Mr. P. Economou-Gouras
Counsellor, Royal Greek Embassy
2221 Massachusetts Avenue, N.W.
Washington, D.C.

Dear Mr. Economou-Gouras:

This is to acknowledge and thank you for your letter of August 5 communicating to us a translation of a joint decision of the Ministers of Coordination and Finance, dated July 3, 1946, with respect to UNRRA supplies allocated to UNRRA services in Greece.

I am taking the necessary steps to draw this to the attention of the various persons in this Administration concerned with this question.

Sincerely yours,

August 5, 1946

No. 3799

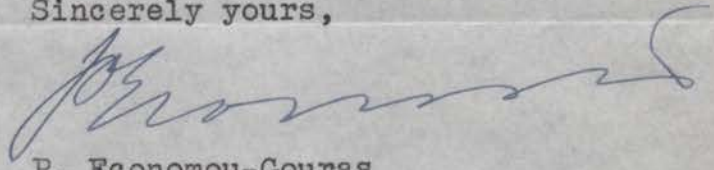

DC - La Guardia

United Nations Relief and
Rehabilitation Administration
1344 Connecticut Avenue, N.W.
Washington, D. C.

Gentlemen:

At the request of the Greek Ministry of
Coordination, I have the honor to communicate,
enclosed herewith, translation of a joint decision
of the Ministers of Coordination and Finance,
dated July 3, 1946, with respect to UNRRA supplies
allocated to UNRRA services in Greece.

Sincerely yours,

P. Economou-Gouras
~~Charge d'Affaires~~
Counsellor

MINISTRY OF SUPPLY

No. E.46893/2165

Athens 7/3/1946

Circular No. 136

Decision

The Ministers

of Coordination and Finance

Having considered the provisions of Law No. 312/45 "concerning the administration and management of supplies from abroad" and those of the Legislative Decree of 5/10/1946 "amending and supplementing provisions in force as to the administration and management of supplies from abroad", as well as UNRRA's letter No. SD/IR23 of 5/17/1946.

D e c i d e

We approve for reasons of orderly accounting that supplies allocated from time to time to UNRRA from those imported by it for the account of the Greek Government be deducted from the corresponding imports and the Greek Government be credited therewith without UNRRA being debited with the value thereof.

Such allocations are effected only at the request of UNRRA Headquarters in Athens or by the appropriate Greek authorities on distribution of supplies, upon UNRRA's request.

In case, however, supplies ~~then~~ allocated to UNRRA have not been used by it but have been disposed of to third parties, UNRRA is requested to notify the EF-EX (Administration of Supplies from Abroad) with a view to collecting the value thereof.

1. On 23 July, 1946 Central Committee approved total budget through 31 December, 1946 of \$358,000,000. This now distributed as follows among Commodity Divisions:

Food	164,039,000
Clothing	35,000,000
Medical	10,310,000
Ag. Rehab.	50,760,000
Indus. Rehab.	40,941,800
Unclassified	56,949,200
Awaiting Specs.	-

TOTAL \$ 358,000,000

We airmailing shortly detailed operating programs developed within framework above budgets.

2. Above distribution conforms with assignment funds agreed close Third Conference on Program of Operations except that total budget increased \$2,000,000 from \$356,000,000 to \$358,000,000 and this increase has been assigned Food.

3. We proceeding with operations under above distribution. Urgent we receive soonest any suggested revisions since funds being encumbered rapidly and changes become increasingly difficult. Administration has been given maximum flexibility in shifts among major commodity categories

and is authorized to exceed when necessary 15% limits originally specified provided such instances are promptly reported to Central Committee.

4. Central Committee approved increases for Austria and Yugoslavia totalling \$7,800,000 over and above total budgets recommended by Administration through 31 December, 1946. These increases are to be funded from amounts set aside for administrative and operating expenses. However, if increases cannot be funded this way, they must be provided by reducing proportionately each country and special program budget approved for second half 1946. In anticipation possible necessity of reducing Greece budget suggest you provide list of items which you would wish deleted from your program should it be necessary to decrease total budget approved for the second half 1946 by as much as \$550,000.

GREECE MISSION

SERIES: OPERATIONAL

GO-33

SUBJECT: TRANS-SHIPMENTS

22 July 1946

1. For organisational reasons it has been decided to terminate the existing procedure whereby the Shipping Section of the Traffic Division receives bids and arranges trans-shipments of supplies on behalf of the commodity divisions and regions.
2. It has been decided, therefore, to transfer the functions in connection with trans-shipments presently carried out by the Shipping Section to the EF-EX organisation of the Ministry of Supply.
3. In view of this decision shipping bids must be submitted to EF-EX and all arrangements in connection with trans-shipments made with that organisation. The Shipping Section of the Traffic Division will not require signal or other advices of trans-shipment requirements and no signal advices will be despatched from the Shipping Section regarding the sailings of AKTEL vessels, "MIN" or other caiques from Piraeus.
4. The Shipping Section of the Traffic Division will continue to assist in trans-shipments for Unrra account, such as Naafi and PX supplies, field mission stores and other special commodities, but it would be advisable for the appropriate divisions to undertake as far as possible their own arrangements in respect of these commodities.
5. The provisions of this Operational Order are effective as of 1 August 1946.

