## CERTIFICATE

I certify that the estimates of rations required for the period indicated are based upon current strengths, adjusted in accordance with anticipated changes in strengths, minus rations overdrawn (Column 5) and are correct to the best of my knowledge and belief. I further certify that the entry "Consumed Last Period" (Column 4) is the result of an actual count of persons present for meals (divided by three) and that all applicable excess items not previously reported are listed below. I further certify that all official menus prescribed for categories of personnel being fed by this unit are on hand and are being followed to the maximum extent possible.

*Gen. Officer Blum*  
(Name and Rank) (Signature)

## INSTRUCTIONS

1. Columns 1, 2, 3, and 4 must be completed by all units. Columns 5 and 6 must be completed when applicable. The dates of "Actual Strength" will be as of the last 10th, or 20th, whichever date has most recently passed, and the figure given will be the official strength according to morning reports or other official documents. The figures must be accurate and must represent total official strength (including attached less members sick in hospitals or attached to other units. It should include members on leave or pass only when rations in kind are provided prior to departure.
2. "Last Period" will be considered last complete period.
3. Column 2 should be an estimate of total rations required for periods covered by P. It will be used as the issue basis for shell eggs, fresh fruit, and other "special" items.
4. Columns 6 to 9 will contain estimates of requirements for all categories of personnel for period covered by return. Residual adjustment (Column 5) balance of requirements will be entered in proper square, both as to personnel category and type of ration.
5. Supplemental emergency Returns may be submitted to cover unexpected strength increases or depletion of authorized reserves through emergency consumption. Each supplemental return will be accompanied by a certificate containing full justification.

## EXCESS ITEMS

1. Definition: Excess items are defined as those ration components, in addition to overdrawn rations shown in Column No 5 which are on hand in excess of requirements through current ration period plus one day (plus two days for hospitals), and which appear on the Menu for the period covered by this Ration Return.
2. The following excess items are on hand in unit stocks and are to be deducted from the rations requested by this Return (Columns 6 to 11)

ITEM	UNIT	QUANTITY	ITEM	UNIT	QUANTITY

## CERTIFICATE

- (To be signed by officer in charge of issuing depot or distributing point or its authorized assistant)
- I certify that the items and quantities shown above as being on hand in unit stocks in excess items of requirements have been deducted from rations issued as requested by this Ration Return, and that all excess items listed and not deducted from this issue have been entered on an abstract and will be deducted from the first issue of the same or authorized substitute item to this unit.

## CERTIFICATE

I certify that the estimates of rations required for the period indicated are based upon current strengths, adjusted in accordance with anticipated changes in strengths, minus rations overdrawn (Column 5) and are correct to the best of my knowledge and belief. I further certify that the entry "Consumed Last Period" (Column 4) is the result of an actual count of persons present for meals (divided by three) and that all applicable excess items not previously reported are listed below. I further certify that all official menus prescribed for categories of personnel being fed by this unit are on hand and are being followed to the maximum extent possible.

Al Louis Major Officer  
(Name and Rank) (Commanding)

## INSTRUCTIONS

1. Columns 1, 2, 3, and 4 must be completed by all units. Columns 5 and 6 must be completed when applicable. The dates of "Actual Strength" will be as of the 1st, 10th, or 20th, whichever date has most recently passed, and the figure given will be the official strength according to morning reports or other official document. This figure must be accurate and must represent total official strength (including attached, less any members sick in hospitals or attached to other units. It should include members on leave or pass only when rations in kind are provided prior to departure.
2. "Last Period" will be considered last complete period.
3. Column 2 should be an estimate of total rations required for periods covered by Return. It will be used as the issue basis for shell eggs, fresh fruit, and other "each" items.
4. Columns 6 to 9 will contain estimates of requirements for all categories of personnel for period covered by return, less adjustment (Column 5). Estimates of requirements will be entered in proper square, both as to personnel category and type of ration.
6. Supplemental emergency Returns may be submitted to cover unexpected strength increases or depletion of authorized reserves through emergency consumption. Each such supplemental return will be accompanied by a certificate containing full justification.

