Dear Sir,

With reference to your advertisement in this week's "Aeroplane", I will be glad if you will forward me details and tender forms in respect of the three C.47 aircraft and spares which are for disposal.

I take it that the covering details will also state where the aircraft are located and when it will be possible to inspect.

Yours very truly,

Franklin

Dear General Lewis.

I am so sorry to hear from your letter of October 13th of the inconvenience we appear to have caused you by putting off negotiations for the purchase of your Dakota aircraft.

You will, I know, appreciate that circumstances have changed a very great deal since July when I wrote to your predecessor, and we now find ourselves, at any rate in the immediate future, of having a detracting economy rather than the expanding one which we had looked forward to.

Again many thanks for your expression of appreciation for the services we have rendered you.

Yours sincerely

Dear Sirs,

With reference to a recent telephone conversation the writer had with the Officer-in-Charge of the Aircraft Fleet operated by U.N.R.R.A., in which it was intimated that the three C.47's and spares would be made open to tender.

Would it be possible for a list of the available items, to be forwarded to this company, for the attention of the writer, to enable us to tender for those items in which we are interested.

Yours faithfully,
For, and on behalf of Skyways, Ltd,

1. Seller reserves the following rights:
 - a. To reject any and all bids or sales.
 - b. To withdraw at any time prior to the receipt by the purchaser of the Bill of Sale, all or any part of the property included in a bid or sale.
 - c. To require a prior cash deposit as a qualification for bidding.
2. All sales are for cash. Payment must be made in sterling by certified cheque, or Bankers Draft drawn under irrevocable letter of credit.
3. Seller makes no warranty, either express or implied, with respect to the property covered by this Order except:
 - a. Seller warrants it has the right to transfer title.
 - b. Seller warrants the accuracy of the description of the property; provided, however, that if the property is described as new, Seller warrants only that it has not been used.
 - c. Seller's liability under 3a and 3b shall not exceed the amount of the purchase price of the property.
 - d. Request for adjustment under 3a and 3b shall be made in writing to the UNRRA Surplus Disposal Officer within fifteen days after the Purchaser receives title by Bill of Sale.
4. In case of error in the extension of prices the unit price will govern.
5. Unless otherwise specifically stated and then only in the case of a public agency of a national government, all sales are made for and subject to delivery at the designated place of sale. All transportation and shipping expenses will be for account of Purchaser. All property sold to be removed from Seller's premises within ten days after title passes to Purchaser by Bill of Sale. Thereafter storage charges will accrue against property sold and shall constitute a lien thereon, this provision to apply regardless of Acts of God, floods, fires, strikes, black-outs, freight embargoes or other causes beyond the Purchaser's control.
6. If Property is lost, damaged or destroyed otherwise than by fault or negligence of the Purchaser prior to transfer of title to Purchaser by Bill of Sale or during the ten days following transfer of title if and where the property sold remains on Seller's premises under the provisions of paragraph 5 above, Seller's liability shall be limited to the refund of any amount paid by the Purchaser for the property so lost, damaged or destroyed. After the expiration of said ten-day period, all risk of loss, damage or destruction shall be for the account of the Purchaser.
7. The Seller reserves the right to cancel this contract of sale without liability in cases where Purchaser acts as agent for an undisclosed principal, if such cancellation is determined by the UNRRA Surplus Disposal Officer to be for the interest of the administration of UNRRA.
8. An UNRRA Surplus Property Disposal Order (Form AD-151) shall constitute the Purchaser's Bill of Sale and evidence the transfer of title from Seller to Purchaser provided the Order is inscribed across its face by the following certification signed by the UNRRA Surplus Disposal Officer.

"I certify that this is a true and correct copy of the original UNRRA Surplus Property Disposal Order covering the property herein described and by the terms hereof constitutes a Bill of Sale for said property and transfers title thereto from the United Nations Relief and Rehabilitation Administration to the vendee herein designated. This Certification is in accordance with the powers delegated to me by the Rules and Regulations of said Administration as Seller."

Dakota aircraft

In PRDG file
AST/35/JIV

Thank you for your letter of 29 September followed by your General Manager (Technical)'s letter dated 1 October indicating the decision that B.E.A. has no longer any interest in procuring the three Dakota aircraft which WEBA has in its possession.

You state in your letter that your Supplies Manager advised Air Commodore O'Neill of this fact some little time ago. Air Commodore O'Neill has no recollection of any such advice and our files fail to disclose the receipt of any previous communication giving this information.

The failure to receive early notification from you has caused us some little embarrassment as there are a number of buyers in the field who seem to be interested in the acquisition of these planes and it has been necessary for us to delay sending out requests for tenders until we had discharged our share of the informal arrangement made by my predecessor with you - your letter dated 9 July 1947 refers.

Nevertheless I would like to express the Administration's appreciation of the excellent service rendered by your organisation to the Administration in operating these Dakota aircraft for us. Our relations have at all times been most amicable and the operation of the aircraft has been, in our opinion, of the highest order and certainly of great value to us.

