Objet: transfert de l'orphelinat
de Mibaga à Nyundo

Monsieur,

Vous n'êtes pas sans savoir que les besoins urgents de Kinshasa
juin 1994 ont laissé beaucoup d'orphelins. Les Caritas de Kinshasa
volonté ont accueilli quelques dizaines d'orphelins. Mais depuis
le mois d'octobre 1994, au nombre de 100, ils ont été transférés

A son retour de Hollande, Monseigneur Wenceslas Kalish a jugé
opportun de maintenir cet orphelinat pour les raisons suivantes
parce que nous en avons un autre qui fonctionne à Mibaga
précisément qu'il a décidé de transférer les enfants de Mibaga

Par la présente je viens demander votre intervention, afin de
voir une O.N.G. qui assurerait le transfert de Mibaga à Nyundo, dans
que pourront exiger l'état pour les enfants de Mibaga, car ils
à peu près. Et le plus tôt possible, car les enfants de Mibaga
pour nous obliger à agir rapidement.

En comptant sur votre aide pour l'année 1995 fructueuse et heureuse.

Gisenyi, le 31/12/1994

Monsieur le Représentant du Ministère
de la Réhabilitation et l'Intégration Sociale
à Gisenyi -

En vue de l'envoi de l'orphelinat
de Mubuga à Nyundo

Monsieur,

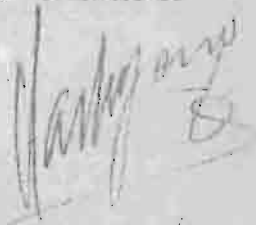

En raison des événements survenus au Rwanda en avril-
mai 1994, il y a eu beaucoup d'orphelins à l'école. Certaines personnes de bonne
volonté ont voulu les accueillir dans leur foyer. M. Mubuga en préfecture de Kibuye,
en est un exemple. Il est maintenant à Nyundo.

M. Mubuga de Hollande, l'enseignant des enfants Kalibushi n'a pas trouvé
de logement pour eux. Pour des raisons pratiques et financières,
il a décidé de les envoyer à Nyundo, et c'est à Nyundo
qu'il a décidé de combiner les enfants de Mubuga.

En raison de la venue de votre intervention, vous êtes à même de leur
offrir un logement et de leur offrir le transfert de l'école à Nyundo, dans les conditions
de leur santé physique et leur nombre. Une bonne condition
de leur santé physique est importante. Certains enfants sont malades
et ont besoin d'être soignés.

Je vous remercie de votre intervention. Je vous souhaite également l'accomplissement
de votre mission. Ce travail vous est confié.

Administrative Instruction 011/94

4 November 1994

TO: All UNAMIR
Military and Civilian Personnel

FROM: *[Signature]* Alty H. Golo
Officer-in-Charge, Administration

SUBJECT: Scheduled Vehicle Maintenance/Repairs - Accident Vehicle

1. This Circular should be read in conjunction with Administrative Instruction No. 001/94 of 15 July 1994.
2. With reference to the above Circular, it has become necessary once again to remind all UNAMIR drivers of their responsibility to turn in their vehicles for the scheduled maintenance in accordance with the maintenance record card/slip held in the trip ticket folder of each vehicle.
3. Particular attention should be given to all accidented vehicles. It is imperative that these are presented to the Transport Workshops for technical inspection and assessment of the accident damage immediately following the accident. Failure to do so may be potentially hazardous to UNAMIR drivers and other road users because of the unknown mechanical condition of vehicles after accidents.
4. Vehicles requiring maintenance/repairs and/or assessment of accident damage/repairs in Kigali should be brought to the Transport Section workshop situated in the former Daihatsu Workshop en route to Kigali Airport. Vehicles in the Sector should be brought to the Field Service Assistants/Civilian Motor Transport Officers of that location or to Kigali if these are not presently in location.

5. Vehicles found to have exceeded the number of kilometers of the detailed scheduled maintenance by more than ten per cent will automatically be grounded for detailed inspection and any damage resulting therefrom may be subject to Survey Board action involving the UNTAC driver.

6. Pressure of work, extended trips or other reasons cannot be accepted as an excuse for abuse of United Nations property by neglect or undue postponement of scheduled maintenance. Instead, you are invited to plan in advance and coordinate with the Transport Maintenance Staff to have your vehicles properly maintained.

7. It would be most appreciated if Heads of Components/Branches/Sections/Units could ensure that their personnel comply with the above. All are reminded that they can be held financially liable for damage to vehicles caused by failing to comply with maintenance schedules, or for not have reporting an accident.

Your co-operation is hereby requested.

