INTER - OFFICE MEMORANDUM

20 Décembre 1960

A: Mr. G. Dumontet, Special Assistant to the Chief Civilian Operations

DE: PK Terver, Senior Consultant and FAO Representative

OBJET :

Comme suite à la discussion que nous avons eu hier avec Monsieur Grun/, je vous confirme que les semences disponibles sur place dans les stations agronomiques n'existent qu'en quantités infimes par rapport aux besoins d'urgence pour faire face à la situation de la Province du Kasai (par exemple 16 tonnes de maïs sont disponibles à la Station INEAC de Gendajika comparée à 1.800 tonnes demandées). Le simple inventaire complet de ces très modestes ressources demanderait au moins 2 à 3 semaines et nous arriverions ainsi à recenser des tonnages sans intérêt alors que nous aurions perdue la possibilité de procéder aux achats des tonnages nécessaires qui doivent être rassemblés au Kasai vers le 15 janvier et au plus tard à la fin du mois.

Je vous mets donc très sérieusement en garde contre l'utilisation de cette méthode d'obtention des graines dont le résultat serait certainement fatal à l'opération dont l'intérêt et l'urgence n'est pas à discuter.

17 December 1960

Mr. G. Dumontet, Special Assistant, Civilian Operations
J. Grün, Refugee Relief Coordinator

Supplies for Bakwanga from Congo Protestant Relief Agency

The Congo Protestant Relief Agency have some 767 ninety-pound bags of beans. These beans (approximately 31 tons) were purchased with CPRA funds for the refugees in Kasai. We have an agreement, in principle, that they will be put into the general distribution programme and for that reason I have agreed to airlift them.

Mr. Bontrager (Telephone: 2202) said, however, that he could not give us a final decision until Monday, 19 December. I asked Mr. Bontrager to check first thing on Monday morning whether these beans are available; if they are, they should be transported to N'Djili immediately for lifting to Bakwanga.

CONSEILS D'ORDRE GENERAL POUR L'ACHAT

DES VIVRES POUR LES REFUGIES

- Se conformer dans la mesure du possible aux recommandations de mon rapport No. 1.
- Au cas où les fonds prévus pour cette opération seraient réduits les secours devraient tout d'abord porter sur les aliments riches en protéines.

- Farine de poisson pour consommation humaine

- doit comporter 70 à 80 % de protéines
- non désodorisée

- Poisson séché peu salé (10 % maximum)

doit comporter de 35 à 40% de protéines

- Farine de viande 70 à 80% de protéines -

Foods for refugees in South Kasai

(Situation as of 10 December 1960)

- (1) 1000 tons maize flour located in Luluabourg UN Hqs has been requested to approve that procurement I expect a reply today and first transport by rail to Mwene early next week. Will be made under military escort. Everybody is ready to act at top speed as soon as the green light is given.
- (2) 90 tons of palmoil will be airlifted early next week either from Kikwit or from Leo to Luluabourg unless we can obtain a certain quantity in Luluabourg area.
- (3) I expect to have an answer today from Luanda to obtain there 100 tons of dry fish or fish powder. If this is confirmed, I shall airlift early next week direct from Luanda to Luluabourg.
- (4) Airlift of foods which we have in stocks in Leo is under active study.
- (5) With regard to airlift, UN Hqs has not accepted the suggestion to use US Airforce but has agreed to charter commercial aircraft in view of the extreme urgency of our action.
- (6) I will be able to give you more details by Monday.

e/soc 520/2

9 December 1960.

Dr. S. Linner
Chief, Civilian Operations (3 copies)

A. Bovay
Chief, Procurement and Supply *A. Bovay*

Food for Refugees - Your Requisition No. 1.

I noted your instructions that you do not want this office to issue progress reports on this matter and that all operations involving other services (including military) will be handled directly by your office.

To keep you informed of the most recent developments on matters related to procurement I wish to give you the following information:

Maize Flour - (1,000 tons)

As you are aware, we have cabled several places in Congo to locate maize flour. I have just located 1,000 tons in Luluabourg. This will automatically settle the airlifting problem for 1,000 tons. 100 tons are available as from today. Then 100 tons are available every three days. Transfer by rail to Mwene Ditu. Price is Fcs. 4,500 per ton. Supplier is AMATO. I assume that your office will cable New York for obtaining contract committee approval, which is specifically requested by Headquarters for any purchase above 10,000 dollars. Please let me know if I can place a firm order.

Palm Oil

Upon receipt of your requisition we located 90 tons of palm oil with the firm "Madail" in Kikwit at the price of Fcs 8,100 per ton plus approximately Fcs 65,000 for barrels (reimbursable if barrels are returned). In view of the recent troubles in Kikwit, transportation by barges to Port Francki and then by train to Luluabourg may well suffer serious delays.

According to all suppliers, there is no palm oil in Luluabourg. However, I am double checking this information with the UN representative there. I am awaiting an answer today.

Ninety tons of palm oil are available in Leopoldville with Madail but at the price of Fcs 8,900 per ton plus Fcs 65,000 for barrels. This price was obtained after competitive bidding among four local firms.

To sum up the situation regarding palm oil it is as follows:

1. We await today information from Luluabourg that there is no palm oil in Luluabourg.
2. Then, if such information is given, your office will have to take a decision among the three possibilities:
 - (a) transport by barges and train from Kikwit to Luluabourg - Mwene Ditu, or
 - (b) transport by barges and train from Leopoldville to Mwene Ditu, or *or Kikwit*
 - (c) airlift from Leopoldville to Luluabourg.

Dried Fish

Following a direct intervention from Dr. Rabat from your office, the procurement of 100 tons of dried fish in South Africa has been held up. Dr. Rabat is of the opinion that dried fish should be replaced by fish powder, which he feels is more adaptable for the feeding of refugees. I am awaiting at any moment a telephonic liaison with Luanda and Benguela where there are large quantities of dried fish and fish powder. Then a final decision will have to be taken by your office as to whether fish powder or dried fish should be ordered. With the decision of using commercial charters, procurement in Angola will, of course, be cheaper and faster than from South Africa. The aircrafts could fly directly to Luluabourg.

Commercial Charters

In case the decision for an airlift is maintained, I suggest that the possibility of using Air Congo aircrafts should be investigated.
