

OUTGOING CODE CABLE

TO: BULL, CAIRO  
FROM: BUNCHE  
DATE: 22 SEPTEMBER 1967  
NUMBER: 458 - IMMEDIATE

Reference Johnson's cable from Cairo concerning Gohar's telephone message. It would seem to me that no repeat no questions of terms of reference need be considered in this matter. If observers in Suez Sector have the means to provide the requested supervision and both sides agree I see no objection to performing this humanitarian service.
