CHAMBRE DE COMMERCE ET D'INDUSTRIE
DE LEOPOLDVILLE.

N° 323/JV/MOSE.

Léopoldville, le 7 Mai 1963.

AUX MEMBRES DE LA CHAMBRE DE COMMERCE ET D'INDUSTRIE DE LEOPOLDVILLE.

OBJET : COMMUNIQUE N° 10 DE LA COMMISSION DE CHANGE.

Messieurs,

Ayant pris contact avec la Commission de Change, au sujet du Communiqué n° 10 de cet Organisme tel qu'il vous a été transmis récemment, nous sommes en mesure de donner à nos membres les précisions suivantes :

1. L'objectif général poursuivi par ce communiqué est de pouvoir mesurer la répartition des devises consacrées à l'importation à travers la République ; le problème du contrôle des stocks qui était au premier plan des préoccupations dans les circulaires antérieures passe ainsi au second plan.
2. En raison de ces principes ce ne sont plus seulement les marchandises de consommation courante (comme précédemment) mais bien toutes les marchandises importées dans la République qui sont en cause.
3. Le communiqué semble ne viser que les importateurs c'est-à-dire, croyons-nous, au sens où ce terme est généralement employé, les personnes important des marchandises qui "font l'objet de transactions commerciales sur le territoire congolais, préalablement en toute transformation" (voir article I de l'arrêté du 25 mars 1961, Moniteur congolais n° 13 du 5 mai 1961, page 222).

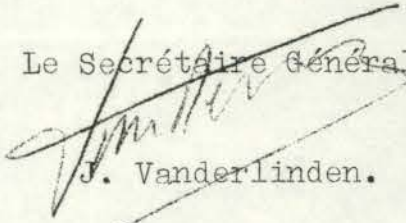

Il semble donc que les industries ou toute société ou particulier important notamment pour ses besoins propres et non en vue de transactions commerciales ou important en vue de transformation soient exclus de l'application du communiqué n° 10. Ce point n'a pu nous être confirmé par la Commission de Change.

4. Le premier inventaire complet de tous les articles importés à fournir à la Commission concerne la totalité des articles en stock au 31 mars 1963, quelle que soit la date de leur importation.
5. Les listes de répartitions à travers la République, qu'il s'agisse de répartitions à des comptoirs de la firme ou à des particuliers, doivent mentionner l'identité de ceux-ci ainsi que leur emplacement mais ne doivent comporter que les produits importés et répartis dans le pays sur la base des lettres de quota attribué dans le courant du mois de novembre ou décembre 1962 ou ultérieurement. Les marchandises obtenues et distribuées sur la base de quotas antérieurs à ceux de novembre et décembre 1962 même si elles sont arrivées ou ont été attribuées après cette date ne doivent pas être reprises dans la liste de répartitions.
6. (voir page 2 à la fin du communiqué).
7. Par prix unitaire, il faut entendre conformément à notre circulaire n° 228 du 18 avril 1962, paragraphe 3, le prix unitaire normalement renseigné sur la fiche des stocks des entreprises ce prix unitaire représentant la valeur à l'achat des marchandises. Par "montant au prix d'achat" il faut entendre le prix unitaire multiplié par la quantité ce qui permet d'obtenir la valeur en stock par article (tous ces prix s'entendent rendu Léopoldville).
8. La Commission de Change a l'intention de réunir séparément d'une part les pharmaciens et d'autre part les garagistes afin d'envisager avec eux les modalités d'application du communiqué.

9. En raison du fait que le communiqué n° 10 n'a pas été transmis officiellement à nos membres avant la date du 6 mai, la Commission de Change a accepté de ne pas tenir rigoureusement compte du délai prescrit dans le communiqué, mais demande néanmoins que les documents lui soient rendus le plus rapidement possible.
10. Devant l'importance du problème, la Chambre de Commerce et d'Industrie a pris l'initiative de réunir dans les prochains jours une Commission restreinte d'importateurs de différentes spécialités avec lesquels seront examinées les propositions à présenter éventuellement au Conseil d'Administration de la Chambre, au cours d'une réunion prochaine.

