UN Secretary General, Hon. Ban Ki-moon

Dear Sir

I have been following events affecting Camp Ashraf for some time and have attended meetings in Brussels, Paris and Washington where many high-profile and distinguished public figures have spoken out about the injustice of allowing the inhuman conditions at Ashraf to continue, including a siege which prevents the supply of food and medicines to the residents, the denial of medical attention, the mental torture of loud speakers making threats to the residents and of course the recent brutal attack on 8 April leaving nearly 40 dead and hundreds injured.

Please help these people and do all you can to persuade others in a position of power to help them. They are protected persons and if strong intervention does not come soon they will perish at the hands of the Iraqi forces under the influence of the Iranian Theocracy.

I am copying this letter to the following:

UNHCR: UN High Commissioner for Refugees, Hon. Antonio Guterres: [guterres@unhcr.org](mailto:guterres@unhcr.org)

OHCHR: High Commissioner for Human Rights, Hon. Navanethem Pillay: [registry@ohchr.org](mailto:registry@ohchr.org)

UNAMI: UN Assistance Mission for Iraq, Hon. Martin Kobler: [kobler@un.org](mailto:kobler@un.org)

I have absolutely no vested interest in this matter whatever.

The 31st December deadline for withdrawal of western troops is fast approaching and I am afraid that these people at Camp Ashraf will be murdered.

Please help them and secure their safety.

Yours faithfully
