PROGRAMME FOR THE VISIT OF H.E. M. MOKTAR OULD DADDAH  
PRESIDENT OF THE CONFERENCE OF HEADS OF STATES  
OF THE ORGANIZATION OF AFRICAN UNITY  
TO THE UNITED NATIONS HEADQUARTERS ON FRIDAY, 24 SEPTEMBER 1971

✓ 12:15 p.m. His Excellency the President, accompanied by H.E. M. Hamdi Ould Moukress, Minister for Foreign Affairs and H.E. M. Moulaye El Hacem, Permanent Representative, will arrive at the Secretariat Entrance.

His Excellency the President will be met outside the building by the Chief of Protocol and officially by the Secretary-General inside the Secretariat Lobby.

The Secretary-General will escort His Excellency the President and the members of His Party by a special elevator to the 38th floor.

12:20 p.m. Arrangements will be made in the Secretary-General's conference room for the photographers to record the visit.

12:25 p.m. His Excellency the President will confer with the Secretary-General in his office.

1:15 p.m. Preceded by the Chief of Protocol, the Secretary-General will escort His Excellency the President and the members of His Party down to the South Lounge where the guests invited to the luncheon will have gathered.

1:20 p.m. The Chief of Protocol will introduce to His Excellency the President the guests invited to the luncheon.

1:30 p.m. Luncheon will be served.

2:45 p.m. Luncheon will be concluded.

The guests attending the luncheon will take leave of His Excellency the President and the Secretary-General in the South Lounge.

2:50 p.m. Escorted by the Chief of Protocol, the President and the members of His Party will walk through the corridor of the second floor to GA 200 where the President will rest for a few minutes before addressing the General Assembly.

3:00 p.m. The President will address the General Assembly.

(approx.) 3:30 p.m. At the end of His address, preceded by the Chief of Protocol, His Excellency the President and the members of His Party will proceed to the first floor and leave Headquarters by the Delegates' Entrance.

(FOR USE OF INFORMATION MEDIA -- NOT AN OFFICIAL RECORD)

Note No. 3692  
23 September 1971

NOTE TO CORRESPONDENTS

The President of Mauritania and of the Conference of Heads of State of the Organization of African Unity, Moktar Ould Daddah, will pay an official visit to United Nations Headquarters tomorrow, 24 September, and will be guest of honour at a luncheon given by the Secretary-General, U Thant.

The President will arrive at the Secretariat entrance at 12:15 p.m., accompanied by the Minister of Foreign Affairs of Mauritania, Hamdi Ould Moukness, and the Permanent Representative of Mauritania to the United Nations, Moulaye El Hacen.

The President and the members of his party will be met at the Secretariat entrance by the Chief of Protocol, Sinan A. Korle. The Secretary-General will officially greet the President and his party in the Secretariat lobby and escort them to the thirty-eighth floor.

At 12:20 p.m., in the Secretary-General's conference room, photographers will record the visit, after which the President will confer with the Secretary-General in his office.

At 1:15 p.m. the President and the Secretary-General will join other guests in the South Lounge, where luncheon will be served.

At the conclusion of the luncheon at 2:45 p.m., the President will rest before addressing the General Assembly at 3 p.m.

The President and the members of his party will leave Headquarters by the Delegates' entrance at approximately 3:30 p.m.

As H.E. M. Moktar Ould Daddah is invited in his capacity as President of the Conference of Heads of States of the Organization of African Unity, I would suggest, if it is agreeable to you, not to invite as we normally do for State Luncheons, the President of UNCA and the Chairman of the Staff Committee. This will definately show that it is not a State Luncheon but a special working luncheon offered by you.

Luncheon: The Hon.

Manfred Jachs

Fri. 17/IX/71 38th

22 September 1971

Dear Mr. Dayal,

Thank you for your very kind letter of 20 September. It was very kind of you to write. I, too, enjoyed the opportunity of meeting you again and I am also most grateful to you for your kind words in respect to the Introduction.

It is most fortunate for the United Nations that persons like you continue to be interested in the Organization, even after your direct official connection has ended. I shall certainly keep your interest in mind and do the best I can at a suitable opportunity.

I warmly reciprocate your good wishes and send you and your wife my personal regards.

Yours sincerely,

U Thant

Mr. Rajeshwar Dayal  
17 B Vasant Vihar  
New Delhi, India

cc - Mrs. Dayal ✓

As from: 17, B, Vasant Vihar,  
New Delhi, India.

20th September 1971

My dear Secretary General,

I should like to thank you most warmly for your precious hospitality at luncheon on Friday last and to say how much I enjoyed the opportunity of meeting you again in the midst of your heavy responsibilities.

I have been deeply impressed by the profundity and deep relevance of the views you have expressed in your Introduction to the Annual Report to the General Assembly as well as by their forthright and clear exposition. You have steered the Organisation through perilous times with rare devotion and ability and have set it on a true course for which the Member States & posterity will be greatly indebted to you.

My wife & I leave shortly for India, but I hope to continue for some time yet my work on the Committee on the Elimination of Racial Discrimination in case I am re-elected. At the same time, I would like the opportunity to continue to serve the cause of the United Nations to which I have devoted so many years of my working life, in other capacities as well, if it could be possible.

When I called on you in April last, you were good enough to enquire if there was anything that you could do in the matter. I leave the decision to you, but I would feel privileged to be nominated as a Consultant or as a member of a body concerned with peace-keeping, human rights or organisational matters, fields in which I have been most closely involved.

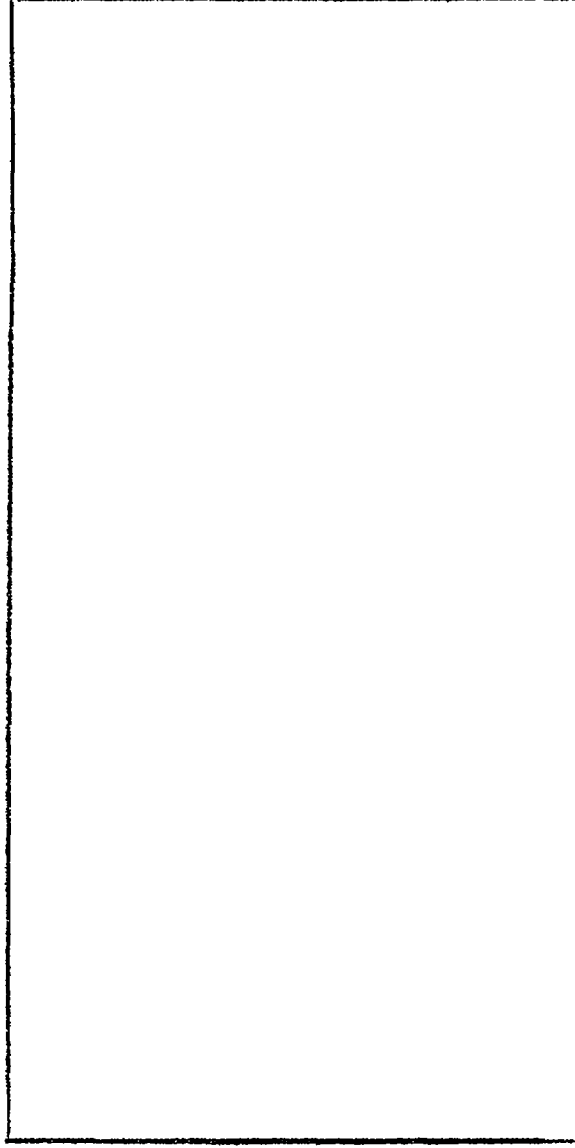

With my best wishes for your continued success in your high endeavours and with my kindest regards,

Yours very sincerely

Rajeshwar Dayal

22 September 1971

Dear Dr. Mercier,

It was a pleasure for me to have you for lunch on 15 September and to talk to you a little on the subject of World Philosophical Year 1978.