Nous vous prions de croire, Messieurs, à l'assurance de notre considération distinguée.

Le Secrétaire Général,

J. Vanderlinden.

6. L'indication "par douzaine, caisse, carton, mètre ou yard" doit figurer dans la colonne "quantité" du modèle de tableau repris dans le communiqué et non pas dans la colonne "désignation".

Recruitment of experts for the Monetary Council

With reference to the recent exchange of cables with Mr. Amachree concerning the recruitment of two experts requested by you for your office, I am now advised by Mr. Amachree that it would be preferable for the Monetary Council to recruit the two experts. This means that the experts would not be recruited as United Nations officials but directly by the Monetary Council.

In these circumstances, I would be grateful if you would let me know whether you wish the United Nations to assist you in finding the candidates who could then be offered direct appointments by the Monetary Council.

Reference is made to the attached memorandum from Mr. Badre to me in which he suggests that new arrangements be made for a signatory for the United Nations for funds in the Financial Aid Account held in the Irving Trust Company of New York.

In view of Professor Badre's functions in the Congolese Bureau of Economic Coordination, I agree with him and recommend that you authorize the Chief of Civilian Operations and his Deputy Chiefs as the United Nations signatories for this account. Normally, either I or Mr. Brooks will sign.

If you agree, will you please notify Irving Trust Company and me so that we can send specimen signatures to the Bank.

Objet : Dollar Transfers to Monetary Council

Many months ago I was designated by the United Nations as co-signatory for the Financial Aid Account held with the Irving Trust Company of New York. My function was to check all licences issued and to make sure that they conform to the approved list of goods to be imported. After satisfying myself on this score I sign with the President of the Monetary Council an order to the Irving Trust Company to transfer the amount covering such licences from the Special Account to the Monetary Council Account there entitled "AID Account".

This function I was performing for the United Nations, whereas the President of the Monetary Council was co-signing for the Congolese authorities. It seems to me it is high time that I discontinue this function and that somebody else be designated by the UN to assume this responsibility. I would like to suggest to you that Mr. Brooks take over.

Confirming our telephone conversation, the following is the text of the cable which we have received from our representative in Baudoinville regarding difficulties which have arisen concerning the exchange of Katangese for Congolese bank notes:

"Les billets de banque katangais n'ont pas encore été changés dans le territoire Baudoinville. Directeur Banque du Congo Albertville m'a informé ce matin qu'il n'avait pas de billets congolais et qu'il n'avait pas de personnel effectuer éventuellement le change sur place. Serait-il possible d'envisager l'envoi d'une commission de Léopoldville pour effectuer cette opération? Les commerçants craignent que le change ne soit pas possible après 30 avril et refusent d'accepter billets katangais ce qui cause des difficultés au public".

I have informed Mr. Marek that the date of exchange has been extended to 31 May.

I shall appreciate hearing from you regarding what action you will have taken, and I confirm that, if necessary, we shall be glad to arrange transportation of bank notes by ONUC plane from Leopoldville to Albertville.

PROJECT DESCRIPTION AND BUDGET

Project No. .

Ref. Civ. Ops. 1

Approved: 29 April 1963

Project Title: Recruitment of 196 Experts and Technicians
for Public Works

Project Description:

In an exchange of letters between the Prime Minister of the Congolese Government, Mr. Cyrille Adoula, and the Chief of Civilian Operations, CNUC, Mr. S. Habib Ahmed, copies of which are annexed hereto, it was agreed that the United Nations would assist in carrying out a project requested by the Minister of Public Works for the recruitment of 196 experts and technicians to assist the Congolese Government in carrying out an expanded public works programme for the emergency repair, reconstruction and rehabilitation of means of transport and communication by road, rail and river, public buildings, public utilities, sanitation and other projects which will provide the necessary infrastructure for economic development of the Congo. The project is described and elaborated in a project entitled "Public Works Advisory and Operational Services", Project No. 85-01, 2 April, 1963, contained in the 1963 Budget for Civilian Operations for Congo (Revised March 1963).