G. S. Hargrave, Esq.,
Chairman,

I refer to my letter of the 25th July, in which I stated our willingness to give you the first refusal of our three Dakotas as they become available.

As you know, the contract for the operation of these aircraft will expire on the 9th October, and I would like to be in a position to complete their sale hand hand- over by that date. ?

The sale which will be in one lot, will comprise the three Dakotas, of which you already have full details, and the whole of our stock of spare parts now in store at Gatwick, a detailed list of which I am enclosing with this letter.

With the exception of seven of the nine spare engines, the remainder of the spare parts are new, and we must make it a condition of the sale that the whole of the stock must be taken.

I shall therefore be grateful if you will now let me have your firm offer.

Present:

C.A.S.D.	Colonel A.K. Strommen
S.A.C.	Sir Francis Dixon
C.T.O.	Air Cndr. H.D. O'Neill
Legal Adviser.	Mr.M.N. Freedman.
S.D.O.	Col. G.E. Embleton
A/S.D.O.	Major J.E.B. Earll.

C.A.S.D. outlined the present status and said that the intention was to arrive at an acceptable valuation at which the equipment would be offered to B.E.A.

C.T.O. quoted the values declared by Airwork, viz: 1 at £4,750 and 2 at £4,500, and reiterated his disagreement with those prices. He gave as his own valuation a figure of £6,500 to £7,000 per machine, based on cost, present condition, and ruling prices, but with the reservation that he had not taken into consideration any possible effect of the recent travel restriction.

S.D.O. quoted correspondence between P.R.D.G. and B.E.A., in particular a letter dated 25th July 1947, in which it is clearly stated that UNRRA agrees to give B.E.A. the first refusal of the aircraft, and also asks B.E.A. to make their offer.

Legal Adviser stated his opinion that we should be open to severe criticism if we used sealed tender bids for the purpose of arriving at a valuation on which to negotiate with B.E.A., and suggested that we should arrive at an acceptable price based on cost, depreciation, and current market conditions.

In view of the difficulty in arriving at a correct valuation, S.D.O. suggested that the most satisfactory method of approach, and complying with P.R.D.G.'s letter of 25th July, would be to ask B.E.A. to make their definite offer, UNRRA reserving the right to accept or reject. If their offer were not acceptable UNRRA would be released from its obligation to B.E.A., and the sale could proceed by tender.

This course was agreed without dissent, and S.D.O. was asked to prepare a letter to B.E.A. for P.R.D.G.'s signature. If necessary a further meeting would be called to consider B.E.A.'s offer.

C.T.O. stated, and it was agreed, that the offer should cover the three aircraft and the whole of the stock of spares. He further stated that the spares were worth every penny that we paid for them, and possibly more, and that we should not accept less.

S.D.O. reported that the claim by H.M. Customs for 20% ad valorem duty on the aircraft and spares on re-sale was still in dispute, and in hand by A.G.C.

Dear Col. Embleton,

With reference to your letter SUR.2 of the 11th September and our telephone conversation regarding the Dakotas and spares which your Administration is proposing to offer for sale by tender, I have to inform you that aircraft and parts thereof are liable to the ad valorem duty of 20%.

I understand however from my telephone conversation yesterday with Major Earl that the Dakota spares purchased in Canada were manufactured in that country by CANADAIR and that it is thought that it may be possible to show that the aircraft were also manufactured in that country.

If, therefore, you can show us that either the aircraft or the spares were manufactured in Canada then we shall be prepared to regard them as entitled to Imperial Preference and as such, not liable to duty.

Yours sincerely,

Col. G. E. Embleton,

Reply on 3

Dear Mr. Slattery,

This will confirm my telephone conversation with you yesterday afternoon.

Amongst the property which this Administration now has for disposal are three Dakota Transport Aircraft and a large quantity of Dakota spare parts.

The three aircraft were purchased from the U.S. Army Liquidation Committee in Paris during early 1946, and were paid for in Washington from the American contribution to UNRRA. All the spare parts were purchased from Canada and were similarly paid for by our Headquarters in Washington and shipped direct to this country from Canada.

The equivalent sterling price paid for the Aircraft was £6,250 each and the invoice value of the spare parts is approximately £20,000.

It is proposed to offer the aircraft and spares for sale by public tender, but before issuing our Invitations to Bid, I would like to be assured that we shall be under no liability for Import Duty. It is our understanding that the aircraft fall within the same category as surplus American Army vehicles and other equipment which have been sold free of duty in this country.

As we are anxious to dispose of this equipment as soon as possible in order to avoid heavy storage and maintenance charges, I would be most grateful for your early reply.

For your general information, it is the Administration's policy that all funds arising from the sale of its surplus property shall be re-allocated for the purpose of further relief and rehabilitation in the devastated European countries, and for that reason we are anxious that our sales shall realise the highest possible prices.

Yours sincerely,

G. E. EMBLETON
