

Note to Mr. Kim

Subject: Office space of ODSG

Please refer to our brief conversation this morning on office space on the 38th floor. I am led to understand that a part of the Scheduling Office has recently been relocated, resulting in vacant office space that could accommodate at least 2 professional staff. I would wish to have these vacant offices occupied by ODSG staff who are currently scattered in different parts of the Secretariat building. The resulting consolidation of ODSG on the 38th floor would greatly contribute to efficiency of operation. Thanks for your collaboration on this matter.