## EXCESS ITEMS

1. Definition: Excess items are defined as those ration components, in addition to over-drawn rations shown in Column No 5 which are on hand in excess of requirements through current ration period plus one day (plus two days for hospitals), and which appear on the Menu for the period covered by this Ration Return.
2. The following excess items are on hand in unit stocks and are to be deducted from the rations requested by this Return (Columns 6 to 11)

ITEM	UNIT	QUANTITY	ITEM	UNIT	QUANTITY

## CERTIFICATE

- (To be signed by officer in charge of issuing depot or distributing point or his authorized assistant)
- I certify that the items and quantities shown above as being on hand in unit storeroom in excess items of requirements have been deducted from rations issued as requested by this Ration Return, and that all excess items listed and not deducted from this issue have been entered on an abstract and will be deducted from the first issue of the same or authorized substitute item to this unit.

Annex H (cont'd)

I N S T R U C T I O N S

- (1) Last complete period for which Rations have been both drawn and consumed. ~~Unit will be the same period as that covered by Columns 3, 4 and 5.~~
- (2) Breakdown of U.S. Army strength to be shown in indicated space. Each unit for which rations are drawn or which is messing with the drawing unit, will be listed with official designation. Only major commands such as USIA, UNITED ARMY, USAFE #00, will be shown. If space is insufficient, attach additional page.
- (3) Total rations required for entire period will be entered in this column. Quantities required on specific days of the period, if they vary, will be shown under REMARKS and must total the quantity entered in this column.
- (4) Include civilian technicians, observers, war correspondents, USO personnel, personnel of Foreign Service Establishments etc.
- (5) Specify the category of personnel concerned. All patient in US military hospitals are authorized the type "A" ration plus hospital supplement.
- (6) Includes only those allied, liberated or neutral civilian employees of US military hospitals, hotels, and messes who serve as cooks, bakers, waiters, and dishwashers.
- (7) Includes allied civilian personnel on duty with, and a part of, the US armed forces, when authorized subsistence from US sources by specific orders of Headquarters, US Forces, European Theater.
- (8) Prisoner of War Ration plus hospital supplement will be drawn for hospitalized prisoners of war and dispersed enemy forces not in US military hospitals.

ADDITIONAL INSTRUCTIONS.

1. Ration returns must be complete in all respects. Issue points will refuse to honor a ration return which is submitted improperly.

2. Columns 1, 2, 3, and 4 must be completed by all units. Column 5 must be completed when applicable. The figures in column 1 will represent the total official strength (including attached) less any members sick in hospital or attached to other units. It will not include personnel on leave or pass, or any personnel who mess regularly in hotels or separately.

3. Column 2 is an estimate of the total rations required for the period covered by the return. Anticipated changes in ration, strength will be added or deducted, i.e., to troops going on leave or pass and troops arriving as replacements, or transients, will be considered. If rations required are in excess of strength as shown in Column 1 an explanation will be furnished.

4. Columns 6 and 7 will contain the requirements for all categories of personnel for the period covered by the return, less adjustments (Cols 5 and 6) Estimates of requirements will be entered in proper square both as to category of personnel and type of rations.

5. Supplemental emergency returns may be submitted to cover unexpected strength increases or depletion of authorized reserves through emergency consumption. Each such supplemental return will be accompanied by a certificate containing full justification.

I N S T R U C T I O N S

- (1) Last complete period for which Rations have been both drawn and consumed. The same period as that covered by Columns 3, 4 and 5.
- (2) Are known of Unit Army strength to be shown in indicated space. Each unit for which rations are drawn or which is messing with the drawing unit, will be listed with official designation. Only major commands such as US 1st, 3rd ARMY, USAF, etc. will be shown. If space is insufficient, attach additional page.
- (3) Total rations required for entire period will be entered in this column. Quantities required on specific days of the period, if they vary, will be shown under REMARKS and must total the quantity entered in this column.
- (4) Include civilian technicians, observers, war correspondents, USV personnel, personnel of Foreign Service Establishments etc.
- (5) Specify the category of personnel concerned. All patient in US military hospitals are authorized the type "A" ration plus hospital supplement.
- (6) Includes only those allied, liberated or neutral civilian employees of US military hospitals, hotels, and messes who serve as cooks, bakers, and dishwashers.
- (7) Includes allied civilian personnel on duty with, and a part of, the US armed forces, when authorized substitutes from US sources by specific orders of Headquarters, US Forces, European Theater.
- (8) Prisoner of War Ration plus hospital supplement will be drawn for hospitalized prisoners of war and disabled enemy forces not in US military hospitals.

