I have the honour to inform you that the Sultanate of Oman will support the work of the United Nations with a voluntary contribution of USD 4.5 million dollars in 2015.

It would be appreciated if the contribution could be used for the digitization project to preserve the United Nations historical video footage and audio recordings made by the Organization during the last 70 years.

Oman would like to receive a copy of the digitized material, which would be archived in our related government institutions and will be used for non-commercial purposes. We would also like to receive copies of the official United Nations documents that are currently being digitized, as well as training on how to search and retrieve them.

Hand-delivered to the
Secretary-General by the
Foreign Minister of Oman
today (2 October 2015)

Sincerely yours,

Yousuf bin Alawi
Minister Responsible for Foreign Affairs

SW

To: H.E. Ban Ki-moon
Secretary-General of United Nations
