Dear Secretary General Ban Ki-moon, I'm writing you this letter today with a heavy heart. I would like to know what the United Nations under your leadership will be doing about the unbelievable terror and massacre that happen this week in Nigeria? I know you were quick to come out and condemn the actions in Ferguson Mo, but have heard **nothing** out of your office or the UN on one of the most horrific crimes in many years. This lawless part of the world with two governments that seem not to be able to do much if anything to stop these terrorists is a threat to the whole world.

The UN must act and I would ask under your leadership that you pull together ASAP the leaders of the world and put together a plan and forces to go to Nigeria and eliminate this terrorist group before hundreds more die

Thank you for your time and I hope the world hears for you soon on the critical matter.