It was agreed with the Congolese Government that the United Nations would contribute \$314,000.00 in foreign exchange for the carrying out of Project 85-01 and that the balance of \$1,044,000.00 would be contributed in Congolese francs by the Congolese Government (CF. 66,810,000).

The Congolese Government has already provided a total of CF. 19,420,000 toward its contribution as a result of utilising balances of Congolese francs remaining from its 1962 contribution to the Congo Fund and balances of its 1963 contribution to the Congo Fund for carrying out certain public works projects, 85-01 and 10-10 (waterways).

In order to assist the Congolese Government in providing the remainder of its contribution (CF. 27,390,000),

.../....

M

the United Nations agrees to grant to the Congolese Government C.F. 27,390,000 from the 90% Title I Counterpart funds.

The United Nations shall effect this grant by a transfer of C.F. 27,390,000 from the Title I Counterpart Account No. 479 to the Congo Fund.

It is also agreed that unobligated balances as of 31 December 1963 of the C.F. 27,390,000 granted by the United Nations to the Congolese Government under this Project Agreement will be transferred back from the Congo Fund to the Title I Counterpart Fund Account No. 479.

It is noted that further discussions will take place between the Congolese Government and the United Nations regarding the financing of the 1964 continuation of Project 85-01, and the United Nations will be prepared to entertain a request to grant for this purpose additional Congolese francs derived from Title I Counterpart funds.

You have already received a copy of Mr. Amachree's cable N° 3046 dated 25 April concerning the recruitment of two experts for the Monetary Council. If you should consider it important that these experts be recruited by the United Nations and be regarded as UN officials, I am prepared to propose that this should be done on the basis that the total cost involved is reimbursed to the United Nations by the Government. The local allowances, etc. are already paid by the Government for all UN experts. It would only be a question of obtaining reimbursement for the cost in outside currencies.

PROJECT APPROVAL AND FUNDING PROCEDURES

The following procedure is proposed for approval of programmes and projects:

1. The Title I Counterpart Committee considers and approves projects contained in broad programmes, or individual projects, designed to promote balanced economic development for the expenditure of Title I Counterpart accumulations, within the limits of agreements entered into for surplus agricultural commodities sales between the United States Government and the Government of the Republic of the Congo, and projected accumulations of counterpart thereunder, leaving a margin for contingencies.

2. The Committee will approve projects, after consideration of a feasibility study which will encompass:

- (a) an economic justification;
- (b) an engineering and technical soundness analysis;
- (c) reasonably firm costing estimates, and
- (d) a reasonably firm indication of time of starting and completion.

(Under Item (c) above, a reasonably firm cost estimate will be interpreted to be an estimate based on current material and contract services prices taking into consideration the geographic

areas in which the project is to be executed. Under Item (d), a reasonably firm indication of starting time and completion date will involve the identification of a suitable firm or firms available and willing to undertake the work proposed.)

3. Upon approval of a project where the amount involved does not exceed the Congo franc equivalent of \$1 million, the U.S. will transfer to the U.N. the amount in Congo francs budgeted for the project. This transfer will be made by letter of USAID to the U.S. Regional Finance Office in Paris requesting funds to be transferred to the U.N. Account. A copy of this letter will be sent to the U.N.

4. Upon receipt of the letter placing it in funds to finance the project, the U.N. will enter into a Project Agreement with the executing Ministry or Agency of the Congo Government which will describe the project and contain the agreed method of execution of the project, the terms and conditions upon which the project will be financed by the U.N., the budget agreed upon for the project and the procedures by which the U.N. will be assured of proper accounting and reporting concerning the project. This Agreement will be signed also for the Congo Government by the Director of the Bureau of Economic Coordination. The United States shall note the Project Agreement by the signature of the Director of USAID in the margin.

5. Upon execution of the Project Agreement, the executing Agency of the Congo Government will be authorised to proceed with the obligation of the project and to prepare the obligating

documents.