I have read the papers that you left with my Chef de Cabinet, Mr. C.V. Narasimhan, very carefully. In regard to the questions you have asked, I would like to reply as follows:

Before considering the question of accepting a position as one of the Patrons of the World Philosophical Year, I would like to know a little more about the background and aims of the movement. My office will keep in touch with you for this purpose.

As for collaboration with the International University, I believe the idea is premature at the present time, as the subject is still under the consideration of the United Nations General Assembly.

I have no objection to your proposal that FISP should assume responsibility for the realization of the project of a World Philosophical Year.

As for my recommending this proposal to Unesco, I feel it would be better if you were to approach the Director-General of Unesco direct. I understand that my Chef de Cabinet has given you the same advice.

I also see no reason why you, as the present Secretary-General of FISP, should not assume a central role of co-ordination and administration in case this project should materialize.

With kind regards,

Yours sincerely,

U Thant

7 August 1971

Dear Mr. Narasimhan,

Thank you very much for your communication from 15th. July, which was forwarded to my country house in France. Please give my very sincere regards to the Secretary General of UN and tell him that I shall with pleasure attend the lunch at which he invites me on the 15th of September in order to discuss the project we have in mind.

Originally, I had planned to fly to New York from Penn. State College, arriving at New York airport 12-35 noon. This will be very late for allowing me to attend the lunch, so when I am in the US, I shall change my schedule and look for a flight bringing me in New York earlier.

My address will be from Sept. 5 on: Nittany Lion Inn, N. Atherton St., Pennsylvania State University Campus, University Park, Penn. 16802 (phone: area code 814, no. 237-7671 or 865-7557).

Thank you very much for all you do and will still do,

Sincerely yours,

José Perier

Secretary General to FISP.

to:

HR. C. V. NARASIMHAN  
Chef de Cabinet to the  
Secretary General of the  
UNITED NATIONS  
NEW YORK.

15 July 1971

My dear G.P.,

I spoke to the Secretary-General about Vice Chancellor Mercier's wish to call on him, along with you, in September. The Secretary-General would like to invite you both to a luncheon on Wednesday 15 September. There will be some other guests also at this luncheon.

Either before or after the luncheon the Secretary-General would be glad to discuss with Vice Chancellor Mercier and yourself the project that he has in mind.

I am sending copy of this letter direct to Vice Chancellor Mercier for his information.

With kind regards,

Yours sincerely,

C. V. Narasimhan  
Chef de Cabinet

FEDERATION INTERNATIONALE DES SOCIETES DE PHILOSOPHIE  
INTERNATIONAL FEDERATION OF PHILOSOPHICAL SOCIETIES

F I S P

---

M E M O R A N D U M

by the Secretary General of FISP  
addressed to

THE SECRETARY GENERAL OF THE UNITED NATIONS

and

THE DIRECTOR GENERAL OF UNESCO

---

Everyone, who has to deal not only with specialized groups and/or with highly sophisticated representatives of, but with any individuals within, the population of the world, especially with the rising generation, is aware of the fact, that they will not be contented by the mere comforts of modern technology, but long after more spiritual food, the quintessence of which is: PHILOSOPHY, whatever name it may be given otherwise. For, the greatest ideal encompassing all others is of course:

How can men become wiser?

The project, to concentrate efforts onto the realization of that ideal during the coming years towards what has been circulated among a number of personalities under the name WORLD PHILOSOPHICAL YEAR 1978, must be borne by the most responsible people and institutions if it is at all to

be a success. The name is less important than the thing itself: to get every human being susceptible of becoming aware of it that philosophy, the "love of wisdom", is not just a main component of, but the total expression of his dignity. This, we believe, should help humanity - if not immediately - yet by and by to find the ways for a peace which is so badly needed in a much disturbed world.

It would certainly honour the International Federation of Philosophical Societies if an enterprise like this undertaken under its leadership should succeed in achieving any progress in the promotion of a world-wide understanding like that.

Immediately, two objections arise: (i) We have had enough of "Years", (ii) Philosophers are known to disagree about pretty everything.

An answer to (i) is: Without symbols and mile-stones on their ways, people engaged in great tasks are apt to lose the right direction and to forget that such tasks much end into achievements. The foregoing task need not be called a Year; however a climax is required, and a period of time of, say, 6 to 8 years from now seems a reasonable one for the people involved to complete efficient collaboration and for the aims in view to ripen.

An answer to (ii) is easy: Only superficially do philosophers disagree, but fundamentally, they all search precisely that same kind of spiritual food which is the complement of physical food and which is natural for mankind.

Philosophy appears to be the only encompassing activity finally capable of transcending barriers of political and other kinds, for its sole criterium is the authenticity of its search against forgery and illusion, by specific means based on science, the arts, ethics and the religions.

Therefore, the objections cannot be maintained and once the idea has been launched, the question is: How to put the problem correctly, and then to solve it by action.

Now, since the word Truth vividly suggests the nature of the ideal in view, a provisional title for the enterprise has been forged:

## TRUTH AND ACTION

which appears to cover well enough all that is comprehended under wisdom East and West, North and South and in old days like in modern times.

\*

The Secretary General of FISP has received instructions as to investigate the possibilities of its realization towards 1978.

After consultations among leading philosophers, Government Authorities, personalities of rank etc., which have revealed an astonishing consensus of approval on the principle, a document dated 1st March 1971 has been circulated in order to gather a sufficiently broad reaction to decide whether to pursue the enterprise or to drop it.

Encouraged especially by the decision of the highest authorities of his own country to assist him in international contacts towards a better concentration of efforts and backed by the assistance of experienced persons, e.g. the former Indian ambassador to the United Nations, who has been associated to the discussions at a very early stage, the Secretary General of FISP has decided, on behalf of FISP and its President, to approach the UNITED NATIONS through their Secretary General and UNESCO through its Director General.

The present document is intended to call their attention to the problem and to beg them not to discard the proposal without due consideration in consultation with the representative of FISP who has devoted much time to the estimation of its possible realization.

14 September 1971

Dear Mr. Stanley,

I thank you most kindly for your letter of 7 September inviting me to participate in the Twelfth Strategy For Peace conference scheduled for September 30 - October 3, at Airlie House, Warrenton, Virginia.

Unfortunately, due to prior commitments, I will not be able to participate, a fact which I greatly regret.

Since you asked for my suggestions regarding the participation of one of my colleagues, may I suggest Mr. René de Branche, from the Secretary-General's office. Mr. de Branche is probably known to you from his earlier participation in one of your seminars. He is one of the UN officials who has followed the China issue most closely and who, in my view, has all the qualities and background to make a distinguished contribution to your conference.

With my warmest regards,

Yours sincerely,

Robert G. Muller  
Director

September 7, 1971

Dear Mr. Muller:

We cordially invite you to participate in the Twelfth Strategy For Peace Conference scheduled for September 30-October 3, 1971 at Airlie House near Warrenton, Virginia. Enclosed is a copy of the conference report from last year.

You are invited to participate in the discussion group entitled "The United States, China and the United Nations" which will be chaired by Professor Allen S. Whiting of the University of Michigan. Acceptances to this group include: Professor Roger Hilsman, Columbia University; Mr. Alfred Jenkins, State Department; Mr. Henry Tanner, Chief of Bureau, The New York Times, United Nations Bureau; and Dr. Alfred Fernbach, Associate Dean of the Graduate School of Arts and Sciences, University of Virginia.

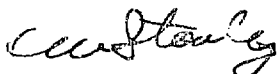

We will reimburse you for round trip economy air fare from New York to Washington, D. C. There will be a chartered bus from Washington, D. C. to Airlie House. You will also be the guest of The Foundation while at the conference (room and board provided and the \$25 registration fee waived).

