress they will not go witch-hunting politicians from the last government.

SITUATION REPORT # 49

The Consolidated Inter-Agency Appeal for Persons Affected by the Crisis in Rwanda was discussed today at a donor meeting in Nairobi, chaired by the Humanitarian Coordinator Mr Hein. Copies of the last draft of the Appeal were circulated, and agencies made a short presentation and answered donor questions. Mr Shahryar Khan, Special Representative of the Secretary General, made a special declaration on the actual political situation in the country, before boarding the plane to Kigali, where the inauguration of the new government took place today. The meeting had a very positive tone, due to the high degree of donor interest and the intimate coordination of the agencies.

UNHCR Goma reported yesterday that approximately 400,000 people have crossed into Uvira (Zaire) via the Ramanyola border point. This is in addition to the 1 million people in Goma and the 100,000 people in Bukavu. Flights to Goma are resuming today. There are 14 humanitarian flights and 4 military flights (numerus clausus). The RPF has closed the border from Gisenyi to Goma and no more Rwandans are now crossing at this border point.

IOM is sending a team of 10 international staff to Goma. A UNHCR Emergency Team is going to Goma today. IOM is transporting people to the camps. They are also trucking fresh water to the camps.

UNHCR reported that 100,000 Rwandans have crossed into Burundi in the past week, bringing the total of Rwandan refugees in Burundi to 193,000.

Kigali has remained clam, and the RPF is maintaining its checkpoints. Lootings are still going on. The city market has opened yesterday. UNAMIR reported that 771 displaced persons were transported from Rutare to Kigali on 18 July. There are 10,800 persons in Rutare awaiting transportation to Kigali.

The Minister for Development in the Netherlands, Mr Pronk, has offered the UN community a Hercules to be used for the Rwanda Emergency for the next ten days. This Hercules has arrived in Uganda with medical supplies for MSF Holland in Northern Rwanda.

A press conference was held by UNICEF experts on unaccompanied and traumatized children today. The agency said that there are over 100,000 unaccompanied children in Rwanda. Assessment missions have already taken place in Ngara, Kigali and northern Rwanda. An assessment in Cyangugu

will begin tomorrow. Five pages of guidelines for responding to traumatised children have been produced by UNICEF. The experts stressed that trauma is an integral part of the emergency, and it is important that it is dealt with from the beginning. In cooperation with UNESCO, UNICEF is re-establishing education opportunities for primary-age children in the refugee camps. Education kits have been prepared. The kits include information for dealing with the psychosocial needs of traumatized children, using an approach which emphasizes interactive and cooperative learning.
