Mr. Carey Seward, Chief Administrative Officer  
Acting Chief, Audit and Inspection Service  
Disposal of Welfare Items

1. The attached list shows a selection of items held in the Welfare store.
2. Under the rundown of the military operation it is presumed that these stores will be surplus to requirement and eventually will be disposed of through the normal sales channels, subject to any future Welfare requirements of the Civilian Operation.
3. Many of these items are of possible interest to staff members, and it is therefore recommended that consideration should be given to the disposal of at least some of these stores through the PX Organisation, the charge to the PX being not less than the original cost plus freight, etc.

File No. 1

10 August 1963

To: Mr. R.D. Brown, Acting Chief, Audit and Inspection Service  
From: Mr. Carey Seward, Chief Administrative Officer  
Subj: Disposal of welfare items

Please refer to your memo. dated 9 August 1963. I feel quite sympathetic towards your proposal to dispose of welfare surplus items through the normal sales channels but I must remind you of Headquarters ruling that title to the welfare equipment is vested in the United Nations and should be accounted for in the normal manner. The disposal of the surplus equipment will, therefore, be a question to be discussed by the Property Survey Board. Equipment as and when rendered surplus is, therefore, to be reported to the Property Survey Board by the Chief Welfare Officers memo. from Field Operations Service dated 18 September 1962 refers.

To: Mr. Carey Seward, Chief Administrative Officer  
From: A. C. Gilpin, Acting Chief, Civilian Operations  
Subject: Request by Cotanga, Albertville, to purchase C-rations  
Ref. Your C/ADM/520/2/5

Please refer to your memorandum of 1 August.

I very much appreciate your decision to release the 500 cartons of C-rations to Cotanga as an exceptional measure.

I agree that all requests should be channeled to the Chief, Purchasing and Supply Section, and would only add that, in the present case, it was never my intention to adopt any other procedure. My request to Mr. Azzam was for information, on receipt of which I addressed the request, through Mr. Trisciuzzi, to Mr. Cooper.

1, August 1963

To : Mr. A.C. Gilpin, Acting Chief Civilian Operations  
From : B.T. Twigt, Chief Administrative Officer  
Subject : Request by Cotanga, Albertville to purchase C-Rations  
Ref. Your CIV.OPS./960/63.

Exceptionally and in view of your very strong recommendation I will agree to the release of quantity 500 cartons of "C" rations 5 in 1 to Cotanga on the following conditions :

- a) The selling price is C.Fr. 768.00 per 5 in 1 ration;
- b) the release of the rations to Cotanga should not be considered as establishing a precedent in the case of future requests;
- c) all future requests should be channeled to the Chief Purchasing and Supply Section.

Instructions will be issued to the Administrative Officer, A'ville to release the rations upon deposit of payment with the Finance Officer in A'ville.

INITIALS

31 July, 1963

To: Mr. B. Teigt, Chief Administrative Officer  
 From: A. C. Gilpin, Acting Chief, Civilian Operations  
 Subject: Request by Getanga, Albertville, to purchase C-rations

Please refer to my cable CIV-AL/159 of 23 July to Mr. Assan, his reply ALAS 951 of 28 July, and your cable LEGAL 906 of 27 July to Mr. Polgar.

It appears from the terms of your cable LEGAL 906 that it was sent without reference to my original cable CIV-AL/159 to Mr. Assan, copied to you, in which I explained the special reasons why, in this case, it might be advisable, from the point of view of Civilian Operations, to make an exception to the usual procedure regarding disposal of surplus. I asked Mr. Assan to give his recommendation "whether exceptional action should be taken now, or whether adequate credit normal disposal of surplus in several weeks time". My cable was sent after I had discussed the normal disposal procedure with Mr. Cooper. From Mr. Assan's reply, it would appear that he believes that an exceptional procedure would be justified in this case.

From my own knowledge of conditions in North Katanga, I am satisfied that it is extremely important that Getanga's buyers should travel, as soon as possible, into the interior, in order to purchase the large stocks of raw cotton which have accumulated and are liable to deteriorate. Anything UNCC can do to assist them, for example by making available a small quantity of surplus C-rations for the use of their buyers in a region where food is notoriously scarce, will be of value in promoting the economic reactivation of this neglected part of the country.

