ITEM I - INTRODUCTION

1. Minutes of last meeting were highlighted by the Chairman who also informed that a new CHAO Lt Col Nestor Sainz Taranto is on the ground now and hopefully will chair the next meeting.

ITEM II - REQUESTS CONSIDERED BY UHAAG

2. A request from an association "GIRUBUNGU" for the granting of property like utensils, vehicles, water heater, furniture etc was considered. The STO informed that a lot of items are in the process of being written off by the "ASSETS MANAGEMENT GROUP" due to the repatriation of some Contingents. He suggested a HAC rep attending the committee meetings so as to be in a position to know the available items and make subsequent use of them in the humanitarian field.

Action - CHAO

3. A transport request from Rwandese Ministry of Agriculture and Rearing for provision of 10 vehicles (4 runners or pick-ups double cabin) for their vaccination programme was also considered but not approved due to immediate non-availability. However, as per the AFC's instruction on the issue, the Ministry should be asked to make contact with the various Sectors' MILOBS HQ with a view to their assisting them in any way possible transport-wise for the programme.

4. A request from Kigali Prefecture for trucks to transport food (800 tons) from WFP warehouse to the Communes for the period 11 - 17 Jan 96 was also considered. It was not approved because the planned repatriation programme of some Contingents would make UNAMIR transport assistance very minimal. Besides, such requests are to be routed through the Rwandese government Ministry of Planning.

5. Another request from IMC for the digging of some pit latrines in a school in Kibungo was also considered. The digging was approved but the permanent supervision of the masonry aspect of the job was not approved because it will involve keeping some UNAMIR personnel permanently there to supervise the job. UNAMIR does not have the capacity presently to engage in such extra tasks.

Action - FEO

Ambassador Shaharyar M. Khan
Special Representative
of the Secretary General
for Rwanda.

Dear Mr Khan,

SUBJECT: REQUEST FOR UNAMIR ASSISTANCE.

We would be grateful if UNAMIR could provide us with the following assistance as a matter of urgency:-

1. UNAMIR armed military personnel to guard two of our warehouses and their surrounding compounds. These are located in two separate locations within Kicukiro area of Kigali Prefecture.

Our warehouses/compounds have been broken into on several occasions. This has resulted in WFP losing large quantities of different food commodities allocated to different WFP Emergency and Rehabilitation Programs within Rwanda. Unless this situation is addressed and an urgent remedy is provided, WFP will continue to encounter enormous problems with its operations.

2. UNAMIR vehicles to transport food for work (FFW) from our warehouses situated in several Prefectures, to primary school teachers in the several Communes. The current transport will initially be for the months of July and August 1995. This will be of great assistance and beneficial to the community of primary school teachers in Rwanda, since it is in line with the current UN mandate of changing our emergency relief programs to rehabilitation projects/programs. The details for this request is illustrated on the attached sheet.

3. UNAMIR personnel to construct/erect WFP Portadome and Rubbhall mobile warehouses in several locations within Rwanda. The most urgent location is presently Nyagatare. A list of other locations will be provided shortly.

Your consideration and assistance in the above matter will be highly appreciated.

With best regards.

Yours sincerely,

Food, medical drugs, blankets and agricultural implements were distributed to commune authorities. Human Rights conducted lectures to prefecture staff on human rights issues.

The American Embassy Club of Kigali, which serves the international community stationed in Rwanda, is in critical need of UNAMIR's assistance.

The Embassy respectfully requests that a UNAMIR truck pump out the septic tanks at the Club. A health hazard has been created by the over full septic tanks. We asked several other organizations, including the Ministry of Public Works, about performing the work and were informed that only UNAMIR had the necessary equipment.

To avoid closing the Club, we request that the Humanitarian Assistance Committee take action on this request on an urgent basis. If the committee has any questions regarding the situation, please contact me or Lt. Col. Odom at the American Embassy.

SUBJECT: TRANSPORT OF FOOD TO PRIMARY SCHOOL TEACHERS.

Follow up our telephone communication of 20/06/95, I have the pleasure to forward to you the total quantity of Food, to be delivered in each Prefecture for the food Aid Programme to the Teachers of the Primary schools.

Note that distribution has already been carried out in KIBUNGO and GITARAMA should start this week. As we mentioned this morning, this crucial distribution has been already delayed for more than a month and both WFP and the Ministry of EDUCATION do have at present not the means for transporting the above quantities in the different Schools.