Amendments to the Project Agreement, except amendments increasing the agreed budget by 15%, must be re-submitted to the Title I Counterpart Committee for approval.

6. The Committee will be furnished quarterly progress reports by individual project including the results of on-site inspections. End-use and project completion checks will be carried out by the appropriate services of the GOC and the U.N. with regular reports to the Committee on the results of the projects already undertaken. The U.S. will assist in this phase of the Public Works Programme as appropriate.

Note: For the 936.7 million CF programme (651.6 million CF definitively and 285.1 million CF subject further justification) a special procedure will be applied. Due to the urgency of approving this programme and permitting the appropriate technical services to move ahead without delay, this programme was approved by the Committee at its meeting on March 25th, 1963. However, the amount of time available did not allow for application of the procedure outlined in paragraphs one and two above for approval of specific projects. Therefore, for the projects approved under this programme the members of the Committee reserve the right for themselves (or their designated representatives) to approve the specific obligational instruments.

SUBJECT: Title I Counterpart Funds

I refer to the Memorandum of Understanding, dated 13 February 1962, between the United Nations and the United States Government, copy of
..... which is attached.

By this agreement, the U.S. Government agreed to grant to the United Nations 90 percent of the Congolese francs which accrue under the Title I agricultural sales agreement dated 18 November 1961.

Procedures for the expenditure of these Congolese francs are to be agreed between the United Nations and the Congo Government on the same principles as those in force under the agreement between the United Nations and the Congo Government of 12 June, 1961 (copy of this agreement
..... is attached).

The United Nations agrees to maintain accountable records adequate to identify the goods and services financed for agreed purposes.

The United States Government is about to transfer to the United Nations the first Congo francs under the Memorandum of Understanding of 13 February 1962.

Will you kindly establish and designate a United Nations account to which these Congo francs will be credited?

Transfers of Congo francs from this designated account to the Congo Government will be made only upon written request by the Director Treasurer of the Congo Government, accompanied by receipted bills, payrolls, vouchers, invoices, or other documents certified by him to be correct and payable, and which will identify the goods or services financed and the project against which the goods and services are to be charged.

3

Since it is anticipated that a large number of transactions will take place under this account, and in conjunction with the projects approved for expenditure of funds thereunder, will you please prepare forms for the Director Treasurer to utilize in requesting the transfers which will contain an appropriate place for his certification as set out above? Will you also assign someone on your staff to be responsible for the handling of these transactions.

To identify projects approved for expenditure from this account, you will receive from Civilian Operations a project agreement describing the project and containing a budget for the project by types of expenditure. Upon receipt of the project agreement, you should sub-allot to that project an amount not to exceed the budget provided in the project agreement, and open the necessary books to permit accounting for expenditure by project and which will permit project budgetary control by your Office.

FORM OF
PROJECT AGREEMENT

Agreement entered into on 1963, between the
Government of the Republic of Congo (hereinafter referred to as
Government) and the United Nations (hereinafter referred to as U.N.)

Whereas, by a Memorandum of Understanding dated 13 February 1962
between the Government of the United States and the United Nations, it
was agreed by the Government of the United States to grant to the United
Nations 90 percent of the Congo francs which accrue to the United States
Government pursuant to the Agricultural Commodities Agreement dated
18 November 1961 between the said Government of the United States and
the Government of the Republic of Congo; and

Whereas, it was agreed that the Congo francs thus paid over to
the U.N. will be used for grants to the Government for such priority
expenditures designed to promote balanced economic development as may
from time to time be agreed between the Government and the U.N. in close
cooperation with the Representative in the Republic of the Congo of the
Agency of International Development of the United States Government, and

Whereas, it was agreed that the Government and the U.N. shall agree
upon suitable procedures providing that expenditures in connection with
the above-mentioned purposes be made on the same principles as those
in force for the counterpart funds under the Agreement between the U.N.
and the Government dated 12 June 1961,

Now, therefore, it is hereby solemnly agreed between the parties
hereto as follows:

4

1. The U.N. hereby agrees to grant to the Government CF for the purpose of financing the following described project, in accordance with the budget below set forth, in the manner and under the rules and procedures described below, which project it is mutually agreed is given priority rating and is designed to promote balanced economic development of the Congo.

