S/RES/928 (1994)
20 June 1994

RESOLUTION 928 (1994)

Adopted by the Security Council at its 3391st meeting,
on 20 June 1994

The Security Council,

Reaffirming its resolutions 812 (1993) of 12 March 1993, 846 (1993) of 22 June 1993 and 891 (1993) of 20 December 1993,

Recalling its resolution 872 (1993) of 5 October 1993 establishing the United Nations Assistance Mission for Rwanda (UNAMIR), as well as its resolutions 893 (1994) of 6 January 1994, 909 (1994) of 5 April 1994, 912 (1994) of 21 April 1994, 918 (1994) of 17 May 1994 and 925 (1994) of 8 June 1994.

Having examined the Secretary-General's report (S/1994/715) on the United Nations Observer Mission for Uganda-Rwanda (UNOMUR) dated 16 June 1994,

Welcoming the extension, as of 14 May 1994, of UNOMUR's observation and monitoring activities to the entire Uganda/Rwanda border,

Stressing the need for the observance and strict monitoring of the general and complete embargo of all deliveries of weapons and military equipment to Rwanda, as described in paragraph 13 of its resolution 918 (1994),

Considering that the issue of arms flows is one of the major areas of concern in the cease-fire talks currently being held between the Rwandese parties under the auspices of UNAMIR,

1. Welcomes the Secretary-General's report (S/1994/715);
2. Decides to extend the mandate of UNOMUR for a final period of three months until 21 September 1994 and agrees that during this period the number of military observers should be reduced by phases;
3. Requests the Secretary-General to report to the Council ^{on} ~~before~~ the termination of UNOMUR ~~following~~ ^{before} the completion of its mandate;
4. Expresses appreciation to the Government of Uganda for the cooperation and support it has extended to UNOMUR;
5. Stresses the importance of continued cooperation between the Ugandan authorities and UNOMUR;
6. Decides to remain actively

(d) Random aerial day patrols involving the airlift by helicopters of military observers into areas of high elevation for a clearer view and observation of routes leading to the border;

(e) Random aerial day surveillance by helicopter of the border areas and routes. Such surveillance is often conducted by mission commanders and staff to monitor movements along the border and routes leading to the border.

9. The arrival in the mission area of three helicopters in early April has strengthened UNOMUR's overall operational capacity. However, ground features and weather conditions do not permit safe operations of civilian-contracted helicopters at night. Therefore, the helicopters are currently used primarily for daytime aerial surveillance, patrolling and reconnaissance. They are also used for emergency medical evacuation purposes and for rapid deployment of military observers to selected remote and difficult-to-reach observation posts to monitor suspected crossing sites by day or night.

10. I am glad to report that, in general, UNOMUR's activities in pursuance of its mandate have been effective. In my last report to the Council (S/26878), I noted that any clandestine cross-border traffic had decreased appreciably and that, at that time, movement was restricted and only along well-used routes across the border. I furthermore reported that there was no evidence of any significant traffic in armaments. Despite the resumption of hostilities in Rwanda, the situation of cross-border traffic from Uganda into Rwanda does not appear to have changed during the reporting period, and no movement of armaments or armed personnel has been detected by UNOMUR.

III. FINANCIAL ASPECTS

11. As indicated in my report on the financing of UNAMIR (A/48/837), the administrative costs related to the military observers and civilian personnel of UNOMUR, with effect from 22 December 1993, are included in the cost estimates for the maintenance of UNAMIR. The General Assembly, by its resolution 48/248 of 5 April 1994, authorized the Secretary-General to enter into commitments at a monthly rate not to exceed \$9,082,600 gross per month for the period from 5 April to 31 October 1994, for the maintenance of both operations. Should the Council decide to continue the mandate of UNOMUR as recommended in paragraph 14 below, the resources required for its maintenance would be obtained from the level authorized by the Assembly in its resolution 48/248.