We would be extremely grateful if your organisation could help us in this crucial moment. If you could agree on the principle, I would be glad to discuss with you and the Ministry of Education about details of transport in each concerned Prefecture.

Awaiting for your response, I remain,

Yours Sincerely.

INTER-OFFICE MEMORANDUM

DATE: December 27, 1995

TO: DCOS (Supp)
Chairman, HAC
CO 95 CMSG
CO Indbatt

FROM: W. Clive
A/CAO

SUBJECT: HUMANITARIAN ASSISTANCE FOR THE
REMAINDER OF THE UNAMIR MANDATE

This memo is written to inform addressees of the restrictions that should be applied to the allocation of military and/or civilian assets for humanitarian purposes. The general instructions given to the CAO's representative on the UNAMIR Humanitarian Advisory Committee were that UNAMIR military surplus labour and equipment be used for the performance of humanitarian tasks.

It seems, however, that humanitarian taskings requiring the reimbursement of overnight stays and meal allowances in the sectors have been allowed in the past. By definition, surplus military equipment and labour precludes these types of overnight taskings. Therefore, all concerned are requested to accept humanitarian requests only if the tasking will not incur extra cost to the organization (not including the cost of fuel and vehicles, which are considered incremental). Of course, if a contingent wishes to volunteer its extra time and resources, they may certainly continue to do so. Addressees are encouraged to continue the excellent humanitarian support that they have been giving, keeping in mind this small restriction.

If UNAMIR receives any budget allocation for humanitarian tasks in the new mandate's budget, addressees will be informed immediately.

Thank you for your understanding.

Mr le Représentant,

J'ai l'honneur de venir auprès de votre
haute bienveillance pour vous demander de nous aider à aplanir un terrain
de construction.

En effet, Monsieur le Représentant,
notre école a obtenu de la Commune Gikoro un terrain de 1,5 hectare pour
la construction des maisons de logement des professeurs. Les difficultés
pécuniaires qu'ont les membres de l'Association et les parents des
élèves ne leur permettent pas d'avoir suffisamment des fonds pour
aménager ce terrain et en même temps pour construire.

Votre contribution leur serait
donc d'une grande importance.

Veuillez agréer Mr le Représentant,
l'expression de mes sincères remerciements et de ma profonde gratitude.

Nous avons l'honneur de vous demander de bien vouloir nous octroyer des véhicules dont un Camion et/ou Camionnette pour le transport des denrées alimentaires destinées aux Orphelins supportés par notre Association et une Voiture pour les déplacements qui s'avèrent indispensables.

En effet Messieurs, notre Association étant une Organisation Sans But Lucratif qui a été agréée par l'Arrêté Ministériel n° 35/05 du 16 février 1995 et s'occupe des Orphelins se trouvant dans des Familles d'accueil.

Nous tenons à vous informer que nous possédons quelques lots des denrées alimentaires offertes par certains Bienfaiteurs tant Nationaux qu'Internationaux mais malheureusement notre Association éprouve des difficultés de les distribuer "A qui de droit".

Comme votre Mission épaula aussi des Organisations Non-Gouvernementales (ONG) locales dans leurs besoins et que la notre se trouve dans la nécessité, nous formulons cette requête afin de voir comment nous accorder un Camion et/ou Camionnette qui serait affecté (e) au Service qui s'occupe de la distribution desdites denrées alimentaires d'une part

Résumé

Ce document constitue un essai de projet de programme des activités de l'Association Barakabaho. Ce plan d'action est pour une durée de cinq ans (1995 - 2 000). La somme totale des buts, des objectifs, des activités du processus et des organes d'exécution et de contrôle constitue un plan d'action de l'Association Barakabaho. Après l'introduction et la mission, le document contient neuf buts rattachés aux objectifs et aux activités à faire pour accomplir ces buts. Ces buts sont les suivants :

1. Le renforcement et la fortification de Barakabaho
2. Avoir une base financière solide.
3. La consolidation de l'institution Barakabaho
4. Encourager le partenariat de Barakabaho avec d'autres organisations
5. Extension de l'Association Barakabaho
6. Assurer la formation familiale aux familles d'accueil
7. Assurer une meilleure santé des membres des familles d'accueil
8. Création d'emplois pour les familles d'accueil
9. Servir d'intermédiaire entre les familles d'accueil et autres organisations.