SUBJECT: XMAS HOMETOWN MESSAGES

1. It is tradition in Public Affairs, to produce video hometown messages for broadcast in canadian cities during the jolly season. The formula is simple: find volunteers and film them in their every day working environment (of their choice). During the clip, the subject must say a few words. The message should be between 20 & 30 seconds long. Speel worry, W Blouin will be there to coach you if you freeze in front of the camera. We encourage you to use as much imagination as possible and have fun doing it, but remember, it is for TV.
2. You will find enclosed to this note a schedule which will be amended to reflect filming timings for each sections and also an information sheet which you will be required to complete and submit to Capt Grenier prior to 14 Nov 94.
3. Once completed, these clips will be sent to your local TV station. Once in their hands it is up to them to use it or not. During your short speech ensure you include your : rank, name, surname, unit, on duty in Rwanda with UNAMIR, how long you have been here, when you expect to go home, msg to family and friends...

Hutu brothers claim family massacred by Tutsi soldiers, not Hutus
by Bryan Pearson

MUVUBIRO, Zaire, Nov 2 (AFP) - Two Hutus alleged Wednesday that uniformed soldiers of the Tutsi army now in power in Rwanda massacred 36 people in a Rwandan border village, contradicting earlier reports blaming routed Hutu troops for the attack.

The two brothers claimed that troops of the Rwandan Patriotic Front (RPF) herded the 36, including 20 members of their family, into their father's house in the village of Rutagara and chopped them to pieces with machetes.

Still in shock, Celestin Musekura, 30, and his brother Jean, 27, told AFP that their mother, father, brothers, sisters, wives and children were among those killed.

Following the incident, the entire Hutu community of Rutagara fled across the border to this Zairean village, where they are being cared for by local banana farmers.

The pro-government Radio Rwanda in Kigali on Tuesday blamed Hutu militias who crossed the border for the killings, citing the local military commander in Gisenyi frontier region, Lieutenant-Colonel Charles Kayunga.

UN High Commissioner for Refugees (UNHCR) spokeswoman Lyndall Sachs said from Goma that the incident was regrettable and could affect the repatriation of refugees to Rwanda.

"It will make the decision for the refugees to repatriate even more difficult," she said. "The best solution is for the refugees to return, but in conditions of safety."

On Tuesday, before the two brothers gave their account, fleeing Rwandans charged that defeated Hutu soldiers living in Kibumba had carried out Monday's massacre and said the victims had been shot.

The brothers explained that the community, believing it safe, had returned to Rutagara just two weeks ago after three months in Kibumba refugee camp near the Zairean border town of Goma.

They had initially, he said, fled en masse to Zaire during ethnic carnage in Rwanda between April and July, when the RPF seized the capital Kigali, which up to one million people, mainly Tutsis and moderate Hutus, died.

"Soon after we returned, the RPF soldiers came into Rutagara and said we were not to worry because they were there to provide security," Celestin Musekura said from the mud hut where he is sheltering from fierce equatorial storms.

"At about 3 o'clock on Monday morning, we heard shooting, lots of shooting," he said, explaining that he spent the night in the house of his second wife.

"The people began shouting to warn their neighbours but the RPF soldiers also joined in the shouting and caused confusion," Musekura said.

The soldiers went to five houses, including to that of the village elder, his father Cyanganzara Musekura, and forced people out, he said. "They brought everyone to my father's house and then began killing them," he added.

Too frightened to leave their houses, the villagers waited until morning to investigate the fate of those who had been rounded up.

"We found the bodies lying all over my father's house," Musekura said. "The women's breasts had been cut off, others had had cuts to their faces and legs while some even had their eyes gouged out," he said.

The entire community fled, wearing only the clothes on their backs.

"We dare not go back," Musekura said. "The RPF will kill us. They want to prevent the refugees from returning to Rwanda."

He added that the soldiers had on Tuesday night crossed the border and threatened Zaireans who were sheltering the Rutagara Hutus.

Some 800,000 Hutus are crowded into six squalid camps near Goma, most of them reluctant to return to Rwanda until they have guarantees for their safety.

The UNHCR has adopted a neutral policy on the issue of repatriation, assisting refugees only once they have crossed the border into Rwanda.

International relief workers believe that members of the former Rwandan

herded the 36, including 20 members of their family, into their father's hut in the village of Rutagara and chopped them to pieces with machetes.

The UNHCR has adopted a neutral policy on the issue of repatriation, assisting refugees only once they have crossed the border into Rwanda.

International relief workers believe that members of the former Rwandan government, now living in exile in Goma and the more southerly Bukavu, are, through intimidation and a campaign of violence, trying deliberately to dissuade refugees, their main power base, from returning to Rwanda and its Tutsi-appointed government.

