

THE SECRETARY-GENERAL

Vip "B"

24 August 2005

Dear Dr. Brooks,

Thank you for your kind letter of 1 August 2005. I am happy to know that you continue to have such a keen interest in the work of the United Nations, and greatly appreciate the support you have expressed for the Organization, and me personally.

I can well understand your wish to visit the United Nations, but I regret that it will not be possible to extend an invitation to you and your family to attend the upcoming Summit in September. In view of the large number of Heads of State who will be in New York for the Summit, access to the United Nations complex has had to be restricted to official delegations of Member States and current United Nations staff.

I would, however, be pleased to meet you should you wish to visit the United Nations at a mutually convenient time after the Summit.

Please accept my best wishes as you prepare to return to Liberia, and thank you again for your continued support for the ideals of the United Nations.

Yours sincerely,

A handwritten signature in black ink, which appears to read "K. Annan", is written over a faint, larger signature.

Kofi A. Annan

Dr. Angie Brooks

①

Are there any
events planned
involving former
Presidents of the GA
P.S. 2/8

PS:

As far as I'm aware, there are no
"ceremonial moments" which would
warrant an invitation to Ms. Brooks as a
former GA President. (This also begs the
question of whether one former GA
President could be invited without
inviting others...)

You might want to run this by YM.

Mr. Kofi Annan
 Secretary General
 United Nations
 New York, New York

My dear son,

I am writing this letter to you as a mother and former president of the United Nations General Assembly in 1969. This is to let you know that I am still alive, spiritually vibrant and intellectually sound. Old age has caught up with me, and I am now legally blind. In spite of all these, I still thank God for keeping me in good health. I am getting close to ninety years of age.

My everlasting prayer is for God to grant you much success in your leadership of the world's greatest organization. My love and admiration for the United Nations will remain evergreen. At this point in my life, I feel it paramount to bare my heart and prayer to you as part of my last willing testimonies.

For over forty (40) years I have been living solitarily in the United States, even when many people thought that I have passed on. However, I do not want to spend my last days in United States of America. It is my wish to go back to my country home Liberia, and graciously spend the last days of my life. I humbly make the following request:

- My wish is to visit the United Nations for the last time. I am asking for an invitation to be your special guest to the United Nations General Assembly Special Session coming up in September 2005, in New York City.
- If you grant me an invitation, I would want to meet with many countries Heads of State from Africa during the UN General Assembly Session. This is part of my last willing testimony before I return to Liberia.
- Considering my sacrifice and work with the UN, I am asking that UN grant me benefit which I need to continue my life and legacy.
- It is my wish to go back to Liberia and set up a Christian Nation. My mission is to save all the children of Africa.

My wish is for special statutes that will enable them have access to the United Nations to be granted to my daughter Aida whom I adopted at the age of four from Rwanda during the war, and also Queen Mother Dr. Delois Blakely whom I have known and mentored for the past 30 years in United Nations. She met with me in the early 60's and 70's; with us uniting again she has informed me that she has been involved and participating in the United Nations for the past thirty (30) years. To hear from her that she carried on with my foot step is a big blessing to me. My wish is for them to carry on with my legacy for the suffering poor of

garbled

I look forward to your kindness and granting me my last willing testimonies. I am looking forward to be accompanied by my daughter Aida, Queen Mother Dr. Delois Blakely whom I have embraced as my African American daughter, born in the United States of America, and a delegation to the United Nations General Assembly Special Session in September, 2005, at New York.

I wish you much success in life and God's blessing.

Thank you.

Affectionately,

Dr. Angie Brooks

Dear Brother Kofi Annan,

I am writing this letter on behalf of Mama - Dr. Angie Brooks, the first female president of the United Nations General Assembly in 1969. Mother Brooks is now approaching the age of ninety. She's very strong in her spirit and alert. She can still eat raw carrot and apple with her real teeth and still eat goat meat. She loves pepper mint candy which she eats at the end of every meal. Mama has such a strong love and admiration for United Nations and prays for you always.

After Mama moved to Liberia for a long time, we got disconnected and I thought she was dead. Thirty years ago she got me started in the United Nation. She heard that I was still involved with the United Nations as a journalist, representative of various non governmental organizations such as the national council of women, USA. Mama is proud that I continued in her foot step. Now, she is asking that her legacy be continued through me and her daughter Aida, who she adopted at the age of four from Rwanda during the war.

Recently she got in touch with me from Houston Texas through a phone call. I left everything I was doing in Harlem, New York and went to Houston visiting and sitting at her knees. We have been together for about one week, talking and sharing old memories, sleeping on the same bed and eating from the same plate. I have reunited with her and she feels that her prayer has been answered that God has brought me to her. It's a joy to assist her in bathing. Mama has little arthritis on her knees and back. Other than that she is in good health. She's eating on her own despite the fact that she has gone blind. She has embraced me as a daughter in United States. Mama is about embracing all her children, especially preparing women for leadership in mother Africa. I thank God for mama.

Please in the spirit of Queen Mother Moore and on behalf of Mama Dr. Angie Brooks, I plead that you hear what is in her heart. These are her heart and prayer and last willing

Kofi Annan 2

testimonies she would want you to know. Mama does not want to die in United States of America. It is her wish to go back to Liberia. She's making the following request:

- Mama wants you to invite her as your special guest to the United Nations General Assembly Session coming up in September 2005, in New York City.
- If you grant her an invitation, she would want to meet with many countries Heads of State from Africa during the UN General Assembly Session. This is part of her last willing testimony before her return to Liberia.
- Mama has sacrificed and given a great deal to the UN. She's asking that UN grants her benefit which she needs to continue her life and legacy.
- Mama wants to return to Liberia and set up a Christian Nation. Her mission is to save all the children of Africa.
- *mentored me* She mentioned to me in late 60's and 70's while attending conferences in the UN, especially addressing the issues of women and youth, her concern about the role of women in the UN. Her wish is for her daughter Aida and I, Queen Mother Dr. Delois Blakely to be given special statutes in order to have access to the United Nations and carry on with her legacy for the suffering poor in Africa.

Please, your gracious office can follow up with me on my return to New York, to accommodate the coming of Dr. Angie Brookes to New York and any other issue in this letter. Mama is the link and the healing force uniting all of us back to mother Africa. She wishes you much success in life and God's blessing.

Special Regards.

Affectionately,

Queen Mother Dr. Delois Blakely.
