MESSAGE:

*NGO's : 102 can stay**38 must leave 'immediately'**18 Under suspension, pending decision*

Dear [redacted]

*Reasons = a) incompetent NGO's b) strict conditions in new
for agreement unacceptable to NGO's.*

I have a little information for you, not much but I thought you should know just in case.

Information reached me from an NGO, in Bukavu, of the following two points:

1) Over the last week there has been a movement of refugees in the area. According to their information women and children refugees are leaving the camps and moving inland (that is away from the border with Rwanda). They are leaving behind all of the men and the teenage boys who remain in the camps.

2) There has for some time been an 'impôt de guerre'. The refugees are obliged to pay this tax to the former military to supposedly finance their preparations to attack Rwanda. The amount of the impôt de guerre is recently supposed to have been raised.

3) The above information suggests a preparation for war. However, as you know this is really just conjecture and it could mean nothing immediate. There is a rumor, here in Kigali, which would support the 'war' argument but I shall not include that in the fax.

4) Finally, in Burundi, yesterday there was heavy fighting which lasted all day. One member of the Belgian Red Cross was transporting wounded (unarmed) Burundi government soldiers; they were stopped at a Hutu militia road block and the militia killed all of the wounded soldiers that were in the vehicle.

5) Finally, Pauline, relative to my coming down to Cyangugu. If there is an emergency situation and you need people then I will ask to be sent down.

Take Care and be careful, *and the same for the rest of the team.*

USE OF UN HELICOPTERS - RPA

Ref: Sector 4 Sitrep No. 02, para 2B(3)(A) of 02 Nov 95

1. The following is a repeat of ref:

- a. RPA in Bugarama have informed MILOBS that Zairian troops have complained that UN helicopters are violating their air space by flying too close to the border areas and have threatened to shoot down UN helicopters in the future.

Assessment. It is assessed that Zairian troops are informed by FRGF inside Rwanda that RPA are using UN helicopters to recce Zairian defenses along the border areas. This statement is untrue. It is believed this statement is made to prevent RPA from using UN helicopters to air recce suspected FRGF/Interahamwe locations inside Rwanda. The air reconnaissance flights, conducted well inside Rwandese territory, are used as a pretext by Zairian forces to prevent further UN flights from carrying RPA members.

2. It is therefore recommended that any future air task requests involving RPA passengers be rejected.