DESCRIPTION: Deputy Camp Manager IFRC while visiting Mungu was contacted by two brothers that informed her about an incident that had happened in Rwanda on 30/10 at 4 AM. She took the brothers to F.O. Kibumba for interview. The brothers Celestin Musekura and Munyurukiko came to Zaire in July and lived with the Zairian family in Marenge, north of Katalo. One of the brothers claimed he was poisoned and both brothers left for Rwanda a few weeks ago for a traditional treatment. They have family in sector Kinyanzovu, cellule Rutagaro. According to the info gained from the brothers 20 family members were assembled in their house on 31/10 and were killed by a grenade explosion by the RPF. Also 11 persons of another family and 7 of another were killed the same day. After the incident the brothers went back to Zaire.

SPECIAL REPORT ON MASSACRE ON 31 OCT 94 OF VILLAGERS
IN RWERERE AND RUBAVU COMMUNES IN SECTOR 5

GENERAL

1. During the night of 30/31 October 1994, unidentified persons armed with grenades and fire arms infiltrated from across the Rwandan border with Zaire and killed the members of three families in three separate attacks in dwellings close to the border.

2. First news of the incidents was received from the RPA LO attached to MILOB Sector 5 at about 1030hrs 31 Oct 94. A visit was made to the scenes by Sector Comd accompanied by Sector Ops Offr, RPA LO, Info Offr and OC of the RPA Coy deployed in the area.

FINDINGS

3. Details about the places of the incidents and casualty states are given below.

4. RUTAGARA 189204. This is located in Secteur KINYANZOVU in Commune RWERERE. 19 bodies were found in one out of a group of four huts. The victims were made up of 2 men, 4 women and 13 children. They must have been rounded-up into one hut and sprayed with bullets. Grenades also seem to have been used. The head of the family was a community leader by name ALPHONSE KYANGANZARA.

5. RUTAGARA 186201. The place is located in Secteur BYAHI in Commune RUBAVU. 10 dead bodies were found in an isolated house close to the inter-commune boundary. These were made up of 1 man, 1 woman and 8 children. Grenades and fire arms appeared to have been used in the massacre. Head of family was KINYOGOTE.

6. RUTAGARA 183191. 7 dead bodies were found in an isolated house close to the Zairean border. These were also made up of 1 man, 1 woman and 5 children. It appeared that only fire arms were used in this attack. Head of family was NTAKAZARUMARA J.

7. The attacks all took place at about 0300hrs on 31 October 1994.

8. All three places were isolated and surrounded by banana

UN CONFIDENTIAL

plantations. They were all within 100-150m of the Zairean Border.

9. RPA units in the area heard the noise of the attacks and moved in, but in each case it was too late, as the assailants acted rather swiftly. In the case of the incident at RUTAGARA 186201 noise of the withdrawing assailants shuffling through the near-by banana groves was heard towards the Zairean frontier.

GENERAL COMMENTS

10. The attacks appear to have been a well planned operation by one source with three well known objectives to hit or reach simultaneously. This can be inferred from the time of attack in each location and the efficiency and speed with which the mission was accomplished.

11. The victims were ordinary farmers who may not have had any other place to live to feel secure. The choice of targets therefore seems to have been dictated by their easy accessibility. It is also possible that the hamlets were already known to some members of the murder squads who perhaps lived in the area before the April-July 1994 war.

12. The attacks are the first of their kind in Sector 5 or at least known to MILOB Sector 5. They could be a prelude to what is yet to come unless appropriate measures are adopted to ensure these isolated hamlets are well protected.

Killing of 15 - 7 refugees

WITNESSES : Senior co-ord northern axe ~~driving~~ the
TEMOINS : ~~he~~ witnessed killing of 1 refugee while passing

DESCRIPTION: by on his way back from Katala.

At around 15.15 pm F.O. Kib. was informed by IRC (located at K73) that refugees were killing someone near the road that leads into the camp to the central distribution point. Senior F.O. coming from northern direction passed by the site but was told by the very hostile crowd to move on. He saw a group of people of all ages attacking and killing another refugee. F.O. and senior F.O. picked up the Commissaire de Zone and the chef de camp and went to the site. When they arrived the situation had calmed down somewhat. Some people were standing around some dead bodies off the road (west side) and two bodies could be seen just beside the road (east). The chef de camp talked to the crowd and after 15 min. Senior F.O., F.O., commissaire and chef de camp left to the UNHCR but with the chef de la commune ~~Sake~~, prof. of Kibumba. Since one of the persons killed was from his commune. The chef de commune de Sake told us the following story : ->

NAME: Deborah Verzun

Mr. Sulemani Vunabandi (comm. Sake) one of the ^{that was} refugees killed was chief of a group of scouts in the camp. Apparently Mr S had left for 3 days to Goma for training. When he came back to the camp he was asked where he had been and who had invited him. This absence apparently raised suspicion. He informed the scouts he would receive some visitors (whom and what for was not discussed), that he wanted to introduce to the scouts. When in the afternoon the scouts had still not seen the visitors they asked S. about it. S. informed them that he had already had a meeting with the visitors and 5 boys and 1 girl had been seen coming out of his house with pens and paper in their hands. According to the chief of comm. Sake it were those 6 that later on were killed plus S. He also said the scouts could not have done the killing since they are kids of 9 to 10 years old.

