November 2, 2015

Dear Mr. Secretary-General,

I am honored to invite you to join me and the United Nations Foundation for a VIP reception and private dinner at my Residence, 41, rue du Faubourg Saint-Honoré in Paris on Tuesday, December 8, 2015. High-level officials from government, international organizations, business, and civil society will be among the guests to recognize the UN and French leadership on climate change. The private dinner, which will begin at 9 p.m., will be preceded by a larger reception starting at 7 p.m.

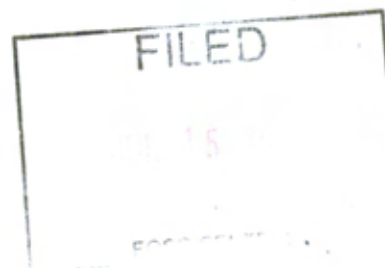

The fight against climate change is the U.S. government's top priority. As President Obama states, "This is not a problem for another generation. Not anymore. This is a problem now." I am very much looking forward to partnering with the UN Foundation on this crucial issue during COP21 and I do hope your agenda will allow you to be our special guest on this occasion.

I hope to welcome you on December 8.

Sincerely,

I look to forward you seeing you on December 8th.

Jane D. Hartley
