Ms. Susana Malcorra  
Chef de Cabinet to the United Nations  
United Nations Headquarters  
North Lawn Building  
Room 3018  
New York, NY 10017

30 April 2012

Dear Ms. Malcorra,

Copy: 12-03389

On behalf of the Roll Back Malaria (RBM) Partnership, I would like to thank you for attending the dinner hosted by HRH Princess Astrid of Belgium, Special Representative to RBM, in honor of UN Secretary-General Mr. Ban Ki-moon and Madam Ban on Monday evening, 23 April. It was a pleasure to meet you, and I very much enjoyed our conversation. The Executive Office of the Secretary-General is a critical partner in the fight against malaria, and your support for RBM is crucial, as is your leadership in the fight against malaria.

HRH Princess Astrid was delighted by your presence at the dinner and the stimulating conversation that ensued. She has recently renewed her mandate as the Special Representative for RBM until April 2013, and we both look forward to the pleasure of continued cooperation with the Executive Office of the Secretary-General to ensure progress toward global malaria targets.

I would also like to continue the conversation we had regarding the eventual opportunity of organizing a malaria related activity for the UN Secretary-General and HRH Princess Astrid during an official trip of the UN Secretary-General.

Very best regards,

Hervé Verhoosel  
Representative in New York  
And Head of External Relations  
The Roll Back Malaria Partnership (Secretariat)

SC#109/0035 HEA/03/001

The Roll Back Malaria (RBM) Partnership is the global framework for coordinating action against malaria worldwide. Founded in 1998 by UNICEF, WHO, UN Development Programme and the World Bank, the RBM partnership is now a global public-private partnership, strengthened by the expertise, resources and commitment of more than 500 organizations. It provides a neutral platform for consensus-building, developing solutions to challenges in the implementation of malaria control interventions and strategies, promotes high-level political commitment to keep malaria high on the global agenda, and monitors progress towards universal goals.