2. The Project (description of the Project, with a brief economic justification).

3. The Government will carry out the project (brief statement that:

(a) will call for bids and how it will award bids, and agrees that U.N. Senior Consultant on Public Works will be present at award of bids and will be permitted to advise on such award of bids; or

(b) that contract will be made with a named company, firm, or enterprise,

(c) will be performed by own services, etc.).

4. It is agreed that funds granted under this project will not be expended for payment of entertainment or representation costs incurred by the Government, and that no taxes, direct or indirect, shall be chargeable by the Government upon the goods and services provided under this project.

4

5. Payment of goods and services procured by the Government in connection with the project will be paid by the U.N. or reimbursed to the Government upon written request of the Director Treasurer of the Government, accompanied by receipted bills, payrolls, vouchers, or other documents certified by him to be correct and payable and which will identify the goods or services financed and the project against which the goods and services are to be charged. Alternatively, the U.N. will, upon such written request, and accompanied by the same documentation indicating that payment has not yet been made, pay to the payee, person, firm, or agency, the amount claimed on behalf of the Government. In the latter case, the cheque will be made payable to the Government and the third party payee for endorsement by both to be valid.

6. The Government agrees to furnish to the U.N. all such information as the U.N. shall reasonably request concerning the agreed project and the expenditures related thereto, and such information and assistance as will enable the U.N. to review the agreed project and the utilization of the goods and services financed under the agreed project. The Government further agrees to furnish the U.N. with quarterly progress reports by individual projects, and to permit access of the U.N. to the project sites for the purpose of making appropriate on-site and completion inspections.

7. The Government agrees to maintain and make available to the U.N. at its request adequate records, books, accounts and reports

A

concerning the project for the duration of the project, or until the expiration of three years after final disbursements have been made, whichever is the later.

8. The Government will not enter into obligations for the execution of the project in excess of the amount set out in paragraph one hereof and by line of the budget attached hereto, it being understood that a twenty percent (20%) transferability between line items in the budget will be permitted, and the Government agrees that any obligation incurred in excess of the said amount will be chargeable to its own proper funds.

9. This agreement may be amended from time to time by agreement between the parties hereto.

Mr. Jenssen, President/Manager of the Monetary Council states that Mr. T. H. Tan is essential to the operation of the Monetary Council and will be maintained as a Secretary as he appears on the official rolls of the Organization. Will you kindly arrange for the extension of his contract for another year?

The Monetary Council is a self-supporting Organization and it is our feeling that we should supply no further secretarial and administrative assistant personnel. The Monetary Council is in a position to finance additional staff from their own resources.

Mr. W. Jenssen, Chairman of the Monetary Council, has sent us an appraisal of Mr. T.H. Tan, who is assigned to his office as a secretary. As you can see from his appraisal, which was prepared in connection with the extension of Mr. Tan's assignment, Mr. Tan is not performing the duties of a secretary and it would appear that the Monetary Council does not need him as such. I would point out that from our files it appears that Mr. Tan has not been used as a secretary for quite some time.

..... I understand that the project of the Monetary Council has no provisions made for a staff member performing the duties ascribed to Mr. Tan (see attached copy of Mr. Jenssen's memorandum). I would be grateful if you would look into this matter and provide me with some clarification. It would help us very much if you would give your views on the overall staff needs of the Monetary Council as far as secretarial and administrative assistant people are concerned.

Je prends note du fait que la Commission sur l'utilisation des Fonds de contrepartie a sanctionné le recrutement de 171 experts et techniciens en utilisant les fonds de contrepartie, sous le titre 1, jusqu'à concurrence des 2/3 du salaire et des frais de voyage de tout expert fourni par les Nations Unies.