We expect 100-120 participants of whom a fourth will be graduate students and young professionals from both the public and private sector.

We deeply hope your schedule will permit you to be with us September 30-October 3 at Airlie House. Your broad experience and expertise will greatly contribute to the success of the conference. If you are unable to attend, we would appreciate the participation of one of your principal associates who might contribute to the discussion group.

Looking forward to hearing from you at your earliest convenience, I remain

Sincerely yours,

C. Maxwell Stanley

His Excellency U Thant  
Secretary General  
The United Nations  
New York, NY 10017

Dear Mr. Secretary General:

The highlight of our trip to New York was the opportunity to visit the United Nations and to meet with you. We welcomed the opportunity to tell you and the other UN delegates about the Apollo 15 mission to the moon. We felt greatly honored to receive the Peace Medal and treasured the discussions with UN ambassadors from the many countries on our good earth.

The most memorable occasion for the three of us were your remarks following our presentation. We join you in your aspirations that man will live in peace and that the pathway to the stars may provide a path for common understanding between all men. We wish to thank you for giving us a day that will live forever in our memories.

Very sincerely,

REPLY TO  
ATTN OF: CB

August 30, 1971

The Honorable George Bush  
U. S. Representative to the United Nations  
799 UN Plaza  
New York, NY 10017

Dear Mr. Ambassador:

We would like to express our appreciation for your hospitality and thoughtfulness during our visit to New York and the United Nations. Our first evening on the town after our return from Hadley was very relaxed and most enjoyable.

The afternoon at the United Nations was most meaningful to all of us, particularly the Peace Medal and the remarks by the Secretary General. Because of their significance, we have asked NASA to place the medals on display with a transcript of U Thant's remarks at NASA Headquarters, Kennedy Space Center, and here in Houston. The ideals expressed by the medal and the Secretary General should be shared by as many people as possible.

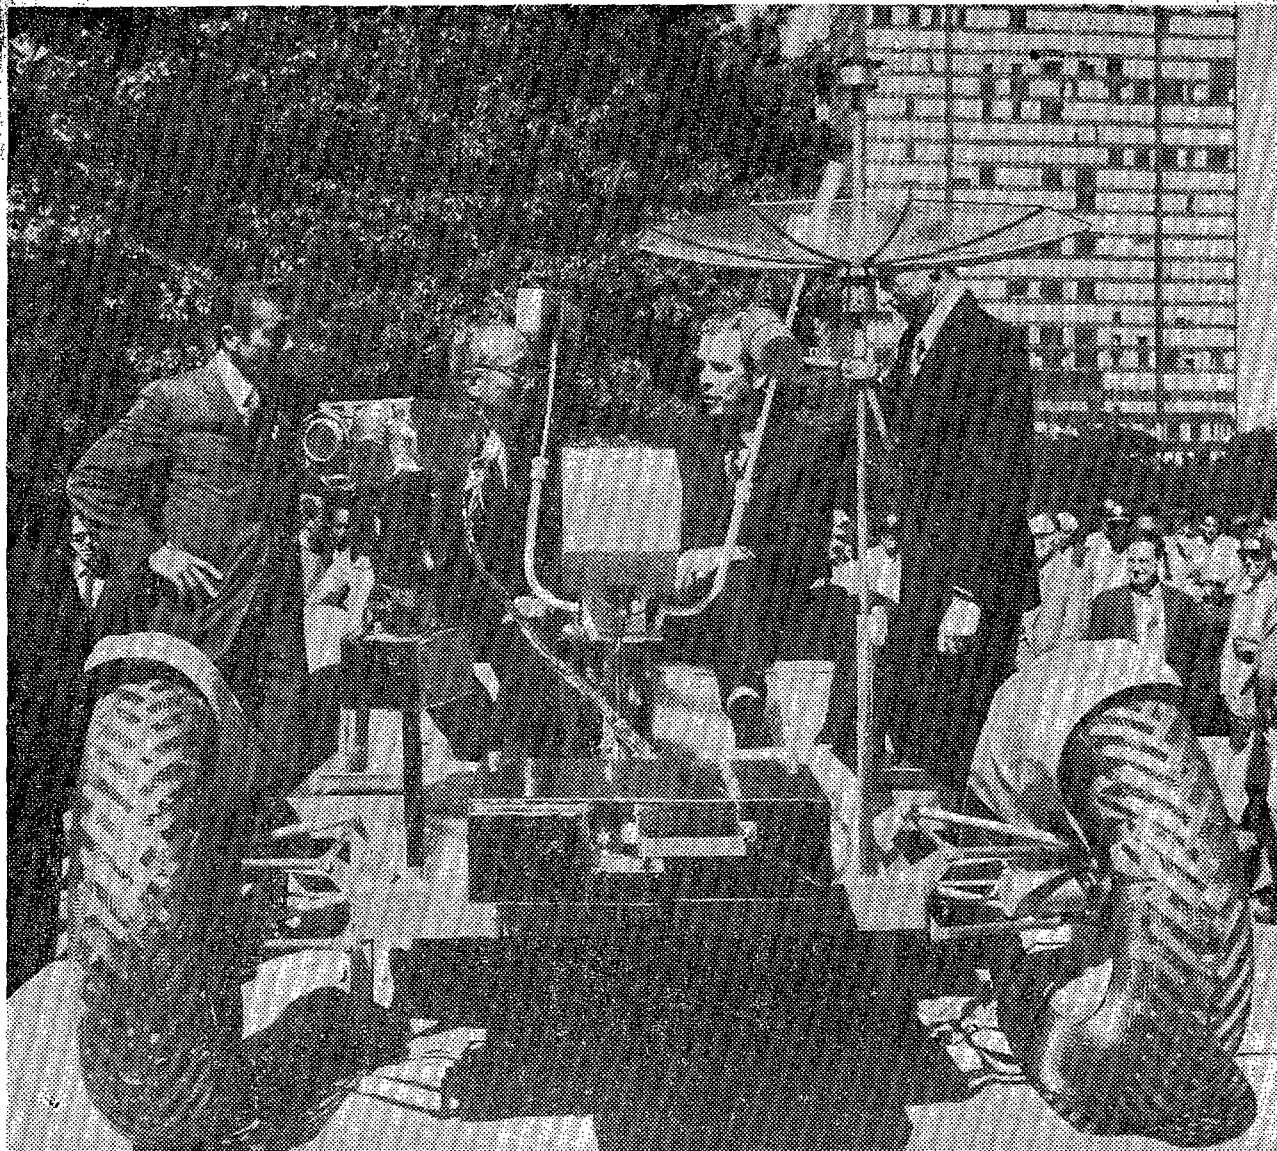

If you and Barbara ever get a chance to return to Texas please let us know as we would like to return some of the good Texas hospitality we received in New York.

Respectfully,

David R. Scott  
Colonel, USAF

UNITED NATIONS

Press Section  
Office of Public Information  
United Nations, N.Y.

(FOR USE OF INFORMATION MEDIA -- NOT AN OFFICIAL RECORD)

Note No. 3683  
25 August 1971

Note to Correspondents

Following is a transcript of the remarks made by the Permanent Representative of the United States to the United Nations, George H. Bush; one of the three astronauts of Apollo 15, Col. David R. Scott; and the Secretary-General, U Thant, during the visit of the three astronauts -- Col. Scott, Lieut. Col. James B. Irwin, and Major Alfred M. Worden -- to United Nations Headquarters on 24 August:

Mr. BUSH (United States): Ladies and gentlemen, let me say what a great pleasure it is, as the United States Representative to the United Nations, to have with us the distinguished astronauts. First, may I pay my respects to our Secretary-General and thank him for the courtesy that he has shown these fine men and also thank him in advance for the hospitality which he will provide later on to them in person.

