Senator member group of Sam Rainsy Party, personally affected by current political violence, is deeply concerned about democratic process, human rights situation and rehabilitation, reconstruction and development in Cambodia, by 1991 Paris Peace Agreements and offering huge aid of international community which worsened suddenly since 2013 election and upcoming 2017 and 2018 elections that Cambodian people and Cambodian National Rescue Party (CNRP) wish audaciously to change.

The thick list of violent event and the Politically-controlled court using over workers, citizen, political activists, chamber of deputies, senators and CNRP's leader, demolish really and dissolve barbarously democratic strength in Cambodia such the sole party's regime in the past.

Senator member group of Sam Rainsy Party would like to solicit assistance from United Nations, United States, Japan, European Union and other Paris Peace Agreements signatories on Cambodian issues and loved minded liberal democracy national and international organizations to turn the concern about Cambodia's situation to practice measures to end dangerous challenge between the ruling party and the minority party in the parliament and to build free and fair atmosphere of political competition through Cambodia upcoming election which are the achievements of the United Nations mission and the only first huge, seldom, positive aid for rehabilitation and reconstruction of Cambodia for constant prosperity of Cambodian People.

Please accept, Excellency, the assurances over our highest consideration.