IV. OBSERVATIONS AND RECOMMENDATIONS

12. It is now nearly a year since the Security Council decided to establish UNOMUR and almost 10 months since the mission was fully deployed in its operational area. UNOMUR was intended to create an atmosphere conducive to a negotiated settlement of the Rwandan conflict and to assist the international community in its efforts to ensure security in the region. This mission is essential for the stability in the area.

operational activities mainly covered two major and three secondary crossing sites stretching from Sabinio volcano in the west to Lubirizi in the east on the Ugandan side of the border (see attached map).

5. Following the resumption of the civil war in Rwanda, RPF was able to gain control of the entire border with Uganda. It therefore became evident that in order for UNOMUR to fulfil its mandate, the mission would be required to extend its observation and monitoring activities along the whole border, up to Mirama Hills on the eastern part of the Ugandan side of the border, a distance of some 170 kilometres from Sabinio volcano to the West. Moreover, it was not possible for UNOMUR to investigate in a credible manner the increasing number of allegations being received that troops and support equipment were crossing the Ugandan border into Rwanda without monitoring the entire border. While UNOMUR's movements to the areas in the north-east and west beyond the mission's original area of operation were not restricted, attempts were made to restrict UNOMUR patrols eastward in the Mirama Hills area. After discussions between the UNOMUR Acting Chief Military Observer and the Ugandan military authorities at Kampala on 2 May, UNOMUR received clearance to monitor this area by both ground and air patrols. Accordingly, with effect from 14 May 1994, UNOMUR has been able to monitor the entire border between Uganda and Rwanda.

6. UNOMUR carries out its tasks essentially through patrolling, monitoring and surveillance of the whole stretch of the operational area, involving both mobile and fixed observations as well as on-site investigations of suspected cross-border traffic. Since the resumption of the fighting in Rwanda, UNOMUR's surveillance activities have been especially vigorous and have enabled it to investigate to allegations of arms flows into Rwanda through its border with Uganda.

7. The recent extension of UNOMUR's monitoring activities to the whole border has necessitated the readjustment of tasks and the reassignment of military observers in the operational area. Consequently, the headquarters staff at Kabale has been reduced from 14 to 9 currently to permit the creation of additional monitoring teams, with the remaining headquarters personnel also participating, as appropriate, in patrolling and other monitoring assignments. To help meet the increased operational requirements, UNOMUR currently maintains seven observation posts and checkpoints manned on a 24-hour basis, as opposed to two previously.

8. In carrying out its monitoring mandate, UNOMUR is currently performing a number of specific tasks, including, inter alia:

(a) Fixed 24-hour manned observation through the two main crossing sites at Katuna and Cyanika and the secondary crossing points at Bigaga, Lubirizi, Kafunzo, Kashekye and Mirama Hills;

(b) Random day and night mobile patrols to cover routes or tracks which require surveillance;

(c) Random day and night foot patrols covering areas which require surveillance but are inaccessible by mobile/vehicle patrols

SECOND PROGRESS REPORT OF THE SECRETARY-GENERAL ON THE
UNITED NATIONS OBSERVER MISSION UGANDA-RWANDA

I. INTRODUCTION

1. The present report is submitted in pursuance of paragraph 2 of Security Council resolution 891 (1993) of 20 December 1993, by which the Council decided to extend the mandate of the United Nations Observer Mission Uganda-Rwanda (UNOMUR) for a period of six months from 22 December 1993 to 21 June 1994. The present report covers the period since my last report to the Security Council on UNOMUR of 15 December 1993 (S/26878).

2. UNOMUR was established with the adoption of resolution 846 (1993) by the Security Council on 22 June 1993. The mission was mandated to deploy on the Ugandan side of the border with Rwanda in order to verify that no military assistance reached Rwanda, focusing primarily in that regard on transit or transport, by roads or tracks which could accommodate vehicles, of lethal weapons and ammunition across the border, as well as any other material that could be of military use.

II. DEPLOYMENT AND ACTIVITIES

3. As of 3 June 1994, UNOMUR consisted of 81 military observers from the following countries: Bangladesh (20), Botswana (9), Brazil (13), Hungary (4), Netherlands (10), Senegal (10), Slovakia (5) and Zimbabwe (10). In addition, the mission included 11 international civilian and 7 locally recruited staff performing a variety of substantive and administrative support tasks.