Je note également que le coût de ces postes serait réparti de la manière suivante :

- a) Contribution du Gouvernement congolais au 2/3 des frais de voyage et de transport des experts : 40.000.000 de francs congolais;
- b) Contribution du Gouvernement congolais aux frais opérationnels et de voyages locaux des experts : 27.000.000 de francs congolais;
- c) Contribution des Nations Unies au 1/3 du salaire et frais de voyage des experts : 313.000 dollars.

Je marque donc mon accord pour le recrutement de 196 experts et techniciens et vous prie de prendre les mesures nécessaires pour permettre la mise en œuvre de ce programme élargi des Travaux Publics le plus tôt possible.

En conclusion, je prends note du fait que les Opérations Civiles feront tout leur possible pour maintenir les services de ces 196 experts et que, au cas où l'ONU se trouverait dans l'impossibilité de maintenir ces experts au cours de l'année 1964, d'autres moyens de financement pourraient être explorés notamment, en prélevant ces dépenses sur le Budget ordinaire du Gouvernement. Toutefois, je voudrais réserver ma position en ce qui concerne l'engagement financier éventuel de mon Gouvernement sur ce point et je tiens à préciser que cet engagement est étroitement lié à l'engagement des Nations Unies et des pays donateurs de continuer à financer les sommes nécessaires au support du Budget gouvernemental en provenance des fonds de contrepartie.

Veuillez agréer, Monsieur le Chef des Opérations Civiles, l'expression de ma très haute considération.

NEWS OF AFRICA

30-01

KATANGA:

Ethiopian troops of the UN yesterday began a systematic anti-bandit sweep along the road from Elisabethville to the Northern Rhodesian border following the shooting of a Belgian driver the day before.

Ethiopian troops also began checking African communities in Elisabethville and a number of rifles were found.

President Moise Tshombe of Katanga told a press conference yesterday that the U Thant Plan for the reintegration of Katanga into the Congo was not being carried out properly. He added that Katanga was to receive 300,000,000 Belgian francs per month, but so far had received only 300,000,000 Belgian francs in three months. President Tshombe complained that only a third of the provisions of the U Thant Plan for Congolese reconciliation had been applied. He told this specially-called press conference that this was a very serious matter as a faulty application of the U Thant Plan compromised Katangan prosperity and the national reconciliation so eagerly desired by the Congolese people. In addition to this, Mr. Tshombe went on, it is a serious attack against international morals; it casts doubts on promises that have been given, and suspicion on guarantees made by honourable sovereign states. President Tshombe did not attempt to hide that he was referring mainly to Belgium which, through the good offices of the Rector of the University of Liege, had formally guaranteed, he claimed, the future application of the U Thant Plan in its entirety.

LEOPOLDVILLE CONGO:

The Léopoldville Congolese Defence Minister, Mr. Jérôme Anany, has denied that any deaths occurred in fighting between troops and civilians in the Lower Congo port of Boma last month. The semi-official Congolese news agency, the ACP, had earlier published reports that a number of people were killed and a UN spokesman said reports indicated that more than 70 were injured.

Mr. Anany said only two people were seriously injured in the clash which began when a soldier was beaten up by civilians in an argument over a woman.

Léopoldville, 2nd April 1963 196

A : Mr. Habib Ahmed, Chief of Civilian Operations, ONUC,
De : Mr. W. Jenssen, President, Monetary Council,
Objet : Conseil Monétaire.

Comme suite à votre lettre du 27 mars 1963, je suis heureux de vous informer de mon intention de réunir désormais le Conseil Monétaire chaque mercredi, à compter du 3 avril prochain.

Je suis, d'autre part, d'accord avec vous de considérer qu'il est nécessaire de compléter le Conseil Monétaire par la nomination de deux nouveaux membres aux postes laissés vacants par les départs de MM. West et Mushiete. Je serais personnellement très heureux de la nomination à un de ces postes de M. Cederwall dont vous avez avancé le nom. M. Togba étant déjà membre du Conseil, je me permets de vous suggérer, pour le second poste vacant, M. Olito du Ministère des Finances.

