IDP UPDATE

APRIL 25, 1995 -- 1500 HRS.

The following update is a compilation of reports from representatives of the IOC: the Government of Rwanda, NGOs, IOs, UNAMIR and U.N. agencies. This document is a summary of events that have been corroborated as of 1500 hrs on April 25, 1995.

Estimated Populations in the IDP Camps in Southwest Rwanda
By midday today (25 April) all IDP camps in southwest Rwanda, except Kibeho (Ndago, Munini, Kamana, Buhoro, Ruramba, Nyamagina, and Bivumu), are reported to be empty of IDPs. Latest estimates of IDPs in Kibeho camp were reported to be 2,000 by Milobs stationed within the camp early afternoon.

Population Movements

Former camp residents continue to move en masse along the roads in the direction of home communes. In particular, large number of IDPs reportedly from Kamana camp are arriving in the communes of Nyakizu, Gishamvu, Kigembe and Runyinya. It appears that many IDPs have bypassed the registration process established in each

home commune. As a result, it is presently difficult to determine the numbers of IDPs being received by each commune. [Correction: The estimated numbers of returnees who recently arrived in home communes listed in the IOC IDP Update 24 April 1600 hrs. were actually the estimated numbers of IDPs previously in the camps in southwest Rwanda believed to originate from those communes].

The major focus of transport efforts today (25 April) are for roughly 5,000 people who are being registered in Nyakizu for transfer to their home communes. Twenty-eight vehicles were assigned to Nyakizu this morning to assist in this effort. As of 0700 hrs., there were an estimated 7,000 people at the Butare waystation. By mid morning 18 vehicles had been sent to transfer 2,000 of those at the waystation to their home communes. All IDPs have moved out of the waystation at the Butare stadium as of 1145 hrs. in the direction of their home communes.

According to UNHCR, the Ndera waystation (located approximately 15 kms. outside of Kigali in the direction of Kibungo) is currently providing for 5,000 IDPs in transit. Incidents of measles were reported by the Belgian Red Cross which provides medical services at Ndera. Thirty of the 50 unaccompanied children at the Ndera waystation were transferred to CARE/Australia the evening of 24 April. Food for the Hungry International and World Vision have volunteered to help with tracing the unaccompanied children but more help is needed (see Medical Update and Critical Needs below).

Open Relief Centers (ORCs)

In Butare Prefecture, FTC/Europe continues to provide assistance to ORCs in the communes of Runyinya, Nyakizu, Gishamvu, and Kigembe. No specific requests for additional assistance from relief organizations were reported.

In Kigali Rural Prefecture, IRC reports there are 454 people at the ORC in Gashora and 600 more are expected by the end of the day (25 April). IRC also reports 2,400 people at the ORC in Ngenda. Reports indicate few new arrivals at the ORCs in Kanzenze and Sake. IRC is conducting a medical assessment of all of the ORCs it operates. Samaritan's Purse is conducting a medical needs assessment and initial assistance in Ngenda.

Medical Update

The following is a preliminary report of medical assistance provided by NGOs in Butare Prefecture:

Butare Waystation: MDM and AICF(USA). An ambulance provided by MDM transfers patients from the waystation to various hospitals in the area.

Butare Hospital: MDM, MSF/France, MSF/Belgium, IRC, and GOAL. An ambulance provided by IRC transfers people from the main Butare Hospital to the hospital in Nyanza.

Groupe Scolaire Hospital: IRC, MSF/Belgium and Memisa Medicus Mundi (a medical NGO).

Two surgeons are presently working at the hospital: one from MSF/Belgium and one from Memisa. A third surgeon was scheduled to arrive today (25 April). IRC has a team of four trauma nurses also working at the hospital. Conditions at the hospital are reportedly overcrowded, and there is a logistical problem with electricity. Nonetheless, the RPA are reportedly denying patient transfers to Gitarama.

University of Butare Hospital: The University hospital is admitting and treating patients with assistance from GOAL. ICRC has set up a field hospital which is now functional and a surgeon scheduled to arrive tomorrow (26 April).

Nyanza Hospital: World Vision, Refugee Trust, IRC and IMC.

Nyakizu and Kigembe: MSF and Merlin, supported by an ambulance provided by IRC.

Runyinya: MSF.

Mobile Medical Teams: Plans were made today to have mobile medical teams sent into the communes to treat those who are unable to be attended at the main medical centers and hospitals due to problems with transport, etc.

WHO Assessment Team: A team from WHO is continuing an assessment of the situation of cholera and dysentery, beginning with Butare

Prefecture. The Belgian Red Cross reports cases of measles have been diagnosed at the Ndera waystation and is requesting more information on the origin of the new arrivals to try to stop the spread of measles at the source.

Critical Needs

NOTE: All organizations and agencies with available stocks and resources are requested to contact the IOC to coordinate the allocation and shipment of supplies to those areas in greatest need.