At around 15.30 PM the UNHCR water/san. coord. and his assistant saw a large crowd east of the IRC compound with somebody at the front that was pushed forward by them. When coord. asked what was going on he was told the man in the front was one of a group of 60 infiltrators that came across the border the night before, that he was in Kintanga and that he was one of a group that wanted to kill muzungu's so the killing would be blamed on the refugees. The crowd was seen throwing the clothes of the man (pink uniform used by prisoners in Rwanda) up in the air. They said they were trying to give up names of other infiltrators.

Soon afterwards coord. and assistant were asked to leave by the extremely hostile crowd.

They did not see the man being killed but one could presume he was killed as well.

"If it is true that a 'commando' from Baire killed the 36 persons in Rwanda, we could also think that some member of the families of the 36, who are living in Kibumba, would revenge the deaths of their relatives, knowing the members of the commando! S. field officer

SUBJECT: Survey of Office Equipment Needs

UNAMIR has entered into a lease agreement with the owner of a compound, known as TRAFIPRO, for the Headquarters. The transfer from Amahoro Hotel and other locations to this new place is expected to take place within 2 months.

In order to enable General Services Section to order the furniture which will be necessary for the new offices, the contribution of each section is requested. Having in mind the present and expected staffing of your section and the fact that only part of the furniture presently in use in UNAMIR are of UN property, you are requested to fill the attached form and send it to Mr. Abdoulaye Bah, CGSO, not later than 21 December 1994. You are required to enter in the form only the equipment you will need in excess of what you have already in each unit of your Section.

If you need any assistance to determine whether an item is of UN or third party property, you are invited to contact General Services Section.

SUBJECT: Malaria Alert

Introduction

As you may be aware, malaria is endemic in Rwanda and occurs all year round and in all parts of the country including urban areas. It is a disease caused by parasitic protozoans that occupy and destroy the red blood corpuscles that carry oxygen from the lungs to the tissues and return carbon dioxide from the tissues to the lungs. The malaria parasite is transferred to the human bloodstream by mosquitos. There are four different types of malaria parasites but the main type present in Rwanda, and the only type that is fatal, is *plasmodium falsiparum*. *Plasmodium falsiparum* can give rise to a form of acute malaria known as cerebral malaria, in which the malaria parasites multiply quickly in the capillaries of the body organs and especially the brain. Cerebral malaria is a progressive condition; it can follow a less malign episode of malaria that is left untreated. Cerebral malaria can cause an apparently healthy adult to fall into a coma within two hours of infection.

(a) Malaria and its symptoms

The typical symptoms of malaria include fever, chills, headaches, joint pain and general weakness. However, the absence of any one or all of the foregoing symptoms at a particular time cannot be taken as conclusive evidence that a person does not have malaria. Many other symptoms that are typically and more frequently associated with other conditions, such as nausea, vomiting, liver problems, jaundice and labial herpes, can be symptoms of malaria in particular cases.

The fever almost invariably experienced in malaria is episodic and occurs with a variety of frequencies. Fever episodes are correlated with periodic discharges by the malaria parasite into the bloodstream; hence, it is easier to detect the presence of the malaria parasite shortly after an episode of fever. However, the potentially low frequency of fever episodes suggests that the absence of fever in a patient during the previous 48 hours is not a sufficient basis on which to conclude that that patient

does not then have malaria. The more subtle the case of malaria, the more experience with the disease the clinician requires, and the more careful patient history need to be taken, in order to detect it. Many people believe that if they have been exposed to malaria over a prolonged period they do not need to take medications to prevent malaria. While this is true for those exposed to the more benign forms of malaria it is not true for *plasmodium falciparum*. Past exposure to *plasmodium falciparum* may mask the symptoms of malaria but will not prevent the individual from contracting cerebral malaria. Should you experience any of the above symptoms, please report immediately to your medical officer or to one of UNAMIR medical facilities for diagnosis.

(b) Prevention

There are two general categories of prophylaxis against malaria: protection against mosquito bites and chemical prophylaxis. The first category includes such measures as using mosquito repellent on exposed areas of the skin; using a mosquito net; and using insecticides in work and living areas. There are a variety of courses of chemical prophylaxis. The two major approaches are the regular ingestion of both chloroquine and paludrine and, alternatively, the regular ingestion of mefloquine. Both courses of chemical prophylaxis have side effects associated with long term use ranging from vertigo to damage of optical nerve, and mefloquine is contraindicated for pregnant women and persons with a history of hypertension, epilepsy or psychiatric problems. For UNAMIR, Headquarters New York has advised that the chemical prophylaxis to be used by personnel is mefloquine. Mefloquine (250 mg) is taken at weekly intervals. In addition to protection against mosquito bites which should be part of your daily precautionary measures, you are therefore urged to take mefloquine only as advised. The UN may not bear any responsibility, should complications develop as the result of the use of any other anti malaria-prophylaxis.