A chaque activité nous proposons quelque point de comment faire (processus) pour atteindre l'objectif fixé. Ce plan d'action va être amélioré suivant le résultat du suivi des activités et l'évaluation continue.

I N T R O D U C T I O N

L'Association BARAKABAHO existe pour assister les familles d'accueil des enfants non-accompagnés et orphelins. Le problème des enfants non-accompagnés existe au Rwanda depuis la guerre d'octobre 1990. Ce problème s'est aggravé suite aux massacres du mois d'Avril 1994. Les massacres et la guerre ont laissé un grand nombre d'enfants non-accompagnés. Notre enquête et notre identification depuis le mois d'août 1994 révèlent qu'il y a beaucoup d'enfants non-accompagnés et orphelins sur chaque colline du Rwanda.

Beaucoup d'organismes non-gouvernementaux sont engagés dans le service d'aide aux déplacés de guerre et aux réfugiés dans les camps, les dispensaires, les hôpitaux et les orphelinats mais ils laissent de côté des millions d'enfants éparpillés sur les collines dans les familles démunies. Après la constatation de ce lacune, l'Association Barakabaho a décidé de concentrer ses efforts sur les familles d'accueil d'enfants non-accompagnés et d'orphelins.

L'Association Barakabaho voudrait assister les enfants orphelins dans un contexte familial, dans une famille d'accueil idéale. Une situation idéale d'accueil est une famille où tous les besoins de l'enfant (psychologique, matériel, spirituel et émotionnel) sont satisfaits par une personne qui aime les enfants. C'est un endroit où les enfants grandissent et se développent positivement. L'environnement familial accueillant offre une fondation qui permet à l'enfant de grandir et de donner sa contribution en tant que membre de la société.

LA MISSION DE L'ASSOCIATION BARAKABAHO

L'Association Barakabaho existe pour assurer le bien être moral, physique, intellectuel, spirituel et affectif des enfants non-accompagnés et orphelins et les préparer à l'intégration sociale dans la vie active.

- a. L'Association pourvoit une assistance aux familles d'accueil des enfants orphelins; les besoins nutritionnels, les soins de santé, l'habillement et la scolarisation.
- b. Elle servira d'intermédiaire entre les familles d'accueil d'enfants orphelins et les O.N.G qui oeuvrent pour le bien être familial.
- c. Elle assurera la formation familiale en matière d'éducation des enfants et la sensibilisation de la communauté pour la prise en charge des enfants orphelins.
- d. Elle créera les emplois pour les familles d'accueil et pour les orphelins.

L'Association Barakabaho servira les familles d'accueil d'enfants non-accompagnés et orphelins sur toute l'étendue de la République Rwandaise. Pour atteindre ses objectifs, l'association Barakabaho a besoin des ressources humaines qualifiées et compétentes, des ressources matérielles tels que l'équipement de bureau et le matériel roulant pour effectuer les visites et assurer la distribution du matériel aux familles d'accueil d'enfants non-accompagnés et orphelins; des ressources financières et informationnelles tel que le téléfax et l'ordinateur pour aider à la collecte et à l'analyse des données recueillies dans des familles d'accueil d'enfants non-accompagnés.

L'Association Barakabaho exercera ses activités dans la préfecture de la ville de Kigali et étendra ses activités à travers le pays suivant les moyens à sa disposition. Nous croyons que l'enfant se développe convenablement dans une situation familiale et que toute assistance à l'enfant doit aider toute la famille d'accueil d'enfants non-accompagnés et orphelins. Notre grand souci est que l'enfant puisse grandir dans un contexte familial où tous ses besoins sont satisfaits.

Les membres de l'Association Barakabaho et son personnel expérimenté constituent ses forces majeures. L'Association servira les familles d'accueil d'enfants orphelins et son personnel dans la fidélité et la transparence. Elle remplira également ses responsabilités légales.

B U T N° 1

Fortifier et renforcer l'Association Barakabaho en vue d'accroître son efficacité afin qu'elle puisse servir effectivement les familles des E.N.A et de mieux accomplir sa responsabilité et sa mission au Rwanda.

