LIST OF WORKING DOCUMENTS, UNCIO

Beginning in mid-May 1945 the requirements of committees brought about the issuance of documents for immediate or detailed consideration of whole committees or their subcommittees. These were issued separately from the regular Document series as Working Documents in a WD series in order to avoid the necessity of full distribution of what were regarded as purely temporary or transitional papers. Many of them were included in or issued as regular Documents after serving the purposes of the initial deliberation of them.

Most of the WD Documents were those of the Coordination Commission in the CO subseries.

The 9th Plenary Session of the Conference on June 25 (Doc. 1210; P/20) approved a Memorandum of the Executive Secretary (Doc. 1189; EX/SEC 20) recommending removal of Conference Documents from the restricted category. Approval of items 4 and 5 of this recommendation had the effect of releasing all WD Documents originating in committees or subcommittees, except the Coordination Committee and its subsidiary Advisory Committee of Jurists.

The 9th Plenary Session in approving the recommendation of the Secretariat directed that the decision as to removal from the "restricted" category of the working documents of the Coordination Commission be left to the Preparatory Commission. It is understood that the Preparatory Commission will consider the release of those documents as a whole, at least to the Delegations, after the series is completed by the Summary Reports of the later meetings of the Coordination Committee. These are now being edited.

Since no formal list of the Working Documents was issued and none exists except on the job tickets of the Documents Officer, which are in Archives at London, it is deemed useful to make available the subjoined list of Working Documents in which the symbols attached to each are given. Some files contain certain of these documents. The list will serve the general purpose of a check list.

This list is useful in connection with the last list of Documents (Doc. 1216; G/134) of June 28, in which Conference documents are arranged consecutively by the symbols of the Subseries. That list does not include the General documents. Late items not included in it are as follows:
