INTERNATIONAL ATOMIC ENERGY AGENCY

THE DIRECTOR GENERAL

11 March 2010

Dear Secretary-General,

In the statement made by the President of the Security Council at the 6279<sup>th</sup> meeting of the Council, held on 26 February 2010, the International Atomic Energy Agency (IAEA) was requested to inform the Security Council regarding the quality of Iraq's safeguards-related cooperation with the IAEA, including provisional implementation of the additional protocol pending entry into force.

The IAEA has been receiving excellent cooperation from Iraq in the implementation of its comprehensive safeguards agreement, thus allowing the IAEA to effectively and efficiently conduct its safeguards activities. Iraq's decision to provisionally apply, as of 17 February 2010, the protocol additional to its safeguards agreement pending the protocol's entry into force is a recent example of its proactive safeguards-related cooperation with the IAEA.

Iraq has also been working closely with the IAEA in providing joint training to responsible Iraqi officials in order to continue enhancing the technical effectiveness of its national system of accounting for and control of nuclear material. In addition, with the assistance of the IAEA, Iraq is in the process of updating its national legislation relevant to the application of safeguards.

I should be grateful if you would arrange for the present letter to be brought to the attention of the members of the Security Council.

Yours sincerely,

  
Yukiya Amano