Bruce F. Mabey
BRUCE F. MABEY

Brazilian Ambassador Milton C. W. Vieira accompanied by Supply Minister D. Stephanopoulos and UNRRA Mission Chief Buell F. Mahen welcomed first shipload UNRRA supplies from Brazil for Greece in Piraeus today. After watching unloading into lighters in war damaged port lentils beans and coffee which formed bulk SS "Webb Millers" 7200 long ton cargo, partly entertained by Captain W. M. Fairbanks.

While press pictures exchange greetings between Ambassador Minister and Mahen were being made, Mahen commented that it was very fitting for Greece first recipient UNRRA aid to receive first complete shipload supplies from Brazil since Brazil had made more than average contribution to UNRRA.

Stephanopoulos expressed gratitude Greece for UNRRA aid in general and particular pleasure at joining Ambassador in welcoming shipload from Brazil. He knew he spoke for all Greece he said in expressing gratitude of people for food supplies in this time of world food shortage. Endit. Pix upcoming.

Procure from Allen.

Re Washington Warsaw 1372, London 6338, Athens 2924.

Subject allocation PCB one 37.

1. Washington Paris 1189 not repeated Athens follows: "Decision to divert consumer goods allocations from Poland to Greece withheld pending Dospil arrival with list and recommendations of Polish Government and Mission".
2. Was Athens consulted or did allocation have Stayner consent Washington? Based on records given Allen in Athens every item exceeds Greece requirements from Surprop except following: Knives Bread, Openers if hand type only, Pans Bake and Roast Pans, Dish Pans, Sauce Two Qt, Saws, Butcher Skimmers, Whips, Wire Sieves, Flour containers insulated, Cans Milk, Lanterns.
3. Statement Para 2 assumes previous data re Washington procurement and shipment. Consumer goods to Greece is firm and requirements stable.
4. Note budget miscellaneous consumer goods 1945 is \$203,000 , 1946 \$297,000 , total \$500,000. This allocation alone exceeds entire 1946 program budget.

SUBJECT: GREECE Imports - August Arrival

Your memorandum of 29 April, with attachments, concerning imports into Greece for the month of August arrival, has been referred to me. The information on shipping procedures within the Mediterranean Theater is very helpful. We are also glad to have you confirm that AFHQ's interest in port capacity in Greece is waning. It will make our job just that much easier.

We are aware here of the key position that the UNRRA Liaison at Caserta is playing, and will play in the future, in our Mediterranean shipping operations. Streamlining of our shipping procedures has been the subject of considerable thought here at Headquarters, and we have recently sent several cables to London, with copies to Caserta, along these lines. In particular, may I refer you to our cable No. 1313 to London, dated 17 May, repeated to Caserta as 244, sent to you, which outlined the position of Headquarters. Also of interest to you is a separate cable, No. 1358 to London, dated 21 May, repeated to Caserta as 225, concerning final instructions for ships to proceed to individual ports in the Mediterranean area, to be issued in consultation between the missions, UNRRA at Caserta, and the Mediterranean Shipping Board.

We, on our part, would be very grateful for your comments and information in the future as to the handling of these problems as seen from your side.

1. Attached signal and covering memorandum in subject connection are forwarded for information.

2. As anticipated, AFHQ's interest in GREECE port acceptances is beginning to wane and, provided military tonnage requirements are safeguarded, it is expected AFHQ will continue to let the balance of port acceptances be agreed by those on the spot. We shall try to get a similar arrangement in relation to JUGOSLAVIA and ALBANIA, although the position there is not quite so simple. There will still remain the more important and detailed job of agreeing diversions, arranging trans-shipments, etc., in which of course, the military is more directly concerned, but step by step we shall work to get away from the present machine and change over to more normal procedures, thru WSA and MWT.

1. Ref. your memo of 11 Apr. addressed to this office and figures submitted to DA & QMG, LF(G) of 10 April.
2. As you anticipated, AMHQ was not able to reconcile all the figures submitted by you, particularly port capacity for PIRAEUS. However, at the Tonnage Allocation Meeting yesterday it was agreed that subject to military tonnage requirements being guaranteed, decision as to balance tonnage that can be accepted should be referred for agreement between yourselves and shipping authorities in GREECE, i.e., WSA and MWT.
3. This confirms CASERTA's 97 of even date, copy attached.
4. Please signal WASHINGTON as early as possible the over-all total of your Extra-MEDn. tonnage requirements for August arrival. Details of back loading into minor ports are not necessary - only the total import tonnage figure broken down between the three main ports - plus advice that the figures are concurred by WSA and MWT.
5. In approx. 28 days time call forward, by commodities, should be made on WASHINGTON within the tonnage advised at Para. 4.
6. Please repeat to CASERTA information given at Paras. 4 and 5, but it should be sufficient if such copy information is forwarded by air mail.

TO: UNRRA, WASHINGTON
FROM: Acting Principal Liaison Rep., UNRRA/AFHQ
SUBJECT: GREECE Imports - August arrival.

1. Attached signal and covering memorandum in subject connection are forwarded for information.

2. As anticipated, AFHQ's interest in GREECE port acceptances is beginning to wane and, provided military tonnage requirements are safeguarded, it is expected AFHQ will continue to let the balance of port acceptances be agreed by those on the spot. We shall try to get a similar arrangement in relation to JUGOSLAVIA and ALBANIA, although the position there is not quite so simple. There will still remain the more important and detailed job of agreeing diversions, arranging trans-shipments, etc., in which of course, the military is more directly concerned, but step by step we shall work to get away from the present machine and change over to more normal procedures, thru WSA and MMT.