R A I S O N E M E N T

L'Association Barakabaho a besoin d'un leadership de qualité, pour contextualiser et continuer à clarifier sa direction dans l'accomplissement de sa mission. Il est donc nécessaire de fortifier l'institution Barakabaho au Rwanda par les moyens suivants :

- a. Avoir accès à des ressources financières adéquates au Rwanda et à l'étranger.
- b. Organiser les meetings avec les bailleurs de fonds et les ministères concernés, les membres de l'Association pour discuter sur l'agenda des priorités de l'Association.

Essayer d'établir et renforcer une base financière en vue de soutenir les activités et programmes de l'Association.

R A I S O N N E M E N T

La viabilité, le fonctionnement, la croissance et l'auto-suffisance de l'Association dépendra sur sa capacité de générer les fonds à long-terme. L'Association doit s'assurer d'une source de financement régulier afin d'effectuer ses buts et ses objectifs dans l'accomplissement de sa mission.

O B J E C T I F S

- a. Faciliter un processus par lequel un flow régulier de fonds peut être assuré
- b. Commencer une recherche systématique sur les voies et moyens de collectionner les fonds.
- c. Initier les projets et les programmes qui peuvent générer les fonds.
- d. Formuler les politiques financières des fonds de l'Association.

P R O C E S S U S

- a) Effectuer des recherches et consultations
- b) Entreprendre des études de faisabilité
- c) Visiter les bailleurs de fonds
- d) Demander conseil au Trésorier et aux commissaires aux comptes

Pour consolider l'institution Barakabaho, il s'avère nécessaire de développer, améliorer et promouvoir un support solide dans ses efforts de développement et des politiques.

R A I S O N N E M E N T

L'institution Barakabaho doit avoir un cadre institutionnel et une structure organisationnelle qui reflète les techniques modernes de management afin d'assurer la croissance, le développement et une bonne coordination. MEMORANDUM

To: Mr Javed Khan
Mrs Isel Rivero
✓ Mr Wilfrid DeSouza. *AD 1-12-95*
From: Force PAO *WJR*
Date: 30 Nov 95
Subject: Kibeho Addition to Achievement List

1. The SRSG requested that a paragraph be included in the "UNAMIR Achievements" document under Military Operations. The FC has approved the following paragraph. I passed this to Mr Javed Khan, but don't believe he is around today. I pass this to you in the hopes that you know who is preparing the final draft so they can include this para. Thank you.

To be added under Military Operations:

Notwithstanding the unfortunate number of people killed in the Kibeho Incident, it should be noted that it is our firm belief that it was only due to the courage, tenacity and perseverance of UNAMIR troops, notably the Zambian soldiers and the Australian Medical team, that many more deaths did not occur. It must be remembered that UNAMIR troops were the only group allowed by the RPA to remain inside the cordon and they assisted in providing first aid, sanctuary and discipline amongst those wounded and crowded inside the cordon. They were integral in establishing a sense of orderliness immediately following the incident and their actions, without a doubt, helped to save countless lives. *X*

I have pleasure to apply under your goodwill a help of contacting the financial -backer for REMERA HOSPITAL completion remained unfinished because of war period which shook our country. |

In fact, that action can aid many sectors because it is located in the cross-road between MUSEKE NGOMA, RUSAGARA, and CYINZUZI.

As regards MBOGO COMMUNE, about sanitary, it is almost the less served of KIGALI-RURAL COMMUNES. One hospital centre of Rulindo which is almost innoccupied and not rehabilitated with that hospital under construction. All of that press a worry to introduce the life of our people.

ASSISTANCE TO THE AIRPORT.

For the last one year we have had a very useful and mutually beneficial relationship with UNAMIR.

Now that UNAMIR is slowly phasing out activities I wish to appeal that this International airport be considered for substantial material assistance in the following areas critical in airport operations:-

PROVISION OF WATER

The airport does not receive enough piped water and for this reason our own old water truck and UNAMIR's water truck have been relieving each other in shifts to provide water for the airport. If this service is phased out it leaves us with only one old truck and this will definitely impair our capacity to provide sufficient water for the airport consumption. Our request therefore is that UNAMIR donates one water truck to the airport.

POWER GENERATION

Commercial power is not yet enough to supply the whole country twenty four hours. Yet the airport is a twenty four hour user of power.