Since I understood that, under normal disposal procedures, Getanga would not be able to obtain the C-rations for six-eight weeks, I shall appreciate it if you will reconsider your ruling, taking account of the facts presented here and of the views of your officer on the spot.

cc: Mr. Boreinville (with att's)

ADM 1.0/2  
ADM 520/3

5 August 1963

Dear Tony,

I have had further discussions with Field Service concerning the disposal of the UN fleet of planes to Air Congo. There is a good deal of sympathy for the position in which the Civilian Operations will be placed if the fleet of planes with Air Congo was not suggested.

I should be grateful if you would kindly continue to pursue the matter with Carey Seward, to see that when the time comes for the UN to dispose of its planes, the Air Congo is given the first option and that payment is accepted in Congolese francs.

Sincerely,

S. Habib Ahmed

Mr. A. Gilpin

To: Mr. E. Twigg, Chief Administrative Officer  
From: A. C. Gilpin, Acting Chief, Civilian Operations  
Subject: Survey Board

Please refer to my Memorandum of 26 July.

I am glad to note that all Civilian Operations requirements will be met before surpluses are considered by the Survey Board. On this understanding, I agree that it is not necessary for Civilian Operations to be represented on the Survey Board.

We will do our best to ensure rapid notification of our requirements. This will be facilitated if we can have the earliest possible notification of available supplies.

26 July 1963

To: Mr. A. Gilpin, Acting Chief of Civilian Operations  
From: Ben T. Twigg, Chief Administrative Officer  
Subject: Survey Board

Re your memorandum of 24 July on the above subject.

A procedure developed to give priority to Civilian Operations requirements has been agreed upon between Mr. Ahmed and myself. Under this procedure Civ.Ops. requirements are determined before the meeting of the Survey Board declares surplusses. In this connexion I draw to your attention SOP No. 27 which is now implemented.

This system should work well, unless Civilian Operations were slow in notifying its requirements.

27 JUN 1963

No. 4229/1/LOGS  
LOGISTICS BRANCH  
HQ ONUC  
25 June 63

To : Distribution Lists 'A' and 'C'  
From : Chief Logistics Officer  
Subject : LOGISTICS STANDING OPERATING PROCEDURE NO. 27 - EXCESS/  
SURPLUS STOCK REPORT

AIM :

1. The aim of this instruction is to detail the procedure to be followed in disposing of excess or surplus stocks held by ONUC Ordnance or Supply Depot.

DEFINITION :

2. Excess stocks are stores which are in excess of foreseeable force requirements due to policy changes or changes in scales of issues. Excess stocks also include items on which no movement has taken place for a period of 12 months or which are considered unserviceable.

3. Surplus stocks are stores which become surplus to force requirements by virtue of redundancy of equipment or reduction in force strengths.

PROCEDURE :

4. To implement the disposal of excess/surplus stocks the form attached as Appendix "A" will be used to report holdings of such stocks by the ONUC Ordnance or Supply Depots under the following circumstances :

- a) Periodic stocks reviews;
- b) stocktakes;
- c) changes in scales of issues;
- d) when parent equipment is disposed of or a reduction in population is warranted by a reduction in force.

5. The form is divided into six parts and there is a facility for the comments and recommendations of the following :

- a) The Chief Ordnance Officer or Senior Supply Officer;
- b) Chief Logistics Officer;
- c) Chief Purchasing and Supply Officer;
- d) Survey Board.

6. The report will be prepared in six copies for distribution as follows :

One copy for retention by the reporting unit/service. One remaining original plus four copies will be processed through (a), (b), (c) and (d) above. After the Survey Board has issued disposal instructions distribution of individual copies will be effected. One copy to (b) and original plus three copies to (c). Upon completion of the sale the Chief Purchasing & Supply Officer will return the original plus one copy to the Survey Board annotated to show action taken.

7. The Depot concerned will complete parts "A" and "B" of the form as follows :-

Part "A", self-explanatory

" "B", Source and date of purchase; a short summary of issue history and whether new or used, serviceable or unserviceable.

8. The Chief Ordnance Officer or Senior Supply and Transport Officer will complete part "C" on basis of present or future known requirements.