A D D I T I O N A L I N S T R U C T I O N S .

1. Ration returns must be complete in all respects. Issue points will refuse to honor a ration return which is submitted improperly.

2. Columns 1, 2, 3, and 4 must be completed by all units. Column 5 must be completed when applicable. The figures in column 1 will represent the total official strength (including attached) less any members sick in hospital or attached to other units. It will not include personnel on leave or pass, or any personnel who mess separately in hotels or separately.

3. Column 2 is an estimate of the total rations required for the period covered by the return. Anticipated changes in ration, strength will be added or deducted, i.e., to troops going on leave or pass and troops arriving as replacements, or transients, will be considered. If rations required are in excess of strength as shown in Column 1 an explanation will be furnished.

4. Columns 6 and 7 will contain the requirements for all categories of personnel for the period covered by the return, less adjustments (Cols 5 and 6) Estimates of requirements will be entered in proper square both as to category of personnel and type of rations.

5. Supplemental emergency returns may be submitted to cover unexpected strength increases or depletion of authorized reserves through emergency consumption. Each such supplemental return will be accompanied by a certificate containing full justification.

- (1) Last complete period for which Rations have been both drawn and consumed. This will be the same period as that covered by Columns 3, 4 and 5.
- (2) Breakdown of U.S. Army strength to be shown in indicated space. Each unit for which rations are drawn or which is messing with the drawing unit, will be listed with official designation. Only major commands such as UNPA, THIRD ARMY, USAFE etc. will be shown. If space is insufficient, attach additional page.
- (3) Total rations required for entire period will be entered in this column. Quantities required on specific days of the period, if they vary, will be shown under REMARKS and must total the quantity entered in this column.
- (4) Include civilian technicians, observers, war correspondents, USG personnel, personnel of Foreign Service Establishments etc.
- (5) Specify the category of personnel concerned. All patients in US military hospitals are authorized the type III ration plus hospital supplement.
- (6) Includes only those allied, liberated or neutral civilian employees of US military hospitals, hotels, and messes who serve as cooks, bakers, waiters, and dishwashers.
- (7) Includes allied civilian personnel on duty with, and a part of, the US armed forces, when authorized subsistence from US sources by specific orders of Headquarters, US Forces, European Theater.
- (8) Prisoner of War Ration plus hospital supplement will be drawn for hospitalized prisoners of war and disabled enemy forces not in US military hospitals.

A D D I T I O N A L I N S T R U C T I O N S.

1. Ration returns must be complete in all respects. Issue points will refuse to honor a ration return which is submitted improperly.

2. Columns 1, 2, 3, and 4 must be completed by all units. Column 5 must be completed when applicable. The figures in column 1 will represent the total official strength (including attached) less any members sick in hospital or attached to other units. It will not include personnel on leave or pass, or any personnel who mess regularly in hotels or separately.

3. Column 2 is an estimate of the total rations required for the period covered by the return. Anticipated changes in ration, strength will be added or deducted, i.e., to troops going on leave or pass and troops arriving as replacements, or transients, will be considered. If rations required are in excess of strength as shown in Column 1 an explanation will be furnished.

4. Columns 6 and 7 will contain the requirements for all categories of personnel for the period covered by the return, less adjustments (Cols 5 and 6). Estimates of requirements will be entered in proper square both as to category of personnel and type of rations.

5. Supplemental emergency returns may be submitted to cover unexpected strength increases or depletion of authorized reserves through emergency consumption. Each such supplemental return will be accompanied by certificate containing full justification.