(c) UNAMIR policy on testing for malaria

There are two basic tests that a diagnostician can perform to check for malaria. One is called the "quick smear test." A drop of blood is taken from the patient's finger, spread on a slide and fixed with alcohol. The slide is allowed to dry, which can take as little as two minutes. Giemsa solution is then added to color the contents of the slide. Although the clearest results are available between four and 24 hours after the slide is made, in clinical practice the slide can usefully be examined under a microscope less than 20 minutes after the Giemsa solution has been applied. The other test is called the "thick layer malaria test." In clinical practice the slide can be examined under a microscope less than 20 minutes after the giemsa solution has been applied. The "thick layer malaria test" has the advantage of allowing the clinician to distinguish the type of malaria, if any, present. This

advantage is of limited utility in Rwanda, where *plasmodium falsiparum*, the only potentially fatal strain of malaria, is dominant. In this connection, UNAMIR's policy is to administer either of the basic tests to all admitted patients, depending on symptoms.

Conclusion

Malaria is a very common illness that may be fatal. A range of preventive measures exist including personal protective measures and chemoprophylaxis. If these measures fail and an individual contracts malaria it often presents itself as a flu like illness. Individuals should report to their medical officer or to one of UNAMIR medical facilities if they fear they have contracted malaria. Following diagnosis by a medical officer, appropriate treatment regimes will be instituted in a timely fashion and should prevent the very serious if not fatal complications of malaria. Please be guided accordingly. The FMEDO and the CCPO are requested to provide copies of this Administrative Instruction to all incoming troops and civilian personnel when rotating or being assigned to Rwanda.

JOINT PRESS STATEMENT OF THE PROSECUTOR AND MINISTER OF JUSTICE

VISA: B.D
DIE.DSR

On 19 and 20 December 1994, the Prosecutor of the International Criminal Tribunal for Rwanda, Justice R. J. Goldstone held friendly and constructive meetings in Kigali with the President, the Prime Minister, the Minister of Justice, the Minister of Interior and the Minister of Reconstruction and Rehabilitation. The Special Representative of the Secretary-General of the United Nations, Ambassador S. M. Khan and Senior Members of the Prosecutor's Office were present at the meetings.

The Prosecutor informed the Rwandan Leaders that the immediate and primary focus of his investigation and prosecution would be directed at those who planned and executed the gravest of violations against International Humanitarian Law including serious allegations of genocide and crimes against humanity. A significant number of those whose participation will be investigated are now residing outside Rwanda.

The Rwandan Government has assured the Prosecutor of its full and unconditional support and cooperation with his Office.

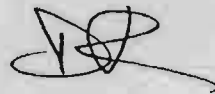

The Prosecutor's Office in Kigali will be established in January 1995 and gradually be built up to a staff of approximately 170 people.

The Prosecutor agreed fully with the necessity for national courts in Rwanda trying and punishing the substantial number of persons who actively participated in the multiplicity of crimes which were committed, and associated himself with the call on the international community to urgently assist the Rwandan Government rebuild its Police Force, Prosecution Department and Court System. This traumatized nation will not be able to reconstruct and reconcile without substantial justice and public acknowledgement of what happened and in that endeavor the International Tribunal and the National Courts must work in harmony and in recognition of the independence of each of them.

SUBJECT: Assistance to Victims of War in Rwanda

As you are aware, a most brutal and savage civil war was waged in Rwanda from April to July 1994. As a result, up to a million people may have died. Other casualties of the war were children. It has been reported that there is more than 1 million orphans and children who became separated from their parents in the din of flight from the fighting. Some of the orphans are now under the care of Agencies and Non-Governmental Organizations. Many more are still out there on the streets.

Apart from the children, there are other victims of the atrocities committed during the civil war. However, for a start, we are suggesting that all UNAMIR military, Civilian Police, and Civilian Personnel concentrate on making voluntary contributions towards the welfare of orphaned children in order to begin the healing process. There is no better beginning point than the forthcoming Christmas to try to make the children feel there is still some love and concern in the world. The optimum position is eventually to build supportive social structures such as orphanages and educational and training schools for these children. Your donations can go a long way towards this noble goal. In this connection, it is intended to undertake an office-to-office collection on Monday, 21 December 1994, by members of the "Assistance to Victims of War" Committee. Donations can be made in the form of cash or pledges. A pledge (blank copy attached) will represent a signed written instruction to the Chief Finance Officer to deduct a specified amount from the individual's MSA or salary.