Now it is my great pleasure to introduce these gentlemen to you. Before doing so, I should like to introduce their wives and ask them to stand up: Mrs. Scott and Mrs. Irwin. We asked them to get into the lunar rover and they said something about lady drivers, so we did not go on with that.

Without further ado, let me simply say that it is a great honour for me as Representative of the United States Government to the United Nations to present these men and let them share with you some of their experiences on the moon. Our President, President Nixon, has repeatedly said that the space effort must be international, that the space effort is not simply a voyage to the moon or around the earth in any sense, but is much more than that; and out of the space effort will come tremendous benefits for mankind. As I look around this room and I see our colleagues -- many of my ambassadorial colleagues, who have worked so much longer than I have here in this Chamber for peace -- I know that all of them share our view of the space programme when it is put into this international dimension.

Now it is a great pleasure for me to introduce to you Colonel David Scott, the Commander of this most recent and most successful lunar voyage.

(more)

Colonel SCOTT: As we prepared to take our trip to the moon and explore the wonders of Hadley, it became apparent to us that many, many people in this world have contributed to the efforts of the space programme and the exploration of the vastness of space. The more we learned about our job, the more we realized that in some manner we should recognize those who had gone before us and contributed so much. As we thought about this, we also realized that men can contribute many, many things -- their time, their efforts, their minds; some men contribute more than others; some men have contributed their lives. And we felt that it would be appropriate during our mission to recognize those astronauts and cosmonauts who had so willingly contributed all they had in the exploration of space.

So, Mr. Secretary-General, we would ask you to be good enough to come and join us. We have a replica of a memorial which we emplaced at the Hadley Apennine on the moon to pay a tribute to those astronauts and cosmonauts who have given their lives for the benefit of mankind. Mr. Secretary-General, we would like to present to the United Nations this replica, in the hope that it will be a symbol to all mankind of the efforts of all men in furthering our knowledge of the universe and of ourselves. In the slide that is now being projected, you will see that on the surface, some twenty feet north of the lunar roving vehicle, on the plane at Hadley, are a plaque and a small figure which represent, as we feel, the men who have contributed their lives to the exploration of space.

The SECRETARY-GENERAL: Distinguished astronauts, Ambassador Bush, Mr. President of the Security Council, Your Excellencies, ladies and gentlemen: On behalf of the United Nations, it is my privilege not only to welcome and greet the most distinguished astronauts who have graced the Headquarters of the United Nations with their presence, but also to thank them for this presentation of the replica of the plaque which they emplaced on the lunar surface, in commemoration of those astronauts and cosmonauts who have given their lives in the performance of their historic functions. This presence and this presentation represent a symbol -- a very significant symbol -- for all of us at the United Nations because of the identity of interest and the identity of

(more)

purpose and the identity of ideals. You, distinguished astronauts, have commemorated the fallen astronauts and cosmonauts for their very valiant search to discover outer space, for the enrichment of all mankind.

Earth -- our little planet earth -- as you saw it from the moon, is also very symbolic of the aspirations of all of us at the United Nations. You saw our planet earth from the moon as an indivisible entity, a small planet orbiting in space, without boundaries, without frontiers, without any indication whatsoever of which part is rich and which part is poor, which part is black and which part is white, and which part is yellow. This is a correct vision of this small planet. This is in strict conformity with the Charter of the United Nations.

Distinguished astronauts: you have got the correct perspective of this little globe, our little planet earth, which we are trying to fashion in the way we like according to the Charter, to achieve great harmony. You have led the way. Therefore, your presence at the United Nations today has a very special significance for all of us who are striving to achieve the objectives set forth by the founding fathers twenty-six years ago: to achieve harmony, to achieve synthesis, with the realization that this little planet is indivisible on the basis of colour, creed or religion.

I want to take this opportunity of also thanking Ambassador Bush and his capable staff at the United States Mission for having made this visit possible and for having made this afternoon both instructive and educational.

Distinguished astronauts, I wish all of you continued success in your search for more positive knowledge for the betterment of all mankind.

\* \*\*\* \*

19 August 1971

PROGRAMME FOR THE VISIT OF THE APOLLO 15 ASTRONAUTS  
COLONEL DAVID R. SCOTT, COLONEL JAMES B. IRVIN AND  
MAJOR ALFRED M. WORDEN

3:15 p.m. The astronauts will arrive at the United Nations through the 47th Street gate of the North Garden and will drive up the esplanade to the Public Plaza outside the Visitors' Entrance to the General Assembly Building. At this point, they will be received by the Secretary-General. A brief picture-taking ceremony will follow beside a replica of the "moon buggy".

Delegates, staff members and the public will be permitted, in designated areas, to view the arrival.

The Secretary-General, astronauts and official party, following the brief ceremony, will move across the Plaza into the General Assembly Building through the North Public Doors and proceed through the Exposition Hall to the Delegates' Entrance to Conference Room 4, via the General Assembly elevators.

3:30 p.m. A film will be shown in Conference Room 4. This film is being shown for the first time and there is no sound track. The film is not, as yet, ready for distribution to the public and no prints or stills are available. It is understood that the astronauts will make a brief introduction to the film and a brief narration during the showing.

Invitations to view the film will be handled by the United States Mission and it is our understanding that the invitation list will include Permanent Representatives or a designated delegate, members of the Security Council and their deputies, the Committee on the Peaceful Uses of Outer Space, staff members of the Outer Space Affairs Division, Under-Secretaries-General, Assistant Secretaries-General, and the press.

At the conclusion of the film, the Secretary-General, astronauts and official party will leave Conference Room 4 and proceed to the 38th floor via the General Assembly elevators, through the neck to the Conference Building and down the second floor corridor to the high-rise elevators.

.../2

- 4:00 p.m.      The Secretary-General will hold a reception for the astronauts, members of the official party and invited guests.
- The Secretary-General will make a presentation to the astronauts and it is understood that the astronauts, in turn, will make a presentation to the Secretary-General.
- 4:45 p.m.      The Secretary-General will escort the astronauts and official party to the elevators and take leave of them at that point.
- 4:50 p.m.      The astronauts and official party will depart the United Nations via the Secretariat Entrance.

In the event of rain, the brief picture-taking ceremony with the "moon buggy" on the arrival of the astronauts will be held inside the General Assembly Public Lobby.

INFORMATION CIRCULAR

Subject: VISIT TO UNITED NATIONS OF AMERICAN ASTRONAUTS  
TUESDAY, 24 AUGUST 1971

1. On 24 August 1971, American astronauts Colonel David R. Scott, Colonel James B. Irvin and ~~Major~~ <sup>Pl. Col.</sup> Alfred M. Worden will visit the United Nations. They will arrive at 3:15 p.m. and will enter the United Nations through the 47th Street entrance to the North Garden and drive up the esplanade to the Plaza outside the Visitors' Entrance to the General Assembly Building, where they will be greeted by the Secretary-General. After a brief picture-taking ceremony on the Plaza beside a replica of the "moon buggy", the Secretary-General, astronauts and official party will proceed to Conference Room 4 for a film showing. Following the film, the Secretary-General will hold a reception for the astronauts and invited guests on the 38th floor. The astronauts will depart the United Nations at 4:50 p.m. via the Secretariat Entrance.

2. All staff members who may be spared from their duties and who would like to see the astronauts may do so in the following areas:

- (a) In designated areas on the Public Plaza outside the Visitors' Entrance to the General Assembly Building, and in the General Assembly Lobby;
- (b) Behind the tapes on the second floor of the Conference Building along the route - the General Assembly neck, second floor Conference Building corridor to the high-rise elevators in the Secretariat Building;
- (c) In designated areas, both indoors and outdoors, at the Secretariat Entrance for the departure of the astronauts.