9. The Chief Logistics Officer will complete part "D" based on current logistics policy.

10. The Chief Purchasing and Supply Officer will complete part "E" after he has determined whether the stocks declared are required by other missions or can be returned to source.

11. The Survey Board will complete part "F" by giving specific instructions for disposal.

A : Monsieur A.C. GILPIN, Chef p.l. des Opérations civiles  
De : P.C. Terenzi, Chef de la Mission de l'Unesco au Congo

Objet : Vente de surplus de produits alimentaires

Réf. : Votre note du 26 juillet 1963

En réponse à votre note citée en référence, je vous prie de bien vouloir trouver ci-dessous la liste des produits que les directeurs de nos trois Instituts d'enseignement supérieur désirent acheter pour leurs internats :

1. Institut pédagogique national (Brazzaville)

- 100 kilos de salami, à livrer entre octobre et décembre.

2. Institut national du Bâtiment et des Travaux publics (Léo II)

- 4.000 lbs de salami,  
- 3.000 lbs de macaroni,  
- 3.000 lbs de spaghetti.

Le coût de ces denrées sera à charge du projet 85.02, mais qui sera remboursé à la banque ONUC au fur et à mesure des besoins de l'Institut.

Le macaroni et le spaghetti pour être enlevés par les soins de l'Institut immédiatement après votre accord.

Le salami devrait rester entreposé jusqu'au 31 décembre 1963, au plus tard.

31 July 1963

Dear Tony,

The problem of planes for the Air Congo has continued to haunt me here. The Congolese Ambassador has apparently received instructions to get in touch with me and to work with me jointly to seek some United Nations assistance for the Air Congo.

I spoke to the US Delegation with a view to ascertaining the possibility of extending the present arrangements whereby some three DC-4 planes are provided through a contract with Panama Airways to the Ministry of National Defense. You will recall that this contract is financed by the US Government as part of the import support programme. The US is interested in helping the Congo but they are not sure as to the ownership of the planes presently covered by the Panama Airways contract. If these planes have been obtained by Panama Airways on a charter basis from commercial sources then there is no hope of making any of them available to the Air Congo. On the other hand, if any of them have been made available to Panama Airways by the US Government from their defense stocks the possibility of transferring them to the Air Congo on a lease basis could be considered. You might wish to obtain this information through the US AID or directly from the Panama Airways and pursue the matter as necessary.

Another possibility which I have tried to explore is that of disposal of the United Nations DC-3 and C-47 planes now forming our scheduled service, to the Air Congo. All these planes are due to be sold by the end of October and I see no reason why some of them should not be passed on to the Air Congo against payment in Congolese francs. If any of these planes however have been taken under 'US assist' programme by the United Nations some arrangement could be worked out with the US AID whereby such planes could be placed at the disposal of the Air Congo by the US Government and the United Nations relieved of financial responsibility for them. You might consult Carey Seward on this subject and then discuss the matter based on his advice with Mr. Gillis of the Air Congo. I am naturally anxious to see that when ONUC finally suspends its scheduled services that the Air Congo capacity is augmented as much as possible at that time so that the transport requirements of the Civilian Operations should not suffer.

With regards,

Sincerely,

S. Habib Ahmed

Mr. A. Gilpin  
Acting Chief, Civilian Operations  
ONUC, Leopoldville

=====

Pour information à :

- TEXACO AFRICA Ltd  
B.P. 198  
à LEOPOLDVILLE.-

Monsieur le Chef des Opérations Civiles,

J'ai l'honneur de porter à votre connaissance que les Services de l'ONU disposeraient à KASHIMA de 16.000 fûts vides, ex-essence aviation et tourisme.-

Cette disponibilité représente un élément d'importance capitale du point de vue économique du pays.-

Je voudrais en conséquence prier l'ONU de ne mettre ces fûts en vente publique que parmi des acquéreurs collaborant directement à la relance économique du pays tels que pétroliers, huiliers, etc... et à l'exclusion formelle d'acheteurs individuels visant à l'affectation de ces fûts pour la fabrication d'alcool de distillation indigène notamment.