A cet égard, je me permets de vous rappeler qu'aux termes de l'article 6 du Décret-loi du 3 octobre 1960 instituant le Conseil Monétaire, les membres du Conseil Monétaire (à l'exception du Gouverneur de la Banque nationale du Congo, membre de droit) sont nommés par le Chef de l'Etat sur proposition du Ministre des Finances après consultation avec le Secrétaire général des Nations Unies.

Your 2076. Following is statement Jenssen, President Monetary Council Quote Article 8. Since all needs of the Congolese Treasury are claimed to be urgent, and since there is no budget, I find rather difficult to confirm that this provision has always been followed. Article 9. All withdrawals from this counterpart fund have been made with two signatures as requested by the agreement, one from the Director Treasurer and one from the Representative of the U.N. unquote.

Subject : Import Quotas for Mines, former KIVU province

Mr. Jensen sent me a copy of his letter of 20 February, No.C/4922, to the Prime Minister, copy of which he also addressed to you, on the above subject.

... Since then, we have received further information in the shape of the attached memorandum from Mr. Molly, enclosing reports by Mr. R. Linden, one of our Mining experts. These reports again emphasize the need for a solution to the problem of inadequate import quotas for the mining companies.

I shall appreciate hearing from you regarding any action you are able to initiate in this matter.

CIV.084/109/63

Le 29 mars 1963

Monsieur le Premier Ministre,

1. J'ai l'honneur de vous informer que des conversations ont eu lieu, depuis le début de l'année en cours, entre le Ministère des Travaux publics et les Opérations civiles des Nations Unies au sujet du recrutement d'un nombre suffisant d'experts et de techniciens pour assister le Ministère dans ses tâches et travaux quotidiens, ainsi que dans la mise à exécution du programme de travaux publics, lequel est reconnu comme étant essentiel au relèvement rapide de l'économie congolaise.

2. Au cours du mois de juin 1962, le Ministre des Travaux publics demanda les services de quelques 150 experts et techniciens pour fournir la structure d'organisation essentielle à la direction des services du Ministère, au niveau central, et pour remplir des fonctions similaires au niveau provincial. Cette demande fut à l'étude depuis lors, mais par manque de ressources budgétaires, 25 postes d'experts seulement ont été payés dans le cadre du programme des Opérations civiles pour 1962. Ce personnel, formant la section des travaux publics des Opérations civiles et comptant les experts et techniciens travaillant au sein du Ministère, lesquels sont fournis soit dans le cadre du programme bilatéral, soit par d'autres sources, est nettement insuffisant pour permettre au Ministère de faire face à ses responsabilités. Depuis cette première demande, une aide dans le domaine du transport fut accordée par les Gouvernements américain et allemand sous forme de fonds destinés au matériel de transport et pièces de rechange. Le rapport de la mission de la FAO recommandant un programme considérable pour le relèvement de la production alimentaire et agricole daté de janvier 1963, reconnaît l'importance du transport ainsi que de la construction et de l'entretien des facilités de transport entre les fermes et les marchés dans la restauration accélérée de la production agricole pour la consommation interne et l'exportation. Les programmes de travaux publics s'élevant à plus de 600 millions de francs qui seront financés par les fonds de contrepartie, ont été approuvés et le premier programme supplémentaire pour l'année 1963, s'élevant à presque un billion de francs a été récemment approuvé au cours de conversations entre le Ministre des Travaux publics et le Chef des Opérations civiles.