Our own standby capacity is under 400 KVA per generator and for the last year we have been boosted by a UNAMIR 700 KVA generator which in comparison with the smaller engines

Reçu le 17 NOV. 1995

even consumes less fuel. Our standby power requirement, if we supply to the whole airport is 1000 KVA. Our request is that UNAMIR secures and donates to the airport a 1000 KVA generator.

AIRPORT AMBULANCE/FIRST AID VEHICLE

This airport has not had an ambulance service for long and we have always relied either on UNAMIR or private arrangements of patients. But an airport must have its own ambulance/first aid service vehicle.

Our request is that UNAMIR secures and donates to the airport atleast one ambulance/first aid service vehicle.

TRACTORS FOR GRASS CUTTING/LAWN MOWING

The airport has an expanse of land covered with grass that has to be cut always to give the airport a good face. Unfortunately one tractor simply does not measure up to the task.

Our request therefore is that UNAMIR secures and donates to the airport one tractor with a rotorised mower.

TARMAC REPAIR EQUIPMENT

The airport technical capacity to do daily repairs to the tarmac infrastructure that we have in abundance was seriously impaired by the war. All repair equipment was damaged beyond economic repair. Now right from small runway repairs, apron and taxi way repairs, parking lot repairs, drive way repairs which we would be doing as part of ordinary and daily work either goes for weeks undone or is not yet done altogether. Yet this is the nerve centre of airport operations.

Our request therefore is that UNAMIR secures and donates to the airport a surface repair unit consisting, inter alia, of:-

- a Compactor Truck
- a Stone crusher
- a Concrete mixer.

Sir, allow me to thank you in advance for the consideration UNAMIR will accord the request of this airport which for the years UNAMIR has been here, has striven to make all UNAMIR's flight and other airport operations into enjoyable events that memories will find difficult to forget even after the phase out.

(a) CAO's letter dated 17 Aug 95.

(b) This Coy letter No 1076/UN/ET/26/G dated 29 Oct 95.

2. Engr Assistance for Rehabilitation School in Butare has been completed. Details of Assistance provided are as follows :-

(a) Sanitation.

(i) Pit Latrines. 100 Pit latrines have been constructed by this Coy and pit for additional 50 latrines have also been dug which will be constructed by school authorities.

(ii) Dust bins. 5 Dust bins and two septic tanks were dug to facilitate disposal of waste and for emptying of existing septic tanks.

(ii) Supply of Chemicals. 200 Kgs of chemicals have been handed over to school administration for treating sewage.

(b) Water Supply System.

(i) Water supply system of the school complex (having 53 buildings and 2500 inmates) has been revived by removing blockages, laying fresh pipe lines and by removing the faults of the earlier system. In addition to the repair and fitting of a existing storage tank three new storage tanks have been installed and connected to the system, thus giving a storage capacity of approximately 80000 - 90000 liters at a time. Also the system has been put on the gravitational flow thus avoiding the augmentation by pumps which would have necessitated regular operation and maintenance and also would have pushed up the budget. New connection in the kitchen, dinning hall and at other places as requested by the school has been provided.

This is excellent work. Pl. send report to Gen. Sec. concerned with my signature as JGJ (cas) 4/20. J. R. R. R. R. R.

(c) Electrification. Like water supply system, electric supply system was virtually non-existent. New wiring has been done and fitting provided in all the buildings.

3. Stores for the project have been procured locally from the market and some from CBMS and from the Coy sources. Total expenditure on the stores procured from the market was US \$ 29735.00 (Twenty Nine Thousand seven hundred and thirty five US dollars).

4. School authorities and representative of Rehabilitation Ministry have expressed their gratitude to the UNAMIR for the assistance which has really improved their living conditions.

I agree.

GENERAL SITUATION

1. The general humanitarian routine work are going on. The case of the paralysation of the pole of development of Kabuga because of the action of an armed bend trying to kill its director a couple of weeks ago, is a solid argument for those that are deeply concerned about the evolution of the situation. ASSISTANCE TO THE AIRPORT.

For the last one year we have had a very useful and mutually beneficial relationship with UNAMIR.