4. The drastic change in the overall situation in Rwanda, sparked by the deaths of the presidents of Rwanda and Burundi in a suspicious plane crash in Kigali on 6 April, and resulting in the resumption of hostilities in that country, affected not only the operations of the United Nations Assistance Mission for Rwanda (UNAMIR), but also UNOMUR's monitoring operations on Uganda's border with Rwanda. Prior to the resumption of hostilities in Rwanda, UNOMUR had restricted its monitoring activities in Uganda along the area of the border with Rwanda which was controlled by the Rwandese Patriotic Front (RPF). As pointed out in my report of 15 December (S/26878), UNOMUR's deployment and

UNAMIR has sought to defuse tensions resulting from the resumption of hostilities in Rwanda.

13. As a result of the dramatically changed situation in Rwanda, both the priorities and the requirements of the international community have evolved. It should be recalled in this connection that the Security Council, by its resolution 918 (1994) of 17 May 1994, decided to expand the strength of UNAMIR to 5,500 all ranks to enable it to contribute to the security and protection of persons at risk in Rwanda and to provide security and support for the distribution of relief supplies and humanitarian relief operations. Under resolution 918 (1994), the Council, acting under Chapter VII of the Charter of the United Nations, also decided to place an embargo on the delivery of arms, ammunition and related material to Rwanda. In addition, the Council established a Committee to coordinate with Member States on the action taken by them to implement the embargo.

14. Under these circumstances, there appears to be little rationale for monitoring one of Rwanda's borders and not the others. At the same time, however, the issue of arms flows is one of the major areas of concern in the cease-fire talks, which are being held under the auspices of UNAMIR. As UNOMUR's activities allow UNAMIR to address, at least to some degree, the issue of outside interference in the Rwandese civil war, I believe that UNOMUR should continue its monitoring activities until an effective cease-fire has been established. I therefore recommend that UNOMUR's mandate be renewed for a period of three months. During this period, the number of military observers would be reduced by phases, adjusting to operational requirements. UNOMUR would be closed down by 21 September. I would report on the completion of this process to the Security Council.

15. In conclusion, I would like to express my appreciation to the Government of Uganda for the cooperation and assistance it has extended to UNOMUR. I also wish to pay tribute to both the military and the civilian personnel of UNOMUR for the professionalism and dedication with which they have carried out their tasks.

LETTER DATED 8 JUNE 1994 FROM THE SECRETARY-GENERAL
TO THE PRESIDENT OF THE SECURITY COUNCIL

C I wish to refer to resolution 872 (1993) of 5 October 1993 by which the Security Council established the United Nations Assistance Mission for Rwanda (UNAMIR).

On 8 November 1993, I informed the Security Council that, in pursuance of paragraph 10 of that resolution, I had decided to appoint Mr. Jacques-Roger Booh-Booh, former Minister for External Relations of Cameroon, as my Special Representative for Rwanda, with immediate effect (S/26730).

Mr. Booh-Booh will be completing his assignment shortly. I should like to take this opportunity to record my deep appreciation for his dedicated service to the cause of peace in Rwanda and for his untiring efforts in the discharge of his duties, under difficult conditions.

Following consultations, it is my intention to appoint Mr. Shahryar M. Khan, former Permanent Secretary of the Ministry of Foreign Affairs of Pakistan, as my Special Representative for Rwanda. Mr. Khan will assume his duties on 1 July 1994.

C I should be grateful if you would bring this matter to the attention of the members of the Security Council.

(Signed) Boutros BOUTROS-GHALI

My dear General

On the outset, please be kind to accept my profound regards. As the crisis in Rwanda started, I could never get you to express my feelings for you. Sir, I can assure you that you are always in my thoughts and I feel very proud of you. My prayers are always to God to give you more patience and determination to withstand the pressure of duty. You have proved to be an extra-ordinary officer who is endowed with rare qualities of a commander with tenacity and willpower. I am definite, you will steer through the crisis with honour and pride.

