(i) There are total 54 cells within the commune. Each cell has a 3 member committee and all the sectors and the commune HQ has also has a 3 member committee under the sectors head and the commune head respectively. This makes a total $(162 + 24 + 3 = 199)$ persons to look after the security of the commune. Besides there is a 10 member police team but the authority to issue arrest warrant rest with the commune head only. The system is very much functional as the locals reported with satisfaction.

24. Recreational Facilities. The commune has two very good handball team (1x boys, 1x girls) - but has no gears. Similarly there are football and basketball teams with good standard but in dire need of sports gears.

25. Misc. Beside all these the locals are in dire need of food, medicine, warm dothings, reading materials and other basic human needs.

26. Recommendations. Basing on the problem highlighted above the recommendations are

as follows:

- a. All office (commune & sectors) are to be renovated and be supplied with electricity and transport.
- b. All medical centres are to be rehabilitated.
- c. The orphans, handicapped, widows and the poor are to be provided with food and other needs.
- d. To reactivate the gold mines, new tools be provided.
- e. Road & Bridges are to be repaired.
- f. Locals be ^{provided} ~~supplied~~ with recreational facilities.
- g. To activate the local judiciary system one judge and inspector of police be posted.