.../2

3. Admittance to the film showing in Conference Room 4 will be by invitation only.

4. In the event of rain, the brief picture-taking ceremony with the "moon buggy" on the arrival of the astronauts will be held inside the General Assembly Public Lobby.

---

SUMMARY OF MEETING HELD ON 19 AUGUST 1971 AT 1630 HOURS IN ROOM 2127  
REGARDING THE VISIT OF THE APOLLO 15 ASTRONAUTS ON TUESDAY, 24 AUGUST 1971

1. The meeting was chaired by Mr. H.A. Trimble, Chief, Security and Safety Section, with representatives of OPI and Security in attendance.
2. The astronauts will arrive in New York Monday night, 23 August 1971 and will be staying at the St. Regis Hotel. The morning and early afternoon of August 24th will be devoted to city functions. Some of the highlights are their appearance on the "Today Show", a motorcade through the city terminating at City Hall, an official welcome and a luncheon.
3. The astronauts, accompanied by their wives, will arrive at the United Nations at 3:15 p.m. The number of cars in the motorcade is unknown, but about three vehicles will be allowed in the 47th Street gate. These cars will contain the three astronauts (and probably Mayor Lindsay), the wives and NASA officials. The official party will proceed up the esplanade to the Public Plaza (near the checkroom) where they will be met by the Secretary-General. The party will then move to an area on the north side of the plaza, where there will be a replica of the original "moon buggy". The replica, however, will have no motor. Pictures will be taken here of the astronauts and the Secretary-General (perhaps with the astronauts and/or the Secretary-General in the "moon buggy").
4. It must be stressed that there cannot be too much time spent at the "moon buggy" for picture-taking, as the astronauts are on a very tight schedule.
5. The Secretary-General will then escort the astronauts and official party across the Public Plaza, through the North Public General Assembly doors, through the Exposition Hall to the General Assembly elevators in the Delegates' Lobby and down to Conference Room 4.
6. Conference Room 4 will be full of people - the invitation list is controlled by the United States Mission. There will be a film showing here - moon pictures taken by the astronauts. This is the first time the film will be shown and it will be very rough and have no sound track. Astronauts will give a brief introduction to the film and, in the absence of a sound track, will probably narrate it.
7. No pictures will be allowed during the showing of the film. The number of press to be allowed in the room will be worked out by the U.S. Mission. The maximum number of people will be seated on the floor and in the public and press galleries. The film will last approximately 20 minutes.
8. When the film is over, the Secretary-General will accompany the astronauts out of Conference Room 4, back into the G.A. elevators to the second floor. They will walk down the neck to the Conference Building and along the corridor to the elevators. (The area will be taped off for staff members to observe them.) They will then take the elevators to the 38th floor where the Secretary-General is holding a reception. The invitation list will probably include members of the Security Council, Chairman of the Outer Space Committee, the Under-Secretaries-General, Assistant Secretaries-General, etc.

9. At the reception, the Secretary-General is going to make a presentation to the astronauts. The presentation will include the United Nations Peace Medal (the first time it has been presented) and an album of stamps. The astronauts, in turn, will make a presentation to the Secretary-General.
10. The official party must leave the United Nations by 4:50 p.m. They will come straight down to the Secretariat Entrance, where they will get into the cars directly outside that entrance, out 42nd Street, turn right and proceed to the United States Mission, where staff of the U.S. Mission will be outside standing on the steps. The motorcade will stop, the astronauts will stand up and say a few words to the U.S. staff and they will proceed on.
11. It must be stressed again that they are on a very, very tight schedule and there will be no interviewing by the press at any point, nor will the astronauts make any statement to the press.
12. Security will arrange to put barricades up on the Public Plaza and will arrange an area for the press. There will be a corridor made for freedom of movement, as the Public Plaza will not be closed to the public, as it has in the past.
13. The other areas for press coverage are in Conference Room 4 and the 38th floor for the presentation ceremony, in the normal manner. Numbers on the 38th floor must be kept to a minimum because of physical limitations.
14. Any platforms on the Public Plaza for photographers will have to be arranged with Mr. Jaran.
15. Mr. A. Reynolds Smith of the U.S. Mission is the official to be contacted regarding arrangements for the actual film projection.
16. The number in the official party is not known, but there will be approximately 10 from the U.S. Mission and NASA, and possibly Mayor Lindsay.
17. There will be the normal press area set-up in the Secretariat Lobby for the departure of the astronauts at 4:50 p.m. and the gates will be up, as usual. Again, there will be no interviewing and the astronauts will not make a statement.
18. An Information Circular will be put out to inform the staff members of the astronauts' visit.
19. Wet Weather Programme - The only change to be made in the case of wet weather is that the astronauts will drive right up to the North Public General Assembly Building doors and into the G.A. Lobby, where the "moon buggy" will be located and where the brief picture-taking ceremony will be held.
20. There will be no basic change in this programme. Minor modifications might be made but this is the outline of the programme.

21. On Friday, 20 August 1971, at 10:30 a.m., there will be a meeting on the Public Plaza to discuss the visit and walk the route to be taken by the astronauts during the visit. Mr. Jaran, Mr. Smith from the U.S. Mission, NASA officials and representatives of OPI will attend.

APOLLO 15  
FOURTH MANNED LUNAR LANDING

The Crew

Commander -- David R. Scott, Colonel, USAF

Command Module Pilot -- Alfred M. Worden, Jr., <sup>LT. Col.</sup> ~~Major~~  
USAF

Lunar Module Pilot -- James B. Irwin, ~~Sergeant~~ Colonel,  
USAF

The Spacecraft

Command Module -- "Endeavour"

Lunar Module -- "Falcon"

The Mission -- 12 days, 7 hours, 12 minutes

Liftoff: 9:34 a.m. EDT July 26, 1971 from Pad 39-A,  
Kennedy Space Center, Florida, aboard a  
Saturn V launch vehicle.

- more -

AUGUST 1971

### The Flight of Apollo 15

Lunar Orbit: Spacecraft was placed in lunar orbit at 4:05 p.m. EDT July 29, 1971.

Lunar Landing: The Lunar module, "Falcon", touched down on the Moon at the Hadley Apennine site at 6:16 p.m. EDT July 30, 1971. ~~Landing point was 17.8 degrees South latitude, 13.87 degrees West longitude.~~

Lunar Surface  
Extra Vehicu-  
lar Activity:

1. At 7:44 p.m. EDT July 30, the spacecraft was depressurized and astronaut Scott opened the hatch, stood up, and described and photographed the surface features for approximately 35 minutes.
2. July 31, 9:14 a.m. EDT the first lunar surface EVA began. Scott and Irwin deployed and drove an electric powered four-wheeled Lunar Roving Vehicle; traversed the lunar surface; collected surface material and deployed the Apollo Lunar Surface Experiments Package, an array of geophysical instruments powered by a radio isotope heater. EVA duration 6 hours 34 minutes.
3. The second lunar surface EVA began at 7:48 a.m. EDT August 1. For 7 hours 12 minutes the crew explored the lunar surface driving the "Rover", describing the features and collecting samples.
4. At 4:52 a.m. EDT, August 2, the third surface EVA began for a duration of approximately 4 hours 50 minutes. Total EVA time on surface was 18 hours 36 minutes. Approximately 173 pounds of surface samples were returned.

Lunar Liftoff: 1:11 p.m. EDT August 2.

Lunar Orbit:

The "Falcon" and "Endeavour" docked at 3:10 p.m. EDT August 2.

On August 4, at 4:13 p.m. a scientific subsatellite was ejected from the service module and placed in a 70 by 61 nautical mile orbit above the Moon.