* Help is needed with tracing unaccompanied children with their families -- All names of unaccompanied children should be given to SCF/U.K. and ICRC for matching with existing records. Any organizations or agencies willing to donate staff or resources to support tracing efforts currently underway would be greatly appreciated. Milk is being requested for the children at the Ndera waystation.

* ICRC is in need of 40 additional stretchers. If you have any stretchers available, please contact ICRC.

* Reports from the Butare Prefecture indicate that jerrycans are the only major shortfall in emergency supplies as of midday 25 April. Vehicles for transport are also requested.

IOC COORDINATION

The IOC in Kigali continues to serve as the focal point for humanitarian operations. Daily meetings on the current situation are held at 0900 hrs. and 1700 hrs. IOC/Butare reports continual coordination between humanitarian organization and U.N. agencies in the field. Daily meetings are held in Butare at 0730 hrs. at UNAMIR Tactical Headquarters to coordinate the upcoming day's operations. At 1700 hrs. the Director General of MINIREISO holds a meeting at the Butare Prefecture.

PLEASE NOTE - The following is the corrected version of the special update transmitted to you at approx 0650 this morning. Please destroy the old version and replace it with this.

NEW REPORTS - UNAMIR have sent 14 trucks to Kibeho this morning, and others further south. Helicopters are on standby. A C130 Hercules transport aircraft will be sent to Butare after its arrival in Kigali from Nairobi today, for transport of casualties if needed.

KIBEHO - The situation in Kibeho is now reported as stable, with RPA burying some dead. Estimates of numbers of dead are varying widely at this stage.

JERRY CANS - An urgent need reported by UNREG BUTARE this morning is for thousands of jerrycans. UNHCR has made jerrycans available and UNAMIR has agreed to provide transport for them today. Sources are now being investigated.

Special update now follows.

--Kibeho camp experienced much firing the morning of April 22 which resulted in many deaths. Initial reports state the RPA fired on IDPs (weapons included rocket-propelled grenades) in order to control an attempted break-out from the RPA cordon. There are initial reports that armed IDPs were in the camp, and that some firing came from IDPs. The situation was partially controlled by 1400 hrs., however renewed firing was reported at 1700 hrs. Some firing continued into the night. Casualties are estimated at around 1,000 dead and hundreds wounded, but these figures should be treated as very preliminary.

--Unaccompanied Children

By nightfall about 200 unaccompanied children were in the UNAMIR compound at Kibeho, many under 3 years of age, all in urgent need of evacuation.

--Medical

A medical team of the Australian Medical Battalion (Ausmed) and ICRC, MSF and Caritas have been operating in Kibeho. All personnel withdrew, however, when the security situation made medical assistance impossible. Ausmed is presently located at the UNAMIR position in Rwamiko. Medical NGOs and Ausmed are prepared to return to the camp as soon as the security situation is clear.

Efforts are being undertaken to increase the medical facilities at Butare and Gikongoro and possibly to re-establish the MSF hospital in Kibeho camp. Contingency planning for possible mass casualty evacuation to Kigali will require increased capacity at

King Faisal Hospital. For this, Ausmed is seeking approval from the Government and assistance from U.N. agencies and NGOs.

Cases of cholera are increasing (5 cases confirmed) and dysentery is becoming more widespread in the camps and amongst those populations moving from the camps to the home communes. The medical NGOs are coordinating their activities from Butare and are planning to fortify medical surveillance in the home communes.

--Water/Sanitation

Water for drinking is being provided in all of the RPA-controlled camps in limited quantities. Sanitation facilities are less than adequate.

--Transport

IOM/ Butare is coordinating transport in the field. Presently the highest priority is being given to the evacuation of casualties. Currently 39 trucks and 60 buses have been made available by IOM and UNHCR. UNAMIR is providing 28 trucks and is attempting to have additional vehicles made available.

--Foot convoys

A large number of IDPs, estimated between 7-10 000, reportedly entered Nyakizu commune today. Runginya also received foot convoys which early reports estimate at 4-5,000. Attacks on foot

convoys by bandits have been reported.

--Access to camps

Many humanitarian relief organizations continue to find their aid restricted and work limited by intermittent denial of access to the camps by the RPA.

SITUATION IN COMMUNES RECEIVING RETURNING IDPS

--Open Relief Centers

Open Relief Centers (ORCs) operated by Feed the Children/Europe have been opened/re-established in the following communes: Runyinya, Nyakiso, Gishamvu, and Huye. Basic shelter, water and biscuits are being provided. Reports state the arriving population is using local buildings for shelter as well as plastic sheeting.

COORDINATION

--Coordination meetings

On April 22 a Heads of Agency meeting was held at the IOC in Kigali to review the current situation.

