To: Mr. KIM Won-soo

As discussed, a short note to Pascoe for your signature regarding the management of the Lebanon file. Originally drafted to come from the Political Unit, it was felt more appropriate if it emanates from yourself.

A handwritten signature in blue ink, appearing to read 'N. Haysom'.

Note to Mr. Pascoe

**UNSCOL SRSG MICHAEL WILLIAMS' END OF ASSIGNMENT REPORT**

Portions of UNSCOL SRSG Michael Williams' end of assignment report were brought to the attention of the SG. He particularly took note of Williams' strong recommendation to review 1) the structural relationship between UNSCOL and UNIFIL, 2) the need to combine the reporting requirements of SCR 1559 and SCR 1701 and to resolve the related current institutional duplication of efforts, and 3) the establishment of a comprehensive regional structure to deal with the Arab Spring (in essence a regional office or centre).

As a first step, the SG has asked for a strategic review of these issues based on an in-depth exchange of views among the concerned Senior Advisors, SRSGs and Envoys. Given the mandates involved, we believe your office should lead this process. We are ready to discuss this further, and to assist in any way useful, including the convening of an eventual Core Group meeting to discuss these issues.