At 5:23 p.m. EDT August 4, the spacecraft transearth injection maneuver was performed to begin the return journey.

Transearth EVA:

Alfred M. Worden, Jr., Command Module pilot egressed from the "Endeavour" and retrieved film from the cameras which photographed the lunar surface while the spacecraft orbited the Moon. The EVA began at 11:32 a.m. EDT, August 5, for a duration of about 38 minutes.

Splashdown:

Apollo 15 landed in the Pacific Ocean August 7, 4:46 p.m. EDT. Impact point was 158 degrees, 04 minutes West longitude and 26 degrees 04 minutes North latitude, about 300 miles north of Hawaii. The crew and spacecraft were retrieved by the prime recovery ship, USS Okinawa.

Apollo 15 Accomplishments

1. Fourth manned lunar landing.
2. Largest payload placed in lunar orbit, 74,522 lbs.
3. Largest payload placed in Earth orbit, 309,330 lbs.
4. First array of scientific instruments mounted in the service module and flown and operated by astronauts in lunar orbit.
5. Longest time on lunar surface, 66 hours 55 minutes.
6. Longest time for lunar surface EVAs, 18 hours, 36 minutes.

7. Longest distance traversed on lunar surface, 14.6 miles.
8. Largest amount of lunar rocks and soil returned, approximately 173 pounds.
9. First use of lunar roving vehicle (LRV).
10. First use of lunar surface navigation device, on LRV.
11. First use of lunar communications system directly from astronauts on surface to earth via antenna on LRV, including television.
12. First ground controlled remote operations of television camera on surface which permitted first view of lunar module launch from Moon.
13. First scientific subsatellite launch in lunar orbit.
14. First EVA from command module during transearth coast.
15. Longest time in lunar orbit, 74 orbits.

NOTE: All above numbers are preliminary and subject to slight changes when data is analyzed.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

WASHINGTON, D. C. 20546

### BIOGRAPHICAL DATA

NAME: David R. Scott (Colonel, USAF) Apollo 15  
Commander  
NASA Astronaut

BIRTHPLACE AND DATE: Born June 6, 1932, in San Antonio, Texas.  
His parents, Brigadier General (USAF Retired) and Mrs.  
Tom W. Scott, reside in La Jolla, California.

PHYSICAL DESCRIPTION: Blond hair; blue eyes; height: 6 feet;  
weight: 175 pounds.

EDUCATION: Graduated from Western High School, Washington, D.C.;  
received a Bachelor of Science from the United States  
Military Academy and the degrees of Master of Science in  
Aeronautics and Astronautics and Engineer in Aeronautics  
and Astronautics from the Massachusetts Institute of  
Technology.

MARITAL STATUS: Married to the former Ann Lurton Ott of San  
Antonio, Texas. Her parents are Brigadier General (USAF  
Retired) and Mrs. Isaac W. Ott of San Antonio.

CHILDREN: Tracy L., March 25, 1961; Douglas W., October 8, 1963.

RECREATIONAL INTERESTS: His hobbies are swimming, handball,  
skiing, and photography.

ORGANIZATIONS: Associate Fellow of the American Institute of  
Aeronautics and Astronautics; and member of the Society  
of Experimental Test Pilots, and Tau Beta Pi, Sigma Xi  
and Sigma Gamma Tau.

SPECIAL HONORS: Awarded the NASA Distinguished Service Medal,  
the NASA Exceptional Service Medal, the Air Force  
Distinguished Service Medal, the Air Force Command Pilot  
Astronaut Wings and the Air Force Distinguished Flying  
Cross; and recipient of the AIAA Astronautics Award (1966)  
and the National Academy of Television Arts and Sciences  
Special Trustees Award (1969).

**EXPERIENCE:** Scott graduated fifth in a class of 633 at West Point and subsequently chose an Air Force career. He completed pilot training at Webb Air Force Base, Texas, in 1955 and then reported for gunnery training at Laughlin Air Force Base, Texas, and Luke Air Force Base, Arizona.

He was assigned to the 32nd Tactical Fighter Squadron at Soesterberg Air Base (RNAF), Netherlands, from April 1956 to July 1960. Upon completing this tour of duty, he returned to the United States for study at the Massachusetts Institute of Technology where he completed work on his Master's degree. His thesis at MIT concerned interplanetary navigation. After completing his studies at MIT in June 1962, he attended the Air Force Experiment Test Pilot School and then the Aerospace Research Pilot School.

He has logged more than 4,721 hours flying time--4,011 hours in jet aircraft and 188 hours in helicopters.

**CURRENT ASSIGNMENT:** Colonel Scott was one of the third group of astronauts named by NASA in October 1963.

On March 16, 1966, he and command pilot Neil Armstrong were launched into space on the Gemini 8 mission--a flight originally scheduled to last three days but terminated early due to a malfunctioning OAMS thruster. The crew performed the first successful docking of two vehicles in space and demonstrated great piloting skill in overcoming the thruster problem and bringing the spacecraft to a safe landing.

He served as command module pilot for Apollo 9, March 3-13, 1969. This was the third manned flight in the Apollo series and the second to be launched by a Saturn V. The ten-day flight encompassed completion of the first comprehensive Earth-orbital qualification and verification tests of a "fully configured Apollo spacecraft" and provided vital information previously not available on the operational performance, stability and reliability of lunar module propulsion and life support systems.

Following a Saturn V launch into a near circular 102.3 x 103.9 nautical mile orbit, Apollo 9 successfully accomplished command/service module separation, transposition and docking maneuvers with the S-IVB-housed lunar module. The crew then separated their docked spacecraft from the S-IVB third stage and commenced an intensive five days of checkout operations with the lunar module, followed by five days of command/service module Earth orbital operations.

Highlight of this evaluation was completion of a critical lunar-orbit rendezvous simulation and subsequent docking, initiated by James McDivitt and Russell Schweickart from within the lunar module at a separation distance which exceeded 100 miles from the command/service module piloted by Scott.

The crew also demonstrated and confirmed the operational feasibility of crew transfer and extravehicular activity techniques and equipment, with Schweickart completing a 46-minute EVA outside the lunar module. During this period, Dave Scott completed a stand-up EVA in the open command module hatch photographing Schweickart's activities and also retrieving thermal samples from the command module exterior.

Apollo 9 splashed down less than four miles from the helicopter carrier USS GUADALCANAL. With the completion of this flight, Scott has logged 251 hours and 42 minutes in space.

He served as backup spacecraft commander for the Apollo 12 flight and was assigned as spacecraft commander for Apollo 15 on March 26, 1970.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

WASHINGTON, D. C. 20546

### BIOGRAPHICAL DATA

NAME: Alfred Merrill Worden (Major, USAF) Apollo 15  
Command Module Pilot  
NASA Astronaut

BIRTHPLACE AND DATE: The son of Merrill and Helen Worden, he was born in Jackson, Michigan, on February 7, 1932. His parents reside in Jackson, Michigan.

PHYSICAL DESCRIPTION: Brown hair; blue eyes; height: 5 feet 10 1/2 inches; weight: 153 pounds.

EDUCATION: Attended Dibble, Griswold, Bloomfield and East Jackson grade schools and completed his secondary education at Jackson High School; received a Bachelor of Military Science Degree from the United States Military Academy in 1955 and Master of Science degrees in Astronautical/Aeronautical Engineering and Instrumentation Engineering from the University of Michigan in 1963.

CHILDREN: Merrill E., January 16, 1958; Alison P., April 6, 1960.

RECREATIONAL INTERESTS: He enjoys bowling, water skiing, swimming and handball.

EXPERIENCE: Worden, an Air Force Major, was graduated from the United States Military Academy in June 1955 and, after being commissioned in the Air Force, received flight training at Moore Air Base, Texas; Laredo Air Force Base, Texas; and Tyndall Air Force Base, Florida.