Monies collected will be handed over to NGOs to be chosen at a later stage to meet some of the most pressing needs of some orphans. It is intended that as much media coverage as possible will be given to the event, so that the public are made aware of the concern of UNAMIR personnel for the children of Rwanda in their moment of great need.

Your generous contribution to an cooperation in this worthy cause will be much appreciated.

A Modern Day Hero

In this day in age, heroism is scarce, but there are still a few people whose courage commands respect. Such is the case of a UN Austrian officer who received a great deal of praise in a letter from a Belgian family: "while risking his own life, he protected 8 Belgian citizens threatened by Rwandan militia".

The Austrian major was in the service of the United Nations in Rwanda at the outbreak of the war which was to leave its mark on him at the very least.

He also recalls a Belgian woman who owned a hotel in Gisenyi. While the Rwandan militia ransacked the hotel and carried out its carnage, he aided the woman and several members of her family to escape.

The officer was able to drive the Belgian nationals to another hotel, which was soon assailed by an armed group which massacred the reception staff with machetes and firearms as well as threatened the officer who had taken the fleeing party under his wing.

Faced with adversity, the officer fought with body and soul rather than allow himself to be intimidated. In the end, he was able to help the fleeing party by getting them safely across the border to Zaire.

Heroism is not dead.

Giemsa solution is then added to color the contents of the slide. Although the clearest results are available between four and 24 hours after the slide is made, in clinical practice the slide, can usefully be examined under a microscope less than 20 minutes after the Giemsa solution has been applied. The other test is called the "thick layer malaria test." In clinical practice the slide can be examined under a microscope less than 20 minutes after the giemsa solution has been applied. The "thick layer malaria test" has the advantage of allowing the clinician to distinguish the type of malaria, if any, present. This

advantage is of limited utility in Rwanda, where *plasmodium falsiparum*, the only potentially fatal strain of malaria, is dominant. In this connection, UNAMIR's policy is to administer either of the basic tests to all admitted patients, depending on symptoms.

Conclusion

Malaria is a very common illness that may be fatal. A range of preventive measures exist including personal protective measures and chemoprophylaxis. If these measures fail and an individual contracts malaria it often presents itself as a flu like illness. Individuals should report to their medical officer or to one of UNAMIR medical facilities if they fear they have contracted malaria. Following diagnosis by a medical officer, appropriate treatment regimes will be instituted in a timely fashion and should prevent the very serious if not fatal complications of malaria. Please be guided accordingly. The FMEDO and the CCPO are requested to provide copies of this Administrative Instruction to all incoming troops and civilian personnel when rotating or being assigned to Rwanda.

CHRISTMAS MESSAGE

1. On behalf of the SRSG, H.E. Shaharyar Khan and the FC, Maj Gen Tousignant, and on my own behalf, I wish to extend to you all the season's greetings and also to wish you peace and goodwill for the coming New Year.
2. I would like to take this opportunity to thank you for the excellent work you have been carrying out in your respective areas of responsibility. I must, however, admit that although this mission has been a difficult one in many respects, your dedication, coupled with tenacity of purpose, enabled the achievement of many successes in the year.
3. As we celebrate this occasion, I entreat you not to limit our activities to merry-making but also to reflect on the achievements as well as identifying the shortcomings of the mission throughout the year with a view to improving our efforts in the coming year.
4. I further wish to remind you of the challenges that lie ahead of us and implore you to be extra vigilant and also to be mindful of those detractors who may want to derail the solid foundations we have already put in place in the search for a lasting peace in Rwanda.
5. Finally, in our effort at peacekeeping, let us strive to be tolerant, accommodating, compassionate but resolute. Remember that we are ambassadors sent to Rwanda for a common purpose - PEACE KEEPING.
6. Once again I wish you all a MERRY CHRISTMAS, A HAPPY AND PEACEFUL NEW YEAR.

ASSISTANCE TO VICTIMS OF WAR IN RWANDA

Reference:

A. CAO's information circular No. 022/94 dated 17 December 1994.

1. Ref 'A' made a point of all UNAMIR making voluntary contribution towards the rehabilitation of the numerous orphans in Rwanda as a result of the recent civil war. It is further instructed that these contributions should start from this Christmas season to show these orphans that there is still lots of love and concern for them in this world.

2. It is, however, felt that the Military contribution should be separate from Civilian contribution. Towards this end, it is hereby directed that all addressees should collect their contributions in bulk and forward these to the CMPO for collection and subsequent presentation.

3. All are required to give this a very urgent treatment.

SEDUCTION OF GIRLS BELOW THE AGE OF 18 YEARS BY UNAMIR PERSONNEL

1. In a meeting between UNAMIR Principal Staff and RPA representatives held recently at the FHQ, it was drawn to my notice by RPA representatives, that cases of seduction of young girls by UNAMIR personnel are becoming more and more common.
2. RPA officials have expressed their strong disapproval of such acts and the SRSG has fully endorsed these sentiments and has further directed that exemplary punishments be meted out to the perpetrators of such acts.
3. In order to protect and uphold the good image of UNAMIR, you are directed to advise all ranks to desist from such activities.