--IOC/Butare office strengthened

On April 23 coordination meetings will be held at UNAMIR Technical Headquarters in Butare at 0700 hrs and 0800 hrs.

IDP SPECIAL UPDATE

APRIL 22, 1995 - AS AT 2100 HRS.

The following update is a compilation of reports from representatives of the IOC: the Government of Rwanda, NGOs, ICs, UNAMIR and U.N. agencies. This document is a summary of events that have been corroborated as of 2100 hrs on April 22, 1995.

SITUATION IN THE CAMPS

Camp closures

Reports claim that Ndaco camp appears to be empty of former camp residents.

Buramba and Buhoro IDP camps were also reported to be vacant of IDPs.

Activity

Shooting was reported overnight (April 21/22) in Kibeho camp. Initial reports gave the resulting number of dead between 30 and 40, with many wounded.

INTEGRATED OPERATIONS CENTRE (IOC)

HUMANITARIAN SITUATION IN SOUTHERN RWANDA

OPERATIONAL UPDATE

APRIL 26, 1995 -- 1400 HRS.

The following update is a compilation of reports from representatives of the IOC: the Government of Rwanda, NGOs, IOs, UNAMIR and U.N. agencies, that have been corroborated as of 1400 hrs on April 26, 1995.

Critical Needs

All organizations and agencies with information regarding unmet needs or available stocks and resources are requested to contact the IOC to coordinate the allocation and shipment of supplies.

Help is needed with tracing unaccompanied children with their families -- All names of unaccompanied children should be given to SCF/U.K. and ICRC for matching with existing records. Any organizations or agencies willing to donate staff or resources to support tracing efforts currently underway would be greatly appreciated. Milk is also being requested for the children at the Ndera waystation.

The Belgian Red Cross reports measles have been diagnosed at the Ndera waystation and is requesting more information on the origin of the new arrivals to try to stop the spread of measles at the source. All information should be sent directly to the Belgian Red Cross.

There continues to be needs for water, food and non-food items such as jerrycans, blankets, buckets, soap, pots and pans, clothes (particularly for children), plastic sheeting for temporary shelter or temporary repairs, and hoes for next season. Details of exact quantities of these commodities needed by home communes are continually being evaluated by government representatives, humanitarian relief organizations, and U.N. agencies operating in the affected region.

Commodities en Route for Home Communes

Today (26 April), Africare is sending 300 boxes of clothes, 80 boxes of liquid energy drinks, 100 boxes of powder energy drinks, and 5 tents to Butare. Supplies provided by CRS, LWF, AICF(France) and Samaritan's Purse consisting of plastic sheeting, pots, dishes, cups, high protein biscuits, and water bladders will be transported to those areas in need over the next few days. Plastic sheeting is also being sent by the U.S. Government and should be arriving shortly (see ShelterUpdate).

Estimated Populations in the IDP Camps in Southwest Rwanda

Children Centre. In Gitarama Prefecture, it appears people are moving back to their communal sectors.

It appears many IDPs continue to bypass the registration process set-up in each commune, and as a result, it is presently difficult to determine the numbers of IDPs entering each commune.

UNHCR reports that as of today (26 April) there have been no reported new registration of refugees in camps in Burundi or Zaire. The borders are reported to be open. UNHCR also reports that Kamana camp had contained 200-300 Burundian refugees who have since been transferred to the Kigeme refugee camp located in Gikongoro Prefecture.

Waystations/Transit Centers

IDPs have free access to and from the waystation at the stadium in Butare. The waystation generally receives IDPs in the afternoon. The IDPs receive food and water and are typically transferred on to their home communes the following morning.

The Ndera Transit Center (located approximately 15 kms. from the center of Kigali in the direction of Kibungo) currently provides for more than 6,600 IDPs, 4,000 of which are due to go to Ngenda commune. The communes of Ngenda and Gashora are reported to have a lack of water, food, housing and transport. The population at Ndera is expected to grow to about 10,000 today (26 April). Construction is reportedly taking place to improve the capacity of the camp. The Belgian Red Cross, CONCERN, SCF,

IN.545

UNHCR, IOM and UNAMIR are all reported to be working at Ndera as of 25 April.

The Belgian Red Cross and ANS provide medical services to Ndera and reported 20 cases of dysentery and one case of measles as of 25 April. The Belgian Red Cross reported to have sufficient measles vaccines to vaccinate all children between the ages of 6 months and 15 years when the population of Ndera was estimated at 6,800. It is unknown whether additional vaccines will be requested when the number of people at Ndera increase.