Prior to his arrival for duty at the Manned Spacecraft Center, he served as an instructor at the Aerospace Research Pilots School--from which he graduated in September 1965. He is also a graduate of the Empire Test Pilots School in Farnborough, England, and completed his training there in February 1965.

He attended Randolph Air Force Base Instrument Pilots Instructor School in 1963 and served as a pilot and armament officer from March 1957 to May 1961 with the 95th Fighter Interceptor Squadron at Andrews Air Force Base, Maryland.

He has logged more than 3,309 hours flying time--  
including 2,804 hours in jets and 107 in helicopters.

CURRENT ASSIGNMENT: Major Worden is one of the 19 astronauts  
selected by NASA in April 1966. He served as a member  
of the astronaut support crew for the Apollo 9 flight  
and as backup command module pilot for the Apollo 12  
flight.

He was assigned as command module pilot for Apollo 15  
on March 26, 1970.

August 1971

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

WASHINGTON, D. C. 20546

### BIOGRAPHICAL DATA

NAME: James Benson Irwin (Lieutenant Colonel, USAF) Apollo 15  
Lunar Module Pilot  
NASA Astronaut

BIRTHPLACE AND DATE: Born March 17, 1930, in Pittsburgh, Pennsylvania, but he considers Colorado Springs, Colorado, as his home town. His parents, Mr. and Mrs. James Irwin, now reside in San Jose, California.

PHYSICAL DESCRIPTION: Brown hair; brown eyes; height: 5 feet 8 inches; weight: 160 pounds.

EDUCATION: Graduated from East High School, Salt Lake City, Utah; received a Bachelor of Science degree in Naval Sciences from the United States Naval Academy in 1951 and Master of Science degrees in Aeronautical Engineering and Instrumentation Engineering from the University of Michigan in 1957.

MARITAL STATUS: Married to the former Mary Ellen Monroe of Corvallis, Oregon; her parents, Mr. and Mrs. Leland F. Monroe, reside in Santa Clara, California.

CHILDREN: Joy C., November 26, 1959; Jill C., February 22, 1961; James B., January 4, 1963; Jan C., September 30 1964.

RECREATIONAL INTERESTS: Enjoys skiing and playing paddleball, handball, and squash; and his hobbies include fishing, diving, and camping.

ORGANIZATIONS: Member of the Air Force Association and the Society of Experimental Test Pilots.

SPECIAL HONORS: Winner of two Air Force Commendation Medals for service with the Air Force Systems Command and the Air Defense Command; and, as a member of the 4750th Training Wing, recipient of an Outstanding Unit Citation.

<more>

EXPERIENCE: Irwin, an Air Force Lt. Colonel, was commissioned in the Air Force on graduation from the Naval Academy in 1951. He received his flight training at Hondo Air Base, Texas, and Reese Air Force Base, Texas.

Prior to reporting for duty at the Manned Spacecraft Center, he was assigned as Chief of the Advanced Requirements Branch at Headquarters Air Defense Command. He was graduated from the Air Force Aerospace Research Pilot School in 1963 and the Air Force Experimental Test Pilot School in 1961.

He also served with the F-12 Test Force at Edwards Air Force Base, California, and with the AIM 47 Project Office at Wright-Patterson Air Force Base, Ohio.

During his military career, he has accumulated more than 6,650 hours flying time--5,124 hours in jet aircraft and 387 in helicopters.

CURRENT ASSIGNMENT: Lt. Colonel Irwin is one of the 19 astronauts selected by NASA in April 1966. He was crew commander of lunar module (LTA-8)--this vehicle finished the first series of thermal vacuum tests on June 1, 1968. He also served as a member of the astronaut support crew for Apollo 10 and as backup lunar module pilot for the Apollo 12 flight.

Irwin was assigned as lunar module pilot for Apollo 15 on March 26, 1970.

\* Enclosure: Transmission by SG of invitation from Amb. Bush to attend film version of astronauts mission at 3.30 in Conference Room 4. Enclosures without invitations to the reception have also been sent to Messrs Robinson, Padang, Azarencov, Jasentuliyana, Ogunbanwo and Mrs. Pasztor and Miss Elizabeth Prat of the Outer Space Affairs Division.

20 August 1971

The Secretary-General is pleased to convey to you the invitation contained in the following letter from the Permanent Representative of the United States to the United Nations:

Excellency:

On Tuesday, August 24, I am happy to confirm that the astronauts of the Apollo XV Lunar Mission will be at the United Nations. Astronauts Scott, Irwin and Warden will arrive at the public entrance at 3.15 p.m.

At 3.30 p.m. in Conference Room 4, the three astronauts will narrate a film version of their mission, including footage taken from the lunar rover. On behalf of the astronauts and the United States Mission to the United Nations, we would be delighted if you could join us for the screening of this film.

In addition, we hope that we can be joined by all Permanent Representatives or their designated alternates, all members of the Security Council and their deputies as well as all members of the Committee on the Peaceful Uses of Outer Space. From within the UN Secretariat, we also extend this invitation to all Under and Assistant Secretaries General as well as all members of the Outer Space Affairs Division and the Expert on the Practical Applications of Space Technology.

May I request that this letter be circulated as quickly as possible to those within the Secretariat designated above.

Respectfully yours,

George Bush

~~Lt.~~ Col. James B. Irwin and Mrs. Irwin

Col. David R. Scott and Mrs. Scott

*Lt Col.* ~~Major~~ Alfred M. Worden

James C. Fletcher, Administrator of NASA, Washington

Arnold Frutkin, Assistant Administrator for International Affairs

Richard Friedman, Public affairs Officer, NASA

O. B. Lloyd, Special Assistant for Public Affairs

Eugene Marienetti, Public Affairs, Washington.

William Taub, Public Affairs Officer, (official NASA photographer)

UNITED NATIONS

Press Section  
Office of Public Information  
United Nations, N.Y.

(FOR USE OF INFORMATION MEDIA -- NOT AN OFFICIAL RECORD)

Note No. 3682  
23 August 1971

NOTE TO CORRESPONDENTS

American astronauts Colonel David R. Scott, Colonel James B. Irwin and Lieutenant-Colonel Alfred M. Worden will visit the United Nations on Tuesday, 24 August.

They will arrive at 3:15 p.m. and will enter the United Nations through the 47th Street entrance to the North Garden and drive up the esplanade to the Plaza outside the Visitors' Entrance to the General Assembly Building, where they will be greeted by the Secretary-General, U Thant.

After a brief picture-taking ceremony on the Plaza beside a replica of the "moon buggy", the Secretary-General, astronauts and official party will proceed to Conference Room 4 for a film showing.

Following the film, the Secretary-General will hold a reception for the astronauts and invited guests on the 38th floor.

The astronauts will depart from the United Nations at 4:50 p.m. via the Secretariat Entrance.

\* \* \* \* \*

UNITED NATIONS

SECRETARIAT

ST/ADM/SER.A/1538  
20 August 1971

INFORMATION CIRCULAR

To: Members of the staff.

From: The Director of Personnel

Subject: VISIT TO UNITED NATIONS OF AMERICAN ASTRONAUTS  
TUESDAY, 24 AUGUST 1971

1. On 24 August 1971, American astronauts Colonel David R. Scott, Colonel James B. Irwin and Lieutenant-Colonel Alfred M. Worden will visit the United Nations. They will arrive at 3.15 p.m. and will enter the United Nations through the 47th Street entrance to the North Garden and drive up the esplanade to the Plaza outside the Visitors' Entrance to the General Assembly Building, where they will be greeted by the Secretary-General. After a brief picture-taking ceremony on the Plaza beside a replica of the "moon buggy", the Secretary-General, astronauts and official party will proceed to Conference Room 4 for a film showing. Following the film, the Secretary-General will hold a reception for the astronauts and invited guests on the 38th floor. The astronauts will depart from the United Nations at 4.50 p.m. via the Secretariat Entrance.

