OUTGOING CODE CABLE

TO BULL, JERUSALEM
FROM BUNCHE
DATE 25 SEPTEMBER 1967
NUMBER 1213

Reference paragraph 2 of my code of 23 September to Cairo.

1. After careful study we continue to believe that it is neither necessary nor desirable to issue suggested corrigendum regarding paragraphs 7 and 8 of S/7930/Add.36. If, as we believe is the case, UNMO's could neither confirm nor deny alleged movements of UAR boats, we do not consider it erroneous to have paragraph 8 after the statements made on the subject by both sides. In my view, corrigenda are to be employed only to correct errors, and there was no error in this case.

2. As regards number of boats in paragraph 6, we are prepared to issue a corrigendum if you are certain that IDF LO referred to six boats and not ten. You will note that the wording of paragraph one of E/848 is rather ambiguous. Please advise.