Now that UNAMIR is slowly phasing out activities I wish to appeal that this International airport be considered for substantial material assistance in the following areas critical in airport operations:-

PROVISION OF WATER

The airport does not receive enough piped water and for this reason our own old water truck and UNAMIR's water truck have been relieving each other in shifts to provide water for the airport. If this service is phased out it leaves us with only one old truck and this will definitely impair our capacity to provide sufficient water for the airport consumption. Our request therefore is that UNAMIR donates one water truck to the airport.

POWER GENERATION

Commercial power is not yet enough to supply the whole country twenty four hours. Yet the airport is a twenty four hour user of power.

Our own standby capacity is under 400 KVA per generator and for the last year we have been boosted by a UNAMIR 700 KVA generator which in comparison with the smaller engines

Reçu le 17 NOV. 95

even consumes less fuel. Our standby power requirement, if we supply to the whole airport is 1000 KVA. Our request is that UNAMIR secures and donates to the airport a 1000 KVA generator.

AIRPORT AMBULANCE/FIRST AID VEHICLE

This airport has not had an ambulance service for long and we have always relied either on UNAMIR or private arrangements of patients. But an airport must have its own ambulance/first aid service vehicle.

Our request is that UNAMIR secures and donates to the airport atleast one ambulance/first aid service vehicle.

TRACTORS FOR GRASS CUTTING/LAWN MOWING

The airport has an expanse of land covered with grass that has to be cut always to give the airport a good face. Unfortunately one tractor simply does not measure up to the task.

Our request therefore is that UNAMIR secures and donates to the airport one tractor with a rotorised mower.

TARMAC REPAIR EQUIPMENT

The airport technical capacity to do daily repairs to the tarmac infrastructure that we have in abundance was seriously impaired by the war. All repair equipment was damaged beyond economic repair. Now right from small runway repairs, apron and taxi way repairs, parking lot repairs, drive way repairs which we would be doing as part of ordinary and daily work either goes for weeks undone or is not yet done altogether. Yet this is the nerve centre of airport operations.

Our request therefore is that UNAMIR secures and donates to the airport a surface repair unit consisting, inter alia, of:-

- a Compactor Truck
- a Stone crusher
- a Concrete mixer.

Sir, allow me to thank you in advance for the consideration UNAMIR will accord the request of this airport which for the years UNAMIR has been here, has striven to make all UNAMIR's flight and other airport operations into enjoyable events that memories will find difficult to forget even after the phase out.

Looking forward to UNAMIR's support to build up
this airport thereby building up not only our country but also
the International civil aviation fraternity.

subject: Request for assistance to ASOFERWA [ps.see above]

Your Excellency,

We have the honour to write to you to request assistance to ASOFERWA, a.s.b.l.
[ps.see above].

ASOFERWA is a young organisation, born after the tragic events of last year, to
help the victims of the war, the genocide and the political massacres, especially women and
children.

ASOFERWA was approved on 10 May 1995 by ministerial decree. It is also
recognized by HACU [?] (MINIREISO-Ministère de la Réhabilitation et de le Réintégration
sociale/Ministry of Rehabilitation and of Social Reintegration).

translation (original: French) 2

We presently encadre [run] about twenty women's groups in four prefectures, i.e. Kigali-Urban, Kigali-Rural, Gitarama, and Byumba, in income generating activities, reconstruction of housing, and in sponsoring [adoption?] of unaccompanied children and orphans.

ASOFERWA would like to reach gradually all vulnerable groups throughout the country. We intend therefore to open branches in all prefectures in order to be as close as possible to all women and children at grass roots level so as to encadre [organize] them as well as possible.

This young, local NGO possesses very few means either material or financial to achieve these objectives, which is why it is appealing to you, Excellency, to strengthen its capacity to intervene and support vulnerable groups.

We would be grateful to you, Excellency, to set up an integrated assistance by UNAMIR, UNDP and UNREO as well as any other non-governmental organisation that wishes to join in this movement of solidarity.

Please find herewith some documentation on ASOFERWA as well as a list of our needs in terms of equipment, the absence of which seriously hampers the support and encadrement [organization] of grass roots women's and children's groups.

We remain at your entire disposal for any other information you might need.

Counting on your understanding and your support, Excellency, please receive our highest regards.

