Dear Secretary General,

I hope this letter finds you well. I want to thank you again for all of the support that the United Nations has shown for the Yasuni-ITT Initiative and its bold plans for climate change mitigation and the conservation of some of the most spectacular biodiversity in the world.

As you know, the Yasuni-ITT Initiative is a ground-breaking environmental and social development proposal that represents an alternative model for international sustainable development. When President Correa spoke at the United Nations General Assembly in 2007, the Initiative was presented as a proposal to the world backed by good intentions. Thanks to your support, that of your colleagues, and that of the people around the world, this project is now a reality, and international awareness and support for the Initiative have grown exponentially. We have been implementing alternative energy and sustainable development projects around the country as a result of the immense success of the Initiative

In this regard, I would like to arrange a meeting with you during my visit to New York City Monday, June 10th through Wednesday, June 12th to discuss the significant advances of the Initiative and ways in which we may be able to highlight these results at a parallel event for the Initiative at the United Nations General Assembly in September. The event you hosted in 2011 was such a success that I feel another parallel event would be critical in continuing to foster support for the Initiative.

Thank you so much and I look forward to hearing from you.

With warmest regards,

Ivonne A. Baki