Open Relief Centers (ORCs)

In Butare Prefecture, FTC/Europe continues to provide assistance to ORCs in the communes of Runyinya, Nyakizu, Gishamvu, and Kigembe. As of early morning 26 April, IRC reports that in Kigali Rural Prefecture there were 1,700 people at the ORC in Gashora and 2,400 people at the ORC in Ngenda. IRC is building temporary shelter in Ngenda commune to provide for 500 people and is continuing its rehabilitation of shelter at its ORCs in Kigali Rural and Kibungo Prefectures using corrugated iron and clay tiles. IRC is presently conducting a medical assessment of all of the ORCs it operates and Samaritan's Purse is conducting a medical needs assessment and providing initial medical assistance in Ngenda.

Food Update

WFP is conducting a survey of food needs today (26 April) in the communes of Runyinya, Huye, Maraba and Ngoma, in Butare Prefecture, where food distribution is currently being done by FTC/Europe. WFP expects to have the results of the survey by 27 April and will adjust the distribution of food accordingly. CONCERN is assisting with food distribution in Runyinya, Maraba and Mbazi. WFP continues to supply biscuits at the Butare waystation, and is ready to distribute cereals, oil, pulses and salt if needed.

On 25 April, WFP sent 5 MT of food (cereal, pulses, and oil) to the Ndera waystation and has expressed that all those passing through the waystation should receive one 15-day food ration totalling 7.5 kg of diverse commodities (cereal, oil, and pulses). It is expected that salt will arrive from WFP soon to be added to the food distribution.

WFP plans to distribute food to those recently registered in Gikongoro Prefecture in coordination with Caritas. ICRC is concentrating its food distribution on the communes of Ngenda and Gashora in Kigali Rural Prefecture, and the communes of Gishamvu, Nyakizu, Ntyazo, Muyira and Kigembe in Butare Prefecture.

In most receiving communes the returning IDPs have missed the planting season. The next planting season is September/October 1995. It is likely some food assistance will be required on a regular basis until December 1995/January 1996, when the next possible consistent harvest (except for vegetables) is expected.

Shelter Update

The U.S. Agency for International Development Office of Foreign Disaster Assistance (USAID/OFDA) has announced stocks of plastic sheeting will be sent by airlift from a warehouse in Pisa, Italy. UNHCR reports it will also assist with shelter as necessary.

Medical Update

The following is a preliminary report of medical assistance provided by NGOs in Butare Prefecture:

Butare Waystation: MDM, AICF(USA) and PSF. An ambulance provided by MDM transfers patients from the waystation to various hospitals in the area.

Groupe Scolaire/MSF Hospital: MSF/France, MSF/Belgium, MDM, IRC, GOAL and Memisa Medicus Mundi (a medical NGO). An ambulance provided by IRC transfers people from the main Butare Hospital to the hospital in Nyanza. [Note: There was a separate listing for Butare Hospital and Groupe Scolaire Hospital in IOC IDP Update 25 April 1500 hrs. These two hospitals are actually one and the same commonly referred to as Groupe Scolaire/MSF Hospital].

University of Butare Hospital: The University hospital is admitting and treating patients with assistance from GOAL and Merlin. ICRC has set also up a field hospital within the main

hospital buildings.

Nyanza Hospital: IMC, supported by World Vision, Refugee Trust, IRC and Action Nord Sud.

Nyakizu and Kigembe: MSF and Merlin, supported by an ambulance provided by IRC.

Gishamvu, Kabutare and Runyinya: MSF.

Mobile Medical Teams: Plans were made 25 April to have mobile medical teams sent into the communes to treat those who are unable to be attended to at the main medical centers and hospitals due to problems of transport, etc. An OXFAM nurse is conducting a reconnaissance mission to Gishamvu and Nyakizu today (26 April) to determine medical needs in those two communes.

WHO Assessment Team: A team from WHO is continuing an assessment of the situation of cholera and dysentery, beginning with Butare Prefecture.

COORDINATION

Assessment Teams comprising U.N. agencies, NGOs and officials from the Ministry of Rehabilitation and Social Reintegration (MINIREISO) are planning to go to the nine priority communes in Butare Prefecture (Nyakizu, Runyinya, Gishamvu, Ntvazo, Muvira, Huye, Mugusa, Kigembe, and Rusatira), to determine how many people have returned and the nature of their immediate needs.

The IOC in Kigali continues to serve as the focal point for humanitarian operations. Daily meetings on the current situation are held at 0900 hrs. and 1700 hrs. A separate meeting on the situation of unaccompanied children is held at the IOC each day at 0830 hrs.. coordinated by UNICEF.

IOC/Butare reports continual coordination between humanitarian organization and U.N. agencies in the field. Daily meetings are held in Butare at 0730 hrs. at UNAMIR Tactical Headquarters (Tac HQ) to coordinate the upcoming day's operations. At 1700 hrs. the Director General of MINIREISO holds a meeting at the Butare Prefecture. A security meeting is held at UNAMIR Tac HQ each evening at 1900 hrs.

To assist with coordination efforts, IOC/Butare is scheduled to receive a photocopy machine from UNAMIR and a fax machine from IOC/Kigali today (26 April).
