*2 copies*

1. The enclosed copy of a list of concentration camps and their kommandos (auxiliary camps) is a compilation from many similar lists received from various sources. The arrangement is self-explanatory. On pages 68 - 69 can be found main list reference numbers of kommandos of concentration camps shown in Column 1.

2. It may be noted that the names of some camps are omitted, owing to the meagerness of available information pertaining to their location. Any additions, therefore, that may be suggested will be most welcome and will be included in the next edition of this list.
