31 MAY 1946

Mr. R.J. Hayes,
Director,
Federal Agencies Division,
War Assets Administration,
Room 5032,
Railroad Retirement Building,
Washington 25, D.C.

Dear Mr. Hayes:

In a meeting in your office on May 8, 1946, you requested information as to the shipping status of a group of Treasury Contracts for machine tools, selected by this office from the Detroit area. The following list, furnished to USRA by the Treasury Department, shows the Treasury Contract numbers, the date of mailing to your Detroit Regional Office, and the necessary shipping status. It should be noted that in all of these contracts, shipping instructions were included.

This equipment was selected by a Mission from this Office in the period January 14th to February 4th, 1946 and requisitions enabling Treasury to place Contracts were written immediately upon the receipt of the necessary engineering data from WAA Detroit.

COURTESY COPY FOR UNRRA.

OMGUS is now discussing with UNRRA the sale of 3,875 tons of potash fertilizer salt 40 percent K20 for delivery to Austria at price of 34 dollars per ton.

Negotiation was begun by USFA under authority granted in urad W-95329, but taken over by UNRRA upon acceptance of supply responsibility. UNRRA is waiting for an allocation from Combined Food Board before making purchase. Does the approval of obtaining potash from Germany, urad W-95329, apply to UNRRA procuring for Austria?

(Attention Mr. Roy Campbell - Electrical Sales)

Dear Mr. Campbell,

Answering your telegram of May 15th, we herewith wish to make
a firm offer for the following items listed in CG LISTING
No. D-84 :-

<u>Declaration no.</u>	<u>Commodity</u>	<u>Price.</u>
53051-1-1	Motor Generator	\$ 2264.00 net.
52004-1-1	Generator	766.00 "

We understand that we have no priority, however, we have
the same privilege of buying them as any other concern not
on the Priority List, and therefore, we would like you to
consider this letter as our offer at the time the generators
will be placed on sale.

I would greatly appreciate if you would notify me if we
have succeeded in obtaining these three generators, through
this offer. If we are successful in obtaining them, I
will have our Purchase Order and Treasury Contract forwarded
to you promptly.

Thanking you for your courtesy,

Dear Mr. Gillette:

Thank you for your letter of 13th May. However, after due consideration our line division finds that the quantities of the Mild Steel Welding Rods are too small to make it worthwhile in view of the expense of export packing.

I wish to thank you for your kind consideration of this matter and your prompt reply, and to express my regret for any trouble this may have caused you.

Dear Mr. Martin:

Confirming your telephone call with our office this afternoon, I immediately got in touch with Mr. Schwedler at Treasury Procurement Washington office. I presume the reason that you have not received your Treasury Order has been because of the fact that we have made up an amendment covering the change in price which was in accord with your Engineering Sheets which you sent us from your office. Treasury Procurement inform me that they are processing their order for the motors today and this should be in your hands in the next three or four days.

If you fail to receive the Treasury Order covering the motors, kindly advise me and I will investigate further.

Very truly yours,

W. Herbert Lamb,
Procurement Officer.

Dear Sirs:

With reference to your Invitation No. 5-11-2-763, will you kindly advise us as to the number of yards per pound in your offering on Lot Nos. 1, 2, 3, 4, 5, and 7. If you cannot give us this information, can you possibly tell us what the commercial wholesale value per pound is on each of these offerings, so that we may have some basis on which to bid. As the time is short we would appreciate an answer by return.

Dear Sirs:

We have received your SPECIAL OFFERING SP-543 dated 2nd May listing a quantity of British Motors, Lot No. 325.

If any of the motors contained in the listing would be available for export, we would be more than pleased to have you advise us of their immediate availability. As you perhaps know 50 cycle motors are in great demand in Europe and Asia, and our program of rehabilitation has been materially hindered in this particular instance because of the fact that this type of motor has been unobtainable, other than through Lend-Lease cancellations.

We would be pleased to have you submit prices on the entire list, or what may be left; or we will submit a bid on the entire lot.

Dear Sir:

Attention: Mr. J.J. Riley
Your Ref: OCPMS

Reference is made to your letter of May 3, 1946, pertaining to the following contracts:

UNR TPS 1912 Req. UA-198 (IR-430)
UNR TPS 1913 Req. UA-198 (IR-431)

Dear Mr. Bryson:

We are in receipt of your wire of 30th April advising us that no definite date has been set for opening of bids on the 7500 KW Turbo Generator.

I talked with Mr. Harvey at the Washington office yesterday morning, and he informed me that their representative has just returned from San Francisco with a sad tale to the effect that when this Generator was unloaded at San Francisco, it was left out in the open and is literally a solid mass of rust. I further understand that the Navy Department took pictures and that previous bids which were offered on this Generator were cancelled because of investigated conditions. We therefore withdraw our bid as contained in our wire of April 24th.

Mr. Harvey informed me that he will let us know when a complete inspection has been made of the Unit and at that time we will advise you whether or not we are interested.

Very truly yours,

W. Herbert Lamb,

Attention: Mr. P. G. Carney,
Chief, Federal Requirements

Dear Sirs:

We wish to acknowledge your telegram of April 15th and appreciate the information contained therein.

We have consulted with our line divisions and from current information we are able to obtain many times the number of Tripods that are necessary for our program. However, we are in dire need of Transits, which as you know are most difficult to obtain at the present time.

We are not going to be interested in the 382 Tripods which you refer to in your wire. However, we would like to add that if you should have any collapsible Tripods, we would be interested in that particular shape.

To further clarify your interpretation on Declaration 09613 or 90613, we are enclosing a separate list of items which were supposed to be in your region. If any of these items are available, we would like to have you freeze them for us and advise immediately what is available so that we can process our order to cover same. We would like to suggest that if the Transits are beyond repair which are reported in O3 condition, we would not be interested. If you will advise us the correct declaration number, price, general description, declaring agency, and interested parties in the transaction, we would appreciate it very much.

Very truly yours,

W. Herbert Lamb, U.N.R.R.A.