ITEM II - MINUTES OF LAST MEETING

3. The Secretary read out the minutes of the last meeting.

ITEM III - POINTS FROM LAST MEETING

4. **Butare Rehabilitation School.** The FEO informed that the restoration of the water and electricity at the school was already completed. He was considering white-washing the walls to make them appear neater. He also mentioned that about \$80,000.00 US tied to the project has not been completely expended so there are still some minor areas where the amount could be utilized.
5. **Canal at Gikongoro.** The FEO told the meeting that the machines working at the canal were withdrawn since 08 Nov 95 due to problems they were encountering as a result of the soil texture.
6. **Repair of Zindiro - Karama Track.** The FEO informed that the job has been completed.

9. **Request for Donation/Loan of Vehicles and Generators.** The requests for donation/loan of vehicles and generators were considered. ITEM VI - SRSG's REQUEST

13. His Excellency, the SRSG informed the group that an Embassy has a certain amount of funds that can be expended on various humanitarian projects, through UNAMIR, not later

than 15 Dec, 1995. Based on this, he requested UHAAG to come up with a comprehensive list of small projects and submit this list to Mr Dao for urgent funding under this project

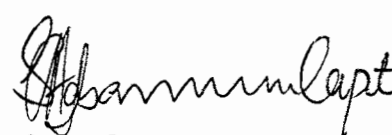

14. He also wants a more aggressive media coverage of UNAMIR activities especially in the humanitarian field. Due to this, he would want the group to make more use of Radio UNAMIR possibly on a daily basis to inform the general public and the authorities, about the extent of UNAMIR's Humanitarian Assistance activities.

ITEM VII - MISCELLANEOUS POINTS

15. **Sucker Trucks**. Mr Dao wanted to know the latest about the job done by the sucker trucks. ITEM II - MINUTES OF LAST MEETING

2. The Secretary read out the minutes of the last meeting.

ITEM III - POINTS FROM LAST MEETING

3. On clearance of lawns at the Kanombe International Airport, the Force Engineer Officer informed that Force Engineer Company could not undertake it since the area is large and needs a

constant job being done on it. Besides, Force Engineer Company does not have suitable equipment to do the job. The Chairman suggested involving the WFP to organise a Food for Work Programme to clear the area.

4. On septic tanks, the Force Engineer Officer informed that CAO had tasked an outfit through the Log Branch to clear them. The Force Engineer Company can then estimate for the covering aspect of the job.

ITEM V - REQUESTS CONSIDERED BY UHAAG

9. The following requests were considered by UHAAG:

- a. A request by Gitura health centre in Byumba for 2 solar panels for laboratory and surgical rooms was considered and not approved due to non-availability of such items with UNAMIR.
- b. On assistance request by Airport Authority, Kigali, Mr Dao reiterated that the SRSG requested him to forward the request to UHAAG with his strong recommendations. It was however decided that the question of equipment falls back to New York without whose directive UNAMIR cannot take necessary action.
- c. Assistance to local Nuns in Kibuye was not approved as well since Zaire is not a mission area.
- d. Request for tents by "Bethel Christian Centre" was put on hold until a clearance is gotten from the authority responsible for such items.
- e. On the request for bridge repair at Muganga in Byumba, the Force Engineer Officer was authorised to carry out an initial recce of the bridge and come up with an opinion.
- f. The request for dismantling of orphanage tents at Nemba in Ruhengeri was disapproved since UNAMIR does not have the technical know-how to do the job.
- g. Request by HACU for 2,000 litres of diesel to run their generator was not approved due to paucity of diesel now with UNAMIR.
- h. Another request by HACU for bulldozer caterpillar and water tank truck for land clearing and brick making at their project site was put on hold until a clearer picture of the mandate is seen.
- i. On the request by WFP for transportation of maize meal from Cyangugu to Kigali and Kibuye respectively, the following decisions were taken:
- (1) 30 MT out of the 90 MT meant for Kigali would be transported.
- (2) Transportation of the 30 MT meant for Kibuye will be put on hold until the correct mine situation of Kibuye roads is known.

j. On the request for fencing materials for Communal Police Training School, Rwamagana was also put on hold until a comprehensive list of items to be disposed of by CISS is made available.

k. On the request for more dozers by Force Engineer Officer to help complete the rehabilitation project in Gisozi, Kigali, HAC informed that a letter was written to UNDP to provide such assistance. On the other hand, the UNAMIR bulldozer working there could be withdrawn because it lacks the capacity to complete the job in a viable time frame.
