Subject: Quotation from United Nations Secretary-General for UNIDO Annual Report 2014

Dear Colleagues,

UNIDO is currently finalizing its flagship Annual Report 2014, for which we would like to use the following quote from the United Nations Secretary-General:

"Industrial activities are often associated with pollution and difficult work conditions but I believe that we can address those issues while making industry synonymous with dynamism, jobs and sustainability. Let us advance inclusive and sustainable industrial development for its own sake and as part of our broader campaign to protect our planet and all people."

Mr. Ban made the quotation at the UNIDO ISID Forum on 4 November 2014, and thus we would kindly like to request his permission to use these words on the back cover of the UNIDO Annual Report 2014.

Many thanks for your kind cooperation with this matter.

Best Regards,

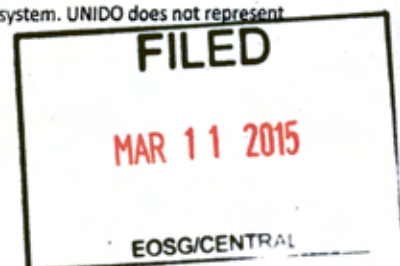

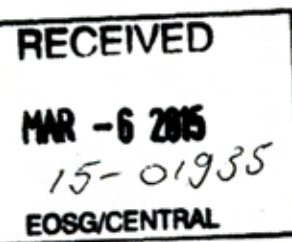

Darren Gleeson.
