We the hunger strikers, who have been on hunger strike front of united Nation for 68 days to release 7 abducted Iranian dissidents which are in Nori Al Malikis jail under constant torture, regret that you are allowing a criminal representative of Iranian regime to come to UN and negotiate for nuclear weapon.

You know as well as we do it is another deception to buy time to continue with their nuclear program.

Since the election of the new president in Iran there have been more than three hundred executions which include the executions of 16 political prisoners in revenge of killing few pasdaran on the border of Iran and Pakistan. They even want to re-execute a prisoner which have already been executed once and have survived the execution. The appeasement is part of all this criminal acts and Iranian people will never forget this kind of reaction from such international organization like UN.

We regret that United Nation is embarrassing herself to allow Javad Zarif who is a part of this criminal regime to participate in this negotiation.