Votre Excellence
Monsieur Cyrille Adoula
Premier Ministre
LÉOPOLVILLE

3. A la suite d'une évaluation de ces facteurs et d'un examen approfondi des exigences du Ministère des Travaux publics, en collaboration avec le Ministre et les hauts fonctionnaires du Ministère, il a maintenant été établi qu'un nombre de 196 experts et techniciens est nécessaire pour soutenir effectivement les travaux et responsabilités qui reposent sur le Ministère dans la mise à exécution des programmes ordinaires et extraordinaires déjà approuvés. Étant donné que, comme nous l'avons déjà signalé, il n'a été possible de pourvoir que 25 postes dans le cadre du programme des Opérations civiles pour 1963, divers moyens ont été examinés pour permettre aussitôt que possible le recrutement et le financement des autres 171 experts. Cette question fut discutée au cours de la seconde réunion de la Commission sur l'utilisation des fonds de contrepartie sous le Titre I à laquelle M. Belvaux, Ministre des Travaux publics, était présent. Vous vous souviendrez avoir approuvé la constitution de cette Commission par votre lettre du 18 mars à cet égard. La Commission sanctionna la proposition à donner à la proposition du Ministre des Travaux publics sur le recrutement des 171 experts et techniciens et convint que des fonds de contrepartie sous Titre I pouvaient être utilisés au financement jusqu'à concurrence de 2/3 du salaire et des frais de voyage de tout expert fourni par les Nations Unies.

4. J'ai consulté M. Godfrey Anachree, Sous-Secrétaire chargé des Opérations civiles au Congo, à New York à ce sujet et il m'a autorisé à vous informer que les Nations Unies seraient prêtes à fournir les services des 171 experts supplémentaires au Ministère des Travaux publics sur la base suivante:

a) 2/3 du salaire et frais de voyage de tous les experts fournis au Ministère des Travaux publics, soit 196, sera versé par le Gouvernement congolais. Les fonds nécessaires proviendront des fonds de contrepartie sous Titre I, ce qui représentera une contribution du Gouvernement congolais au Fonds du Congo.

b) Les frais locaux des experts, les frais de voyages locaux et autres dépenses opérationnelles en devises locales seront réglés par le Gouvernement de la même manière que dans le cas des autres experts des Opérations civiles au Congo.

c) Les Nations Unies financeront 1/3 du salaire et frais de voyage à l'étranger des experts au cours de 1963.

5. La situation budgétaire pour ce qui concerne les finances des Opérations civiles des Nations Unies au Congo pour 1964 ne peut être prévue actuellement. Les Opérations civiles feront tout leur possible pour maintenir les services des 196 experts sus-mentionnés au cours de cette année-là suivant les termes proposés ci-haut. Toutefois, dans le cas où la situation financière des Nations Unies ne permettrait pas

M

de maintenir ces postes d'experts au cours de 1964 dans les conditions financières mentionnées ci-haut, d'autres moyens devraient être trouvés pour obtenir leur financement soit par des sources extérieures soit par le budget ordinaire du Gouvernement congolais.

6. J'ai l'honneur de vous remettre ci-joint un état donnant détails des 196 experts et techniciens, exposant séparément les 25 postes déjà remplis dans le cadre du programme pour 1963 (dont 21 experts affectés aux Travaux publics et 4 aux Voies navigables) et les autres postes. Le coût de ces postes, réparti de la manière détaillée au paragraphe 4 revient à:

- | | |
|---|-----------------|
| a) Contribution du Gouvernement congolais aux 2/3 des frais de voyage et de transport des experts | Cf. 40 millions |
| b) Contribution du Gouvernement congolais aux frais opérationnels et de voyages locaux | Cf. 27 millions |
| c) Contribution des Nations Unies au 1/3 du salaire et frais de voyage des experts | \$313,000 |

7. La contribution du Gouvernement congolais au Fonds du Congo citée au a) ci-haut ne serait évidemment pas utilisée dans cette devise tant donné que la majeure partie du salaire des experts serait réglée en devises étrangères. Les Nations Unies proposent donc d'échanger un montant en francs congolais du Fonds du Congo contre des devises provenant des ressources générales en devises étrangères mises à la disposition de l'Organisation pour les opérations au Congo.

8. Les propositions précitées ont été étudiées en collaboration avec le Ministre des Travaux publics et ont obtenu son accord. Votre approbation est maintenant nécessaire pour permettre de mettre le programme élargi de travaux publics à exécution le plus tôt possible.

Veuillez agréer, Monsieur le Premier Ministre, l'assurance de ma plus haute considération.

S. Habib Ahmed
Chef des Opérations civiles