A ma demande expresse, la Texaco a marqué son accord de ravitailler le Nord-Katanga en carburants.-

Vu le dénuement le plus complet dans lequel vit cette partie du pays, je vous serais extrêmement obligé de bien vouloir céder trois à quatre mille fûts vides à la TEXACO.

Vous remerciant de bien vouloir me faire connaître le plus rapidement possible votre position à ce sujet, je vous prie de croire, Monsieur le Chef des Opérations Civiles, à l'assurance de ma haute considération.

LE MINISTRE DE L'ECONOMIE NATIONALE,

CIV. 20/10/65

31 July, 1965

To: Mr. B. Teigt, Chief Administrative Officer  
From: A. G. Gilpin, Acting Chief, Civilian Operations  
Subject: Request by Cotanga, Albertville, to purchase C-rations

Please refer to my cable CIV-AL/139 of 25 July to Mr. Asmus, his reply CIV-AL/131 of 27 July, and your cable 2001 908 of 27 July to Mr. Teigt.

It appears from the terms of your cable 2001 908 that it was sent without reference to my original cable CIV-AL/139 to Mr. Asmus, copied to you, in which I explained the special reasons why, in this case, it might be advisable, from the point of view of Civilian Operations, to make an exception to the usual procedure regarding disposal of surpluses. I asked Mr. Asmus to give his recommendation "whether exceptional action should be taken now, or whether adequate credit toward disposal of surpluses in several weeks time". My cable was sent after I had discussed the usual disposal procedure with Mr. Cooper. From Mr. Asmus's reply, it would appear that he believes that an exceptional procedure would be justified in this case.

From my own knowledge of conditions in North Katanga, I am satisfied that it is extremely important that Cotanga's buyers should travel, as soon as possible, into the interior, in order to purchase the large stocks of raw cotton which have accumulated and are liable to deterioration. Anything WFO can do to assist them, for example by making available a small quantity of surplus C-rations for the use of their buyers in a region where food is notoriously scarce, will be of value in promoting the economic revitalization of this neglected part of the country.

Since I understood that, under normal disposal procedures, Cotanga would not be able to obtain the C-rations for six-eight weeks, I shall appreciate it if you will reconsider your ruling, taking account of the facts presented here and of the views of your officer on the spot.

cc: Mr. Spruillville (with att's)  
Mr. Cooper  
Mr. Asmus, Albertville

From : A. C. Gilpin,  
Acting Chief Civilian Operations

Subject : Surplus stocks

Attached is a list of surplus Danish/Salami, Macaroni and Spaghetti which are to be disposed of by ONUC.

Please notify Mr. E. Lesmi (Ext. 168 - Room 241) immediately if you are interested in obtaining any of these items for your programme. Unless we hear from you within 48 hours, we will assume that you are not interested and will inform the Purchasing and Supply Section accordingly.

cc : Chief, Purchasing and Supply Section.

CIV.OPS./917/63

Confidential

25 July, 1963

To: Mr. E. Borsinville, Officer-in-Charge  
From: A. G. Gilpin, Acting Chief, Civilian Operations  
Subject: Mr. Vaughan's letter of 15 July regarding phasing out operation

I should like to offer the following comments on Mr. Vaughan's letter of 15 July:

1. Disposal policy

Much of the surplus ONUC equipment and supplies, including food, will be of great value to Civilian Operations, and it is satisfactory to note that it has been agreed, in principle, that we should have the first claim on all such items before they are advertised for sale or otherwise disposed of. Our interest covers both "serviceable" and "unserviceable" items. Where such items are durable assets, e.g. vehicles, they would presumably be merely transferred from ONUC to Civilian Operations inventories. Where they are perishable, e.g. food, they would be charged to the projects concerned, e.g. Community Development, at a reasonable price. So-called "unserviceable" items would of course be transferred free to Civilian Operations. It is most important that these arrangements should be notified to all persons concerned with disposal of surplus supplies. Otherwise valuable items may be lost to our work and even, in some cases, destroyed.

2. PX and commissary facilities

It is essential that basic commissary and PX facilities should continue for civilian operations and administrative personnel after 31 December 1963. This will be especially important in the provinces, where shortages of many basic items may be expected to continue for a long time. So far as these PX and commissary facilities for civilians are concerned, it would seem unlikely that there will be any substantial surpluses and there should, in any case, not be a "complete liquidation".