A. Your letter on the above subject dated 13 Dec 1994

1. Ref. A above asked the MILOBS GP HQ to confirm that all its personnel in charge of vehicles hold a UN Driver's Licence.
2. May you please be informed that all our personnel in charge of vehicles are in possession of their UN Driver's Licence. We would also like to inform you that all the MILOBS are normally given their UN Driver's Licence by the CTO himself, after they have undergone a driving test at the end of their Specialization Training.
3. Only MILOBS in possession of either an international, a national or military driving licence are given the UN Driver's Licence.
4. We promise to do our utmost so that MILOBS who do not possess any UN Driver's Licence are not given vehicles to drive.

Subject: UN DRIVERS LICENCES

1. It has been observed, with dismay, that some MILOBS and contingent personnel are driving UN vehicles without a valid UN driver's licence. In view of the recent tragedy involving a member of Frafbatt contingent, it is imperative that all drivers hold a UN driver's licence.
2. In this respect, I am requesting that the CTO arrange for his staff to travel to all contingents to conduct tests on drivers who do not already hold a valid UN licence.
3. I would further request that all MILOBS GP HQ and contingents confirm to this office, no later than 24 DEC 94, the fact that all their personnel in charge of vehicles hold a UN driver's licence.

SUBJECT: Assistance to Victims of War in Rwanda

As you are aware, a most brutal and savage civil war was waged in Rwanda from April to July 1994. As a result, up to a million people may have died. Other casualties of the war were children. It has been reported that there is more than 1 million orphans and children who became separated from their parents in the din of flight from the fighting. Some of the orphans are now under the care of Agencies and Non-Governmental Organizations. Many more are still out there on the streets.

Apart from the children, there are other victims of the atrocities committed during the civil war. However, for a start, we are suggesting that all UNAMIR military, Civilian Police, and Civilian Personnel concentrate on making voluntary contributions towards the welfare of orphaned children in order to begin the healing process. There is no better beginning point than the forthcoming Christmas to try to make the children feel there is still some love and concern in the world. The optimum position is eventually to build supportive social structures such as orphanages and educational and training schools for these children. Your donations can go a long way towards this noble goal. In this connection, it is intended to undertake an office-to-office collection on Monday, 21 December 1994, by members of the "Assistance to Victims of War" Committee. Donations can be made in the form of cash or pledges. A pledge (blank copy attached) will represent a signed written instruction to the Chief Finance Officer to deduct a specified amount from the individual's MSA or salary.

Monies collected will be handed over to NGOs to be chosen at a later stage to meet some of the most pressing needs of some orphans. It is intended that as much media coverage as possible will be given to the event, so that the public are made aware of the concern of UNAMIR personnel for the children of Rwanda in their moment of great need.

Your generous contribution to an cooperation in this worthy cause will be much appreciated.

To: All International NGOs working in the Rwandan refugee camps in the vicinity of Goma

From: ARC, IRC, MSF Belgium and Holland and Oxfam

Subject: Formation of a Coalition of NGOs

Over the past two weeks we have been discussing the idea of starting a formal group of international NGOs who are active in the refugee camps in the Goma area. In these discussions we have recognized that we face many of the same issues, problems and frustrations in the camps. We also have thought that we might be able to have a greater impact on the situation by defining a structure and mechanisms to comprehensively share information among ourselves, to consider common strategies both for solving specific problems and improving general conditions and to facilitate dialogue between the NGOs, UNHCR, the Zairian government, and the refugees and also with our counterparts inside Rwanda.

We feel it is very important that such a group be as representative of the International NGO community as possible, both in its definition and in any actions that it might undertake. Therefore we would like to invite you to a meeting this Tuesday (13/12), where we will present our initial thinking and then open the topic for general discussion. The meeting is planned to take place at 0900 hours at MSF Belgium or as soon as the UNHCR security meeting is completed if later than that.

Thank you very much and hope to see you there.

Re: Summary of NGO Meeting on Security issues in Ruhengeri

The NGO meeting concerning took place at the new headquarters of AICF.

Report from MILOBS-Ruhengeri

MILOBS-Ruhengeri reported that no incidents had taken place in Ruhengeri during the past week and that the security situation was calm. However, he reported that there had been several serious incidents in Goma camps, primarily caused by the Zairian Government's attempts to exercise control over the camps. MILOBS suggested that some former government forces may attempt to return to Rwanda. Predicting that the security situation may worsen, MILOBS-Ruhengeri has initiated a car patrol between 8:00 pm and 11:00 pm through the residential areas of the city.