2. All staff members who may be spared from their duties and who would like to see the astronauts may do so in the following areas:

- (a) In designated areas on the Public Plaza outside the Visitors' Entrance to the General Assembly Building, and in the General Assembly Lobby;
- (b) Behind the tapes on the second floor of the Conference Building along the route - the General Assembly neck, second floor Conference Building corridor to the high-rise elevators in the Secretariat Building;
- (c) In designated areas, both indoors and outdoors, at the Secretariat Entrance for the departure of the astronauts.

3. Admittance to the film showing in Conference Room 4 will be by invitation only.
4. In the event of rain, the brief picture-taking ceremony with the "moon buggy" on the arrival of the astronauts will be held inside the General Assembly Public Lobby.

THE REPRESENTATIVE  
OF THE  
UNITED STATES OF AMERICA  
TO THE  
UNITED NATIONS

August 19, 1971

Excellency:

On Tuesday, August 24, I am happy to confirm that the astronauts of the Apollo XV Lunar Mission will be at the United Nations. Astronauts Scott, Irwin and Warden will arrive at the public entrance at 3:15 p.m.

At 3:30 p.m. in Conference Room 4, the three astronauts will narrate a film version of their mission, including footage taken from the lunar rover. On behalf of the astronauts and the United States Mission to the United Nations, we would be delighted if you could join us for the screening of this film.

In addition, we hope that we can be joined by all Permanent Representatives or their designated alternates, all members of the Security Council and their deputies as well as all members of the Committee on the Peaceful Uses of Outer Space. From within the UN Secretariat, we also extend this invitation to all Under and Assistant Secretaries General as well as all members of the Outer Space Affairs Division and the Expert on the Practical Applications of Space Technology.

May I request that this letter be circulated as quickly as possible to those within the Secretariat designated above.

Respectfully yours,

  
George Bush

His Excellency  
U Thant  
Secretary-General  
of the United Nations

UN-3554/760

DE: Acting Chief of Protocol

SUBJECT: Apollo XV Astronauts Visit  
OBJET:

Mr. John S. Palmer, Commissioner for Public Events in the Mayor's Office, has called our office this morning to "alert" us to the visit of the Apollo XV Astronauts to New York on Tuesday, August 24, 1971.

Although no details are yet available concerning the scheduled visit, Mr. Palmer has mentioned that City Hall is planning a ceremony for 12:15 p.m. to be followed by a luncheon in honour of the astronauts.

a | The Commissioner also inquired, on behalf of Mayor Lindsay, whether the Secretary-General would wish to attend either the ceremony or the luncheon, or both.

b | As to a possible visit by the Astronauts to Headquarters, Mr. Palmer stated that consultations on the matter are now in progress between the Mayor's Office and the United States Mission.

I would be grateful to have your comments and instructions concerning the above.

- a) Thanks. Regret that I cannot attend either the ceremony or the lunch as I am hosting a lunch for new Permanent Representatives at that time.
- b) Amb. Bush informed me that the astronauts can come to the U.N. at about 3:00 p.m. on that day. Details of the programme here will be worked out between U.S. Mission and David Vaughan tomorrow and Protocol will be informed of the arrangements, perhaps on Thursday evening.

Luncheon: J.D. Rockefeller, III  
Thurs. 19/VIII/71 38th

23 August 1971

Dear John,

I thank you for your kind letter of August 19. You should not at all be embarrassed by the length of time taken by the lunch the other day. I enjoyed every minute of it. It was so good to see you again and to exchange views on matters of mutual interest.

I am looking forward to our joint family luncheon some time during the fall. I always retain happy memories of our previous meetings at the United Nations, at my residence and in Tarrytown.

With my best wishes and warm regards,

Sincerely,

U Thant

Mr. John D. Rockefeller 3rd

August 19, 1971

Dear U Thant:

When I left your office a few minutes ago and looked at my watch, I was embarrassed. It was nearly 3 o'clock. I apologize for staying so long, but because of the interest to me of our conversation and the satisfaction of being with you, I just completely forgot the time factor.

It is so thoughtful of you to suggest a meeting of our two immediate families sometime during the fall. It would give us utmost pleasure and satisfaction. If I may say so, our close relationship has meant a great deal to me these past several years.

Sincerely,

  
John D. Rockefeller 3rd

6 August

S/:

Mr. Robert Benjamin called and mentioned that you had indicated a willingness during his luncheon with you to meet with Messrs. Katzenbach, McKeever, Benjamin and possibly Elmore Jackson regarding UNA Policy Studies - Panel Report. Mr. Benjamin will send you a copy of the report this coming Monday. As Mr. Katzenbach, who is the Chairman, will be in New York for one day only on Friday, 13 August, Mr. Benjamin was wondering if you could join them for lunch if you are free or kindly give them a time when they could call on you on that day.

The Honorable U Thant  
Secretary General of the United Nations  
United Nations, New York

Dear Mr. Secretary General,

It was certainly a great pleasure to have the opportunity to visit with you and your associates at lunch in New York last week. I appreciate this opportunity to know you better as I have been one of your admirers from a distance.

Shortly you will receive a compilation of some of the best photographs of the earth taken by the astronauts in the NASA program. This book, "This Island Earth", will add little to your own world-wide perspective but I think you may find some of its pictures of interest.

With much respect and sincere appreciation, I am

Very truly yours,

*James E. Webb*

3 June 1971

Dear Mr. Webb,

I believe that Mr. W.H. Ziehl, Deputy Controller, has been in touch with you on my behalf for some time.

I would, however, very much appreciate the opportunity to meet you personally and wonder if it would be convenient for you to join me for luncheon on Tuesday 3 July.

I look forward to meeting you soon, meanwhile I remain with kindest regards,

Yours sincerely,

U Thant

Mr. James E. Webb  
c/o Mr. W.H. Ziehl

29 June

Mr. Narasimhan,

You might wish to check with the  
Secretary-General the guest list for this luncheon.

Secretary General of the  
United Nations  
United Nations, New York

Dear Mr. U Thant:

My brother, James E. Webb, did acknowledge  
the invitation to meet with you July 13, 1971, for  
luncheon, and accepted with pleasure through telephone  
communication from Europe. He is expected back in  
his office June 22, 1971.

Sincerely yours,

  
H. G. Webb

✓ M. Maxime-Leopold Zollner

8 July 1971

Mr. Narasimhan,

The Secretary-General prefers to maintain the original appointment on Monday 12 July. He does not intend to come to the office on Saturday, and I understand that his doctors are also against the resumption of this bad habit.

Mr. Pédanou has informed the OAU people in New York about this wish of the Secretary-General.

Robert

P.S. The meeting has been requested by Ambassador Thiam for Monday morning 10 a.m. I will tell the Secretary-General when he calls this afternoon. The party will consist of:

Mr. Faruk Abu Issa, Foreign Minister of Sudan

Mr. Mansour Khalid, Permanent Representative of Sudan

Mr. Thiam, Executive Secretary of the OAU

Mr. Mohamed Sahnoun, Assistant Secretary-General of the OAU

Mr. Michel Eklo, Permanent Representative of Togo, Chairman of the African Group at the UN

Lucien: SG cannot receive them at 10 a.m. He has invited them to luncheon. Mr. Muller and/or Mr. Pedanou will keep us informed.

em

K. Muller,

D'après l'ambassadeur Thiam, les  
envoyés de l'OUA comptent repartir  
mardi ou mercredi au plus tard.

Il aimerait être informé de la décision  
finale du S-9 le plus tôt possible ce  
matin!

K. Pedanou