.../...

Since the PX and commissary facilities are already on a self-supporting basis, it is not clear why their administration should be changed. On the other hand, I see no objection to the proposal that they should be managed by a staff cooperative. Whatever arrangements are decided upon, the staff responsible for the future management should be represented on the Survey Board so that they will have a say in regard to disposal of surpluses and residual stocks and future orders.

The proposal that, insofar as "liquidation costs" are incurred in connection with the PX and commissary facilities, these should be charged to PX profits and reserves, is reasonable. But this should be done on a detailed accounting basis, and any profits or reserves remaining should be carried forward to the new management.

It is disturbing to read of "drastic action" having been taken to cancel many requisitions for PX and commissary supplies. Since the PX and commissary have been self-supporting operations, this action appears to have been unwarranted and, in any case, there should have been consultation with the staff who will be affected by such action. On the face of it, there seems to be a real danger that, through such cancellations, there will be serious shortages of essential supplies for the large number of staff members who will probably be here in 1964.

#### 3. Local transport

The target figure of 300 vehicles and 75 local drivers to meet the needs of Civilian Operations will require detailed study, especially in the light of essential needs in the provinces where there has already been a waste of experts' services due to lack of transportation.

#### 4. Telecommunications

Any attempt to rely on commercial facilities for communications is likely to be disastrous so far as telecommunications are concerned. Commercial telegrams often take several days, or even weeks, to reach their destinations within the country.

#### 5. Aircraft

The proposal to dispose of all UN-owned aircraft is tantamount to closing down the offices in Luluaburg and Elisabethville, where chief civilian officers are expected to remain after the end of 1963. Without ONUC aircraft, especially in Kasai, the chief civilian officer could not function effectively.

#### 6. Field offices

It is understood that chief civilian officers will be retained in Elisabethville and Luluaburg beyond the end of 1963, and that

administrative offices (primarily concerned with providing administrative support for civilian operations) will be maintained in the other former provincial capitals, namely, Coquilhatville, Stanleyville and Bukavu. The terms of reference of these administrative offices should be established with some precision, and the administrative officers should be chosen with regard for the fact that, in certain exceptional circumstances, they might have to deal with political problems. It will be essential to maintain official communications between the field offices in Leopoldville, and it will also be advisable for these offices to be visited fairly regularly by senior Civilian Operations officials. A budget to permit some travel by the administrative officer to provincial capitals within his region will also be necessary.

As a general comment, I would add that, while the need for sharply reduced expenditures is fully appreciated, Mr. Vaughan's letter takes inadequate account of the continuing needs of the ONUC operation as a whole. Civilian operations are an integral part of ONUC. Certain economies, especially in regard to administrative support for civilian operations, - not to mention action tending to cause a hasty withdrawal of civilian operations personnel - might well have the effect of dissipating much of what ONUC has achieved.

cc: Mr. Twigt

TO : Mr. A. Gilpin, Deputy Chief of Civilian Operations  
FROM : Ernest C. Grigg, Senior Community Development Consultant  
SUBJECT : Sale of surplus flour

I have noted the memo from the Chief, Purchase and Supply Section, indicating that the Property and Survey Board has recommended the sale of 174,000 lbs. of flour now at Albertville.

This is to advise you that I would be very grateful if this supply of flour could be made available to the Community Development Fund. I have several possible uses for it in connection with the implementation of our various projects.

Could you let me know how long it can be kept in the present storage facilities as this will determine in large measure the project/projects for which we will use it.

From : A. Gilpin, Acting Chief of Civilian Operations  
Subject : Survey Board

In the course of the next few months the Survey Board will be seized with the task of disposing the inventories of ONUC. As you are aware, Headquarters has suggested that, in recommending disposal of these inventories, account should be taken of the need of giving priority to the requirements of Civilian Operations.

We accordingly believe that the presence of a person closely related with Civilian Operations on the Survey Board would be useful.

To that effect I shall be grateful if you will accept the nomination of Mr. T. Trisciuzzi, Assistant Chief Administrative Officer (Civilian Operations) and Executive Officer Congo Fund, as a member of the Survey Board, representing Civilian Operations.