MILOBS is still attempting to work out the radio problems between UNAMIR and the NGOs. They have had an expert look at the problem, and will probably discuss the proposed solution at next week's meeting. Finally, there are several NGOs which have not submitted their evacuation plan to MILOBS, and they were urged to do so.

Finally, MILOPS urged all NGOs to develop a good working relationship with the new Préfet in Ruhengeri.

Report from UNREO

UNREO reported that the next two weeks will see a large change in this area. Zairian officials have ordered some 30,000 to 50,000 refugees, currently living outside of the camps in Goma because of security concerns, to move to the interior of the camps. UNREO predicts that, for example, as a result of the Zairian directive, the population of Kitali camp will double. No one is yet able to predict which of the many possible scenarios will take place. However, refugee movements have definitely changed during the past several days, as described below.

Typically, there are 30-40 refugees per day entering through the Uganda border. Since 30 November 1994, that number has increased to an average

THE FOLLOWING MESSAGE HAS BEEN RECEIVED FROM THE RWANDAN
AUTHORITIES AND IS TO BE ENFORCED BY ALL UNAMIR PERSONNEL

Subject: Handing out items and money directly to children on the streets

The Government is grateful for the assistance the International Community is
extending to the people of Rwanda in an effort to save livelihoods.

There are however, reports of immediate concern regarding well wishers who
distribute biscuits, sweets, petty cash directly to children on streets. This is not the best
way to rehabilitate children.

What might be a good-will gesture is turning into an unfortunate national problem.
Many children are increasingly attracted to streets and are now beginning to beg and hang
around International Community presence hoping to get some handouts.

The Government is appealing to all concerned to kindly stop this act immediately.
In the best interest of children, any assistance to children should be channelled through
relevant institutions or organisations.

Among the priorities and preoccupation of the Government is to address children
needs/protection.

We hope that the International Community will work with the Government in this
endeavour. Providing preventative measures to stop children from becoming street
parasites would be one step in the right direction.

Copies to all sectors

Thank you very much for your Co-operation.

Yours Sincerely

Jacques BIHOZAGARA

THE MINISTRY OF REHABILITATION HAS BEEN REORGANIZED AND THE NEW MINISTRY

The Government is grateful for the assistance of the International Community in
the people of Rwanda in an effort to end the violence

There are however, reports of continuing violence against people who
are not involved in the violence, particularly in the case of the
people of Rwanda

The people of Rwanda are a good and peaceful people and all who are involved in
the violence are being treated as criminals and are being punished accordingly

The Government is appealing to all concerned to help stop the violence
in the case of children, and to help stop the violence in the case of
children who are involved in the violence

Among the priorities and preoccupations of the Government is to protect children
from violence

We hope that the International Community will work with the Government in this
undertaking. Preventing future violence against children from becoming a
priority would be a step in the right direction

UNAMIR HQ

FROM: HQ UNAMIR LOG COORD CELL

TO: See Distribution

DATE: 9 December 1994

SUBJECT: UNAMIR RESUPPLY ORDER FOR THE WEEK
11 DEC 94 TO 17 DEC 94

REFERENCE: A. SO Tpt Minute "Shipping Delivery Note" dated 23 Nov 94
B. SO Sup Minute "Issue of 2 Stroke oil to contingents" dated 8 Dec 94.

SITUATION

1. General Logistic facilities and stock holdings continue to improve. It is intended that units hold a reserve stock of 7 days. However, force stock holdings preclude this at present. Force holdings are consumption stock only. Force Second Line transport is currently able to sustain weekly resupply and limited troop deployments.

2. UNAMIR Forces. Currently, UNAMIR military elements are deployed as follows:

- a. Australian Medical Contingent (AUSMED) - KIGALI.
- b. Canadian Contingent (CANCON) - KIGALI.
- c. Ethiopian Battalion (ETHIOBATT) - CYANGUGU.
- d. Franco-African Battalion (FRAFBATT) - KIBUYE.
- e. Ghanaian Battalion (GHANBATT) - GIKONGORO.
- f. Indian Battalion (INDBATT) - KIGALI.
- g. Malawi Company (MALAWICOY) - BUTARE.
- h. Mali Company (MALICOY) - GITARAMA.
- i. Nigerian Company (NICOY) - BYUMBA (advance element of Nigerian Battalion - NIBATT).
- j. Tunisian Battalion (TUNBATT) - BUSOGO.
- k. Zambian Battalion (ZAMBATT) - KARAMA (relieving a company of GHANBATT)

- l. MILOB teams have deployed to all sectors: and
- m. CIVPOL deployment is progressing.

MISSION

- 3. To resupply UNAMIR force elements.

EXECUTION

4. **General Outline.** Force resupply stocks are distributed on a weekly basis. Resupply is based upon a combination of unit returns and calculated usage rates.