As the mandate of our mission is finishing on 22nd of this month, I would like to express my profound gratitude to you for trusting me with the responsibilities to command this mission which you had the privilege to raise. I recall your magnanimity in selecting me for this appointment, which I in my modest capacity carried out as desired and expected.

by you. I am definite, having gone through my report sent few days ago, you will determine that I have not failed in upholding your trust.

C Sir, by now I have completed 6 months in the UN. Should the mission be closed, you may be looking forward to adjust/absorb me somewhere within UNAMIR or elsewhere as a good gesture of your feelings and warmth for me. Frankly speaking I love and enjoy to work under you anytime and I do say this with enormous pride. But, Sir, I would like to go back to country due to some purely personal and domestic problem at home. In a normal case, I would not have requested for it, but, since the mission is due to close, as such, this will facilitate my going/return without any explanation (in a normal chain of repatriation). I apologise for approaching you privately, but knowing my relationship with you, I am definite you will not deprive me from your usual warmth and feelings.

C Sir, thank you very much for your usual considerations for me. My prayers for your well being. May God bless you.

With profound regards

Yours Sincerely
Ascar

RE : WFP OPERATIONS IN RWANDA.

PLEASE NOTE THAT MAJOR GENERAL DALLAIRE, UNAMIR COMMANDER HAS REQUESTED US TO INFORM HIM ABOUT WFP'S OPERATIONS IN THE REST OF THE COUNTRY (NORTH AND SOUTH). UP TO TODAY THEY HAVE JUST RECEIVED ONE COMMUNICATION FROM WFP ONE DAY AT 1900 ABOUT A CROSS BORDER CONVOY IN THE NORTH. NO INFO WAS GIVEN ABOUT THE DESTINATION AND THE CONVOY HAD ALREADY LEFT.

IT WOULD BE ALSO FOR OURSELVES (UNAMIR TEAM) VERY USEFUL AS THE PRESS IS ASKING WHAT WE ARE DOING, AND AS WE ARE IN THE MIDDLE OF THE CONFLICT I WOULD PERSONALLY APPRECIATE THESE INFORMATIONS.

NOTE THAT NORMALLY ANY U.S. PERSONNEL ENTERING RWANDA SHOULD HAVE SECURITY CLEARANCE FROM GENERAL DALLAIRE, DETAILS ABOUT POINT OF ENTRY, NUMBER OF STAFF, TYPE OF MISSION, PROPOSED MOVEMENT WITHIN THE COUNTRY, ETC., SHOULD BE GIVEN.

BEST REGARDS.

SUBJECT:

Clearance Before Operating Inside Rwanda

1. According to the directives of UN/NTK all agencies working/intends to work in Rwanda/RPF held zone must have prior security clearance from United Nations Assistance Mission in Rwanda (UNAMIR) HQ before entering Rwanda.
2. Agencies based in Uganda or working from Uganda should get their security clearance through this HQ. To ensure that this actually will be executed by the agencies, a checking system is required.
3. The necessity of clearance and security measures was proven last weekend when a French envoy was ambushed in the East of Rwanda.
4. Before starting any work in Rwanda an official clearance is to be obtained through this HQ from HQ UNAMIR, only then the agency/personnel of the agency is allowed to operate/enter into Rwanda.
5. In the light of above, you are requested to kindly inform all UN agencies/NGOs to furnish required information (as given in Annex A to this memo) to this HQ 7 days/72 hours prior to commencement of any border crossing.
6. Your cooperation on this subject will be highly appreciated.

COMPLAINTS

GENERAL

14.1 In the course of carrying out its function, the Mission will receive complaints by one side or the other alleging activities contrary to the agreement or declaration which the Mission is charged with observing. Detailed action to be taken on the receipt of various types of complaints must be determined in relation to the terms of reference of the mission. Generally, complaints should be made in writing by the local commander and receipt acknowledged by the liason officer or sector commander. When an investigation is indicated, all essential assistance should be requested from the complaining side including guides, map references, witnesses, interpreters and physical evidence (including crater analysis).

