Subject: REQUESTS FOR WEEKLY HUMANITARIAN MEDICAL SUPPLY FROM PHARMACIES SANS FRONTIERES

1. G4 Med received the request for PSF Resupply from ZAMBATT and GHANBATT today. On close examination, the quantities and range of some items requested on the list do not coincide with either the weekly work load or actual type of support provided. I understand that the patient numbers are increasing and that both formations are making a large contribution to the health support to the sectors. However, the health support resupply orders must be coordinated to adequately supply all users.

2. **For Action ZAMBATT and GHANBATT.** Please ensure that normal PSF requests are for the quantity that are anticipated to be used in the next week. If special quantities of items are required for projects or to build up a reserve working stock, a justification is to be given on the Information Sheet in the "Additional Information" section. Please provide justification for the quantities of drugs requested for this week and next week if similar quantities are required. You must also justify the numbers of non consumable items requested. The nonconsumable requests also requires justification.

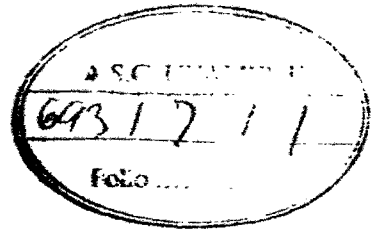

3. It is essential that all orders be accompanied by the PSF Information Sheet for Humanitarian Medical Resupply. These were provided at the FMO meeting and another copy was provided recently. A further copy is attached. These are to be completed and returned to G4 Med for the current order. In addition, copies are to accompany all further PSF requests.

4. **For Action PSF.** Please supply the unit where possible with the range of items requested. I accept your interpretation of the quantities that you provide for this week. Thank you for your continuing support to the UNAMIR humanitarian effort.

HANDING OVER NOTES

1. The drugs being handed over to you, are to be used for the displaced persons of MURAMBI CAMP.
2. In case the drugs for the displaced persons run out, you are not to use drugs meant for your contingent to treat them. You may however use your contingent drugs when you think you have enough and can spare some.
3. However the UNAMIR HQ warns that when their drugs get finished, treatment should also stop untill such time when drugs are obtained for them.
4. Drug requirement or indent is made monthly to the UNAMIR HQ to the office of MAJ PRESS from the Australian contingent on any Monday of each month. But indents are made once every month. The attached form is filled and a covering letter written and sent to the above stated office, before 1200 hrs on the day of submission.
5. Collection of drugs and medical equipment is done on Thursdays from the PSF office in Kigali.
6. As a hint, I advice that you indent for more injectables for malaria and drugs for venereal and sexually transmitted diseases.
7. A ledger is also kept to make sure good accounts of the drugs are made.