ACTION ON RECEIPT OF COMPLAINT

14.2 On receipt of a complaint, the liason officer or sector commander receiving the complaint will allot a complaint serial number and complete the form at Annex A which should then be forwarded to the Force HQ together with a copy of the original complaint. Duty Officers will then inform the appropriate sector HQ/ MILOB Sector HQ to carry out the necessary investigation.

14.3 Liason Officers may also report by radio, relaying the same information that is contained in Annex A. In this situation the Force HQ Duty Officer will record the information on the form at Annex A.

COMPLAINTS REGISTER

14.4 To ensure that action is taken on all complaints received, the Force HQ will maintain a COMPLAINTS REGISTER with the headings shown on the sample form at Appendix 1 to Annex C.

RESPONSIBILITY

14.5 The Force HQ will be responsible for completing all action on the complaints. It should be noted however that if sectors are established this responsibility will be shared.

4/11

INTERIM SOP

Sector HQ's.

INVESTIGATIONS

14.6 When incidents are observed by military observers or other members of UNAMIR, Force HQ will decide whether or not an investigation is warranted. When complaints are received and an investigation is warranted, Force HQ must comply unless the complaining side fails to provide sufficient information or to give assistance as may be required to complete the investigation.

CONDUCT OF INVESTIGATIONS

14.7 Having decided to conduct an investigation the Officer-in-Charge (OIC) should proceed as follows:

14.7.1 Check the complaint to ensure all the necessary information has been given, e.g. locations, details of alleged action, dates and times;

14.7.2 Arrange for any assistance required from the formation making the complaint, e.g. guides, interpreters and witnesses;

14.7.2 Notify any other section or branch concerned with the investigation and request any necessary assistance; and

14.7.3 Assign military observers to conduct an investigation patrol. Particular attention in briefing the patrol should be given to the following:

a. Military observers must know and understand the aim of the investigation and know how to conduct the investigation. They must also be prepared to conduct crater analysis if required;

b. Military observers must know of the assistance to be provided by all parties and other sections or branches in conducting the investigation;

c. They must be aware of any special administrative arrangements required for the investigation;

d. Watch over the progress of the investigation and offer any assistance or advice which may be necessary;

e. Supervise the completion of the investigation report;

f. Forward the completed report, including

5/11

INTERIM SOP

comments to the Force HQ. When the sectors are established the Sectors will be delegated this responsibility; and

g. Sector HQ's will then complete all follow up action, including letters of protest as required.

14.8 Having been detailed to conduct an investigation patrol, military observers should proceed to the area of the incident, collect evidence, and prepare their report. For the purpose of an investigation, evidence can be considered as being of three types as follows:

14.8.1 Material Evidence. This type of evidence forms the basis of the investigation. When it is possible to obtain material evidence, conclusive findings can often be made.

14.8.2 Verbal Evidence. Verbal evidence can only be considered reliable when it is given by a completely impartial witness, e.g. military observer, or when it is corroborated by witnesses from the opposite side. In all other cases, verbal evidence by itself cannot be considered conclusive.

14.8.3 Circumstantial Evidence. This type of evidence can only be considered conclusive when it is corroborated by reliable verbal or material evidence. It should however be included in the investigation report.

PREPARATION OF INVESTIGATION REPORTS

14.9 Investigation reports must be clear, concise, and accurate. They should include:

14.9.1 The aim of the investigation, specifically what must be proved or disproved should be stated clearly;

14.9.2 The time and date of the investigation of the incident must be included;

14.9.3 Locations visited in the area of the incident should be listed;

14.9.4 Evidence should be arranged in chronological order where possible;

14.9.5 Witnesses' statement should be attached where applicable;

14.9.6 Opinions and assumptions must not be included in the body of the investigation report;

14.9.7 Sketches should be used to clarify difficult or

6/11

INTERIM SOP

confused situations. The scale of the sketch and the direction of North must always be indicated on the sketch;

14.9.8 Findings must be based on facts established during the investigation. Avoid opinions based on evidence not included in the investigation report. If a fact is pertinent, it must be stated in the evidence; and

14.9.9 Reports should be prepared with the events in proper (normally chronological) sequence and end with a summary of important facts and findings.
